

2021

DODGE CHARGER

BROTHERHOOD OF MUSCLE

We've always been devoted to distancing ourselves: from the pack, from the competition, from the mundane and – most importantly – from convention. Every Dodge Brand vehicle in our 2021 lineup is designed to deliver something decidedly unique: fierce attitude, formidable horsepower and intense performance.

CHALLENGER SRT® SUPER STOCK //

CHARGER SRT HELLCAT REDEYE WIDEBODY //
shown in White Knuckle.

FAMILY OF LEGENDS

SRT HELLCAT® REDEYE //

Being the world's most powerful and fastest mass-produced sedan** wasn't enough. Charger SRT Hellcat Redeye now has the same Supercharged 6.2L high-output HEMI® V8 engine that possessed the limited-production 2018 Dodge Challenger SRT® Demon. SRT Hellcat Redeye uses 797 horses, 707 lb-ft of torque and a TorqueFlite® 8HP90 8-speed automatic transmission to run a quarter-mile in 10.6 seconds at 129 mph, go from 0 - 60 in the mid-3s and hit a top speed of 203 mph. The engine wasn't the only equipment borrowed from the Demon archives. Charger SRT Hellcat Redeye also grabbed Torque Reserve, which delivers up to 3.9 psi of boost at launch and up to 55 percent more engine torque. Both the steel prop shafts and the half-shafts allow the vehicle to handle the additional torque created with the help of the SRT Power Chiller® and After-Run Chiller. Essentially, this daily driver is a beast.

Being the world's most powerful and fastest mass-produced sedan** wasn't enough. Charger SRT Hellcat Redeye now has the same Supercharged 6.2L high-output HEMI® V8 engine that possessed the limited-production 2018 Dodge Challenger SRT® Demon. SRT Hellcat Redeye uses 797 horses, 707 lb-ft of torque and a TorqueFlite® 8HP90 8-speed automatic transmission to run a quarter-mile in 10.6 seconds at 129 mph, go from 0 - 60 in the mid-3s and hit a top speed of 203 mph. The engine wasn't the only equipment borrowed from the Demon archives. Charger SRT Hellcat Redeye also grabbed Torque Reserve, which delivers up to 3.9 psi of boost at launch and up to 55 percent more engine torque. Both the steel prop shafts and the half-shafts allow the vehicle to handle the additional torque created with the help of the SRT Power Chiller® and After-Run Chiller. Essentially, this daily driver is a beast.

SRT HELLCAT //

Only slightly less raucous than its sibling, Charger SRT Hellcat throws down serious performance numbers of its own. Its 717-horsepower, 650-lb-ft-of-torque performance is also supplied by a Supercharged 6.2L HEMI SRT Hellcat V8 engine. Its dominance shows in 0 - 60 runs in 3.6 seconds and its impressive 10.96 quarter-mile elapsed time - even on street tires.

SRT DRIVE MODES //

All SRT Hellcat trim levels feature Drive Modes specific to the vehicle. The SRT tuned Bilstein® Three-Mode Adaptive Damping Suspension System provides driver-selectable settings including: Street [Auto] Mode = sporty but compliant ride; Sport Mode = firm, maximum handling; and Track Mode = firm, maximum handling plus performance shifting and a gear-holding feature to suit any driver's needs. The SRT Drive Modes, accessed via the Uconnect® touchscreen, offer selectable settings for Street [Auto], Sport and Track. A custom setting lets drivers tailor their experience by individually adjusting horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard SRT Performance Pages brings critical vehicle performance data to the driver's fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock.

THE SOUL OF A REBEL //

Charger SRT Hellcat® Rebebe Widebody shown in White Knuckle with Satin Black-Painted Graphics Package.

////// Charger Scat Pack Widebody shown in Go Mango with available Satin Black Painted Graphics Package and Charger SRT Hellcat® Widebody shown in Frostbite with available Satin Black-painted hood and sunroof.

//// Charger SRT Hellcat® Redeye and SRT Hellcat Widebodies have looks as aggressive as their performance. The iconic-inspired design showcases scalloped bodysides, an imposing grille and an all-out aggressive look. A newly designed performance hood provides maximum air intake to the supercharged powerplant from the functional hood scoop to boost power. The mail-slot grille lets cool air travel into the radiator and maintain ideal operating temperatures even in the hottest conditions. Side sills connect the front and rear fascias to help amplify the integrated design. In the rear, a standard one-piece, body-color performance spoiler details the back design while adding downforce to help bring high-speed balance to the vehicle.

The standard Widebody flares out an additional 3.5 inches from the overall width of the Charger for a more dominating, planted presence. Charger SRT Hellcat Widebody rides on standard 20 by 11-inch Carbon Black forged wheels and wider, stickier Pirelli® 305/35ZR20 tires [Three-Season tires are available]. This combination teams with a new competition suspension tuning with Bilstein® three-mode adaptive damping to produce even more grip, delivering next-level performance on the street, strip and road course. SRT Hellcat Widebody runs 2.1 seconds faster on a 2.1-mile road course, equal to 13 car lengths after one lap.

EXTRA WIDE,
 EXTRA PERFORMANCE

//// Charger SRT Hellcat Widebody shown in Pitch Black. Professional driver. Closed course.

DODGE HAS ALWAYS BEEN, AND ALWAYS WILL BE,

A BRAND FOR THOSE WHO CRAVE **POWER**, DEMAND TECHNOLOGY
AND WANT TO **STAND OUT**.

////// Charger Scat Pack Widebody shown in Hellraisin[®] with available Satin Black-Painted Graphics Package.

////// Challenger SRT Hellcat® Redeye Interior shown.

The interior is a striking balance of throwback style and must-have technology. A one-piece extruded aluminum instrument-panel bezel houses the 7-inch reconfigurable digital gauge cluster. Buttons on the steering wheel let you scroll through hundreds of different vehicle configurations and customize what information you see and how you see it.

///// Charger R/T interior in Black, shown with available Real Carbon Fiber bezels

CHARGER SRT //

PERFORMANCE:PRIDE

SCAT PACK // // // //

The feeling is nostalgia. The performance is modern-day technology. The bragging rights are yours. Charger Scat Pack and Scat Pack Widebody are fed by the 485-horsepower, 475-lb-ft-of-torque 392 HEMI® V8 engine. Scat Pack models feature big Brembo® brakes, Three-Mode Electronic Stability Control (ESC)² with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20 by 9-inch aluminum wheels, and available cold-air induction to help you use that power responsibly.

Scat Pack Widebody features its own upgraded, specially tuned suspension with Three-Mode (Auto, Sport and Track) Bilstein adaptive damping and 20 by 11-inch wheels. The result is unthinkable levels of lateral grip, acceleration and braking, delivering premium handling. Massive 15.4-inch Brembo two-piece brake rotors with 6-piston front calipers deliver tremendous stopping power, heat management and longevity, producing 60 - 0 stops in 107 feet. The numbers Scat Pack Widebody yields tell an impressive

story: 0 - 60 mph in 4.3 seconds, quarter-mile in 12.4 seconds ET and 0.96 g lateral grip on the skid pad.

Charger Scat Pack interior boasts standard race-inspired seats complete with embroidered Scat Pack Bee logo (standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts). Every Scat Pack model includes Dodge SRT® Performance Pages that features everything from Launch Control to a g-force meter to drag-race timers. This real-time data can also be accessed on either the standard 7-inch reconfigurable digital display housed between the gauges or the standard 8.4-inch Uconnect® touchscreen. SRT Drive Modes offer the ability to customize steering feel, transmission shift points, throttle response, ESC² tuning and suspension firmness (if equipped with Adaptive Damping Suspension).

SUPERCHARGED H.O.

HEMI™ V8 ENGINE

797-HP

An aerial photograph of a dry, cracked landscape, possibly a salt flat or a desert. The ground is light-colored and shows a complex network of dark, winding cracks. A prominent white line, possibly a road or a boundary, runs diagonally across the upper left. A red rectangular overlay is positioned horizontally across the middle of the image, containing white text.

IF WE WERE FOR EVERYONE,
WE'D BE FOR

NO ONE

AMERICA'S FASTEST FOUR-DOOR MUSCLE CAR*

////// Charger SRT Hellcat® Rideeye Widebody shown in TorRed with available dual stripes in Carbon.

CHARGER SRT HELLCAT® REDEYE WIDEBODY //
shown in White Knuckle.

TRACK-PROVEN-TUNED CHASSIS // Intense track conditions require tightly engineered hardware. Charger showcases a high-performance-tuned chassis that's ready to go.

SHOCK ABSORBERS // Available Bilstein® high-performance shock absorbers are precision-damped to help provide a confident, smooth ride for the typical commute while still being capable for weekend track duty.

SUSPENSION // Every Charger in the lineup is underpinned by a proven suspension. Depending on trim level, options range from sport-tuned to high-performance to drag-race-specific suspension. Movement and staying power come from a sophisticated suspension geometry and Rear-Wheel Drive (RWD). The independent five-link rear suspension is finely tuned to help provide remarkable handling and ride comfort. A lower unsprung mass helps maintain optimum tire contact with the ground and minimize road noise.

Models equipped with a 392 HEMI® V8 engine feature unique suspension geometry that helps improve balance, cornering ability and steering responsiveness. Exclusive Bilstein shocks and a lowered suspension allow these performers to achieve 0.93 g on the skid pad.

A Bilstein Three-Mode Adaptive Damping Suspension System is available on Scat Pack and standard on all SRT Hellcat® models. It offers different suspension firmness settings: Street Mode (sporty), Sport Mode (firm) and Track Mode (firmest max handling). The standard Scat Pack suspension delivers performance handling through an aggressive front- and rear-camber geometry. At -1.2 degrees in the front and -0.75 degrees in the rear, Charger is set up for high-speed cornering, with its tires leaning inboard at the top relative to the body.

AGGRESSIVE FRONT- AND REAR-CAMBER GEOMETRY // Performance handling requires maximum road-holding grip, and Charger Scat Pack models deliver with aggressive front- and rear-camber geometry.

////// Charger Scat Pack shown in TorRed with available Daytona Edition and Charger Scat Pack Widebody shown in Frostbite with available Satin Black-painted hood

////// Charger SRT Hellcat® Widebody shown in White Knuckle with available dual stripes in Carbon.

PERFORMANCE ON THE PROWL

77777 Chevrolet Camaro ZL1 Widebody shown in FB Green.

CONTROL AND *//////////*
CONQUER

////// Charger GT AWD shown in Octane Red with Blacktop Package.

CONTROL WHEN AND WHERE IT'S NEEDED // The available advanced automatic Active All-Wheel-Drive (AWD) System intuitively and seamlessly transitions between Rear-Wheel Drive (RWD) and AWD without driver intervention. Under normal driving conditions, power to the front wheels is disengaged and 100 percent of the engine's torque is directed to the rear wheels. When sensors indicate more traction is needed, the system automatically engages the front wheels and instantly transitions to AWD Mode. These systems work with the vehicle's Electronic Stability Control (ESC)[†] system to deliver precise front-to-rear torque control while preserving unrelenting drive.

SAFETY & SECURITY FEATURES

PARKVIEW® REAR BACK-UP CAMERA¹ // This system displays the area directly behind your vehicle when the vehicle is in Reverse. Dynamic grid lines adjust with steering input to assist in parking. Standard.

PARKSENSE® REAR PARK ASSIST² // When your vehicle is in Reverse and moving at a low speed, the system can detect objects in your vehicle's path. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Standard.

BLIND SPOT MONITORING (BSM)³ WITH REAR CROSS-PATH DETECTION⁴ // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminated icons in the sideview mirrors and by audible chime. The system includes Rear Cross-Path Detection⁴ which monitors for vehicles and objects in perpendicular relationships to the vehicle while, for example, backing out of parking spots or driveways. Available.

ADAPTIVE CRUISE CONTROL (ACC)⁵ // Automatically adjusts vehicle speed to maintain desired distance from the vehicle ahead and can bring the vehicle to a full stop without driver intervention. Available.

FULL-SPEED FORWARD COLLISION WARNING WITH ACTIVE BRAKING (FSFCW)⁶ // Radar and camera technology combine to alert you when the system senses potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes with the ability to bring the vehicle to a complete stop. Available.

LANESENSE® LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST⁷ // This system measures your position within lane boundaries. If it detects an unintentional lane drift, it will alert you and correct the vehicle back into the lane. Available.

ELECTRONIC STABILITY CONTROL (ESC)⁸ // This system is designed to assist the driver in maintaining control of the vehicle when a loss of traction is detected. ESC⁸ senses when a vehicle loses steering control and attempts to correct the vehicle's course by automatically applying the brakes at individual wheels. Standard.

RAIN-SENSING WINDSHIELD WIPERS // System sensors automatically detect moisture on the windshield and activate the wipers. Available.

READY ALERT BRAKING // The system anticipates situations when you might initiate an emergency brake stop and uses the ESC⁸ pump to pre-charge the brake system in order to decrease the time required for full brake application. Standard.

RAIN BRAKE SUPPORT // When your car's windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard.

IN TOUCH WHEREVER YOU GO

The Uconnect® system is your customizable, connected vehicle platform dedicated to safe and seamless communication, navigation and entertainment – all from one easy-to-use touchscreen.

Uconnect

DRIVEUCONNECT.COM

COMPATIBILITY YOUR WAY

UconnectTM brings a wide range of interactive features to your vehicle and beyond through a highly intuitive communication experience.

UCONNECT PHONE¹³

Stay connected safely. Pairs a BluetoothSM phone to send and receive hands-freeSM calls. Includes:

- **DO NOT DISTURB** to route incoming calls to voice mail and suppress text messages.¹¹
- **VOICE RECOGNITION** to make hands-freeSM calls, listen and respond to text messages,¹¹ record voice memos, and select media stations and navigation destinations.

DRAG-AND-DROP MENU BAR

We've made it easy to customize your Uconnect dashboard with your favorite features and services. Simply press the Uconnect icon on the main menu bar to view all of the available apps. Tap and hold any one of the icons to drag and drop into a personalized menu bar.

SIRISM EYES FREE¹⁴

Just say it. Use voice commands with Siri Eyes FreeSM and your connected iPhoneSM to create and send texts,¹¹ make and receive calls, access directions, and play music. Available.

ONE-STEP NAVIGATION

Take the best route right now. Uconnect employs GPS Navigation for audible turn-by-turn directions, and detailed 3D maps help to ensure you arrive on time. Use Voice Command and say the complete address to get directions quickly. Available.

4G LTE WI-FI¹³ HOTSPOT

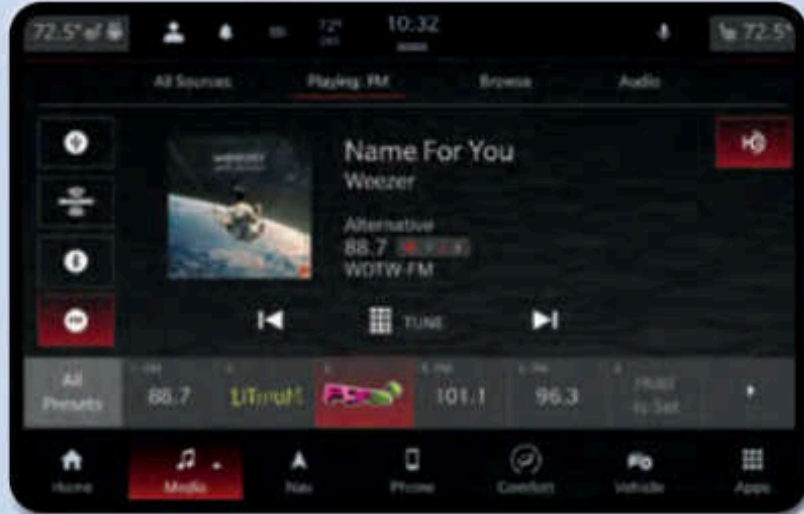

Along the way, you can upload, download, post and search. The 4G LTE Wi-FiSM Hotspot is improved with processing speeds that are five times faster and assist in keeping up to eight devices connected. Includes a three-month subscription with vehicle purchase. Available.

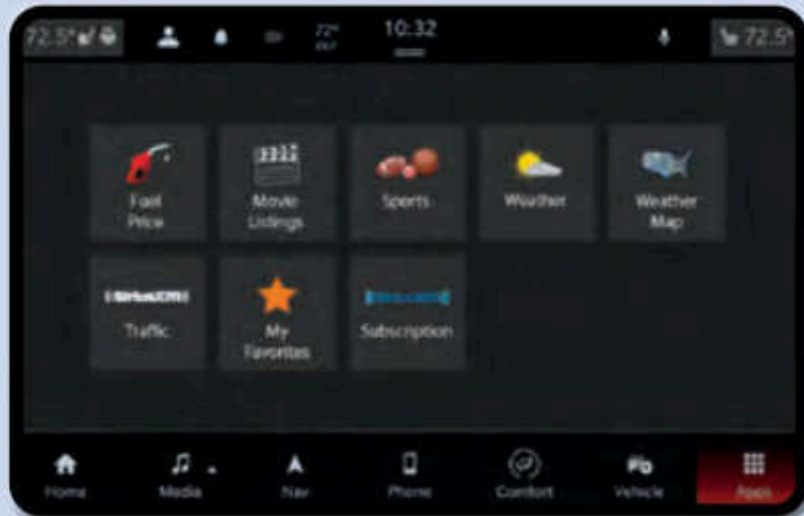

Display your favorite iPhone® apps right on your Uconnect® touchscreen. Access your iTunes® library, call anyone in your contacts list or just ask Siri™ to help you out while you drive. Get directions, make calls and send messages, and connect to Apple Music, all without pausing your drive. Standard.

Bring the best of Google with you in your Uconnect system. Talk to Google on Android Auto™ and get things done with your voice so you can keep your focus on driving. Easily send messages, get directions, control media and more. Just say, "Hey Google" or long-press the voice control button on your steering wheel. Standard.

SIRIUSXM[®] RADIO[™]

SIRIUSXM TRAVEL LINK[™]

Uconnect[®]

Trips are enhanced with informative and entertaining apps. Access them on your Uconnect[®] touchscreen as well as your smartphone. Connected technology keeps you linked to a whole new world.

(((SiriusXM)))[™]

Listen to your favorite playlist from your connected device, then flip to SiriusXM Radio[™] and enjoy the best commercial-free music, plus every major sport and the biggest names in entertainment, news and comedy. You'll get over 150 channels, all at the press of a button. With the SiriusXM All Access[™] package, you get every channel available on your satellite radio, and you can also listen wherever you go on your portable devices with the SiriusXM App[®], which is included with your trial. Available.

SiriusXM TRAVEL LINK[™]

Access useful information when you need it, right at your fingertips. Get detailed weather maps, five-day forecasts and severe weather alerts, as well as sports scores and in-game weekly schedules for your favorite teams, information on fuel prices in your area and more. Your first five years of SiriusXM Travel Link[™] are included. Available.

SiriusXM TRAFFIC PLUS[™]

Avoid congestion before you reach it. Get continuous updates on traffic speed, accidents, construction, road closures and more before you begin your travels. You will get to your destination faster and more easily than ever before. Your first five years of SiriusXM Traffic Plus[™] service are included. Available.

Uconnect® + SiriusXM GUARDIAN™

Drive worry-free with SiriusXM Guardian™ – a premium suite of safety and convenience services that can be accessed in-vehicle or through the Uconnect® App.²³ Includes a one-year trial. Available.

SOS CALL.¹⁹ In the event of an incident, push the SOS²⁰ button. You'll be connected to a SiriusXM Guardian™ agent who will contact emergency services, provide your location and stay on the line with you until help arrives.

AUTOMATIC SOS (ASOS) is a hands-free¹⁸ safety service that can immediately connect you with help in the event your vehicle's air bags²¹ deploy. Seconds after the incident, a live agent will contact you through the Uconnect system and alert emergency services. If you are unable to respond, the agent can direct emergency services to your GPS location.

ROADSIDE ASSISTANCE CALL²⁰ puts you in touch with an agent who can get you help while you're out on the road.

LOCK/UNLOCK your car from virtually anywhere.

START YOUR CAR REMOTELY.²¹

FLASH THE LIGHTS and sound the horn to help find your car in, for example, a parking lot.

VEHICLE FINDER²² allows you to locate your vehicle on a map.

SEND & GO²³ enables you to send destinations to your navigation system.

THEFT ALARM NOTIFICATION²⁴ Receive alerts by text, email or push notification if your vehicle's available theft alarm is triggered.

STOLEN VEHICLE ASSISTANCE²⁵

FAMILY DRIVE ALERTS²⁶ Peace of mind when you hand over the keys. Allows you to set parameters to receive notifications when others are operating your vehicle.

- **BOUNDARY ALERT.** Be alerted the moment your vehicle is driven out of up to five geographic boundaries that you set.
- **CURFEW ALERT.** Be alerted if your car is being driven outside of the curfew you set.
- **SPEED ALERT.** Receive a notification whenever your car exceeds a speed limit you set.
- **VALET ALERT.** Be alerted the moment your vehicle is driven outside of a defined radius.

SMARTPHONE/SMARTWATCH APP. Access the features of SiriusXM Guardian¹⁸ through the convenient Uconnect App,²³ which lets you use your smartphone or smartwatch to keep in touch with your vehicle from a distance.
