

2020
DODGE CHALLENGER

"Irreverent" might be the best word to sum up Dodge vehicles. For a 100+-year-old Brand, we act anything but. We believe attitude is neither constrained nor defined by a number of years. It's defined by something much less tangible. It's defined by geniuses of engineering. By being different. By offering the unexpected. By pushing boundaries for no other reason than because we can. By being led to build from our hearts and not by a committee of suits in a back office. We are a Brand that could not care

less about convention. And it shows in our formidable SRT Hellcat[®] models and in our six-passenger SUV that holds a certified quarter-mile time by the National Hot Rod Association (NHRA). Each 2020 Dodge vehicle pays homage to its iconic bloodline with snarling engines and sleek exteriors that beg to be taken out on the open road. **THIS IS WHAT IT MEANS TO BE DOMESTIC. NOT DOMESTICATED.**

/// Hellcat SRT Hellcat shown in gloss red with available black hood. Durango shown in black with available black hood. Charger SRT shown in white with available black hood. Dodge Performance Package

SRT HELLCAT®

SRT Hellcat models lead the Challenger lineup with absolute power, track-ready components and jaw-dropping quarter-mile times:

It starts with a Supercharged 6.2L HEMI® SRT® V8 engine on SRT Hellcat that delivers 717 horsepower and 656 lb-ft of torque. Two fully functional, air-sucking snorkels on the hood and an illuminated Air-Catcher® headlamp feed cold air to the engine to keep it cool and efficient.

This power is held steady by the SRT tuned Bilstein® Three-Mode Adaptive Damping Suspension System that provides driver-selectable settings to include: Street (Auto) Mode = sporty but compliant ride; Sport Mode = firm, maximum handling; and Track Mode = firm, maximum handling plus performance shifting and a gear-holding feature to suit any driver's needs. The SRT Drive Modas, which are accessed via the 8.4-inch Uconnect® touchscreen, offer selectable settings for Street (Auto), Sport and Track. There is also a custom setting that allows drivers the ability to tailor their experience by individually adjusting

horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard SRT Performance Pages brings critical vehicle performance data to the driver's fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock. Challenger SRT Hellcat Redeye dares to amplify the SRT Hellcat optics through a high-output version of the Supercharged 6.2L HEMI SRT V8 engine. The engine, combined with 26 major component upgrades, unleashes an unthinkable 797 horsepower, 707 lb-ft of torque and a top speed of 203 mph. SRT Hellcat Redeye shows up race-ready with standard Torque Reserve, SRT Power Chiller® and After-Run Chiller. SRT Hellcat Redeye offers two final drive ratios: a standard 2.62:1 or available 3.09:1 for increased launch capability.

WHAT A LEGEND LOOKS LIKE

DON'T MESS WITH PERFECTION. The only thing that rivals this vehicle's legendary performance is its iconic looks. The performance hood with dual snorkels, menacing quad-halo LED surround with Illuminated Air-Catcher™ headlamps, split LED taillamps and available heritage stripe options tell a story of intimidation and prowess.

////// Challenger SRT Hellcat® shown in FB Green and Challenger SRT Hellcat shown in Frostbite. Professional driver. Closed course.

1320

Subtle isn't what this car is about. It was conceived to live its best life on the drag strip. Its purpose is maximum acceleration. It's outfitted with everything needed to floor it on the last yellow: transbrake, drag suspension, Adaptive Damping Suspension, 275/40R20 102Y drag radial tires, and 20-by-9.5-inch Low-Gloss Black drag wheels with knurled bead seats. This is the 1320, and it's only available on R/T Scat Pack. The unique fender badge lets everyone know you aren't messing around: the

badge on the instrument panel reminds you that you're well-equipped for the run. Settle in, select Drag Mode to adjust the traction and stability control settings, grip the Alcantara® wrapped performance steering wheel, wait for double yellow lights, then engage the transbrake, release when the Christmas tree goes green and move down the quarter mile with the full force of the 6.4L HEMI® engine and its 485 horses and 475 lb-ft of torque.

////// Challenger R/T Scat Pack shown in Pitch Black with available 1320

DON'T DOUBT WHAT YOUR EYES HAVE SEEN Before the Challenger SRT™ Demon finished its limited run, it imparted its soul – the Supercharged 6.2L HEMI™ V8 high-output engine – into the Challenger SRT Hellcat™ and the Challenger SRT Hellcat Redeye™ was born. Like its Demon brother, SRT Hellcat Redeye boasts 25 major component upgrades to withstand the intensity that comes from 797 horsepower, 707 lb-ft of torque and a top speed of 203 mph.

SRT Hellcat Redeye also grabbed Demon's Torque Reserve, SRT Power Chiller™ and After-Run Chiller. SRT Hellcat Redeye offers two final drive ratios: a standard 2.62:1 or available 3.09:1 for increased launch capability.

The fully functional dual-snorkel hood not only provides maximum air intake to the supercharged powerplant, it also pays homage to the most famous Dodge muscle cars in its appearance. SRT Hellcat Redeye puts others on notice with badging featuring a sinister Red jewel-like eye

design on the Hellcat that jumps off the Midnight Gray Metallic-finish fender badge. A die-cast SRT emblem on the supercharger housing also showcases the new Redeye logo.

WHAT A BODY Because everyone loves options, SRT Hellcat Redeye is available in a widebody configuration. And because, in families, you don't divide the love, you multiply it, siblings Challenger SRT Hellcat and R/T Scat Pack also have widebody options available. Wider fender flares add 3.5 inches to the overall width of the vehicle, resulting in a more muscular, planted stance. Widebody includes 20 by 11-inch forged aluminum wheels riding on sticky 305/35ZR20 Pirelli® P ZERO™ tires for improved performance and a more menacing look. R/T Scat Pack Widebody also includes six-piston Brembo® front brakes and an Adaptive Damping Suspension.

/// Challenger SRT Hellcat Widebody models shown in Indigo Blue, FB Green and Go Mango with available dual stripes.

////// SRT Hellcat[®] shown in F8 Green with available dual stripes. Professional driver. Closed course.

////// Challenger R/T Scat Pack with new flat-bottom steering wheel included with Widebody and live-stitch instrument panel included with Plus Group.

SHAKE IT UP

////// Challenger R/T Scat Pack shown in Sinamon Stick with Shaker Package.

STRONG: START TO FINISH

///// R/T SCAT PACK

The name is a throwback, but the mechanics are anything but. Challenger R/T Scat Pack houses a track-worthy 392 HEMI® V8 engine that shows off with 485 horses, 475 lb-ft of torque, 0 - 60 mph in the low 4-second range and a quarter mile in the mid-12-second range. This pavement-pounding power is backed by four-piston Brembo® brakes, Three-Mode Electronic Stability Control (ESC)™ with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20 by 9-inch aluminum wheels. For a bigger performance kick, opt for cold-air induction and available full-floating, open-element Shaker hood scoop, included with optional Shaker Package.

Every R/T Scat Pack model includes Dodge SRT® Performance Pages that feature everything from Launch Control to a g-force meter to drag-race timers. This real-time data can also be accessed on either the standard 7-inch reconfigurable digital display housed between the gauges or the standard 8.4-inch Uconnect® touchscreen. SRT Drive Modes offer the ability to customize steering feel, transmission shift points, throttle response, ESC¹ tuning and suspension firmness (if equipped with Adaptive Damping Suspension). Race-inspired seats feature a Scat Pack Bee logo embroidered on either a standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts.

POWERED BY PROTECTION – Standard 4-wheel antilock disc brakes provide solid stopping power. Additional stopping power comes from the available Brembo® Performance Brake System, featuring vented two-piece front rotors and four-piston front callipers for outstanding heat management and that provide superior braking performance. For superb stopping capabilities, the SRT® engineered Brembo Performance Brake System, with six-piston front and four-piston rear callipers, results in improved performance braking when paired with wind-tunnel-designed brake ducts.

POWER
WITHOUT CONTROL
IS FUTILE

////// Challenger SRT Hellcat® shown in Indigo Blue with available dual stripes in Carbon. Professional driver. Closed course.

////// Challenger R/T shown in White Knuckle

//// TRACK-PROVEN TUNED CHASSIS High-demanding track conditions require tightly engineered hardware. Challenger showcases a high-performance-tuned chassis that's ready to go.

//// SHOCK ABSORBERS Available Bilstein® high-performance shock absorbers are precision damped to help provide a confident, smooth ride for the everyday commute while still being capable for weekend track duty.

//// SUSPENSION Options range from sport-tuned to high-performance to the top-of-the-line competition suspension - featuring adaptive damping. A bold combination of movement and staying power comes from a sophisticated suspension geometry and Rear-Wheel Drive (RWD). Whether it's the everyday commute or more challenging driving situations, the independent five-link rear suspension is finely tuned to help provide exceptional handling and a comfortable ride. When the rubber meets the road, a lower unsprung mass helps maintain optimum tire contact with the ground and minimizing road noise. Models equipped with a 392 HEMI® V8 engine feature unique suspension geometry that helps improve balance, cornering ability and steering responsiveness. Exclusive Bilstein shocks and a lowered suspension allow these performers to achieve 0.93 g on the skid pad. The Bilstein Three-Mode Adaptive Damping Suspension System, available on Challenger R/T Scat Pack and standard on all SRT Hellcat® models, offers different suspension firmness settings, from Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest max handling). Performance handling requires maximum road-holding grip, and Challenger R/T Scat Pack models deliver with aggressive front- and rear-camber geometry. Set at -1.2 degrees in the front and -0.75 degrees in the rear, Challenger is set up for high-speed cornering, with its tires leaning inboard at the top relative to the body.

HERE'S WHAT YOU CAN DO: REMAIN FOCUSED ON THE ROAD WITH YOUR HANDS ON THE WHEEL WHILE YOU COMMUNICATE, NAVIGATE AND STAY ENTERTAINED.

// **LISTEN** to music, talk shows and sports. Access all genres, favorite artists, winning teams – all the time – with available SiriusXM® Radio. // **CONNECT** you and your passengers with available built-in 4G LTE Wi-Fi Hotspot² connectivity. // **SPEAK UP** and be heard, send and receive calls and texts³ (not compatible with iPhone® mobile devices) while driving safely with hands-free phone capability⁵. // **NAVIGATE** to every adventure with this available system; get turn-by-turn directions so you don't get lost on the way (unless you want to). // **START** your car from afar, or lock your doors from almost anywhere using your smartphone – thanks to Uconnect[®] plus SiriusXM Guardian[™] services. // **SEE** into the future; hear weather and traffic reports with a five-year trial subscription to SiriusXM Travel Link[®] and SiriusXM Traffic Plus[®].

APPLE CARPLAY[®] COMPATIBILITY

This is smart iPhone integration, so you'll experience your favorite features through your dashboard. With Siri,¹⁰ all you have to do is ask – catch up on calls and messages, get directions from Apple Maps or request a song through Apple Music. The system lets you browse music or discover nearby gas stations, parking, restaurants and more. Plus, Maps helps predict where you're headed.

ANDROID AUTO^{™10} INTEGRATION

For those who know and love Android,¹⁰ Android Auto[™] brings your favorite smartphone apps into one place, making it easy for drivers to access their favorite navigation, media and communication apps on the road while minimizing the distractions. Stay focused on the road while you plan your day with the Google Assistant, get voice-guided navigation with Google Maps and listen to your favorite songs on Google Play Music.

ADVANCED // // //
ALL-WHEEL DRIVE

DODGE

YEAR-ROUND AGGRESSION // It's one thing to avoid special little snowflakes in your personal life, but you don't need to garage your Challenger when they start falling from the sky. Loose gravel shouldn't make you lose your cool either. Challenger All-Wheel Drive (AWD) delivers big control exactly when you need it. The advanced automatic front-axle disconnect technologically, intuitively and seamlessly transitions between Rear-Wheel Drive (RWD) and AWD without driver intervention. Under normal driving conditions, the front axle is disengaged and 100 percent of the engine's torque is directed to the rear wheel. When sensors indicate more traction is needed, the system automatically engages the front axle and instantly transitions to AWD mode. These systems work with the vehicle's Electronic Stability Control (ESC) System to deliver precise front-to-rear torque control while preserving unrelenting drive.

SAFETY & SECURITY FEATURES

PARKVIEW® REAR BACK-UP CAMERA // This system displays the area directly behind your vehicle when the vehicle is in reverse. Dynamic grid lines adjust with steering input to assist in parking. Standard.

PARKSENSE® REAR PARK ASSIST // When your vehicle is in reverse and moving at a low speed, the system can detect objects in your vehicle's path. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Available.

BLIND SPOT MONITORING (BSM)™ WITH REAR CROSS-PATH DETECTION SYSTEM // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons in the sideview mirrors and by an audible chime. The system includes Rear Cross-Path Detection¹ which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of parking spots or driveways. Available.

ADAPTIVE CRUISE CONTROL (ACC)™ // Automatically adjusts vehicle speed to maintain desired distance from the vehicle ahead. Available.

FULL-SPEED FORWARD COLLISION WARNING (FCW)™ // Radar and camera technology combine to alert you when the system senses potential frontal impact. If you're not able to respond quickly enough, the system will transmit audible and visual warnings. Warning sensitivity can be adjusted to driver preference. Available.

ELECTRONIC STABILITY CONTROL (ESC)¹ // This system is designed to assist the driver in maintaining control of the vehicle when a loss of traction is detected. ESC¹ senses when a vehicle loses steering control and attempts to correct the vehicle's course by automatically applying the brakes at individual wheels. Standard.

RAIN-SENSING WINDSHIELD WIPERS // System sensors automatically detect moisture on the windshield and activate the wipers. Available.

READY ALERT BRAKING // The system anticipates situations when you might initiate an emergency brake stop and uses the ESC¹ pump to precharge the brake system in order to decrease the time required for full brake application. Standard.

RAIN BRAKE SUPPORT // When your car's windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard.

CHALLENGER MOPAR // // // // When it comes to your Dodge Challenger, not all parts and accessories are created equal. As the official service, parts and customer care provider for the Dodge Brand, only Mopar Parts and Accessories can ensure the proper fit, finish and functionality. That's because they're original equipment, engineered exclusively for your vehicle by the same people who designed your vehicle. Our parts have withstood strict testing, which keeps your original factory warranty intact. No aftermarket supplier can make the same guarantee.

[1] Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws. [2] SiriusXM Satellite Radio, SiriusXM Traffic Plus and SiriusXM Travel Link each require a subscription, sold separately or as a package, by SiriusXM Radio Inc. **If you decide to continue service after your 12-month trial included with the new vehicle purchase, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Trial service is not transferable. Fees and taxes apply. Please see the Customer Agreement at www.siriusxm.com for complete terms and how to cancel, which includes calling SiriusXM at 1-866-635-2348. All fees and programming are subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Data displays and individual product availability vary by vehicle hardware. Current information and features may not be available in all locations, or on all receivers. Weather Forecast, Current Conditions may not be available in all locations. [3] Three-month/7GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See dealer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. [4] Voice Texting feature requires a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit www.UconnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Check www.UconnectPhone.com for device compatibility. [5] The Uconnect Phone requires a mobile phone equipped with the Bluetooth Hands-Free Profile. To check phone compatibility, please visit www.UconnectPhone.com. [6] Remote Vehicle Start is not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. You must have an active subscription to SiriusXM Guardian in order to use remote services. See Terms of Service for service limitations. [7] All SiriusXM Guardian equipped vehicles come with a 12-month trial effective on the date of purchase or lease of a new vehicle. Enrollment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States, Canada and Puerto Rico. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. [8] Requires compatible iPhone. See dealer for phone compatibility. Data plan rates apply. Vehicle user interface is a product of Apple. Apple CarPlay is a registered trademark of Apple Inc. iPhone is a trademark of Apple Inc., registered in the US and other countries. Apple terms of use and privacy statements apply. [9] Requires an iPhone with Siri. Certain features are not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. [10] To use Android Auto on your phone screen, you'll need an Android phone running 5.0 or higher and the Android Auto App. Android and Android Auto are trademarks of Google LLC. [11] Always check entire surroundings visually before proceeding. [12] Always look before proceeding. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. [13] Always check visually for vehicles prior to changing lanes. [14] This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [15] This system is solely an alert system for the front of the vehicle that does not take any actions to change vehicle dynamics to avoid a collision; not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [16] Always sit properly in designated seating positions with seat belts securely fastened at all times. [17] Mopar Performance Parts are sold "as is" unless otherwise noted. [18] Requires 20-inch wheels. [19] This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. [20] Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. [21] Vehicle must be locked and system activated for alarm to sound. [22] Check state and local laws regarding the use of remote start systems. [23] Visit Mopar.com for complete details and a copy of the Powertrain Limited Warranty.
