DODGE DURANGO

DNA

THIS IS BOLD PERFORMANCE

The Dodge Brand was born to deliver muscle to the masses. Since its inception, this Brand has never taken its foot off the gas. Power, performance and muscle still reign supreme. But that formula isn't just calculated by intense horsepower and torque. Our performance is also measured by the way advanced safety and security features help protect passengers. The

onboard technology that helps keep occupants connected to the people, places and entertainment that matter most is another gauge of power. Muscle can be tracked on Durango models by its impressive suspension, the ability to tow hefty loads, provide a near-perfect 50/50 weight distribution and seat up to seven passengers.

DURANGO SRT® 392 //
shown in Octane Red with available
Gunmetal Low-Gloss dual graphic
stripes and SRT Black Package.

SRT

DURANGO STANDS ALONE

SRT HELLCAT® MODEL // The Brotherhood is for everyone who craves raw performance—the ones who want to pull their boat, haul the quads and have the room to take the neighbor kids skiing.

SEVEN-PASSENGER MUSCLE // A 6.2L Supercharged SRT Hellcat V8 engine makes Durango SRT Hellcat an insanely powerful three-row SUV. The active exhaust with 4-inch tips provides a distinctive sound. The transmission is tuned to shift hard and rev match like a muscle car, while the retuned suspension takes advantage of the Durango models' near-perfect 50/50 weight distribution.

Like its SRT Hellcat siblings, the Durango SRT Hellcat model is equipped with fortified components that give it the chops to thrust out 710 horsepower, and 845 lb-ft of torque, while maintaining a tow rating of 8,700 lb.

The image shows the driver's side interior of a Dodge Durango SRT. The steering wheel is black with a silver Dodge logo in the center and paddle shifters. Behind it is a 7-inch TFT instrument cluster. To the right is a large infotainment touchscreen displaying a navigation map and climate controls. Below the screen is a control panel with three rotary dials and various buttons. The interior features red leather trim on the seats and center console.

SMART COCKPIT TECHNOLOGY

All Durango trim levels flex a performance-inspired cockpit with styling cues borrowed from the Dodge Challenger. The sleek dash leans in toward the driver for ergonomic comfort, while the instrument panel showcases a 7-inch Thin Film Transistor (TFT) cluster design with full-color graphics. The available flat-bottom steering wheel takes its performance feel to the next level with available paddle shifters. The standard Uconnect® 4 includes an 8.4-inch touchscreen, while the available Uconnect 5 radio features a 10.1-inch touchscreen display. An integrated control switch bank adds quick access to available heated front seats and heated steering wheel controls. Having multiple devices that require different types of charging cords isn't a problem. The center console houses an auxiliary input and two sets of USB connections (Type-A/-C pairs). Need more? Opt for a second-row console that also has Type-A and Type-C USB ports.

Durango SRT® shown with available Laguna leather trim in Black and Demonic Red.

10.1-INCH TOUCHSCREEN //
The available Uconnect[®] 5 system brings connectivity and convenience to a whole new level.

UNTETHERED, UNBRIDLED,
UNDENIABLY DODGE

WIRELESS CHARGING PAD //
An available wireless charging pad
adds ease and convenience.

shown in DB Black with
Sterling Silver dual
graphic stripes.

ROOM FOR UP TO SEVEN

50+ SEATING CONFIGURATIONS // With three rows of seats or a maximum of 85.1 cu ft of cargo space (with all seats folded), Durango models let you strike the right balance of seating and cargo. The standard 60/40 split-folding second-row reclining bench seat features a padded center armrest with cup holders and

allows for seven-passenger comfort. The 50/50 split-folding third-row seat is standard across all models. For six-passenger seating, the available Fold-and-Tumble second-row Captain's Chairs include soft-touch armrests and a floor-mounted mini console with cup holders (six-passenger seating shown above).

TOWING LEGEND:

8,700 LB

WITH A 6.2L SUPERCHARGED
OR 6.4L HEMI® V8

8,700 REASONS TO TOW // This is the SUV that hauls from both ends. The lineup starts with up to 8,700 lb of towing^{**} on SRT[®] models equipped with a 710-horsepower 6.2L Supercharged SRT Hellcat[™] V8 on the SRT Hellcat and a 475-horsepower 6.4L HEMI V8, as well as on R/T and Citadel models equipped with the Tow N Go Package. Trim levels mated to the available 360-horsepower 5.7L HEMI V8 engine and available Trailer-Tow Group IV offer up to 7,200 lb of towing^{**}. When the 3.6L Pentastar[™] V6 engine is under the hood, Durango models can tow up to an impressive 6,200 lb.^{††}

Durango SRT Hellcat shown in Destroyer Grey with available Gunmetal Low-Gloss dual graphic stripes, SRT Black Package and Trailer-Tow Group IV.

392 HEMI

BRAKING AUTHORITY // Standard four-wheel antilock disc brakes provide solid stopping power. Additional stopping power comes from the available Brembo® Performance Brake System, featuring vented two-piece front rotors and four-piston front calipers for outstanding heat management and superior braking performance. For superb stopping capabilities, the SRT[®] engineered Brembo Performance Brake System, with six-piston front and four-piston rear calipers, results in improved performance braking when paired with wind-tunnel-designed brake ducts over the standard braking system.

AWD

ALL-WHEEL DRIVE

CONQUER THE CONDITIONS // Rough roads and slick streets don't stand a chance. Durango models offer three All-Wheel-Drive (AWD) Systems—a two-speed, active on-demand system available on the 5.7L HEMI® V8 engine; a single-speed, full-time system standard with both the 5.7L HEMI V8 and 3.6L Pentastar® V6 engines; and the Quadra-Trac® Active On-Demand System that adds the following Drive Modes: Sport, Track, Tow and Snow. The standard AWD System leverages the SUV's near-perfect 50/50 weight distribution to enhance traction and handling. The result is a smooth driving experience over a wide range of road conditions.

DURANGO GT AWD //
shown in White Knuckle with Gunmetal
Low-Gloss dual graphic stripes.

**BACK IT
UP**

SAFETY & SECURITY FEATURES

PARKSENSE® REAR PARK ASSIST^{1†} // When your vehicle is in Reverse, this available system can sense nearby objects moving at low speeds; if an imminent collision is detected, the system will provide a momentary, autonomous brake pulse. In certain circumstances, this system can help bring your vehicle to a stop.

RAIN BRAKE SUPPORT // When your windshield wipers have been activated, this standard system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security.

BLIND SPOT MONITORING (BSM)² WITH REAR CROSS-PATH DETECTION³ // With this available system, radar continually monitors rear vehicle blind-spot zones and will visually and audibly alert you when a vehicle is sensed in any of the zones. When your vehicle is in Reverse, rear sensors warn through a chime if cross-traffic approaches the vehicle.

BLIND SPOT MONITORING (BSM)² WITH TRAILER-TOW DETECTION // This available system enhances existing BSM² while towing a trailer by identifying blind spots further down the side of the vehicle/trailer combination. Will work with all legal trailer lengths.

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP⁴ // This available system helps maintain a driver-selected distance from the vehicle ahead; under certain traffic conditions, the system can bring the vehicle to a full stop without driver intervention.

FULL-SPEED FORWARD COLLISION WARNING PLUS (FSFCW+) WITH ACTIVE BRAKING⁵ // With this available system, radar and camera technology combine to alert you when the system senses a potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes with the ability to bring the vehicle to a complete stop.

PARKVIEW® REAR BACK-UP CAMERA³ // This standard system displays an accurate visual reference of what is behind your vehicle when it's in Reverse.

ELECTRONIC STABILITY CONTROL (ESC)⁶ // This standard system is designed to assist you in maintaining control of your vehicle during extreme steering maneuvers. ESC⁶ senses when the vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels.

READY ALERT BRAKING (RAB) // This standard system anticipates situations when you may initiate an emergency brake stop and uses the ESC⁶ pump to pre-charge the brake system in order to decrease the time required for full brake application.

ALL-WHEEL DRIVE (AWD) // An available system that automatically detects wheel-slip and sends additional power to the wheel[s] with the most traction.

ANTILOCK BRAKE SYSTEM (ABS) // Standard four-wheel antilock disc brakes sense and prevent wheel lockup, offering improved steering control under extreme braking and/or slippery conditions.

LANESENSE® LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST⁷ // This available system measures your position within lane boundaries. If it detects an unintentional lane drift, it will alert you and correct the vehicle back into the lane.

*A note about this brochure: all disclosures can be found on the last page.

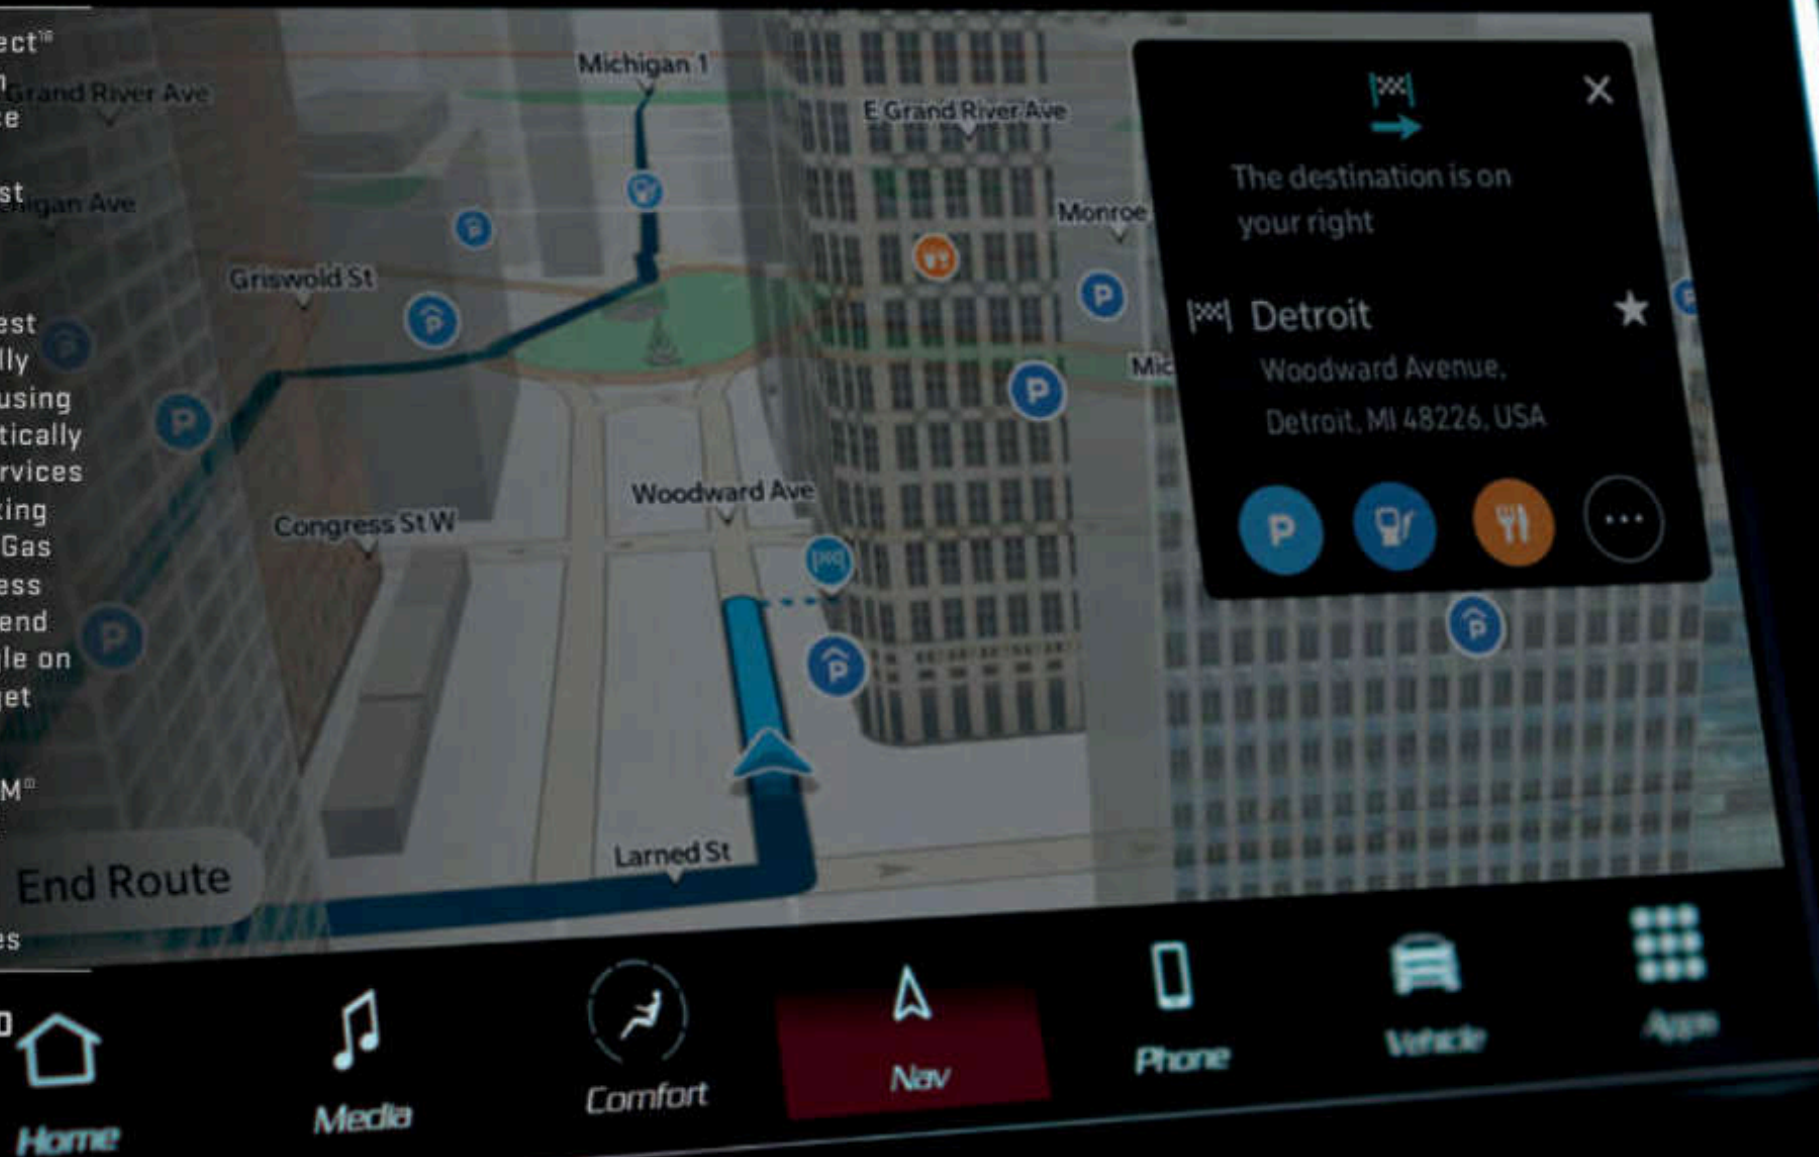

CONNECTED FROM START TO FINISH

Uconnect®

The available Uconnect® 5 system with Dodge Connect™ incorporates safety and security features along with an ever-growing list of convenience and performance services—available inside the vehicle and remotely. It's streamlined connectivity that helps you start fast and finish first. Features include:

- Available Alexa™ Built-In³ allows you to use your voice to make calls, get directions and check the latest news
- Available TomTom Navigation gives you a fully personalized and integrated turn-by-turn experience using the most up-to-date maps, which are updated automatically over the air
- TomTom Connected Traffic & Travel Services includes real-time Traffic, Speed Camera Alerts, Parking Finder, Dynamic Range Mapping with Low Fuel Alert, Gas Station Finder, Fuel Pricing and Weather
- With wireless Apple CarPlay^{4,5}, you can get directions, make calls, send messages and connect to Apple Music
- Talk to Google on Android Auto™^{6,7} and you can easily send messages, get directions, control media and more
- Enjoy commercial-free music with available SiriusXM® Radio™ plus every major sport and the biggest names in entertainment, news and comedy
- SiriusXM with 360L™ uses intuitive algorithms to serve up content recommendations based on your listening preferences

LEARN MORE ABOUT UCONNECT AND RELATED SERVICES AT DRIVEUCONNECT.COM OR THE DODGE APP.¹³

A close-up photograph of a car's interior, focusing on a red leather seat. The seat features a black leather stripe along the side and white stitching. The 'SRT' logo is embossed in the center of the seat cushion. A portion of the steering wheel and a brown seatbelt are visible in the upper right corner.
