

2022 //
DODGE DURANGO

DNA

PERFORMANCE, POWER AND MUSCLE

Now and forever, Dodge is about performance, power and muscle. But that formula isn't simply calculated by the amount of **intense** horsepower and torque our vehicles produce. **Performance** is also measured by the way advanced safety and security features protect passengers. The onboard **technology** that helps keep occupants

connected to the people, places and entertainment that matter most is another gauge of power. **Muscle** can be tracked by the ability to tow hefty loads, seat up to seven passengers and bring **efficiencies** to engines. Every vehicle in the 2022 lineup is designed to live up to the pillars that support the **Dodge Brand**.

BROTHERHOOD OF MUSCLE

**CHARGER SRT HELLCAT[®] REDEYE WIDEBODY
JAILBREAK //**
shown in Frostbite.

DURANGO SRT[®] //
shown in Destroyer Grey with available Flame Red
dual stripes, Black Package and Cargo Plus Group.

CHALLENGER SUPER STOCK //
shown in Go Mango.

DURANGO STANDS ALONE

In the world of mid-size three-row SUVs, Durango stands out with muscle-car performance. This powerhouse is built for those who are **passionate** about horsepower, torque and muscle. They're also the ones who want to pull their boat, haul the quads and take the neighbor kids skiing. That's why our lineup includes a **seven-passenger muscle car**. With three rows of seats, room for up to seven people or a maximum of 85.1 cu ft of cargo space at your disposal, Durango has room for who and what you need. Count on Durango to handle all of the demands life throws at you.

DURANGO CITADEL // NEXT-LEVEL SOPHISTICATION.

Citadel is the all-in luxury trim level in the Durango lineup. **Standout style** starts with a standard Anodized Platinum Appearance Package that brings Platinum chrome accents to door handles, mirror caps and the lower side sill cladding. Even the 20 by 8-inch wheels feature a Satin Carbon finish.

The interior showcases an integrated center stack, 7-inch performance cluster and gauges, Uconnect[®] 5 infotainment radio with a **10.1-inch touchscreen** and wireless charging pad. The wrapped instrument panel stands out with accent stitching, while Dinamica suede

covers the headliner. Other details include Nappa leather trim seating with an embossed Dodge Rhombus logo, heated and ventilated front seats, Liquid Titanium-painted speaker trims, and Type-A and the coveted Type-C USB ports.

Citadel style is matched with substance that includes a **formidable powertrain** and a full suite of standard safety and security features.

DURANGO SRT[®] 392 // STRONG BUT NEVER SILENT.

From the throaty, **aggressive** whirl from the HEMI[®] engine to the rumble from the performance exhaust, Durango SRT 392 delivers an aggressive dose of performance, **horsepower and capability**. The 392 HEMI[®] V8 engine unleashes 475 horses, 470 lb-ft of torque and delivers a 0 - 60-mph drag strip time of 4.4 seconds. Consider the certified 12.9-second 1/4-mile time by the National Hot Rod Association (NHRA), and Durango SRT holds even more bragging rights - and that's without even going into detail about the 8-speed Performance-tuned transmission, Sport-tuned All-Wheel Drive, high-flow dual exhaust with 102-mm (4-in) outlets, massive 295 tires on 20 by 10-inch wheels and huge Brembo[®] brakes.

DURANGO SRT® //
shown in Octane Red Pearl with available
Redline Red/Black dual graphic stripes,
Black Package and Cargo Plus Group.

SPORTY, REFINED AND LOADED WITH TECH // All Durango trim levels flex a race-inspired cockpit with styling cues borrowed from the Dodge Challenger. The sleek dash leans in toward the driver for ergonomic comfort, while the instrument panel showcases a 7-inch Thin Film Transistor (TFT) cluster design with full-color graphics. The available flat-bottom steering wheel takes its performance feel to the next level with available paddle shifters. The standard Uconnect[®] 4 includes an 8.4-inch touchscreen, while the available Uconnect 5 radio features a 10.1-inch touchscreen display. An integrated control switch bank adds quick access to available heated front seats and heated steering wheel controls. Having multiple devices that require different types of charging cords isn't a problem. The center console houses an auxiliary input and two sets of USB connections (Type-A/-C pairs). Need more? Opt for a second-row console that also has Type-A and Type-C USB ports.

Durango SRT[®] shown with available Laguna leather trim in Black and Demonic Red.

10.1-INCH TOUCHSCREEN //
The available Uconnect® 5 system offers functionality that works both inside and outside the vehicle.

UNTETHERED, UNBRIDLED,
UNDENIABLY DODGE

WIRELESS CHARGING PAD //

An available wireless charging pad adds ease and convenience.

DURANGO SRT® //
shown in Destroyer Grey.

SEAT UP TO SEVEN

50+ SEATING CONFIGURATIONS // With three rows of seats or a maximum of 85.1 cu ft of cargo space (with all seats folded), Durango lets you strike the right balance of seating and cargo. The standard 60/40 split-folding second-row reclining bench seat features a padded center armrest with cup holders and allows for

seven-passenger comfort. The 50/50 split-folding third-row seat is standard across all models. For six-passenger seating, the available Fold-and-Tumble second-row Captain's Chairs include soft-touch armrests and a floor-mounted mini console with cup holders (six-passenger seating shown above).

DURANGO R/T //
shown in White Knuckle.

**REV IT UP, LAY
IT DOWN.**

DURANGO CITADEL //
shown in DB Black.

TOWING PRODIGY:

8,700 LB

WITH THE 6.4L HEMI[®]
V8 ENGINE

FORMIDABLE TOWING ON EVERY TRIM // When it's time to tow, Durango is at the ready. The lineup starts with up to 8,700 lb of towing on SRT[®] models equipped with the 6.4L HEMI V8 as well as on R/T models equipped with the Tow N Go Package. Trim levels mated to the available 360-horsepower 5.7L HEMI V8 engine and available Trailer-Tow Group IV offer up to 7,200 lb of towing. When the 3.6L Pentastar[®] V6 engine is under the hood, Durango can tow up to an impressive 6,200 lb.

DURANGO SRT // shown in Destroyer Grey with optional Gunmetal Low-Gloss dual graphic stripes, Black Package and Trailer-Tow Group IV.

POWERFUL EVEN WHEN STOPPING //

Standard 4-wheel antilock disc brakes provide solid stopping power. Additional stopping power comes from the available Brembo® Performance Brake System, featuring vented two-piece front rotors and four-piston front calipers for outstanding heat management and that provide superior braking performance. For superb stopping capabilities, the SRT® engineered Brembo Performance Brake System, with six-piston front and four-piston rear calipers, results in improved performance braking when paired with wind-tunnel-designed brake ducts.

DURANGO GT AWD //
shown in Octane Red Pearl
with Blacktop Package.

AWD

ALL-WHEEL DRIVE

CONFIDENCE WHEN IT COUNTS // Wherever you go, whatever the weather, Durango is ready to tackle the elements. Durango offers three All-Wheel-Drive (AWD) Systems – a two-speed, active on-demand system available on the 5.7L HEMI® V8 engine; a single-speed, full-time system standard with both the 5.7L HEMI V8 and 3.6L Pentastar® V6 engines; and the Quadra-Trac® Active On-Demand System that adds the following Drive Modes: Sport, Track, Tow and Snow. The standard AWD System leverages the SUV's near-perfect 50/50 weight distribution to enhance traction and handling. The result is a smooth driving experience over a wide range of road conditions.

DURANGO GT AWD //
shown in White Knuckle with Gunmetal
Low-Gloss dual graphic stripes.

SAFETY & SECURITY FEATURES

PARKSENSE® REAR PARK ASSIST™ // When your vehicle is in Reverse, this available system can sense nearby objects moving at low speeds; if an imminent collision is detected, the system will provide a momentary, autonomous brake pulse. In certain circumstances, this system can help bring your vehicle to a stop.

RAIN BRAKE SUPPORT // When your windshield wipers have been activated, this standard system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security.

BLIND SPOT MONITORING (BSM)² WITH REAR CROSS-PATH DETECTION¹ // With this available system, radar continually monitors rear vehicle blind-spot zones and will visually and audibly alert you when a vehicle is sensed in any of the zones. When your vehicle is in Reverse, rear sensors warn through a chime if cross-traffic approaches the vehicle.

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP³ // This available system helps maintain a driver-selected distance from the vehicle ahead; under certain traffic conditions, the system can bring the vehicle to a full stop without driver intervention.

FORWARD COLLISION WARNING (FCW) WITH ACTIVE BRAKING⁴ // With this available system, radar and camera technology combine to alert you when the system senses a potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes with the ability to bring the vehicle to a complete stop.

PARKVIEW® REAR BACK-UP CAMERA¹ // This standard system displays an accurate visual reference of what is behind your vehicle when it's in Reverse.

ELECTRONIC STABILITY CONTROL (ESC)⁵ // This standard system is designed to assist you in maintaining control of your vehicle during extreme steering maneuvers. ESC⁵ senses when the vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels.

READY ALERT BRAKING (RAB) // This standard system anticipates situations when you may initiate an emergency brake stop and uses the ESC⁵ pump to pre-charge the brake system in order to decrease the time required for full brake application.

ALL-WHEEL DRIVE (AWD) // An available system that automatically detects wheel-slip and sends additional power to the wheel(s) with the most traction.

ANTILOCK BRAKE SYSTEM (ABS) // Standard four-wheel antilock disc brakes sense and prevent wheel lockup, offering improved steering control under extreme braking and/or slippery conditions.

LANESENSE® LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST⁶ // This available system measures your position within lane boundaries. If it detects an unintentional lane drift, it will alert you and correct the vehicle back into the lane.

DODGE AIR FILTRATION SYSTEM // We have enhanced the standard air filtration system in the Dodge Durango to provide filtered air for you and your family. The new Dodge Air Filtration System filters 95 percent of air particulates while separating out pollen, allergens and bacteria, making it the cleanest cabin air ever in a Durango.

*A note about this catalog: all disclosures can be found on the last page.

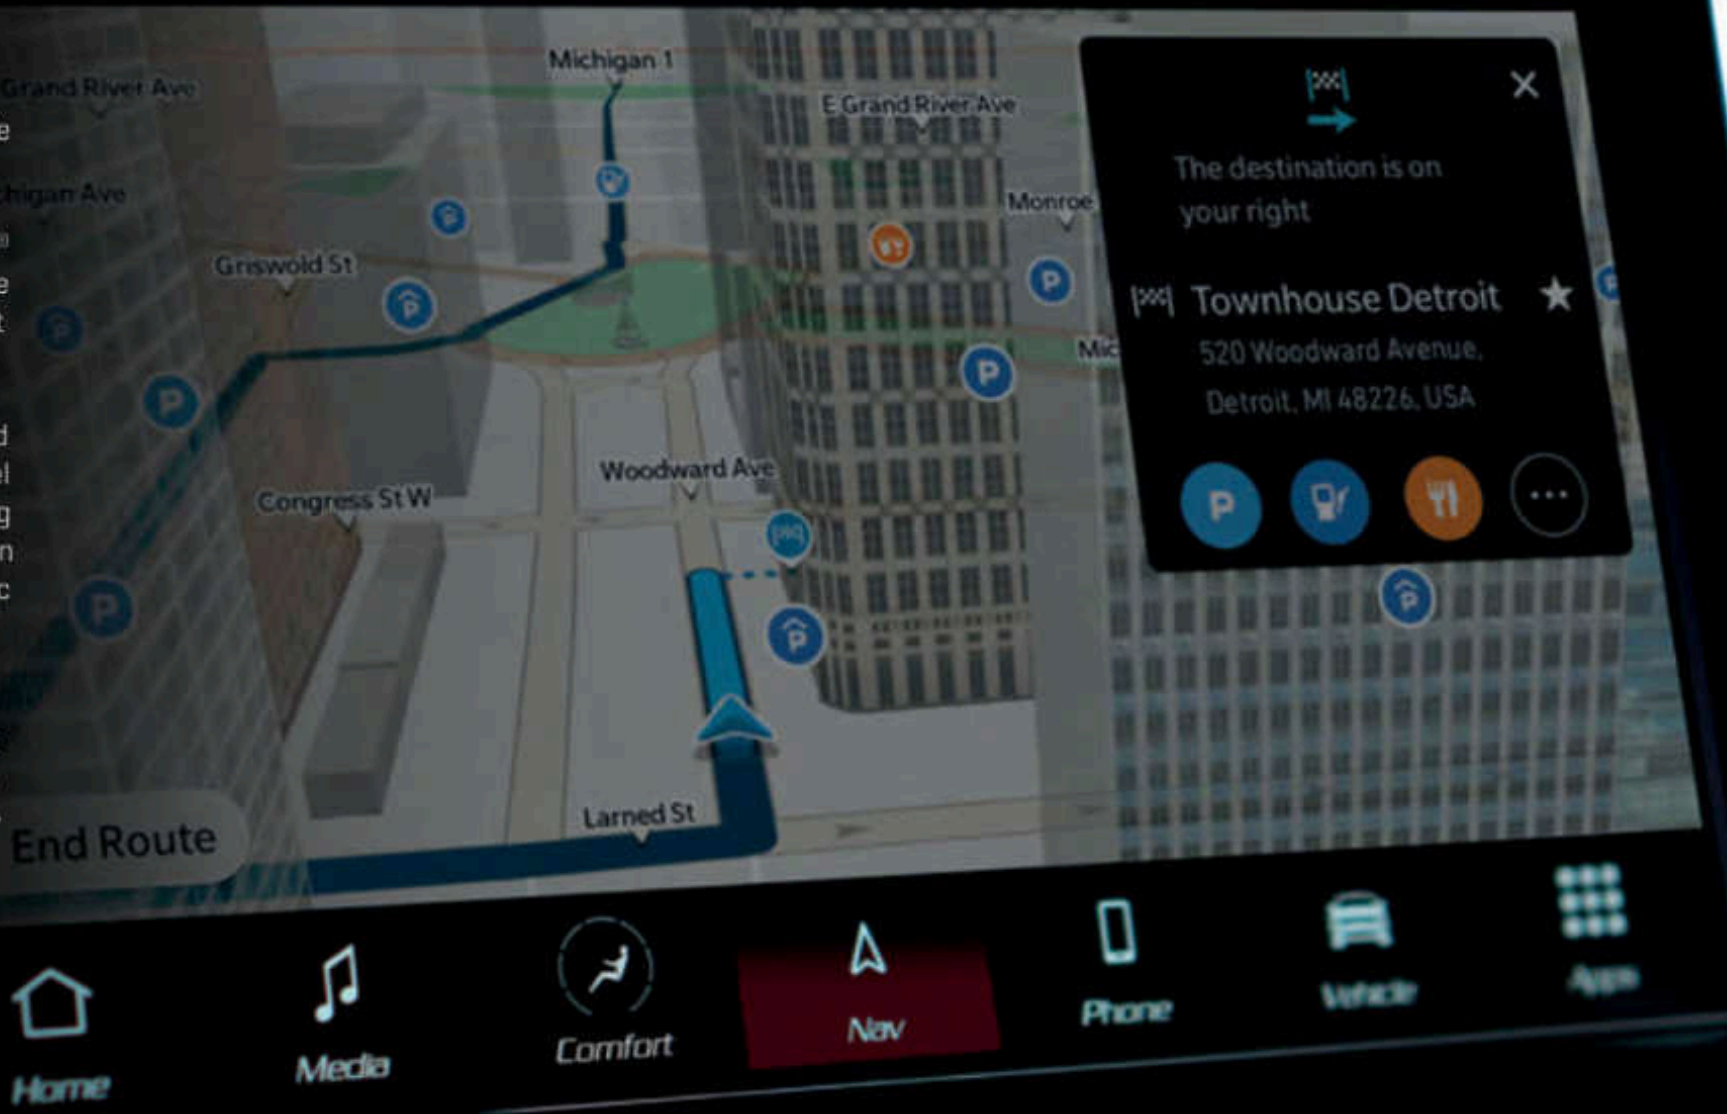

Uconnect

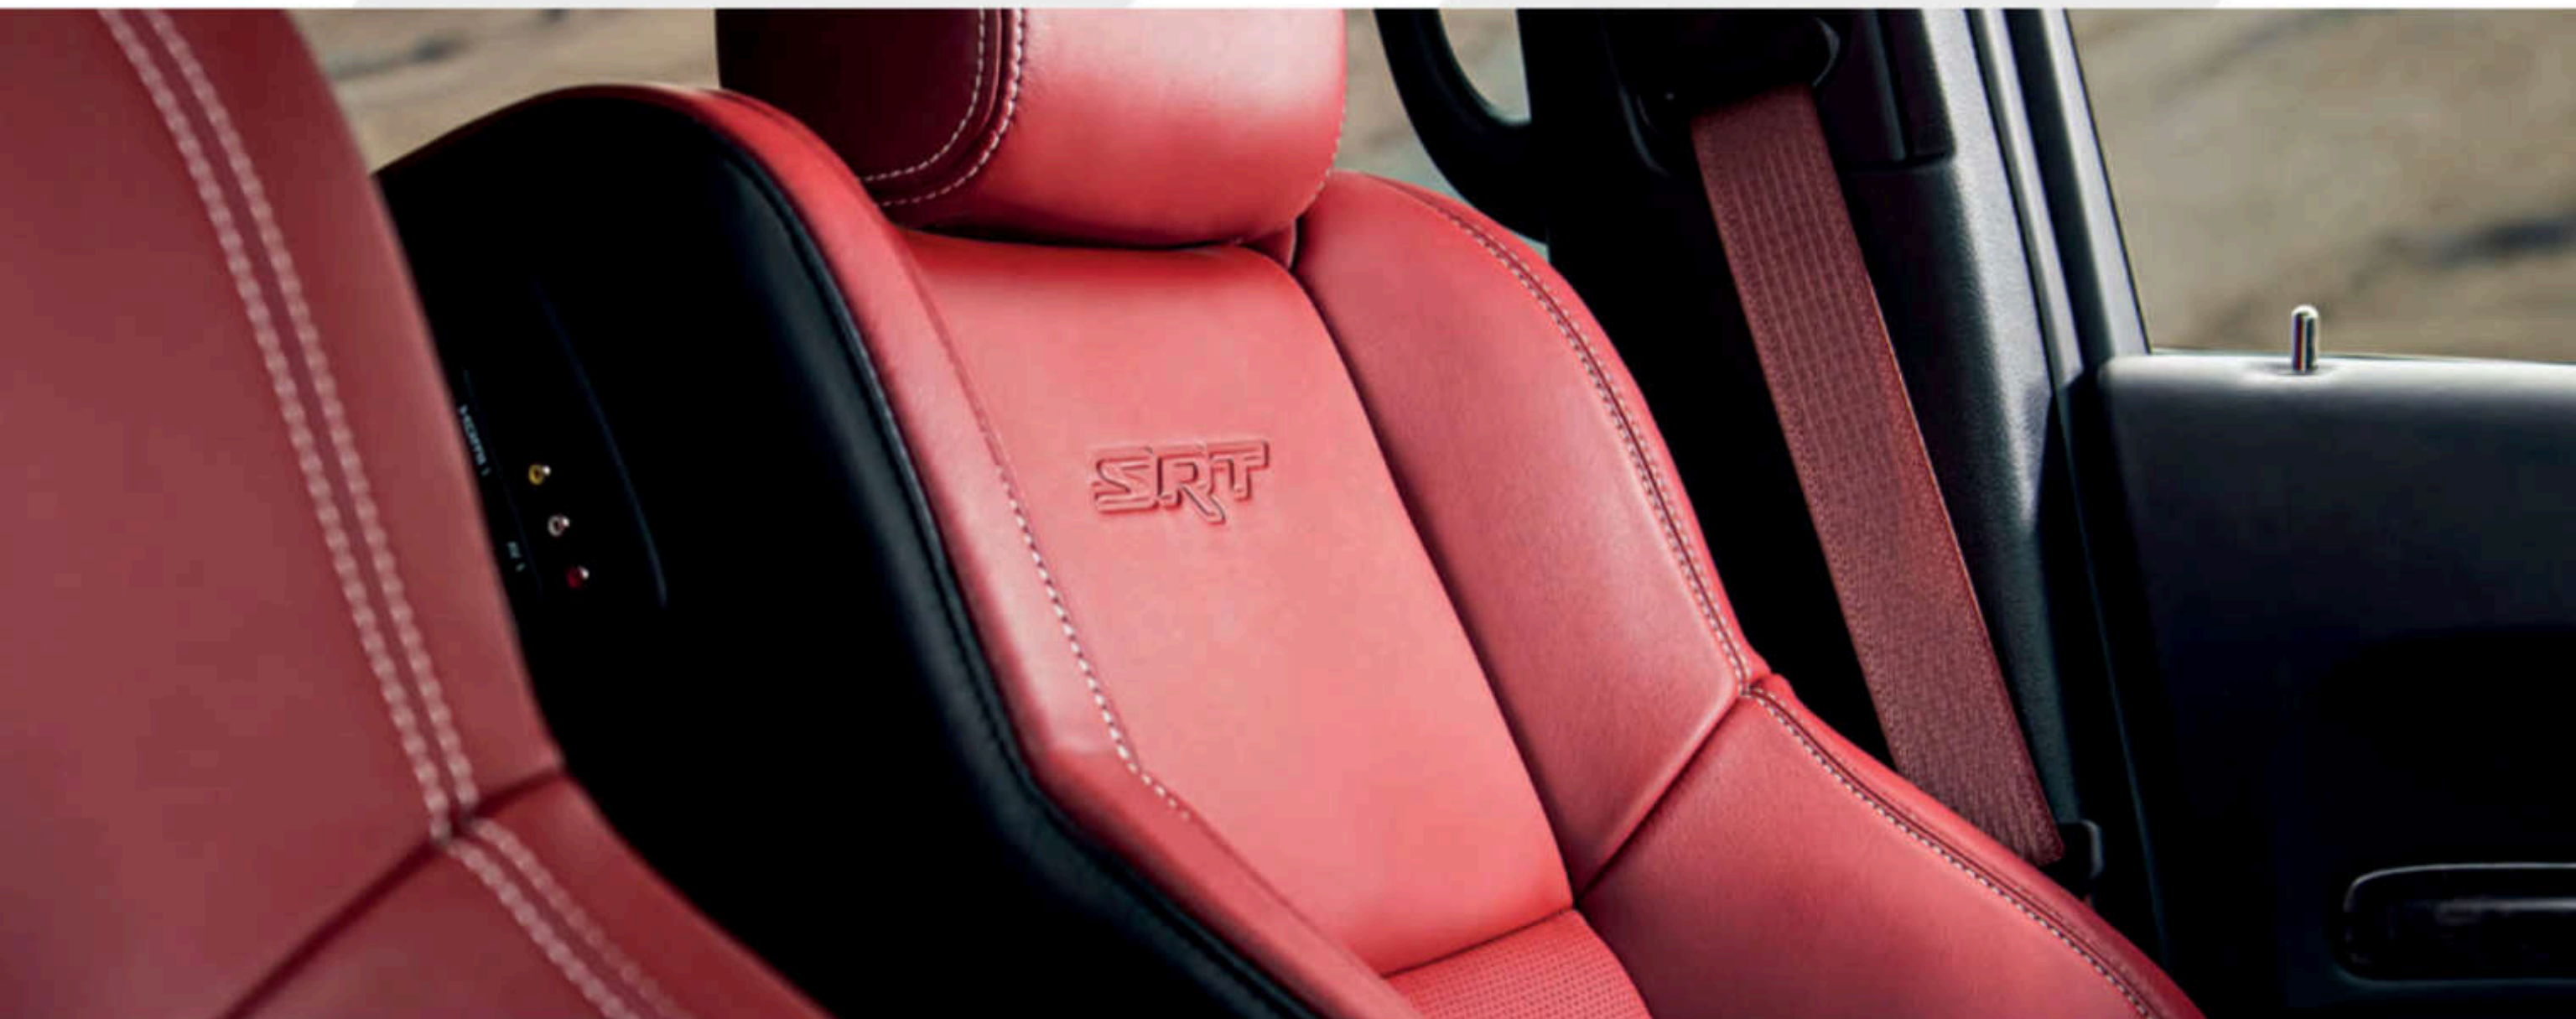

IN TOUCH WHEREVER YOU GO

The Uconnect[®] 5 system offers functionality outside the vehicle and delivers a connected, personalized experience inside the vehicle. Features include:

- A customizable home screen
- Up to five user profiles plus a valet mode
- Connect two Bluetooth[®] phones simultaneously with dual-phone connectivity
- Available Alexa[™] Built-In⁷ allows you to use your voice to make calls, get directions and check the latest news
- TomTom[®] Navigation[®] gives you a fully personalized and integrated turn-by-turn experience using the most up-to-date maps, which are updated automatically over the air
- TomTom Connected Traffic & Travel Services include real-time Traffic, Speed Camera Alerts, Parking Finder, Dynamic Range Mapping with Low Fuel Alert, Gas Station Finder, Fuel Pricing and Weather
- Enjoy commercial-free music with SiriusXM[®] Radio[®] plus every major sport and the biggest names in entertainment, news and comedy
- SiriusXM with 360L[®] uses intuitive algorithms to serve up content recommendations based on your listening preferences
- Quick access to frequently used features with one-touch operation
- Seamless integration of technology within the vehicle interior
- Hold and drag, slide and swipe your way through the system.

COLOR CRAZY ———

YOU DON'T BUILD FAMILY SEDANS THAT PACK 797 HORSEPOWER, COUPES THAT DOUBLE AS WEEKEND RACERS AND SUVs THAT IMPRESS THE NHRA MORE THAN THE PTA JUST TO GIVE THEM COLOR NAMES LIKE WHITE, BLUE, RED AND GREY. FOR DECADES, DODGE VEHICLES HAVE BEEN COATED IN COLORS WITH NAMES AS FLASHY AS THE VEHICLES THEMSELVES. THE ROSTER HAS INCLUDED: PANTHER PINK, HEMI® ORANGE, TOP BANANA, SASSY GRASS, GO MANGO AND PLUM CRAZY. THE REASON FOR THE BRASH NAMES IS SIMPLE — IT'S ABOUT ADDING ATTITUDE AND EDGE TO EVERYTHING WE DO.
