Thanks to the hands-free foot-activated liftgate,<sup>1</sup> accessing up to 68.0 cu. ft. of cargo space is easy with Escape. Just kick your foot under the bumper with the Intelligent Access key fob<sup>1</sup> located in a pocket or purse, and the liftgate automatically opens or closes. You can even program the fully opened height to the position that works best for you.

Behind the solar-tinted glass, a spacious, well-appointed interior awaits. Keep the cloth or leather-trimmed<sup>1</sup> seats up for passengers. Or fold either side of the 60/40 split rear seat down for gear. The choice is yours. Riders in both rows can enjoy the sunshine through a panoramic Vista Roof<sup>®1</sup> featuring power open/close and a power shade. Store phones and other items you'd like to keep hidden inside the roomy storage bin beneath the padded center console armrest. You can also tuck large items out of sight in the back under an interior cargo cover.<sup>1</sup> Wherever you're headed, you'll find Escape is the perfect partner for spontaneous getaways.

## LUX BOOST

What do you get when you combine lots of luxurious amenities with a 245-horsepower<sup>3</sup> 2.0L EcoBoost<sup>®</sup> engine? The one and only **Escape Titanium**. Recline in 10-way power, heated, leather-trimmed front seats. Adjust the ambient lighting, then let the voice-activated Navigation System guide you to your destination. When you arrive, Enhanced Active Park Assist<sup>4</sup> can help identify an appropriate parking spot, and even steer the vehicle into it. The hands-free, foot-activated liftgate helps you load items in the back, while the new **Ford Safe and Smart™ Titanium Plus Package** gives you more helpful Ford Co-Pilot360™ Technology features,<sup>4</sup> including Adaptive Cruise Control & Forward Collision Warning with Brake Support, Auto High-Beam Headlamps, Lane-Keeping System and more. Treat yourself to the ultimate Escape.

# WITH FORD CO-PILOT360™ TECHNOLOGY

**ADVANCETRAC® WITH RSC® (ROLL STABILITY CONTROL™)** enhances vehicle stability in a wide range of conditions. By selectively applying individual brakes and modifying engine power, the system helps keep all 4 wheels firmly planted. In addition, Curve Control<sup>1</sup> helps slow the vehicle down if you're heading into a curve too quickly.

**ENHANCED ACTIVE PARK ASSIST<sup>2,3</sup>** can help when backing into a perpendicular spot or parallel parking. The system uses ultrasonic sensors to identify a parking space that's just the right size, then steers Escape into it. All you do is follow on-screen prompts, and operate the accelerator, brake and gear shifter as needed. It provides assistance as you pull out of your parking spot as well.

**FORD SAFE AND SMART™ PACKAGE** makes it easy to get all of these helpful driver-assist technologies<sup>2</sup> and more:

**ADAPTIVE CRUISE CONTROL & FORWARD COLLISION WARNING WITH BRAKE SUPPORT<sup>3</sup>** helps maintain your choice of speed and preset gaps from the vehicle in front of you. It can also alert you to a potential collision. If one is detected, the system flashes a warning, sounds an alarm, and can pre-charge the brakes to provide full responsiveness when you do brake.

**AUTO HIGH-BEAM HEADLAMPS** can detect vehicles and street lights ahead of you, automatically switching between low and high beams as a convenience to you, and a courtesy to other motorists.

**BLIS® (BLIND SPOT INFORMATION SYSTEM) WITH CROSS-TRAFFIC ALERT<sup>3</sup>** warns you if it detects a vehicle in either of your blind spots while attempting to change lanes, or approaching from either side while in Reverse.<sup>4</sup>

**LANE-KEEPING SYSTEM<sup>3,5</sup>** alerts you with steering wheel vibration if it detects you drifting out of your lane, and can even apply steering wheel torque to help direct you to return to your lane.

# STAY **CONNECTED** ON THE MOVE
