This is what happens when you have more than 45 years of muscle-car heritage coursing through your veins. You get modern-day marvels that are engineered with more passion, precision and performance than ever before. The Dodge brand may have started from humble beginnings, but it is now the fastest-growing performance brand.<sup>13\*</sup> It holds a multitude of best-in-class awards. It's the brand that boasts both style and power, and never makes you choose between the two. With more than 100 years under

their belt, each of the seven vehicles in the 2016 Dodge lineup pays homage to its iconic bloodline with award-winning features and superior craftsmanship. The snarling engines and sleek exteriors of each vehicle beg to be taken out on the open road. The Dodge name continues to live on with the same determination that the Dodge brothers had when first creating the brand. It's time to put the pedal to the metal and live fast. **HERE'S TO THE *NEXT 100 YEARS OF INNOVATION.***

\*A note about this brochure: all disclaimers and disclosures can be found on the back cover.

## 2016 DODGE CHALLENGER

THIS IS MORE THAN THE FOURTH-GENERATION DODGE CHALLENGER. THIS IS MODERN MUSCLE. A DOSE SO BOLD THAT IT HAS BROUGHT FORWARD A NEW WAVE OF ENTHUSIASTS. A GENERATION OF DRIVERS WHO CUT THEIR TEETH ON STORIES OF DRAG STRIPS, HORSEPOWER AND CUSTOM DETAILS. IT'S STYLED TO TURN DIEHARDS ON AND OUTFITTED WITH ENOUGH TECHNOLOGY TO SATISFY A NEW GENERATION OF THRILL-SEEKERS. ITS PERFORMANCE IS STRONG ENOUGH TO UPHOLD THE WEIGHT OF ITS LEGENDARY REPUTATION. AS THE WORLD'S FASTEST MUSCLE CAR EVER,<sup>†</sup> CHALLENGER SRT<sup>®</sup> HELLCAT BRINGS POWERFUL BRAGGING RIGHTS TO THE TABLE WITH 707 HORSEPOWER. THIS IS A DRIVING EXPERIENCE THAT ONLY A LEGEND CAN DELIVER. THIS IS THE 2016 DODGE CHALLENGER.

**BECAUSE YOU DIDN'T GROW UP WITH A POSTER OF A COROLLA ON YOUR WALL**

You didn't hope for basic transportation on your 16<sup>th</sup> birthday. You blew out the candles and wished for something fast. Something sporty. Something enviable. And if it had a HEMI<sup>®</sup> engine, all the better. Here's your wish come true. Challenger's iconic heritage-inspired design starts with menacing projector headlamps with quad halo LED surrounds, a heritage split grille surround, and the hood's power-bulge and functional inlets. Walk around this legend and you'll find it looks as intimidating from the rear as it does from the front.

*SRT*

The image features two large, circular rings of fire, one on the left and one on the right, set against a solid black background. The flames are bright orange and yellow, with a dynamic, swirling texture that gives the impression of intense heat and movement. The rings are positioned horizontally, with a small gap between them in the center.

## **RINGS OF FIRE**

The Challenger looks intimidating. And it should, considering what's lurking under its sleek sheet metal. But this modern beast is equally as fierce on the outside. The menacing projector headlamps with quad halo LED surrounds are a throwback to the famed '71. Challenger also gives other drivers a breathtaking parting shot — bold, seamless, split LED taillamps. Their design nods to the past while projecting a contemporary appearance.

The only thing retro is the atmosphere — the tech is purely 21<sup>st</sup>-century. The Challenger offers plenty of savvy features, including the seven-inch reconfigurable digital gauge cluster. Buttons on the steering wheel let you scan through hundreds of different vehicle configurations and customize what information you see and how you see it.

////// Engineered with technology, Uconnect® brings a range of communication and entertainment services directly to your Challenger. Intuitive and customizable, available Uconnect systems include a touchscreen display up to 8.4 inches and steering wheel-mounted controls that operate features like a Bluetooth®-enabled phone, Voice Command™ navigation, radio, cruise control and more.

Impressive in-vehicle connectivity through available Uconnect Access™. Access the following offerings with the simplicity of Voice Command™ and fingertip controls.

**9-1-1 CALL™** In the event of an emergency, a Call button on your rearview mirror connects you to local authorities.

**ROADSIDE ASSISTANCE CALL™** Flat tire or out of gas? The rearview mirror Assist button connects you to Roadside Assistance Service, which pinpoints your location. Additional fees may apply.

**STOLEN VEHICLE ASSISTANCE™** If your vehicle is stolen, Uconnect can provide its location to aid police recovery.

**THEFT ALARM NOTIFICATION™** Choose to receive a text or email alert anytime your vehicle's theft alarm is activated.

FIND OUT MORE AT [DRIVEUCONNECT.COM](http://DRIVEUCONNECT.COM)

YOU'RE IN COMPLETE CONTROL

////// Challenger R/T Plus shown with Black Nappa leather trim with Alcantara® Ruby Red suede inserts.

MUSCLE FROM THE INSIDE OUT // // // // Challenger's interior gives full bragging rights to those behind the wheel. Everything has been mapped and calculated for convenience, including the push-button start and the performance-inspired steering wheel with available paddle shifters. Heritage-inspired Tic-Toc-Tac gauges recall the original Challenger interior as do the shifter, door panels with premium soft-touch materials, and driver-centric center console featuring standard genuine stamped aluminum trim.

As the only vehicle in its class<sup>1</sup> with five-passenger seating and more interior volume than any other muscle car,<sup>2</sup> there's room for everyone.

// // // // Challenger R/T Scat Pack shown with Black Nappa leather trim with Alcantara® Ruby Red suede inserts and Scat Pack logo.

**////// 3.6L DOHC PENTASTAR® VARIABLE VALVE TIMING (VVT) 24V V6 WITH 305 HP AND 30 MPG HWY!** This robust 3.6-liter V6 delivers 305 horsepower, an estimated six-second 0 – 60 time and up to 30 mpg highway.\* It's the combination of a TorqueFlite® eight-speed transmission, fully independent dual-cam phasing, sequential port fuel injection, and high-flow intake and exhaust ports that result in this exceptional blend of high torque and fuel efficiency.

**////// 5.7L HEMI® V8 WITH UP TO 375 HP, 410 LB-FT OF TORQUE AND 25 MPG HWY!** Pair the 5.7-liter HEMI V8 with a standard TREMEC® six-speed manual (375 hp, 410 lb-ft of torque) and it takes you from 0 – 60 mph in the low five-second range. When equipped with the TorqueFlite eight-speed automatic (372 hp, 400 lb-ft of torque) and Fuel Saver Technology, eight cylinders transition to four when full power is not required to help provide an increase in fuel efficiency.

**////// 6.4L HEMI V8, 485 HP, 475 LB-FT OF TORQUE AND UP TO 25 MPG HWY!** The available HEMI V8 delivers a performance feast — 485 horsepower, 475 lb-ft of torque, an impressively flat torque curve and a 0 – 60 time in the low four-second range. When equipped with the TorqueFlite eight-speed, Fuel Saver Technology deactivates four cylinders if eight are not needed, creating a double threat of power and efficiency.

\*2015 EPA estimated 19 mpg city/30 mpg highway with 3.6-liter engine and eight-speed automatic transmission. Actual mileage may vary. †2015 EPA estimated 16 mpg city/25 mpg highway when equipped with automatic transmission. Actual mileage may vary. ‡2013 EPA estimated 15 mpg city/25 mpg highway. Actual mileage may vary.

EFFICIENCY IS A

**MUSCLE**

# PUT THE NEEDLE ON THE...

**TRACK-PROVEN TUNED CHASSIS** // High-demanding track conditions require tightly engineered hardware. Challenger R/T Scat Pack and 392 HEMI® Scat Pack Shaker showcase a high-performance tuned chassis that's ready to go.

**SHOCK ABSORBERS** // Bilstein® high-performance shock absorbers are precision-damped to provide a confident, smooth ride for the everyday commute while being fully capable for weekend track duty.

**SUSPENSION** // Options range from Sport-tuned to high-performance to the top-of-the-line competition suspension featuring adaptive damping. A bold combination of movement and staying power comes from a sophisticated suspension geometry and rear-wheel drive. Whether it's the everyday commute or more challenging driving situations, the class-exclusive<sup>(1)</sup> independent five-link rear suspension is finely tuned to help provide superior handling and a comfortable ride. When the rubber meets the road, a lower unsprung mass helps maintain better tire contact with the ground and reduces road noise. Models equipped with a 6.4-liter HEMI V8 feature unique suspension

geometry that helps improve balance, cornering ability and steering responsiveness. Exclusive Bilstein shocks and a lowered suspension allow these performers to achieve 0.93 G on the skid pad — on par with some of the world's best-handling cars. The three-mode Bilstein Adaptive Damping System on Challenger SRT® models takes drivers from Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest, max handling).

**AGGRESSIVE FRONT- AND REAR-CAMBER GEOMETRY** // Performance handling requires maximum road-holding grip, and Challenger Scat Pack models deliver with aggressive front- and rear-camber geometry. Set at -1.0 degrees in the front and -1.75 degrees in the rear, Challenger is set up for high-speed cornering with its tires leaning inboard at the top relative to the body.

**BRAKES** // Standard four-wheel antilock disc brakes provide solid stopping power. Available Brembo® brakes create superior cooling and fade performance courtesy of wind tunnel-designed brake cooling ducts that direct airflow to vented rotors for consistent stopping power.

# A LEGACY OF POWER AND PERFORMANCE

////// The TorqueFlite® eight-speed automatic transmission helps deliver impressive fuel efficiency and world-class precision. Available Dodge Performance Pages, paddle shifters and standard Sport Mode help lower shift times from 350 to 160 ms, depending on model.

////// When the TorqueFlite is mated to the Supercharged 6.2-liter SRT® Hellcat HEMI® V8, it's fortified to withstand the groundbreaking 707 horsepower and 650 lb-ft of torque unleashed by the engine. Enhancements include additional pinion gears and five more clutch pack discs.

////// The passion of the manual is alive and well. Challenger also offers the intensity of a heavy-duty TREMEC® six-speed manual transmission that boasts an external vehicle-mounted oil cooler. Standard on R/T and SRT models.

////// Challenger 392 HEMI® Scat Pack Shaker shown in Go Mango.

**YOU'VE EARNED YOUR STRIPES** // // // There are car lovers, and then there are those who eat, breathe and sleep cars. Who spend their free-time tinkering. Who can't leave well enough alone. Who remember a time when you didn't show up unless your car was tricked out with parts, stripes and a Scat Pack sticker on the quarter-glass that served as a tell that your Challenger was hiding something substantial under the hood. There's another generation that won't settle for just a performance car. They're seeking the ultimate combination of raw power, pure performance and authentic attitude. These vehicles are for both contingents.

**THE PIONEERS OF MUSCLE: DODGE, MOPAR<sup>®</sup>, SCAT PACK** // // //

392 HEMI<sup>®</sup> Scat Pack Shaker is the real deal, straight from the factory. We're talking functional, fully floating, open-element Shaker hood scoop with cold air induction. A Mopar Cold Air Intake, conical air filter and legendary 6.4-liter HEMI V8 engine churn out 485 horsepower and 475 lb-ft of torque. Because power means nothing without control, four-piston Brembo<sup>®</sup> brakes, 3-mode Electronic Stability Control (ESC)<sup>1700</sup> with Full-Off Mode, high-performance suspension with 20x9-inch wheels and performance steering are standard.

The 392 HEMI Scat Pack Shaker shows its supremacy with a 392 HEMI badge on the Shaker hood scoop, bold hood-to-tail stripes and a retro fender badge.

////// Challenger 392 HEMI Scat Pack shown in Plum Crazy

707 HORSEPOWER

//// THE MOST POWERFUL MUSCLE CAR. EVER.™

## HIGH-PERFORMANCE BIRTHRIGHT

The most powerful and fastest muscle car. Ever.<sup>TM</sup> The statement is bold and the numbers behind it robust enough to support it: 707 horsepower, 650 lb-ft of torque, a bewildering quarter-mile time\* of 10.8 seconds and a top speed of 199 mph.

There is no other production car that can match the hard-core power of the 2016 Dodge Challenger SRT® Hellcat propelled by the Supercharged 6.2-liter SRT Hellcat HEMI® V8. The driver can opt to mate this powerplant to the TorqueFlite® eight-speed automatic transmission that's uniquely designed to withstand that epic horsepower and torque, or to the high-performance Viper modified TREMEC® six-speed manual transmission that boasts an internal cooling pump and external, vehicle-mounted oil cooler.

\*NHTSA certified 10.8 @ 126 with street-legal drag tires. 11.2 @ 125 with production tires.

////// Challenger SRT® Hellcat shown in TorRed with standard 20x9.5-inch lightweight forged aluminum wheels with available Brass Monkey finish.

*\*Professional driver. Closed course.*

**//// CHALLENGER SRT® HELLCAT AND CHALLENGER SRT 392.** This is the Supercharged 6.2-liter SRT Hellcat HEMI® V8 that lives up to the hype. Starting at the source, the engine features a forged-steel crankshaft and induction-hardened bearing surfaces, a specially tuned crank damper tested to 13,000 rpm, high-strength forged-alloy pistons coupled to powder-forged connecting rods, high-load capacity bushings and diamond-like carbon-coated piston pins. Premium-grade heat-treated aluminum cylinder heads with die-cast aluminum rocker covers are optimized for superior thermal conductivity.

The Supercharger houses internal charge coolers and an integrated electronic bypass valve that has the equivalent ability to suck the air out of a 10x13-ft room in one minute. The twin-screw rotors are specially treated to accommodate tighter internal tolerances between the rotors and improve overall performance. Air is delivered into the engine's air box via the Air Catcher™ Inlet Port located in the driver's-side parking lamp. A 92mm throttle body controls airflow into the Supercharger, air charger coolers and then into the inlet port — another unique Challenger SRT Hellcat feature.

With this kind of power, it's a given that the exterior demands exclusive extras. A Viper inspired aluminum hood crowns SRT Hellcat, while the functional scoop is flanked by an equally functional set of air extractors, which effectively remove heat from the engine

compartment and reduce air turbulence. Bold SRT Hellcat badges flank the fenders so there's no mistaking it from anything else on the road. Owners are handed both a Red and Black key fob at delivery. The Black key restricts power to 500 horsepower, while the Red key unlocks the full 707 horsepower.

Challenger SRT 392 makes its authority known with a robust, naturally aspirated 6.4-liter SRT HEMI V8 engine with a powerful 485 horsepower and 475 lb-ft of torque. Both SRT 392 and SRT Hellcat let drivers personalize their drive experience via the Drive Modes features: pre-configured Default, Sport and Track settings, as well as a Custom setting for a uniquely tailored experience.

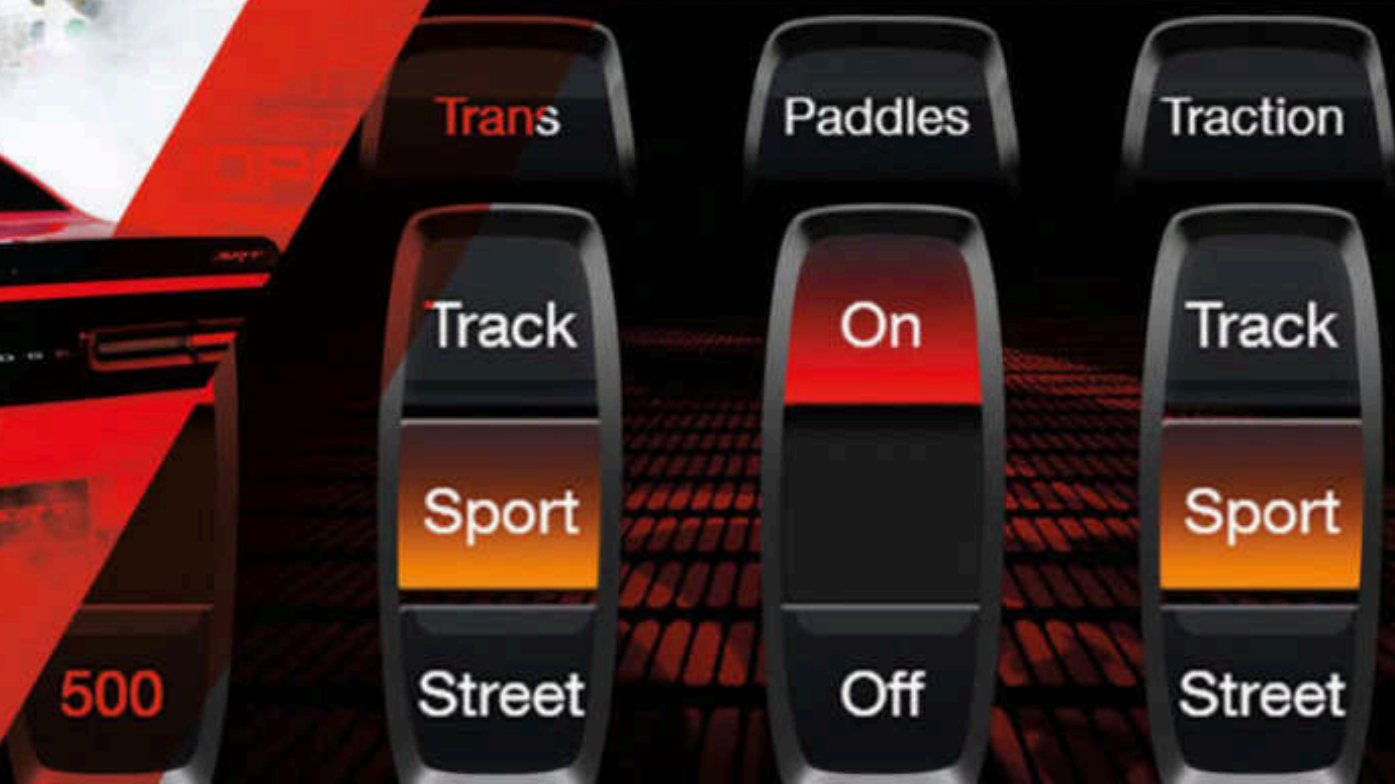

Inside, both SRT 392 and SRT Hellcat sport a blend of premium materials, race-inspired technology and heritage-influenced design cues. The SRT performance steering wheel features available paddle shifters and standard full-circumference heat while the high-performance Laguna leather-trimmed heated and ventilated seats with race-inspired bolsters keep you planted. Performance stats and vehicle data can be customized and viewed in more than 100 potential configurations between the seven-inch reconfigurable digital gauge cluster and SRT Performance Pages displayed on the standard Uconnect® 8.4 multimedia center's 8.4-inch touchscreen.

## 2016 DODGE CHARGER

IF HISTORY HAS TAUGHT US ANYTHING, IT'S TO RESPECT THOSE THAT CAME BEFORE US AND TO NEVER FORGET WHERE WE CAME FROM. CHARGER ABIDES BY THESE GOLDEN RULES. THROUGHOUT ITS STORIED HISTORY, IT HAS NEVER LOST SIGHT OF ITS ICONIC ROOTS AND NEVER SACRIFICED THE PERFORMANCE THAT ENTHUSIASTS THRIVE ON. IN FACT, WE'VE FLEXED OUR TECHNOLOGY TO DELIVER IMPRESSIVE COMBINATIONS OF POWER AND MILES PER GALLON. THE RESULT IS AN ENVIABLE POWERTRAIN LINEUP, ONE THAT INCLUDES THE 707 HORSEPOWER CHARGER SRT® HELLCAT — THE QUICKEST, FASTEST AND MOST POWERFUL SEDAN EVER.<sup>\*\*\*</sup>

# PURE AMERICAN MUSCLE

Charger's amped-up attitude is so fierce, it's impossible to ignore. The first glance sends chills. The second begs you to run your hand along its low, lean profile and scalloped bodyside. Its imposing grille leaves no question where this retro-modern muscle comes from. Front to rear, Charger commands authority with projector headlamps and LED lighting. Even the most discerning eyes take note.

////// Charger SXT shown in Pitch Black with Premium Group.

**MINED FROM THE ARCHIVES //**

The heritage-inspired Charger R/T Scat Pack proudly wears the Scat Pack Bee on its Gloss Black grille. Built for performance, a large inlet and scoop transfers gulps of fresh air beneath the hood to efficiently cool the engine compartment. The 392 HEMI® fender badges let onlookers know exactly what's under the hood. Available High Intensity Discharge (HID) headlamps with LED daytime running lamps and bulked-up 20x9-inch wheels amp up the track-infused design. Its rear heat extractors and I-piece Satin Black Performance Spoiler bear witness that this vehicle means business.

## MORE THAN ONE WAY TO MOVE YOU

Don't just love us for our body. Want us for our technology. Appreciate us for our soft spaces and for our ability to accommodate all your friends.

Charger's driver-focused interior is stocked with race-inspired details, bold colors and retro-cued soft-touch surfaces. A genuine, 1-piece stamped aluminum instrument panel bezel adds the finishing touch on an interior that is dedicated to the details.

Take control with the thick-rim three-spoke Sport steering wheel. Available paddle shifters with rev-matching capability bring track-inspired performance to the everyday drive.

////// Charger R/T Road & Track shown in Black/Pearl Nappa leather with Sepia accent stitching and perforated inserts.

## SHIFT YOUR PERSPECTIVE

It's class-exclusive<sup>123</sup> and standard on every Charger model — a seven-inch reconfigurable digital gauge cluster. From here, you get real-time information and vehicle status updates in full color, as well as available turn-by-turn navigation information and visual safety system notifications.

Keep tabs of performance numbers including 0 – 60 time, reaction time and lap timer with available Dodge Performance Pages. The pages also include configurable Drive Modes that allow you to make performance adjustments to the engine, transmission, steering response and traction control.

The redesigned center console shifter gives Charger a distinctive level of sophistication. The electronic shifter with AutoStick mimics the operation of a traditional linkage shifter, while allowing for smoother and more efficient shifting.

Seating for five ranges from premium cloth to Nappa leather trim and Alcantara® suede to premium Laguna leather. Standard Dual-Zone Temperature Control and available heated/ventilated front seats, heated rear seats and full-circumference heated steering wheel bring year-round comfort, in any climate.

# POWER

WITHOUT COMPROMISE

////// **3.6L DOHC PENTASTAR® VARIABLE VALVE TIMING (VVT) 24V V6 WITH MAX 300 HP AND UP TO 31 MPG HWY.\*** This powerplant boasts 292 horsepower and kicks the ponies up to 300 when paired with the available Rallye Group that includes Sport Mode, cold-air induction, sport-tuned exhaust and die-cast paddle shifters. Couple that with the standard TorqueFlite® eight-speed for an impressive combination of 0 – 60 in the mid six-second range and up to 31 mpg highway.\*

////// **5.7L HEMI® VVT V8 WITH 370 HP, 395 LB-FT OF TORQUE AND UP TO 25 MPG HWY!** The legendary engine releases a big dose of horsepower, impressive torque and a 0 – 60 mph acceleration in the low five-second range. The standard TorqueFlite eight-speed automatic transmission with AutoStick and Fuel Saver Technology helps Charger deliver a whole new level of performance and efficiency. It's technology like this that supplies Charger with an equal dose of muscle and responsibility.

////// **6.4L HEMI V8, 485 HP, 475 LB-FT OF TORQUE AND UP TO 25 MPG HWY!** Standard on Charger R/T Scat Pack and SRT® 392, the intensity of this HEMI V8 churns out a potent 485 horsepower and 475 lb-ft of torque across a wide rpm range. Charger SRT accelerates from 0 – 60 mph in the high four-second range and covers a quarter-mile in the high 12-second range. The robust TorqueFlite eight-speed automatic transmission features rev-matching on downshifts.

////// **6.2L SRT HELLCAT HEMI V8 WITH 707 HP AND 650 LB-FT OF TORQUE.** This is the baddest of the bunch. It assaults the asphalt with 707 horsepower and an unreal 650 lb-ft of torque. Paired to the class-exclusive<sup>1271</sup> TorqueFlite eight-speed, it delivers impressive street driving and maximum performance with 160-millisecond shifts and rev-matching on downshifts. The SRT TorqueFlite eight-speed features enhancements over the standard version to be able to withstand the groundbreaking power, including additional pinion gears and five more clutch pack discs.

\*2015 EPA estimated 19 mpg city/31 mpg hwy. Actual mileage may vary. †2015 EPA estimated 16 mpg city/25 mpg hwy. Actual mileage may vary. ‡2015 EPA estimated 15 mpg city/25 mpg hwy. Actual mileage may vary.

*YOU CAN DEFINITELY  
FEEL IT COMING*

CHARGER R/T SCAT PACK // Loaded with a legendary 6.4-liter HEMI® V8, this powerhouse unleashes 485 horsepower and 475 lb-ft of torque. Four-piston Brembo® brakes, 3-mode Electronic Stability Control (ESC)<sup>TM</sup> with Full-Off Mode, and high-performance suspension with Bilstein® shocks, 20x9-inch wheels and available Three-Season Performance tires work together to bring top-shelf control. The interior merges retro styling with modern technology. Race-inspired seats feature the famed Scat Pack logo embroidered on either standard high-performance premium cloth or available Nappa leather trim with

Alcantara® suede inserts. Standard on the R/T Scat Pack model, Dodge Performance Pages feature everything from Launch Control to a G-force meter to drag-race timers. This real-time data can also be displayed on either the 8.4-inch Uconnect® touchscreen or the standard seven-inch reconfigurable digital display nestled between the gauges. For an even greater degree of personalization, the Charger R/T Scat Pack customizable settings can be accessed through the standard Uconnect touchscreen that gives the driver the ability to adjust steering feel, transmission shift points and throttle response.

////// Charger R/T Scat Pack shown  
in Granite Crystal Metallic.

## 707 HORSEPOWER

There's a reason that the only sounds out there are the incredibly aggressive exhaust notes floating from the pipes of the Supercharged 6.2-liter SRT® Hellcat HEMI® V8. Push came to shove and it was time for everyone to either put up or shut up. We posted our numbers — a mammoth 707 horsepower and 650 lb-ft of torque — and not surprisingly, no one had anything left to say.

Dodge Charger SRT Hellcat showcases unrivaled four-door performance that includes an NHRA-certified quarter-mile elapsed time in 11.0 seconds on street tires and 0 – 100 – 0 mph in under 13 seconds.

With numbers like these, Charger SRT Hellcat is the quickest, fastest and most powerful sedan. Ever.<sup>[1]</sup>

Tip to tail, inside and out, Dodge Charger SRT® Hellcat reigns supreme. Whether you're checking out its menacing sheet metal or its track-inspired interior, it's clear this machine exudes unrelenting power.

Extensive wind tunnel and road testing helped create an engine cooling package that lets SRT Hellcat outperform other sedans without fear of degradation. The sculpted aluminum hood showcases a colossal air intake and dual heat extractors that vacate the heat that an unmatched<sup>[2]</sup> 707 horsepower can make.

Drive Modes tailor the driving experience by controlling horsepower, transmission shift speeds, paddle shifters, traction control and suspension settings. Drive Modes are pre-configured for Sport, Track and Default settings, while the Custom Mode allows the driver to configure their own unique driving experience.

The Bilstein® three-mode Adaptive Damping Suspension on Charger SRT Hellcat models provides selectable driving dynamics settings that adjust shocks and transmission shifts to suit any drive — Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest, max handling).

Program your driving experience and keep track of performance data via customizable SRT Performance Pages. Everything from horsepower to G-force meter to drag-race timers to downloadable apps is right at your fingertips. This real-time data can be displayed on the seven-inch reconfigurable digital gauge cluster or on the class-exclusive<sup>[3]</sup> 8.4-inch Uconnect® touchscreen.

At delivery, SRT Hellcat owners are handed both a Red and Black key fob. The Red unlocks the potential max horsepower while the Black enables more conservative performance.

## 2016 DODGE DART

UNLIKE ITS COMPACT-SEGMENT COMPETITORS, DODGE DART COMES WITH BRAGGING RIGHTS. BORN FROM THE SAME BLOODLINE THAT BIRTHED DODGE CHALLENGER AND CHARGER, DART HAS AUTHENTIC PERFORMANCE DNA SOARING THROUGH ITS POWERTRAIN AND RACE-INSPIRED DESIGN CUES, INSIDE AND OUT. IT'S FORTIFIED WITH TECHNOLOGY AND AVAILABLE WITH ENVY-INDUCING FEATURES UNCOMMON IN ITS CLASS. THIS ISN'T A ONE-SIZE-FITS-ALL CATEGORY CAR. IT'S A CAR THAT MAKES CATEGORY CARS NERVOUS. PUT YOURSELF IN THE DRIVER'S SEAT AND ENJOY A RIDE THAT LEAVES A LASTING IMPRESSION.

[LEARN MORE](#)  
[DODGE.COM](#)

**STREET CRED //**

Unmistakable crosshair grille and aggressive-looking fenders make Dart's exterior just as potent as its performance. Its full-width mask treatment and broad, low-slung stance give it the fierce attitude Dodge is known for. It's the attention to detail that elevates it above its competition — a sleek laser-brazed roof, dramatic, rounded hood, and slim and modern standard projector headlamps or available projector fog lamps. This is the total package.

Dart GT shown in Redline Red 2-Coat Pearl with available Sport appearance hood.

# RACE-INSPIRED PERFORMANCE

2.0L DOHC 16-VALVE TIGERSHARK® WITH VARIABLE VALVE TIMING (VVT) // // // // // 160 horses and 148 lb-ft of torque work together to bring impressive low- and mid-range torque for greater drivability and overall fuel efficiency.

1.4L SOHC 16-VALVE INTERCOOLED TURBO WITH MULTIAIR® // // // // // This powerplant, found in the Aero models, churns out 160 horsepower and 184 lb-ft of torque from 2,500 – 4,000 rpm. The exceptional horsepower-per-liter ratio yields the ultimate combination of power and fuel efficiency, allowing you to cruise confidently with up to 41 mpg highway.\*

2.4L SOHC 16-VALVE TIGERSHARK WITH MULTIAIR2 // // // // // Savvy technology brings 184 horsepower and 174 lb-ft of torque to this engine.

Dart's six-speed transmission lineup kicks in just as much capability as its engines. Options include a highly advanced, close-ratio manual or a PowerTech automatic that can be mated to the 2.0-liter or 2.4-liter engines. Or choose an advanced Dual Dry Clutch Transmission (DDCT) on the 1.4-liter Turbo.

Dart GT's standard sport-tuned suspension system corners more tightly at higher speeds while frequency-dampening shock absorbers provide highly responsive control as well as a smooth ride.

\*EPA estimated 28 mpg city/41 mpg highway. Aero model using 1.4L Turbo engine, premium gasoline and 6-speed manual transmission. Actual mileage may vary.

AN ATMOSPHERE OF TECHNOLOGY, COMFORT AND STYLE

////// Dart GT shown with Black leather-trimmed seats and Ruby Red accent stitching.

**DART'S INTERIOR IS A BIG DEAL** // // // // Revolutionary design and innovative engineering allow this compact to feel and function like a roomy sedan. Don't just take our word for it. Dart's overall passenger space and interior volume allow it to be technically classified by the EPA as a mid-size sedan. Available features like the 60/40 split-folding rear seatback with trunk pass-through give weekend warriors space for oversized gear. A laptop or tablet stows easily in the cavernous glove box. The center console is more like an entertainment hub with available USB and auxiliary power outlets. Side saddle cubbies store your handheld electronics. The bottom line — Dart has serious space for you, your friends and everything needed for a good time.

// // // // Dart GT shown with Black leather-trimmed seats and Ruby Red accent stitching.

Take a good look. This is what it's like to sit behind the wheel of the most technologically advanced vehicle in its class.<sup>(2)</sup> The available class-exclusive<sup>(3)</sup> seven-inch reconfigurable digital gauge cluster is command central. From here you get real-time information on performance, navigation, fuel efficiency and vehicle status, plus view available Blind Spot Monitoring (BSM);<sup>(4)</sup> all in full color and with rich graphics. How you customize the settings is all up to you.

////// Turn up the tunes, phone a friend and get directions all from available Uconnect® offerings. As large as an available class-exclusive<sup>(1)</sup> 8.4 inches, the touchscreen features easy-to-navigate icons for radio and SiriusXM® Satellite Radio<sup>(2)</sup> controls, personal devices such as an iPad® or smartphone, climate controls, and available navigation and Bluetooth®-compatible phones. Bring along your own tunes via remote USB port with an iPod or smartphone, climate controls, and available navigation and Bluetooth®-compatible phones. Bring along your own tunes via remote USB port with an iPod or smartphone, climate controls, and available navigation and Bluetooth®-compatible phones. Bring along your own tunes via remote USB port with an iPod or smartphone, climate controls, and available navigation and Bluetooth®-compatible phones.

WEB<sup>(4)</sup> Put the power of high-speed Internet in your Dart with Mopar® Web. Passengers can use multiple devices at the same time, and there's no need for cell cards or software. Available. Subscription required. Sold separately.

## SAFETY & SECURITY FEATURES

**PARKSENSE® REAR PARK ASSIST<sup>TM</sup>** //// When the vehicle is in Reverse, the system can sense objects at low speeds. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Available on Challenger, Charger and Dart.

**RAIN BRAKE SUPPORT** //// When the windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard on Challenger, Charger and Dart.

**LANESENSE® LANE DEPARTURE WARNING WITH LANE KEEP ASSIST<sup>TM</sup>** //// Alerts and assists the driver, leverages electric power steering (EPS) to deliver subtle steering-wheel input when the system detects the need for course correction. Available on Charger.

**BLIND SPOT MONITORING (BSM)<sup>TM</sup> WITH REAR CROSS-PATH DETECTION<sup>TM</sup>** //// Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons on the sideview mirrors and by audible chime. The system includes Rear Cross-Path Detection,<sup>TM</sup> which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of tight parking spots. Available on Challenger, Charger and Dart.

**ADAPTIVE CRUISE CONTROL<sup>TM</sup>** //// Helps maintain distance from the vehicle ahead. Available on Challenger. Under certain traffic conditions, Charger models with this system can bring the vehicle to a full stop without driver intervention.

**FULL-SPEED FORWARD COLLISION WARNING (FCW) WITH ACTIVE BRAKING<sup>TM</sup>** //// Radar and camera technology combine to determine if frontal impact appears imminent; if so, the system pre-fills the brakes, then transmits audible and visual warnings for the driver to intervene. No driver response triggers brief brake application as a tactile alert; if the driver remains unresponsive and a frontal collision risk remains, brakes are applied to slow the vehicle before impact. The system can bring the vehicle to a full stop if speed is reduced below 20 mph. Available on Charger. Available with Challenger models, FCW<sup>TM</sup> system transmits audible and visual warnings. Warning sensitivity can be adjusted to driver preference.

**PARKVIEW® REAR BACK-UP CAMERA<sup>TM</sup>** //// This system displays an accurate visual reference of what is behind your vehicle when it's in Reverse. Available on Challenger, Charger and Dart.

**READY ALERT BRAKING (RAB)** //// The system anticipates situations when the driver may initiate an emergency brake stop and uses the Electronic Stability Control (ESC)<sup>TM</sup> pump to precharge the brake system in order to decrease the time required for full brake application. Standard on Challenger, Charger and Dart.

**ELECTRONIC STABILITY CONTROL (ESC)<sup>TM</sup>** //// This system is designed to assist drivers in maintaining control of their vehicles during extreme steering maneuvers. ESC<sup>TM</sup> senses when a vehicle is starting to spin (oversteer) or plow (understeer), and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels. Standard on Challenger, Charger and Dart.

**RAIN-SENSING WINDSHIELD WIPERS** //// System sensors automatically detect moisture on the windshield and activate the wipers. Available on Challenger, Charger and Dart.

//// Dodge Challenger RT shown with Authentic Accessories by Mopar: Shaker Hood Package, C-Stripe Graphic and 20-inch Lightweight Race Wheels.

//// Mopar was born with a dedication and drive for pure performance. Our desire to move ahead has kept pace with our desire to always be authentic. We know that the only thing better than owning a Dodge Challenger, Charger or Dart is owning one unlike any other. Mopar Parts and Accessories push your ride to the next level. They are carefully crafted specifically for your vehicle for a true, seamless fit and finish and exact color match. Choosing Mopar speaks volumes to your appreciation of custom detail and bold performance. See your dealer for the full line of Authentic Accessories available for your Dodge vehicle or visit [mopar.com](http://mopar.com)

#### MOPAR ACCESSORIES ////

# DODGE

DODGE IS A REGISTERED TRADEMARK OF FCA US LLC.

[1] Data is calculated using the latest available year-over-year (YOY) retail vehicle registrations. [2] Based on the latest competitive information and *Motor*'s Standard Specialty segment based on *Car & Driver* 16-mile time. [3] Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit [UconnectPhone.com](http://UconnectPhone.com) for system and device compatibility. [4] Uconnect Access is available only on equipped vehicles purchased within the 50 United States. Services can only be used where cellular coverage is available, see coverage map for details. For a complete list of Uconnect Access services, please visit [http://www.fcauconnect.com/features/uconnect\\_access/packages/](http://www.fcauconnect.com/features/uconnect_access/packages/). Vehicle must be registered for Uconnect Access and fulfill minimum subscription requirement. [5] The 9-1-1 Call Button will connect you directly with Emergency Assistance. If you accidentally press the button, you have 10 seconds to cancel the call by either pressing the 9-1-1 button on the rearview mirror or the Cancel button on the Uconnect touchscreen. [6] Provides direct-dial access to Roadside Assistance Service. Vehicle must be within the United States, have network coverage and be registered with Uconnect Access with an active subscription that includes the applicable requirements. Vehicle must also be properly equipped and in an active and usable cellular range. Theft Alarm Notification is only available on factory-installed alarms. [7] Based on the latest available competitive information and *Motor*'s Mobile Specialty Vehicle segment. [8] No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adjust speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. [9] Excludes non-mass-product (m) vehicles based on horsepower, top speed and NHTSA-certified 16-mile testing. [10] Based on the latest available competitive information and 2015 *Motor*'s Large Regular Car Vehicle segment. Excludes other FCA US LLC vehicles. [11] Based on the latest available competitive information and 2015 *Motor*'s Small Upper Sedan Vehicle segmentation costing under \$25,000. [12] Always check visually for vehicles prior to changing lanes. [13] SiriusXM subscriptions for audio and data services are sold by SiriusXM to follow your local subscription. If you decide to continue listening after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply to content; you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms and get more information at [www.siriusxm.com](http://www.siriusxm.com). All fees and programming subject to change. Your equipment and features for SiriusXM services will vary depending upon the vehicle you select and may be limited in select markets. [14] WiFi subscription required. Vehicle must be registered with Uconnect Access and fulfill minimum subscription requirements. Vehicle must be properly equipped and in active and usable cellular range for WiFi usage. WiFi Hotspot does not enable direct communication between multiple in-vehicle devices. Factors affecting the performance of WiFi Hotspot include: cellular network, signal strength and quality, time of day, number of channels used by the service provider, type of connection, number of clients using WiFi Hotspot and client device. This feature is not intended for use by the driver while the vehicle is in motion. Always drive safely. [15] Based on the latest competitive information available. [16] Always look before proceeding, electronic drive aid is not a substitute for inattentive driving; always be aware of your surroundings. [17] LDR is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [18] ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [19] FCW system is solely an alert system for the front of the vehicle which does not take any actions to change the vehicle dynamics to avoid a collision and is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [20] Voice Text Reply and Voice Texting features require a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit [UconnectPhone.com](http://UconnectPhone.com) for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered for Uconnect Access and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Visit [UconnectPhone.com](http://UconnectPhone.com) for system and device compatibility. [21] Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. [22] The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. [23] Tradeable. See dealer for complete details and a copy of the 5-Year/50,000-Mile Powertrain Limited Warranty.
