2019 DODGE CHARGER/CHALLENGER

For more than 100 years, the Dodge Brand has stood for standing out. We've led by being different. By offering the unexpected, by having a different voice altogether and daring to amplify it. We've stood apart in a sea of look-alike vehicles by championing the un-boring; by having the courage to be different enough to build modern-day marvels that are engineered with more passion, precision and performance than ever before. Each vehicle in the 2019 Dodge lineup pays homage to its iconic bloodline with award-winning features and detailed craftsmanship. The snarling engines and sleek exteriors of each vehicle beg to be taken out on the open road. It's time to put the pedal to the metal. *THIS IS WHAT IT MEANS TO BE DOMESTIC AND NOT DOMESTICATED.*

///// Durango SRT® shown in White Knuckle, Journey Crossroad shown in Billet, Grand Caravan SXT shown in Granite, Challenger SRT Hellcat® shown in TorRed and Charger SRT Hellcat shown in F8 Green (all models shown with optional features and packages).

DODGE SRT HELLCAT® // It doesn't just look more badass, it is more badass. Challenger SRT Hellcat pays homage to some of its most iconic predecessors with a new hood featuring two fully functional air-sucking snorkels. The large gulps of air allow the beastly Supercharged 6.2-liter SRT Hellcat HEMI® V8 engine to add 10 more horses to its stable, bringing the total horsepower to a whopping 717 (656 lb-ft of torque). Challenger SRT Hellcat also slurps air into the engine's air box via the fit Air-Catcher® headlamp inlet port located in the driver's-side parking lamp. A 92mm throttle body controls airflow into the Supercharger and air charger coolers, and then into the inlet port. The Supercharger houses internal charge coolers and an integrated electronic bypass valve. The twin-screw rotors are specially treated to accommodate tighter internal tolerances between the rotors and help improve overall performance.

Both Challenger SRT Hellcat and Charger SRT Hellcat (717/707 horsepower, 656/650 lb-ft of torque) run a staggering quarter-mile time and are arguably two of the most coveted performance vehicles on the road. These powerhouses use upgraded components that can withstand the brutal performance they are capable of unleashing. The SRT® tuned Bilstein® three-mode Adaptive Damping Suspension system on both models provides driver-selectable settings to include: Street (Auto) Mode = sporty but compliant ride; Sport Mode = firm, maximum handling; Track Mode = firm, maximum handling plus performance shifting and a gear-holding feature to suit any driver's needs. The SRT Drive Modes, which are accessed via the 8.4-inch Uconnect® touchscreen, offer selectable settings for Street (Auto), Sport and Track. There is also a custom setting that allows drivers the ability to tailor their experience by individually adjusting horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard SRT Performance Pages bring critical vehicle performance data to the driver's fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock, which is new for 2019.

STAGING LANE-READY

1320

Your eyes are locked on the last yellow, and you're ready to move the 1,320 feet that make up this quarter mile. You've upped your race readiness by opting for the new Scat Pack® 1320 with transbrake, drag suspension, Adaptive Damping Suspension, 275/40R20 102W drag radial tires ... they're all included. So are the unique fender and instrument-panel badges that let others know you're packing a little something extra.

Other package content includes: Drag Mode Performance Pages, unique illuminated Air-Catcher® headlamp, Alcantara® wrapped performance steering wheel, 20x9.5 Low-Gloss Black drag wheels and more. 1320 is only available on Challenger R/T Scat Pack.

Professional driver. Closed course.

DON'T DOUBT WHAT YOUR EYES HAVE SEEN

Before the Challenger SRT® Demon finished its limited run, it imparted its soul — the Supercharged 6.2-liter HEMI® V8 high-output engine — into the Challenger SRT Hellcat,® and the Challenger SRT Hellcat Redeye was born. Like its Demon brother, SRT Hellcat Redeye boasts 25 major component upgrades to withstand the intensity that comes from 797 horsepower, 707 lb-ft of torque and a top speed of 203 mph.

SRT Hellcat Redeye also grabbed Demon's Torque Reserve, SRT Power Chiller® and After-Run Chiller. SRT Hellcat Redeye offers two final drive ratios: a standard 2.62:1, or available 3.09:1 for increased launch capability.

The fully functional dual-snorkel hood not only provides maximum air intake to the supercharged powerplant, it also pays homage to the most famous Dodge muscle cars in its appearance. SRT Hellcat Redeye puts others on notice with enhanced badging featuring a sinister Red jewel-like eye design on the Hellcat that jumps off the Midnight Grey Metallic-finish fender badge. A new die-cast SRT emblem on the supercharger housing also showcases the new Redeye logo.

WHAT A BODY

Because everyone loves options, SRT Hellcat Redeye offers a Widebody Package. And because in families you don't divide the love, you multiply it, siblings Challenger SRT Hellcat and R/T Scat Pack also have widebody available. Wider fender flares add 3.5 inches to the overall width of the vehicle resulting in a more muscular, planted stance. Widebody Packages include split five-spoke, 20x11-inch "Devil's Rim" forged aluminum wheels riding on sticky 305/35ZR20 Pirelli® P-Zero tires for improved performance and a more menacing look. Widebody on R/T Scat Pack also includes six-piston Brembo® front brakes and an Adaptive Damping Suspension.

//// Challenger R/T Scat Pack Widebody shown in Torred, SRT Hellcat® Widebody shown in Indigo Blue and SRT Hellcat Redeye Widebody shown in Triple Nickel.

///// Challenger SRT Hellcat® optional interior with the Laguna Leather Package in Demonic Red Laguna leather with perforated leather inserts and embossed SRT Hellcat logo with Tungsten accent stitching.

///// Charger R/T gauges shown.

R/T SCAT PACK /////

The name nods to the past while the performance delivers modern muscle. Challenger and Charger R/T Scat Pack models get their power from the famed 392 HEMI® V8 engine. The 485 horsepower and 475 lb-ft of torque are backed by 4-piston Brembo® brakes, 3-Mode Electronic Stability Control (ESC)[11]* with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20x9-inch aluminum wheels. Both Challenger and Charger R/T Scat Pack offer available cold-air induction, while Challenger offers an available full-floating, open-element Shaker hood scoop, included with optional Shaker package.

Inside these vehicles, race-inspired seats feature a Scat Pack Bee logo embroidered on either a standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts. Every R/T Scat Pack model includes Dodge SRT® Performance Pages that feature everything from Launch Control to a g-force meter to drag-race timers. This real-time data can also be accessed on either the standard 7-inch reconfigurable digital display housed between the gauges or the standard 8.4-inch Uconnect® touchscreen. SRT Drive modes offer the ability to customize steering feel, transmission shift points, throttle response, ESC[11]* tuning and suspension firmness (if equipped with Adaptive Damping Suspension).

*A note about this brochure: all disclaimers and disclosures can be found on the back page.

///// Challenger R/T Scat Pack with Shaker Package shown in Plum Crazy.

///// Charger R/T Scat Pack shown in TorRed.

//// **STYLE THAT STANDS THE TEST OF TIME** // Every inch, every surface, every curve of sheet metal was sculpted to elicit a pulse-racing reaction. On Charger, it starts with heritage-inspired side scallops, a low, lean profile and a chiseled front end. From tip to tail, Charger asserts its authority with an imposing crosshair grille, projector headlamps and a seamless LED racetrack taillamp. The feeling of power doesn't dissipate once inside, instead it grows as you grip the thick-rim three-spoke Sport steering wheel. Available paddle shifters bring track-inspired performance to the everyday drive.

Challenger is a no-holds-barred nod to iconic, American muscle. With a heritage split-grille surround, performance hood with scoop, and menacing illuminated Air-Catcher® headlamps with quad-halo LED surrounds, there's no escaping its intimidating face. Slide inside and the heritage-inspired cockpit invites spirited driving. Both the sport and performance seats are available in premium Houndstooth cloth or premium leather materials. The available performance seats with large bolsters provide maximum comfort and lateral support in GT models and above.

SUPERCHARGED HEMI

TRACK-PROVEN TUNED CHASSIS High-demanding track conditions require tightly engineered hardware. Challenger and Charger R/T Scat Pack showcase a high-performance tuned chassis that's ready to go.

SHOCK ABSORBERS Available Bilstein® high-performance shock absorbers are precision-damped to help provide a confident, smooth ride for the everyday commute while still being capable for weekend track duty.

SUSPENSION Options range from sport-tuned to high-performance to the top-of-the-line competition suspension featuring adaptive damping. A bold combination of movement and staying power comes from a sophisticated suspension geometry and rear-wheel drive (RWD). Whether it's the everyday commute or more challenging driving situations, the independent 5-link rear suspension is finely tuned to help provide exceptional handling and a comfortable ride. When the rubber meets the road, a lower unsprung mass helps maintain better tire contact with the ground and reduces road noise. Models equipped with a 392 HEMI® V8 engine feature unique suspension geometry that helps improve balance, cornering ability and steering responsiveness. Exclusive Bilstein shocks and a lowered suspension allow these performers to achieve 0.93g on the skid pad. The Bilstein Three-Mode Adaptive Damping Suspension, available on Challenger and Charger R/T Scat Pack and standard on all SRT Hellcat® models, offers different suspension firmness settings from Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest max handling).

AGGRESSIVE FRONT- AND REAR-CAMBER GEOMETRY Performance handling requires maximum road-holding grip, and Challenger and Charger Scat Pack models deliver with aggressive front- and rear-camber geometry. Set at –1.2 degrees in the front and –0.75 degrees in the rear, Challenger is set up for high-speed cornering with its tires leaning inboard at the top relative to the body.

BRAKES Standard 4-wheel antilock disc brakes provide solid stopping power. Available Brembo® performance brakes feature vented rotors that provide superior braking performance when paired with wind-tunnel-designed brake ducts.

YEAR-ROUND ACTION

WEATHER OR NOT, HERE WE COME // Designed for uncompromising performance, Challenger all-wheel drive (AWD) and Charger SXT AWD deliver massive control exactly when you need it. The advanced automatic front-axle disconnect technologically, intuitively and seamlessly transitions between rear-wheel drive (RWD) and AWD without driver intervention. Under normal driving conditions, the front axle is disengaged and 100 percent of the engine's torque is directed to the rear wheels. When sensors indicate more traction is needed, the system automatically engages the front axle and instantly transitions to AWD mode.

These systems work with the vehicles' Electronic Stability Control (ESC)[17] system to deliver precise front-to-rear torque control while preserving Challenger and Charger's unrelenting drive. Challenger AWD also employs Vehicle Dynamic Control (VDC), which provides exceptional traction on slippery surfaces while helping the driver maintain the desired vehicle path. (AWD is available on Challenger SXT and GT.)

SAFETY & SECURITY FEATURES

PARKVIEW® REAR BACK-UP CAMERA[2] // This system displays the area directly behind your vehicle when the vehicle is in Reverse. Dynamic grid lines adjust with steering input to assist in parking. Standard on Charger and Challenger.

PARKSENSE® REAR PARK ASSIST[2] // When your vehicle is in Reverse and moving at a low speed, the system can detect objects in your vehicle's path. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Standard on Charger, available on Challenger.

BLIND SPOT MONITORING (BSM)[3] WITH REAR CROSS-PATH DETECTION[2] // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons in the sideview mirrors and by audible chime. The system includes Rear Cross-Path Detection,[2] which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of parking spots or driveways. Available on Challenger and Charger.

ADAPTIVE CRUISE CONTROL (ACC)[4] // Automatically adjusts vehicle speed to maintain desired distance from the vehicle ahead. Available on Challenger. On Charger, this available system can bring the vehicle to a full stop without driver intervention.

FULL-SPEED FORWARD COLLISION WARNING (FCW) WITH ACTIVE BRAKING[5] // Radar and camera technology combine to alert you when the system senses potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes with the ability to bring the vehicle to a complete stop. Available on Charger. On Challenger models, the available FCW[5] transmits audible and visual warnings only. Warning sensitivity can be adjusted to driver preference.

LANESENSE® LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST[7] // This system measures your position within lane boundaries. If it detects an unintentional lane drift, it will alert you and correct the vehicle back into the lane. Available on Charger.

ELECTRONIC STABILITY CONTROL (ESC)[1] // This system is designed to assist the driver in maintaining control of the vehicle when a loss of traction is detected. ESC[1] senses when a vehicle loses steering control and attempts to correct the vehicle's course by automatically applying the brakes at individual wheels. Standard on Charger and Challenger.

RAIN-SENSING WINDSHIELD WIPERS // System sensors automatically detect moisture on the windshield and activate the wipers. Available on Challenger and Charger.

READY ALERT BRAKING // The system anticipates situations when you might initiate an emergency brake stop and uses the ESC[1] pump to precharge the brake system in order to decrease the time required for full brake application. Standard on Challenger and Charger.

RAIN BRAKE SUPPORT // When your car's windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard on Challenger and Charger.

HERE'S WHAT YOU CAN DO. REMAIN FOCUSED ON THE ROAD WITH YOUR HANDS ON THE WHEEL, WHILE YOU COMMUNICATE, NAVIGATE[8] AND STAY ENTERTAINED.

// LISTEN to music, talk shows and sports. Access all genres, favorite artists, winning teams — all the time with SiriusXM® Radio[1] **// DISCOVER** new places, find the best shopping, dancing, entertainment venues and restaurants **// SPEAK UP** and be heard and send and receive calls and texts[10] while driving safely with hands-free phone capability[11] **// NAVIGATE[8]** to every adventure and get turn-by-turn directions so you don't get lost on the way (unless you want to) **// START[12]** your car from afar, or lock your doors from almost anywhere using your smartphone — thanks to Uconnect® plus SiriusXM Guardian®[13] services **// SEE** into the future — hear weather and traffic reports* with a 5-year trial subscription to SiriusXM Travel Link[14] and SiriusXM Traffic Plus[15]

APPLE CARPLAY®[16] COMPATIBILITY

This is smarter iPhone® integration, so you'll experience your favorite features through your dashboard. With Siri,®[17] all you have to do is ask — catch up on calls and messages, get directions from Apple Maps, or request a song through Apple Music. The system lets you browse music or discover nearby gas stations, parking, restaurants and more. Plus, Maps help predict where you're headed.

Works with Apple CarPlay[16]

ANDROID AUTO™[18] INTEGRATION

For those who know and love Android,™ Google™ goes with you with navigation[8] and "OK Google" voice detection, and you'll hear your favorite Google Play music and get voice-guided navigation[8] from Google Maps. Stay focused and productive while on the road with voice controls[19] that allow you to make calendar appointments, set timers, reply to emails and messages — and more.

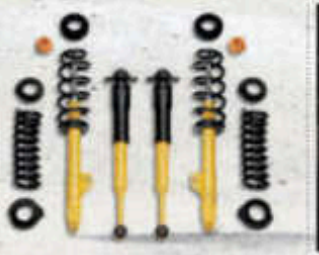
DODGE GOODS

DODGE.COM/LIFE

Check out an extensive line of gifts and accessories for the Dodge enthusiast. From authentic apparel to die-cast replica cars for the collector, as well as electronics and office supplies, all lifestyle items are as bold as your Dodge vehicle. Refer to **dodge.com/life** for our full product lineup.

CHARGER, CHALLENGER AND MOPAR® ///// These names are iconic for a reason: they're the names that set the Muscle Car movement in motion. Their names take you back to a time when you didn't show up unless your car was tricked out with parts, stripes and a Scat Pack sticker on the quarter-glass. Today, Mopar offers a wide range of authentic parts and accessories designed and manufactured by the same people who design and manufacture Challenger and Charger. The lineup ranges from Performance Suspension and Lowering Kits to a Shaker Hood Package to custom wheels. Regardless of which performance or appearance enhancements you choose for your Dodge, you can rest assured you'll be bringing a new set of bragging rights to the street.



MOPAR ACCESSORIES /////
SRT® Suspension Kit,* Cold-Air Intake Kit, Big Brake Kit*

*Mopar Performance Parts are sold "as is" unless otherwise noted.

[1] Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws. [2] Always look before proceeding. Electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. [3] Always check visually for vehicles prior to changing lanes. [4] This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [5] This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. [6] This system is solely an alert system for the front of the vehicle that does not take any actions to change the vehicle dynamics to avoid a collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [7] This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle. [8] This system is not meant to be used while the vehicle is in motion. [9] SiriusXM audio and data services each require a subscription sold separately or as a package by Sirius XM Radio Inc. Your SiriusXM service will automatically stop at the end of your trial unless you decide to subscribe. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations or on all receivers. [10] Voice Text Reply feature requires a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit www.UConnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Check www.UconnectPhone.com for device compatibility. [11] The Uconnect Phone requires a mobile phone equipped with the Bluetooth Hands-Free Profile. To check phone compatibility, please visit www.UconnectPhone.com. [12] Check state and local laws regarding the use of remote start systems. [13] All SiriusXM Guardian equipped vehicles come with a 12-month trial effective on the date of purchase or lease of a new vehicle. Enrollment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States and Puerto Rico. [14] SiriusXM services require subscriptions, sold separately after the 5-year trial included with the new vehicle purchase. Trial service is not transferrable or refundable. The SiriusXM Travel Link data displays and individual product availability vary by vehicle hardware. Not all vehicles or devices are capable of receiving all Travel Link services offered by SiriusXM, Weather Forecast, Current Conditions may not be available in all locations, and features of individual systems will vary. Images are for representative purposes only and are not real products. For actual features and images of real products, consult the vehicle manufacturer. SiriusXM is not responsible for any errors or inaccuracies in the SiriusXM Travel Link services or their use. Satellite service is available only to those at least 18 and older in the 48 contiguous USA and DC. Internet radio service is available throughout satellite service area, and in AK and HI with limited coverage. [15] SiriusXM services require subscriptions, sold separately after the 5-year trial included with the new vehicle purchase. If you decide to continue your service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call SiriusXM at 1-866-635-2349 to cancel. Trial service is not transferrable or refundable. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Satellite service is available only to those at least 18 and older in the 48 contiguous USA and DC. Internet radio service is available throughout satellite service area, and in AK and HI with limited coverage. [16] Requires compatible iPhone. See dealer for phone compatibility. Data plan rates apply. Vehicle user interface is a product of Apple. Apple CarPlay is a trademark of Apple Inc. iPhone is a trademark of Apple Inc., registered in the US and other countries. Apple terms of use and privacy statements apply. [17] Requires an iPhone with 5in. Certain features are not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. [18] To use Android Auto on your phone screen, you'll need an Android phone running 5.0 (Lollipop) or higher and the Android Auto app. Android and Android Auto are trademarks of Google Inc. [19] May not work with all garage door openers. [20] 3-month/3 GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See dealer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. [21] Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. [22] Always sit properly in designated seating positions with seat belts securely fastened at all times. [23] See dealer for complete details and a copy of the 5-Year/60,000-Mile Powertrain Limited Warranty.
