RDX

When you put the driver first, when you build around their desires, when you make sure every innovation is an improvement in performance, that is the spirit of Precision Crafted Performance, and that is how we create the Acura RDX.

IMAGINATION
IS OUR MOST
POWERFUL
ENGINE

2 / DESIGN

RDX SH-AWD shown in Majestic Black Pearl.

NOT ALL EMOTION COMES FROM THE ENGINE

Every car is designed to take you on a journey. Truly great design begins the journey long before the engine is turned on. One glance, and the lines of the RDX take the eye, hold it tight, and dance it across the sculpted body. Low and wide with flared fenders, the aggressive lines announce a focus on performance. And once the engine roars to life, Jewel Eye® LED headlights and dragon tail taillights make sure both arrival and departure are mesmerizing.

A-SPEC

TURBOCHARGED STYLE

Too aggressive? No such thing. A-Spec® takes what was already an aggressive design and turns it up to eleven. Massive 20-inch five-spoke Shark Gray alloy wheels give this SUV unmistakable presence in a crowd. Confidence is furthered with an aggressive front bumper complete with LED fog lights. Even the smallest details—dark exterior trim accents, a matte-black diffuser, dual exhaust outlets—add to the demeanor, all of it proudly finished with prominent A-Spec badging.

RDX SH-AWD with A-Spec Package shown with Red interior.

A-SPEC INTERIOR STYLE

In the RDX, every decision, including styling, is made first for the driver, which is why A-Spec styling begins at the steering wheel. Front and center, it's the most dominant feature, so we outfitted the RDX with an A-Spec sport steering wheel finished with race-inspired paddle shifters. It's a styling attitude furthered at the driver's feet with eye-catching metal sport pedals, as well as throughout the cabin, with red ambient lighting and a silver-faced instrument panel that glows red. It's all there to make sure your RDX has as much performance style as it has performance abilities.

8

A-SPEC

A-SPEC INTERIOR COMFORT

When you enter the RDX A-Spec, comfort is found immediately in a selection of fine leathers. You can choose either the exclusive red leather interior complete with luxurious black Ultrasuede® inserts or a full-black leather and Ultrasuede combination. Both leather selections are finished with precision crafted sports-oriented stitching.

IMMERSE YOURSELF IN THE RDX

The second you are wrapped by the calm, quiet, well-appointed interior of the RDX, you realize the cabin is engineered to offer not only a premium experience in comfort, but also in focus and control. Available fine leather, rich with its bold aroma, adorns the seats, its calm notes contrasting nicely with the strong, taut lines of the cabin's available natural wood or brushed aluminum trim.

HERE COMES THE SUN

Of all the amenities inside the RDX, two of the finest are space and silence, which is why we equipped every RDX with an ultra-wide panoramic roof, to dramatically fill the cabin with comforting light and increase its sense of space. It's also why we triple-sealed the doors, used acoustic glass, and even engineered Active Sound Control to cancel out unwanted noise. Silence and space, more and more limited in the outside world, are plentiful in the RDX.

Advance

Thrones don't hold this much power. Available sixteen-way power-adjustable front seats, including four-way adjustable lumbar support, a four-way adjustable head restraint, a power thigh extension, power side bolsters, heating, and ventilation were designed completely from scratch on a frame made from ultra-high-strength steel. Why? The better the seat, the better the connection to the road.

ONE TOUCH FOR EVERY MOVE

EFFORTLESSLY NAVIGATE YOUR NAVIGATION SYSTEM

In the RDX, even information management is a high-performance experience. Rising above the dash, in concert with the driver's natural line of sight, a 10.2-inch HD display effortlessly delivers audio and available navigation. Effortlessly, because it's managed by both the True Touchpad Interface™ and a natural-language voice-recognition system. No more distracting robotic commands and multilevel requests to find a destination. Now, simply say the address or the name of your destination—even ask for suggestions like the best sushi or Italian restaurant in the area—and the route will be delivered. AcuraLink Real-Time Traffic™ with Traffic Rerouting™ pulls surface-street information, including traffic flow, incidents, and construction, and can thoughtfully reroute you for a faster commute. Along the way, you'll stay connected thanks to standard Apple CarPlay® integration, offering access to Siri®, Apple Maps, and more, depending on your iPhone® model.³

A DRIVER'S FOCUS CREATES A CAR'S PERFORMANCE

Kime, in martial arts, means both "focus" and "power," as the two are considered dependent on each other. This perspective led us to a driver-centric command-center approach we call the True Touchpad Interface. First, we moved the "touch" off the dash-mounted display, eliminating awkward reaches and endless fingerprints, to where it makes much more sense: an ergonomically friendly tactile surface in front of the center armrest. Then, we installed the world's first application of absolute positioning in an automobile; where you touch on the pad is where you engage on the display. The result? A natural, instinctive, nearly effortless command of navigation, music, smartphone, and vehicle information, all while keeping the driver focused on what matters most: driving.

17 / INTERIOR

MAKE EVERY TURN YOUR FAVORITE TURN

Performance isn't just about horsepower. If it were, the RDX offers plenty, with 272 horsepower. But there is much more to the story. The new direct-injection, all-aluminum, VTEC® turbo engine is also a revolution in low-end torque. Red-light-to-green-light go power is perfectly mated to a 10-speed transmission and is instinctively connected to your desires through Sequential SportShift paddle shifters.

21 / PERFORMANCE

RDX SH-AWD with A-Spec Package shown in Lunar Silver Metallic.

NOT EVERY ROAD IS RACETRACK PERFECT

Developed on the most demanding tracks and roads around the world, available Super Handling All-Wheel Drive™ (SH-AWD®) delivers superior performance and control in high-performance driving conditions, even when the weather and road conditions are far from high performance. SH-AWD is already renowned for its ability to create a stable driving platform by instantly distributing power to each wheel based on wheel speed, steering angle, lateral G-forces, and yaw rates, but we thought we could make it even better. Rain and sun, snow and sleet, track-perfect corner after snow-covered corner after gravel-filled corner, we were able to further improve both the torque capacity and torque vectoring, a chalkboard-filling equation that turns the RDX into one of the best-performing vehicles on the road, regardless of the road.

Cornering

When cornering on dry surfaces, up to 70 percent of the torque is distributed to the rear. Torque vectoring allows up to 100 percent of that power to be distributed to the outside rear wheel, improving control and helping rotate the RDX through the turn.

Lane Change

For increased stability during lane changes, the SH-AWD system transfers power to the inside rear wheel.

Slippery Road

Under slick conditions, SH-AWD actively sends power to the wheel with the most traction.

Highway Cruise

For better fuel efficiency, up to 90 percent of the power is sent to the front wheels when cruising in a straight line.

SH-AWD

RDX SH-AWD with Advance Package shown in Performance Red Pearl.

Choose Snow mode for those snow days you just can't stay inside, Sport+ for those weekend days when you want to conquer an empty mountain road, and Comfort when all you want to do is cruise home after a day at work.

PERSONALIZE YOUR PERFORMANCE

Inside the RDX, Acura's Integrated Dynamics System (IDS) offers four unique drive modes that match the dynamic responses of the SUV to both your mood and your driving environment. Just as you would click on a song, the turn of a dial is all it takes to instantly adjust many aspects of how intimately the vehicle and driver engage. Depending on the drive mode selected—Snow, Sport, Sport+, or Comfort—you can increase the throttle response and adjust shift points, steering feel, and SH-AWD settings (if equipped). With the Advance Package, you can further personalize your RDX with adjustments to the suspension settings.

ELS STUDIO 3D AUDIO: THE FUTURE OF SOUND

SUV OR CONCERT HALL?

The world's best concert halls are engineered to offer a fully immersive listening experience. So too is the RDX. Rather than taking the conventional route of asking a top-end audio manufacturer to slap in its sound system, we asked eight-time Grammy® award-winning producer and engineer Elliot Scheiner to craft an audio system engineered exclusively for the cabin of the RDX. The result: the available ELS Studio® 3D Premium Audio System with sixteen speakers, including four in the ceiling, and 710 watts of power that create a three-dimensional midair suspended sound image that's precisely tuned for each occupant, completely immersing them in the music. It is most likely the world's only 272-horsepower concert hall.

79.8 CUBIC FEET

THERE'S NO SUCH THING AS TOO MUCH STORAGE

The interior of the RDX is designed to support you in everything you do. If you're buying an SUV, odds are you are doing a lot and doing it with a lot of family and friends. Not only is rear-seat comfort as refined as front-seat comfort, thanks to its flat-floor design, but the RDX also offers a generous 79.8-cubic-foot cargo capacity,* including smart underfloor storage, all of which is easily accessed through the power-operated and available hands-free tailgate.

*Max cargo capacity behind front seats. Based on SAE J1100 cargo volume measurement standard plus floor space between first and second seats and front seats moved forward. This figure compares more accurately with most competitive measurements.

RDX SH-AWD with Advance Package shown in Performance Red Pearl.

THE MOST IMPORTANT PERSON ON THE ROAD IS EVERY PERSON ON THE ROAD

AcuraWatch™ forms a network of sensing technologies hard at work in the RDX. These advanced safety and driver-assistance features constantly gather information and offer warnings, and some features can even take action when necessary, all to help prevent, avoid, or minimize threats.

- b. Available Rear Cross Traffic Monitor⁵
- c. Multi-View Rear Camera with Dynamic Guidelines⁷
Available Surround-View Camera System⁶
- d. Lane Departure Warning (LDW) System⁸
Lane Keeping Assist System (LKAS)⁸
Road Departure Mitigation (RDM) System
- e. Adaptive Cruise Control (ACC) with Low-Speed Follow⁹
- f. Collision Mitigation Braking System™ (CMBS™)¹⁰
Forward Collision Warning (FCW) System¹¹

AT OUR
BEST
WHEN IT
MATTERS
MOST

ADVANCED COMPATIBILITY ENGINEERING

The safest collision is the one you avoid. That's reason enough to consider the high-performance RDX with standard AcuraWatch advanced safety and driver-assistance technology; however, some collisions are unavoidable. That's why Acura's next-generation Advanced Compatibility Engineering™ (ACE™) body structure was designed to absorb and disperse frontal impact energy more evenly around the car, so less of it transfers to what really matters: the vehicle's occupants. Moreover, frontal crash compatibility is designed into the structure, so in the event of a collision with a smaller or larger vehicle, the occupants of both vehicles, not just those in the Acura, are more protected. But we didn't stop there. We innovated the structure around the doors, making them four to five times stronger than traditional-grade automotive steel, through laser welding, hot stamping, and the use of ultra-high-strength steel, all to improve cabin strength and the chance of literally walking out the door after an impact.

RDX SH-AWD with Advance Package with accessory 20-inch black diamond-cut alloy wheels, chrome tailgate spoiler trim, and rear lower bumper trim shown in Fathom Blue Pearl.

OWNER BENEFITS

When you purchase a vehicle with the exceptional quality of an Acura, you expect service and support to be of the same caliber. After all, a premium automobile is only part of the ownership experience. With Acura, you also get a commitment: to personalized care, to attentive service. This commitment is apparent the moment you first enter an Acura dealership and for years down the road. It comes from a belief that every aspect of owning an Acura should be an enjoyable and rewarding experience.

Acura Limited Warranties

All Acura vehicles and any Acura Genuine Accessories installed by the dealer at the time of vehicle purchase have a four-year/50,000-mile limited warranty. Acura vehicles are also covered by a six-year/70,000-mile limited powertrain warranty. In addition, outer-body rust-through is covered by a five-year/unlimited-mile limited warranty.¹⁹

Acura Financial Services[®]

From leasing and financing to protecting your vehicle after your warranty expires to helping you determine which Acura fits your budget, Acura Financial Services (AFS) provides you with the convenience, options, and service to complement your life. For more information, go to www.acurafinancialservices.com.²⁰

Acura Care[®]

Additional peace of mind can be had with the Acura Care program—comprehensive vehicle and travel protection beyond the initial warranty period. See your Acura dealer for all the features and benefits available with this program.

Total Luxury Care[®] (TLC[®])

Acura's commitment to your satisfaction doesn't end with the delivery of a world-class vehicle. As an Acura owner, you'll enjoy an array of services, like the Acura Concierge,[™] for 24-hour weather information, insurance claims assistance, or to help you plan a trip; trip-interruption benefits, like alternative transportation, lodging, and meals; and a 24-Hour Roadside Assistance program.²¹

AcuraLink

AcuraLink Owners Mobile App

Use your smartphone to connect with an Acura agent at the push of a button. Access a full range of Acura Roadside Assistance services using your Android[™] device or iPhone, including comprehensive towing, lockout assistance, battery jump-start, tire change, and fuel delivery with your phone's GPS technology providing your exact location. You can use the app to view scheduled time of arrival and contact information for the dispatched service provider. The app also offers a priority emergency button for urgent situations. Visit the Apple App Store[®] or shop Google Play[™] to download this free app.

1-800-to-Acura

Operators are available 24 hours a day to help answer your Acura questions.

Acura.com

Learn more about Acura vehicles, including the latest specifications, see photo galleries and technology videos, and find out how our vehicles compare with the competition. You can also build and price your Acura, see current offers, and even get a quote from an internet-certified Acura dealer.

Owners.Acura.com

The online help doesn't end when you take possession of your vehicle. Your complimentary Acura Owners personalized website gives the most current information about your vehicle, provides tips on how to care for your Acura, lets you keep a personalized maintenance record, sends you service reminders, and lets you schedule service appointments online.

Fasten your seat belt. 2 Certain AcuraLink services are available only where compatible cellular and GPS coverage is available. Subscription agreement required to enroll and terms and conditions of subscription agreement apply to services. Standard text rates and/or data usage may apply to communications received by email or SMS/text message. Visit your dealer or acura.com/acuralink for more information on standard and available features. 3 For use with Apple iPhone[®] devices only. Requires iPhone 5 or later, and it is recommended that you always update your iPhone to the latest iOS release. It is recommended that you use the Apple Lightning cable provided with your phone or an Apple certified Lightning cable. Cellular service rates apply. Distracted driving can result in a loss of vehicle control. Never use a handheld device or system that takes your focus away from safe vehicle operation. 4 The system is not a substitute for your own visual assessment before changing lanes; system accuracy will vary based on weather, size of object, and speed. 5 The system is not a substitute for your own visual assessment before backing up; system accuracy will vary based on weather, size of object, and speed. 6 Always visually confirm that it is safe to drive; the camera display does not provide complete information about all conditions and objects around your vehicle. 7 Always visually confirm that it is safe to drive before backing up; the rearview camera display does not provide complete information about all conditions and objects at the rear of your vehicle. 8 LKAS (Lane Keeping Assist System) and LDW (Lane Departure Warning) only alert drivers or operate when lane drift is detected without a turn signal in use. LDW and LKAS may not detect all lane markings

or lane departures; accuracy will vary based on weather, speed, and road conditions. System operation affected by extreme interior heat. Driver The driver remains responsible for safely operating the vehicle and avoiding collisions. 9 Adaptive Cruise Control (ACC) with Low-Speed Follow cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. ACC should not be used in heavy traffic, poor weather, or on winding roads. The driver remains responsible for avoiding a collision. 10 Depending on the circumstances, CMBS may not go through all the alert stages before initiating the last stage (of collision mitigation). CMBS cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. System operation affected by high interior heat. Driver The driver remains responsible for safely operating the vehicle and avoiding collisions. 11 FCW cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. System operation affected by extreme interior heat. FCW does not include a braking function. Driver The driver remains responsible for safely operating the vehicle and avoiding collisions. 12 Based on 2020 EPA mileage ratings. Use for comparison purposes only. Your actual mileage will vary depending on how you drive and maintain your vehicle, driving conditions, battery pack condition and age, and other factors. 13 Use of lower-octane gasoline can cause an occasional metallic knocking noise in the engine and will result in decreased engine performance. Use of gasoline with a pump octane less than 91 can lead to engine damage. 14 Siri[®] is available on iPhone[®] 4s or later, iPad[®] with Retina[®] display, iPad mini[™], and iPod touch[®] (5th generation) and requires internet access. Siri[®] may not be available in all languages or in all areas, and features may vary by area. Cellular data charges may apply. Some features may not be available for all countries or all areas. 15 Based on compatibility. Cellular connection required. Your wireless carrier's rate plans apply. See your dealer for details. 16 Visit www.handsfreelink.com for a list of compatible phones and available features. Compatible with select phones with Bluetooth[®] technology. Your wireless carrier's rate plans apply. 17 SiriusXM services require a subscription after any trial period. If you decide to continue your SiriusXM service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call SiriusXM at 1-866-635-2349 to cancel. See our Customer Agreement for complete terms at www.siriusxm.com. Fees and programming subject to change. XM satellite service is available only to those at least 18 years of age in the 48 contiguous United States and D.C. 18 The USB Audio Interface is used for direct connection to and control of some current digital audio players and other USB devices that contain MP3, WMA, or AAC music files. Some USB devices with security software and digital rights-protected files may not work. Please see your Acura dealer for details on compatibility. Windows Media[®] is a trademark or registered trademark of Microsoft Corporation in the United States and/or other countries. 19 Ordinary maintenance items or adjustments, parts subject to normal wear and replacement, and certain other items are excluded. See your Acura dealer for the items and conditions of limited warranties. 20 Acura Financial Services is a DBA of American Honda Finance Corporation. 21 See your local dealer for details about Total Luxury Care (TLC) Roadside Assistance and Acura Concierge service.
