Sonic Premier RS Hatchback
in Summit White.

***FUN.
LIKE YOU'VE NEVER
HAD BEFORE.***

The 2017 Sonic combines a bundle of exciting features, preparing you for all the good things in life. For starters, Sonic is available in either hatchback or sedan with a full spectrum of color choices. Outside, there's a fully redesigned front fascia with signature LED daytime running lamps and new taillamps. Inside, you'll discover an info-packed gauge cluster, an available heated steering wheel¹ and new ways to connect your smart devices.

And yes, with a number of available active safety technologies and impressive efficiency to keep you going, it's more than just fun to drive. Who knew so many big ideas could be packed into one small car?

¹ Sedan only.

DESIGN

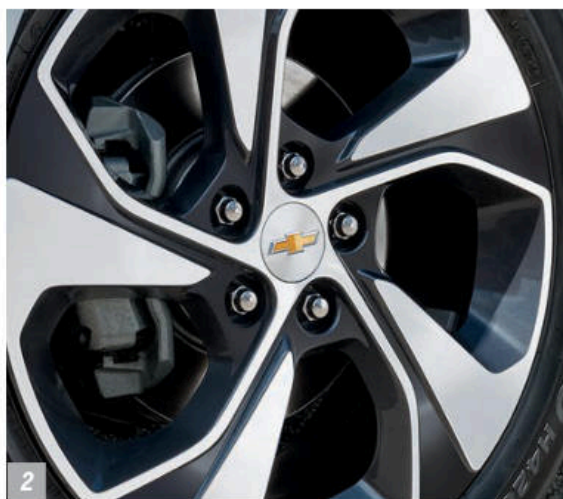

1. EVERYTHING WITHIN REACH.

When your eyes are focused on driving, you'll find all your infotainment is nearby on the Chevrolet MyLink¹ touch-screen. An available heated steering wheel² provides a good, warm grip, even on those days when Earth isn't feeling so hot.

2. WHEELS THAT ROCK. Aluminum wheels are offered in multiple designs on Sonic, completing an all-around sleek appearance.

3. GAUGE YOUR ENTHUSIASM.

The 2017 Sonic features an alluring gauge cluster with an analog speedometer and an available enhanced Driver Information Center that gives you a read on your tire pressure,³ oil life, fuel range and more.

¹ Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. MyLink on Sonic does not include functionality such as enhanced voice recognition, Gracenote and CD player. ² Sedan only. ³ Excludes spare tire.

Sonic Premier RS Hatchback
in Orange Burst Metallic
(extra-cost color).

TECHNOLOGY

¹ Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations. Data plans provided by AT&T. ² Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. MyLink on Sonic does not include functionality such as enhanced voice recognition, Gracenote and CD player. ³ Go to my.chevrolet.com/learn to find out which phones are compatible with the vehicle. ⁴ Visit onstar.com for details and system limitations. ⁵ If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. INTERNET IN YOUR SONIC. Chevrolet is the first and only car company to offer built-in 4G LTE Wi-Fi^{®1} to cars, trucks and crossovers, providing the ability to seamlessly connect your smart devices and vehicles to the Internet! It offers great signal quality and bandwidth for up to seven devices and a quality signal up to 50 feet away from your vehicle while it's on!

CHEVROLET MYLINK² The upgraded Chevrolet MyLink system features a new interface on a standard 7-inch diagonal color touch-screen. With a compatible smartphone, the system allows you to answer calls and receive text messages hands-free and access a broad range of functions. There's also Bluetooth[®] wireless technology³ standard on all models, as well as available OnStar^{®4} and SiriusXM Satellite Radio⁵. Choose from over 150 channels of commercial-free music, live sports, news, talk and entertainment.

Apple CarPlay[™] COMPATIBILITY⁶ Take some of your favorite compatible iPhone[®] features and put them on your vehicle's touch-screen display in a smart, simple manner. Access your Phone, Music, Maps and Messages, as well as some of your other favorite apps (e.g., iHeartRadio⁷ and Pandora[®] Internet Radio⁷).

ANDROID AUTO COMPATIBILITY⁶ You can quickly and intuitively interact with select smartphone apps with support for Android Auto^{™6}. This system takes some of your compatible Android phone's features and puts them on the Chevrolet MyLink² display. You can access your phone, text messages, music, navigation and more.

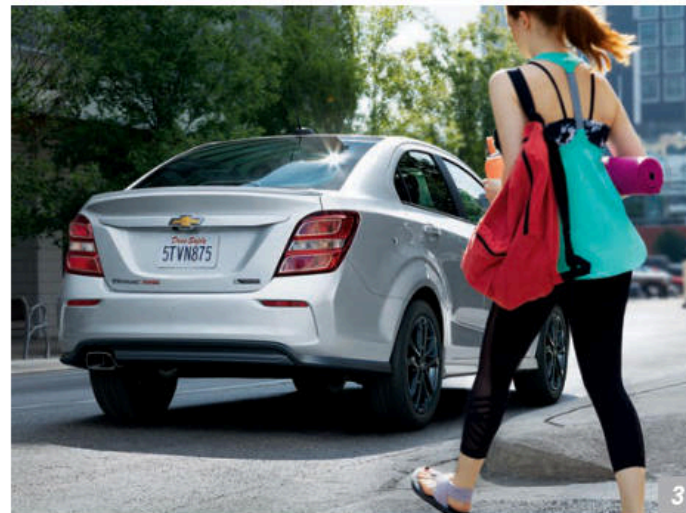

1. SMALL CAR. BIG SPACE. The wide-opening liftgate offers easy access to the cargo space in Sonic Hatchback! Sonic Sedan has 14.9 cubic feet of trunk storage¹ – that’s more room than Toyota Corolla and more room for you.

2. FIRST-CLASS SEATING.

Available heated seats in Sonic keep you warm and an available power driver seat helps you find the perfect position.

3. FREEDOM FROM THE START.

Keep your key in its place – like your pocket or purse. Available Keyless Open and Start provides a simple way to get going every day.

¹ Cargo and load capacity limited by weight and distribution.

HORSEPOWER

Sonic Premier RS Hatchback
in Orange Burst Metallic
(extra-cost color).

GO TURBO. The ECOTEC[®] 1.4L turbocharged engine, available on LT and standard on Premier, offers up to an EPA-estimated 38 MPG highway and delivers 138 horsepower and 148 lb.-ft. of torque. Sounds like fun, doesn't it?

SO MANY CHOICES. When it comes to transmissions, you've got options. A 6-speed manual is available on LT and standard on Premier with the 1.4L turbo, while LS comes standard with a 5-speed manual. Plus, a 6-speed automatic is available on all models.

RS PACKAGE. The RS Package – standard on Hatchback and available on Sedan – features a sport body kit and RS-specific aluminum wheels along with custom rocker panels and foglamps. Interior highlights include a Piano Black-accented instrument panel and a flat-bottom steering wheel.

PREMIER RS. On Premier models, the RS Package includes 17-inch Black-painted aluminum wheels and a sport suspension, while the interior is upgraded with heated Jet Black leatherette front seats with RS lettering and sueded microfiber inserts.

¹EPA estimate for Sonic with 1.4L turbocharged 4-cylinder engine and 6-speed manual transmission.

SAFETY

SAFETY STARTS WITH YOU. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for important feature limitations and information.

SONIC IS SAFE AND SOUND. AND PRETTY SMART TOO.

Whether you're on the road or in a parking lot, the available innovative active safety technologies in Sonic use strategically located cameras and sensors to help warn you of potential collisions.

FORWARD COLLISION ALERT. This available feature continually monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their Sonic is following a detected vehicle too closely.

LANE DEPARTURE WARNING. If you unintentionally change lanes without a turn signal, this available camera-based system sends an alert. The camera, mounted near the inside rearview mirror, reads traffic lane markings when identifiable and provides audible and visual alerts.

REAR VISION CAMERA. When traveling in reverse at low speeds, the rear vision camera provides a real-time picture of the area immediately behind your Sonic on the 7-inch diagonal color touch-screen display.

REAR PARK ASSIST. This available feature helps you back up by sounding an audible alert and providing visual indication on the rear vision camera display when it detects certain stationary objects in close proximity behind the vehicle.

STABILITRAK ELECTRONIC STABILITY CONTROL. When Sonic takes off, the StabiliTrak[®] Electronic Stability Control System with Traction Control kicks in. On most road surfaces, StabiliTrak helps you stay on course by detecting the difference between the path being steered and the direction the vehicle is traveling.

AVAILABLE ONSTAR[®] AUTOMATIC CRASH RESPONSE!

In a crash, built-in sensors can alert a specially trained OnStar Advisor, who is connected into your Sonic to see if you need help – even if you can't ask for it. Advisors can use GPS technology to pinpoint your location and request emergency help. Automatic Crash Response is included in the OnStar Guidance Plan,² standard for the first three months.

¹ A NOTE ON CHILD SAFETY: Always use safety belts and the correct restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information.
