

2001 Caravan

Opening

To see history in motion,
look at Caravan. From its initial
appearance in 1984, Dodge Caravan quickly
articulated that market leadership goes hand in hand with
bold — and frequently, brainy — innovation. Indeed, augmenting
countless awards were 38 distinctive minivan firsts, including the

he next chapter in minivan history.

With such an impressive and successful background, it's no surprise that Dodge would have the audacity to redesign this winning formula — from headliner to taillamp. Our dedication produced an all-new Caravan so singularly impressive, one respected journalist expressed his amazement with a simple "Wow." It's an opinion reinforced when you consider that along with the hundreds of thoughtful innovations that went into this people-friendly environment are 10 more new minivan firsts. Available conveniences like our unique rear cargo organizer, improved seating, and the new power doors and liftgate make this 2001 Caravan more versatile and adaptable than ever. For everywhere you look, there's more, and quite literally, much more. It's really all right*

All-new

Finally. The many AMCI results are in — and the outcome is singular. Based on rigorous and extensive comparative testing, Dodge Grand Caravan clearly demonstrated the superiority to make it the Best Minivan Ever. It's an honor that concisely sums up everything that Dodge stands for ... and one that adds to the growing reputation of the entire Caravan family. Long honored among the most versatile, practical and reliable vehicles to grace America's highways and driveways, these all-new 2001 Caravans are consistent with their heritage: namely, the ideal toolbox for living. But now, as you'll see, that standard of living is much, much better.

the industry's first available
able rear cargo organizer†

Power to the people. 2001 Caravan puts power exactly where it belongs — right at your fingertips. Six separate functions in our new, sophisticated available key fob give you the convenience to remotely open and close the power side sliding doors and power rear liftgate, as well as to remotely lock and unlock all doors. A practical panic button helps you find Caravan in crowded lots. And our available Security Alarm Package that includes a Sentry Key® theft-deterrent system makes it virtually impossible to

Design intellig

Closer to you. Even though we extended the available driver's power seat track to give tall drivers more leg room, we positioned the new cup holders to be closer to the driver.

The power of the rank-and-file. For a Dodge designer, creating more convenience is a labor of love. Among all-new Caravan's separate storage compartments is a new available tilt-out CD storage unit, intelligently hidden at the base of the instrument stack.

of ent life.

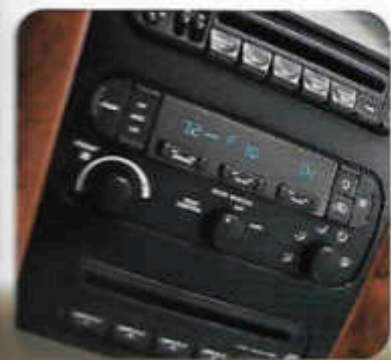

Above the rest for convenience and practicality. New, restyled available overhead consoles offer everything from five-function trip computer and an available three-channel HomeLink® Universal Transceiver, to room for sunglasses and other items.

We tipped it off brilliantly. Along with new, easy-touch control buttons, Caravan's redesigned instrument panel now features off-white daytime graphics that change to blue-green with brightly lit red pointers for nighttime driving.

Three-Zone Temperature Control. Grand Caravan, the Best Minivan Ever, is the first minivan to offer this degree of refinement. As illustrated below, Caravan's new available automatic infrared sensing system is so advanced, you can accurately adjust cabin temperatures into three separate areas of comfort.

HomeLink is a registered trademark owned by Johnson Controls, Inc.

seatback reclined and the
shoulder belt not resting on*

Best seats house.

We took a strong stand when it came to perfecting Caravan's new bucket seats, which is why a summary of improvements is so comfortably long. Among the many new benefits: improved mounting stability; easier removal and replacement; more underseat storage space; more rear-seat entry room; low-profile armrests that increase walk-through room.

...like a lateral move. Yet another logical development in Caravan's seating: an intermediate bench seat which now moves side-to-side. So no matter which side sliding door your passengers enter, the extra inches make access to the rear seats more convenient.

Sit

A toolbox for living. Whether you're using America's most trusted minivan to travel to the corporate boardroom or haul 4x8 plywood sheets, Caravan meets the need across the board. Maximum cargo capacities: 142.3 cubic feet in Caravan SE, 146.7 cubic feet in Caravan Sport (SWB), a cavernous 167.9 cubic feet in Grand Caravan.

Properly secure all cargo.

The right stuff. Grand Caravan's new optional removable rear cargo organizer¹ unfolds from a compact unit into a handy

Suddenly, it became

Properly secure all cargo.

Great minds work in harmony. This improved level of quietness doesn't infer the ongoing gift of silence. All three audio systems are either improved or totally new. Score one more for Caravan: Among its remarkable new options is a four-CD changer integrated into the instrument panel (not shown). For safety and convenience, a new optional audio system "mode" control joins steering wheel-mounted switches

Quiet reflections as you move through life. Muted travel at highway speeds gives a person pause to think. So consider what makes all-new Caravan so great — and Grand Caravan the Best Minivan Ever. Complementing a new level of quietness — even the restyled side mirrors increase aerodynamic efficiency — are advantages only Caravan offers.

very quiet inside.

Clear from front to rear. We hear it all the time: new Caravan's ultra-quiet interior simply lets people converse about serious and light subjects with greater ease ... proving that Caravan can move you in more ways than one.

The only rattle you're likely to hear is the baby's toy. Along with mechanical improvements to help eliminate shakes and rattles, 2001 Caravan uses new breakthrough acoustic materials called Ultra Light. By applying it within the

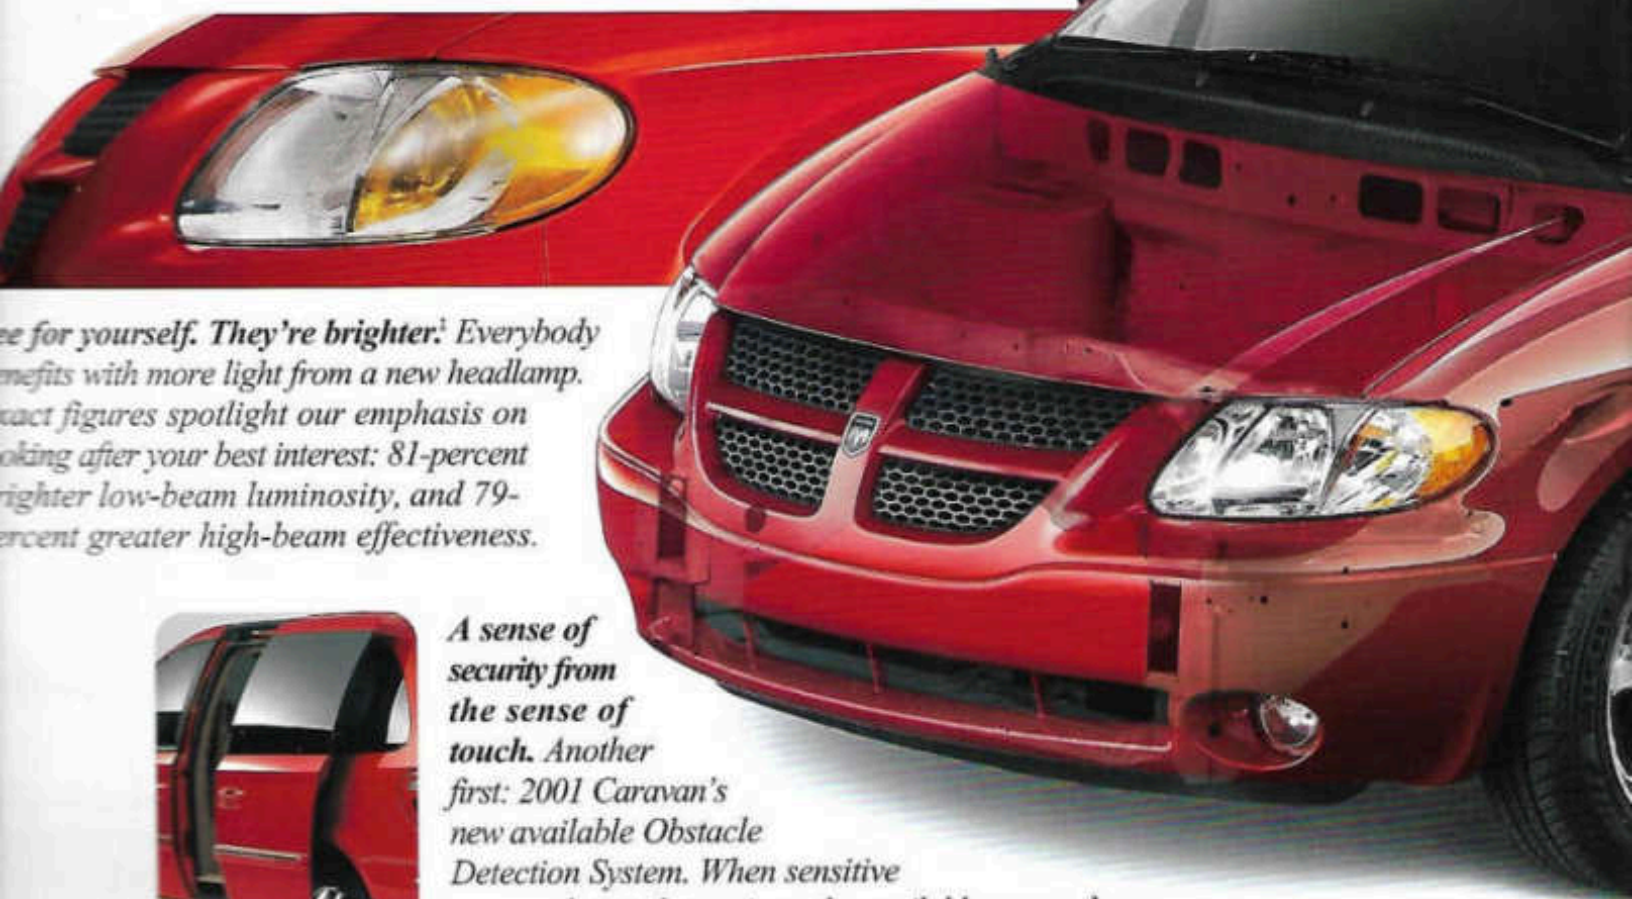

Safety isn't just It's even

Less is more. And more is now much more. 2001 Caravan features Next Generation multistage air bags* (which sense the severity of the impact, and inflate with appropriately greater or less pressure), new available supplemental side air bags,[†] and a completely redesigned, unique, energy-absorbing steering column.

Safety that's comfortable, and built right in. We made Caravan's new available seats firmer, gave them Easy Out[®] rollers, and provided the convenience of Fold-and-Tumble[™] technology — with an optional child seat* built in.

See for yourself. They're brighter.[‡] Everybody benefits with more light from a new headlamp. Exact figures spotlight our emphasis on looking after your best interest: 81-percent brighter low-beam luminosity, and 79-percent greater high-beam effectiveness.

A sense of security from the sense of touch. Another first: 2001 Caravan's new available Obstacle Detection System. When sensitive sensors detect obstructions, the available power door and/or power liftgate reverses direction — in both opening **and** closing directions.

st one thing. ything.

Big wheel doesn't keep turning. All-new Caravan's optional four-wheel disc brake system with ABS offers wider brake rotors (to disperse heat quicker) with larger, heavier brake calipers for superb stopping power.

Every little thing has a role. In microseconds — before front-

impact air bags are fully deployed — Caravan's new front-seat belt pretensioners remove up to 3.9 inches of slack from the belts when worn properly.

Our sides win.

Augmenting a new body structure that's 20-percent stronger, Caravan helps cover side-impact protection with countermeasures in the side sliding doors. Furthermore, we added energy-absorbing materials to all pillars, roof side rails, and windshield and rear window headrests.

Caravan's record for outstanding comfort and control, you can opt for automatic, self-adjusting load-leveling rear shock absorbers. Noiseless and without external wires or sensors, the system adjusts itself when under load to offer a level ride with responsive handling. The technology is bolstered by a wealth of improvements in the rear suspension, including an engineer-friendly increase in spring hanger brackets, new shackles, and new shackle mountings. But let's put the technical talk into a real-life benefit: the 16-fold improvement in dynamic stiffness equates to a dramatic reduction in the road noise which most minivans — sad to say — often allow to be transmitted into the cabin interior.

(Complete towing specifications shown in chart, lower right.)

More

The states of flexibility. Similarly impressive improvements apply to the available 3.3-liter V6 powerplant. A 14-percent increase in horsepower — now up to 180 at 5,200 rpm. A 10-percent upgrade in torque — up to 210 lb-ft at 4,000 rpm. And fuel flexibility now includes an E-85 ethanol rating for all 50 states, which makes our 3.3-liter one clean engine.

It's like air conditioning for the engine. Quieter and stronger than ever, Caravan's available 3.8-liter V6 lifts peak power by 19 percent, up to 215 horsepower at 5,000 rpm, and 245 lb-ft of torque at 4,000 rpm. A larger air induction system — new for all Caravan engines — increases airflow by 13 percent, yet reduces

Power to move you.

Improved 2.4-liter DOHC 16-valve SMPI four-cylinder engine offers high torque output for heavy loads and passing capability, along with outstanding fuel economy and reliability.

Redesigned 3.3-liter OHV SMPI V6 has been totally redesigned for a 14% boost in power. The broad, flat torque curve clearly indicates superb towing and overtaking strengths.

Our new, High-Output 3.8-liter OHV V6: 19% more power, and 10% less fuel emissions. This engine's new power and torque ratings now surpass those of all competitors — whether cam or pushrod.*

...certo for 16 valves. Note the evolutionary changes to the 2.4-liter in-line four-cylinder engine: reduced exhaust emissions, increased low-speed torque, advanced throttle response, and improved idle quality. Small refinements now make even regular oil changes cleaner and simpler — music to any mechanic's ears.

*Based on 2000 model year competitors.

Surpassing flying colors.

Caravan's front suspension: at the forefront. New Caravan features numerous front suspension system refinements, all of which serve to make the ride quieter, more responsive, and more efficient. To further reduce noise, vibration, and harshness, we put Caravan through rigorous acoustic testing. The results include restructuring small components like bushings and isolators to dampen specific frequencies. We stiffened the front strut towers to transmit less road noise. And we reduced weight by 12 pounds by using

aluminum steering knuckles, to improve the ride quality.

In fact, numerous technical nuances — such as improving the front suspension by adding two more degrees in the caster of 2001 Caravan — help provide a much greater feeling of control and precision. In the end, it all helps enhance the simple pleasure of everyday driving.

To everything, turn, turn, turn. 99 percent of driving involves steering. It's where you truly feel your vehicle. Along with new valve refinements that provide more precise on-center feel, a 30-percent larger, more powerful power steering gear also contributes to Caravan's excellent steering capability.

Following the leader. Still one of the few minivans to offer all-wheel-drive models, Caravan's new AWD system is now lighter and less complex. In brief, when the road surface becomes low-friction, AWD increases traction and control by transferring proportionate power to the rear wheels. Redirection of the force — and achieving better traction — is automatic, instantaneous and effortless. No major components

with

Going full circle. New technical refinements in new Caravan are system-wide. Like a fuel system with increased pressure to help facilitate faster starting and better idling quality when the engine is hot. Caravan's industry-first bi-directional roller clutch on AWD models replaces numerous components. We even calibrate the tires. The goal: complete owner satisfaction.

20-percent solution.

Caravan's body structure has a heart, its most important number refers to torsional stiffness, or body rigidity. 2001 Caravan features torsional stiffness increased an incredible 20 percent — a notable improvement with very real everyday benefits. Control properties like responsiveness and handling are enhanced, giving the next generation of this minivan more "sedan-like" driving characteristics and performance handling abilities.

Over 85 years, Dodge has earned a reputation for creating cars, trucks, and minivans that are truly different. We bring new designs into production fast. We create innovations — Dodge Caravan, for example, the original minivan — that serve people better than before. Dodge is original in its thinking, aggressive in its technology, bold in vision, and responsible in its regard for safety.

Why Dodge.

Everyone is Different.

We're proud to be able to fulfill the changing needs of ALL drivers — heads of families, first-time owners, free-spirited adventurers, and hard-working men and women whose own dependability demands cars, trucks and vans as tough as the jobs they do.

Things you can count on.

When you choose Dodge, you can count on innovations created especially to assure you of a family-safe, quality-quiet, performance-confident driving experience. Ask your dealer about Dodge's 100,000-mile scheduled maintenance program.

Shopping resources.

We've even reinvented the way we get our vehicles to you. We post the very latest national incentive information on our Web site, www.4adodge.com, and we send it to you in the mail. We're also ready to talk to you any time at 1-888-4-A-Dodge, or ask your dealer about money-saving offers or special financing that may be available on certain models for eligible customers.

Special Programs.

Dodge recognizes the unique needs of small businesses. **BusinessLink™** is a

program designed specifically for commercial customers. These dealers are committed to selling and servicing your business-related vehicles to save you time, money and hassles. Call (877) 2-THE-LINK to learn more.

ON THE JOB is a special incentive program for qualified commercial buyers. Small businesses are eligible for cash discounts or allowances on upfit equipment for trucks and vans. To learn more about incentives for which your business may be eligible

Chrysler Financial provides special financing terms including TRAC leases, optional payment plans and preferred rates to eligible businesses. Call 1-800-9-CFO-NOW for more information.

Automobility program is another age innovation that provides cash reimbursement to qualified retail buyers for adaptive equipment on new Dodge vehicles. For information on incentives and factory approved upfitters of

dealer for additional details and a copy of the bumper-to-bumper warranty. Covers the complete vehicle against defects in materials and workmanship. Includes wiper blades, clutch disc, brake pads, rotors and drums, normal wear items (these items are not covered for 12 months or 100,000 miles, whichever comes first) (covered by their own manufacturer's warranty). Some trucks and vans are warranted by their respective Chrysler Corporation. Dealer provided by Cross Country Motor Sales (in California, Cross Country Motor Sales, Inc.)

adaptive driving devices including wheelchair lifts, call Automobility headquarters at (800) 255-9877.

Warranty and service.

repairs. Every new Dodge vehicle is covered by a **3-year or 36,000-mile Bumper-To-Bumper Warranty*** that includes **Roadside Assistance¹** — 24 hours a day, seven days a week. And please ask your dealer about **Dodge Service Contracts**, and our **Customer Call Center**, where you can get practical service advice 24/7.

Millions of Dodge owners like to accessorize their vehicles. And eventually, most vehicles need parts. At Dodge, **Mopar** is your resource for parts and accessories made specifically to deliver perfect fit and finish for your Dodge vehicle.

Sponsorship.

the beginning of a new era in racing excitement. Watch for the Neon Charity Challenge, Barber Dodge Pro Series, NASCAR Craftsman Truck Series,[®] the Viper Le Mans Series, and more. Dodge is asserting a bold and powerful presence in the motorsports world, and millions of fans are loving it.

Benefits of ownership.

Being a Dodge owner also means you'll receive timely information on the newest Dodge products, dealership service pricing, and Dodge-

sponsored events. You can take part in exclusive Dodge-only activities, like vacation events you'll remember all your life.

You'll also receive **Dodge Magazine** three times a year — a wealth of owner stories, industry news, and valuable parts and service offers.

We want you to be a part of Dodge. We want you to share our history of industry firsts and industry and consumer group awards. And we think you'll be proud to own a vehicle honored for excellence. Choose Dodge. For nearly

Accessories exclusively

Your lifestyle meets Caravan style: it's all in the accessories. And in the case of the all-new 2001 Caravan, accessories fit perfectly. Dodge demands such exacting tolerances for fit and finish, we use the same design team that engineered the vehicle itself. So along with consistently high quality is the added value of personalizing your new Caravan. After all, the ways that you use Caravan can change in a moment. Mopar Accessories make new Caravan just as versatile and adaptable as your own lifestyle.

A new way to look at "motion pictures." Mopar's Rear Seat Video™ system (the player is smartly hidden*

in the console) has an overhead liquid crystal display and wireless headphones — with an ancillary input for a video camera, CD player, or popular home video game players.

As you should expect, there's much more. Get the whole story. Ask your Dodge dealer for a free

made for Caravan.

The principles of navigation.

This sophisticated, simple-to-use Navigation System guides you to your precise destination through Global Positioning System (GPS) satellite technology and an onboard computer. The

system calculates the most efficient route to your destination, provides a visual map display, and uses voice-command technology to literally "talk" you through every turn.

Eight more wheels, to go. Ingeniously engineered, the Hitch-Mounted Fold-Down Bike Carrier holds up to four bicycles (with horizontal-style top tubes) and includes an adapter for bikes without them. The fold-down feature lets you access the liftgate — without removing the bikes.

It all works just right. Look at the big picture, and note the details. An aerodynamic Six Pair Ski and Sunboard Carrier that's lockable, and which fits Original Equipment or the Removable Roof Rack. Running Boards that match lower trim color — made of steel, not fiberglass. And a perfectly molded head cover

Features and options.

Dodge Different.

You won't find the obvious at Dodge. In fact, our designers and engineers pride themselves in exploring previously uncharted territory.

It's a path that began over 10 years ago with the creation of the Viper RT/10 concept car. That concept became a reality. And so did a different approach to the creation of automobiles. Today, all Dodge cars and trucks are created that way. By closely knit teams of talented people from every automotive-related discipline. Their assignment: Find different ways to be better. And drive better. That means producing vehicles that work better, thanks to innovations like minivans that are easier to get into and out of. Pickups that can haul and tow well, in many ways. Sedans that are sleek, yet spacious and exciting to drive. A sport utility that stakes out its own domain. And a sports car that's unrivaled on the road. And on the track. Each one embodies a totally different approach to the tried and true. And, like Dodge, each has become a quickly moving target the competition seeks to emulate.
