ENGINEERING A BETTER COMMUNITY

GMC ACADIA

HISTORIC-SHIP
REBUILDING

QUAD RUGBY
TRAINING

REAL LIFE. REAL PROJECTS. Making a real difference, GMC vehicles aren't made to sit in the showroom. They're designed, engineered and built to get things done, to defy the impossible and to never say the job is over until you've overachieved. This is why GMC has joined with the people and organizations you're about to meet. People who are making a difference in their communities and effecting real change. From resurrecting a historic treasure to helping disabled athletes pursue their dreams, GMC is proud to present these stories of what can really happen in life when you never say never.

GMC. WE ARE PROFESSIONAL GRADE.

ACADIA DENALI IN WHITE DIAMOND TRICOAT
 The latest edition to the Acadia family, Denali combines premium materials, distinctive design and the pinnacle of GMC engineering to make this the premier choice in the crossover category.

HOW TO SCAN A QR CODE

Use your smartphone to scan the QR codes shown throughout the catalog. After scanning the code, your smartphone will be directed to a mobile site for more information on each project. If you do not have a QR code reader, simply download a free reader through the app store on your smartphone device.

HOW TO USE THE URL IF YOU DON'T HAVE A SMARTPHONE

If you don't have a smartphone, you can still experience all the extra content by logging on to the Web and entering the Web address found next to the QR code.

PROJECT
HISTORIC-SHIP REBUILDING – ALBANY, NY

KEEPING LIFE ON COURSE. IN THE 17TH CENTURY OR THE 21ST.

Can you rebuild a 400-year-old Dutch sailing vessel by hand, with only the help of volunteers? You can if you never say never.

When a group of New York Capital District residents set out to reconstruct the Onrust (Dutch for "Restless"), the first trading ship built in America, into a living (and floating) classroom, they spent 3 years using authentic 17th-century Dutch building techniques to rebuild the ship to its authentic 1614 specifications. With the help of GMC, they had the capability they needed to haul materials, the resources they required to construct the engine room and the perseverance it took to bring an important part of American history back to life.

SO WHAT DOES 17TH-CENTURY SHIPBUILDING SAY ABOUT THE ENGINEERING OF THE GMC ACADIA?

That true craftsmanship is timeless. That the details are where you find the difference. And if you dream of building something to stand the test, there's no substitute for professional grade. It was as true in the 17th century as it is in the 21st: The right transport can make all the difference when you're trying to keep life on course. **GMC ACADIA.**

ACADIA SLT IN STONE GRAY METALLIC
With 288 horsepower, a 3.6L V-6 VVT engine makes crossing the Mohawk River a lot easier than in the Onrust's day.

↑ **ACADIA SLT INTERIOR IN LIGHT TITANIUM**
 Acadia's Smart Slide system and fold-flat seats give you multiple configurations and up to 116.9 cu. ft. of cargo capacity.¹

↓ Change gears with a push of a button using Manual Shift Control.

↓ Available Rear-Vision Camera System integrated into rearview mirror, or when ordered, into NAV screen.

↓ Available steering-wheel-mounted fingertip controls let you manage your music and phone without taking your eyes off the road or hands off the wheel.

↓ Easy-to-read gauge cluster tracks mileage, engine speed, and an EPA-estimated 24 hwy mpg fuel efficiency.

ACADIA SLT INTERIOR IN LIGHT TITANIUM

Control your drive and command the road with brushed aluminum instrument panel, electronic Driver Information Center, USB connectivity,¹ SiriusXM Satellite Radio,² Bluetooth³ and available NAV radio.⁴

ACADIA SLT IN QUICKSILVER METALLIC.
Acadia's body-frame integral design creates a low lift-over height, making loading and unloading any cargo easy.

↑ Sleek lines and bold accents highlight Acadia's distinct design.

↑ Acadia's available two-panel dual sunroof and rear power liftgate in action.

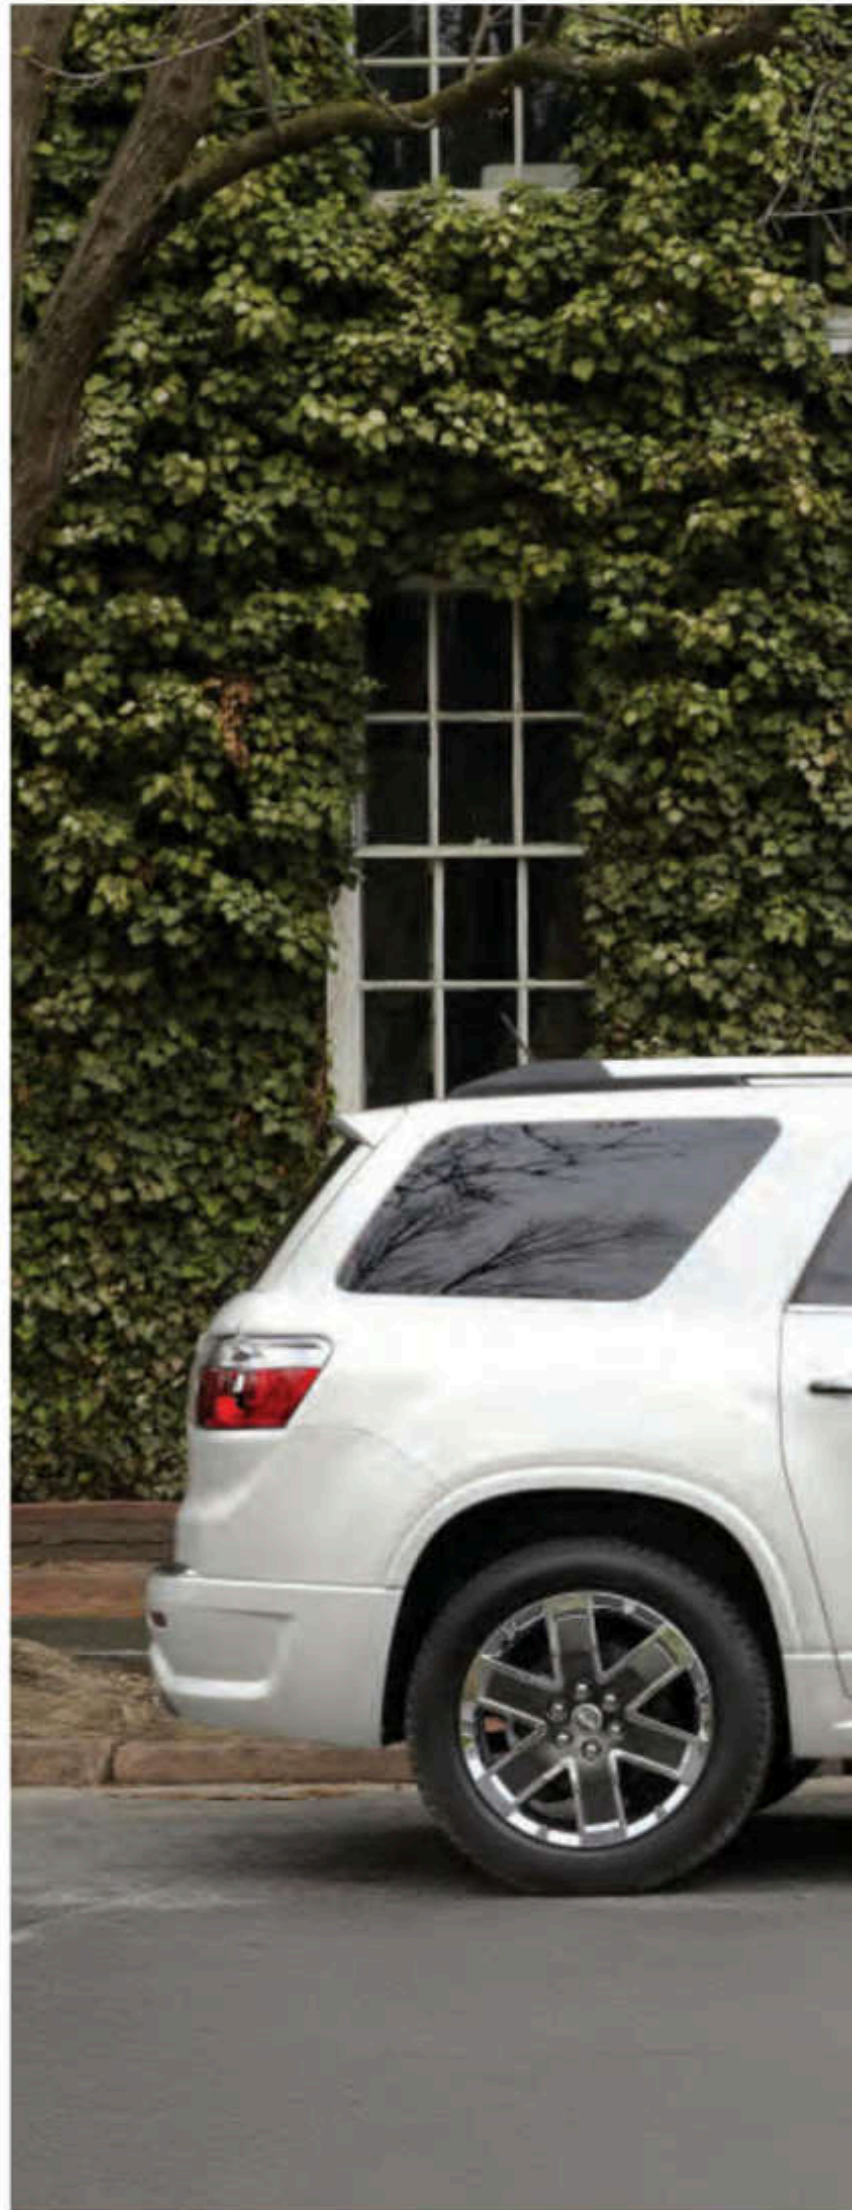

↓ Standard 19" machined aluminum wheels shine on the streets of Schenectady, NY.

↓ Acadia Denali's standard High-Intensity Discharge headlamps provide a brighter, more focused light than conventional headlamps.

↑ The distinctive, commanding grille of GMC.

ACADIA DENALI IN WHITE DIAMOND TRICOAT

Streamlined bodyside moldings, chrome accents and 20" two-tone chrome-clad wheels¹ accentuate Denali's athletic stance.

ACADIA DENALI IN WHITE DIAMOND TRICOAT The smooth, sleek lines of Denali raise curb appeal wherever it goes.

THE PEOPLE BEHIND THE ONRUST PROJECT

GMC ACADIA

Contributing skills, time and hard work, over 250 volunteers came together to help reconstruct America's first Dutch trading ship, the Onrust. Utilizing recently rediscovered authentic Dutch shipbuilding techniques, the reconstruction isn't merely a replica but an actual working 17th-century Dutch ship, built the same way the original was some 400 years ago.

↓ Volunteer manning the ropes.

↕ Greta Wagle, Project Director of the Onrust Project.

↕ Volunteers unloading Acadia SLT.

↓ The Onrust setting sail on the Hudson River, Albany, NY.

↑ Volunteer fire bending wood for the ship.

↓ The Onrust nameplate proudly displayed on the ship.

↓ Greta unloading Acadia SLT.

↓ Woodworking materials.

↓ The Onrust Project proudly displays the sails.

PROJECT
QUAD RUGBY TRAINING – AUSTIN, TX

LIFE IS ABOUT MORE THAN JUST LIMITATIONS.

Overcoming obstacles. Pursuing your passion. The confidence to take on any challenge. The men and women of Team Force Quad Rugby know what it's like to never say never.

Practicing for up to 4 hours a day, they train in pursuit of a dream: to represent their country and prove they can still be their best no matter what the challenge. With national tryouts over 700 miles away and capability an issue, they relied on the help of GMC to make that dream come true. Like the engineering behind GMC, the players know everyday life shouldn't be defined by limits. Like true champions, they live their lives in defiance of them.

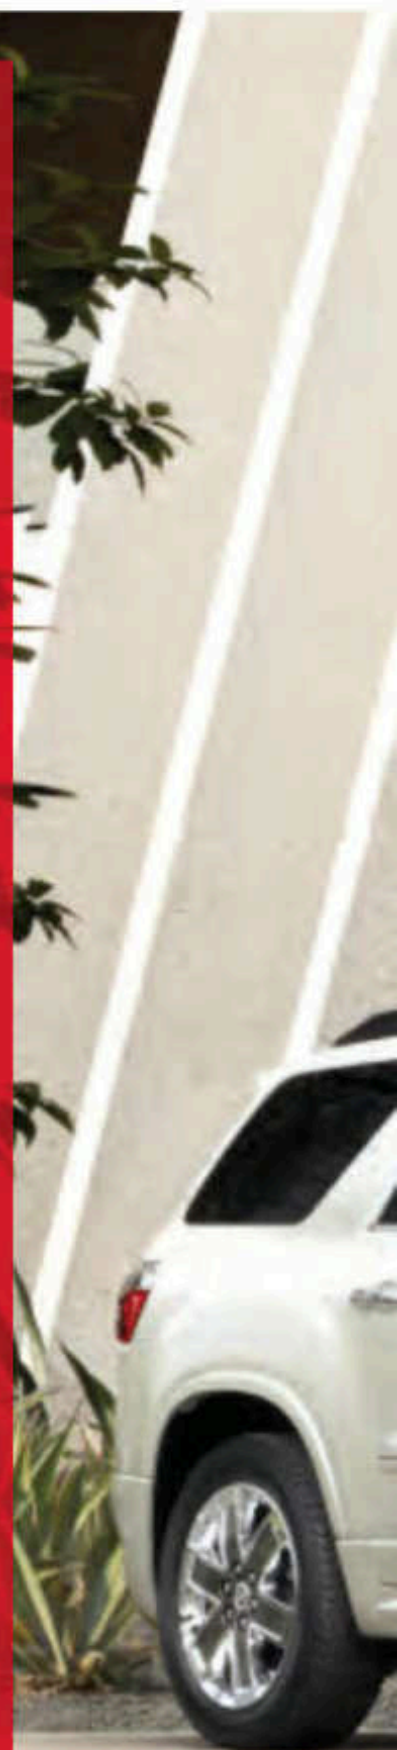

THAT'S THE SAME ATTITUDE WE BUILD INTO EVERY GMC ACADIA.

Designed to exceed expectations, built to back you up and engineered to make it easy, Acadia is the crossover that sets standards in its class. And the perfect vehicle for keeping your life in control and taking charge of the day.

Innovative technology. Advanced versatility. And the determination to meet whatever challenge comes your way. With qualities like that, there's no limit to where you can go. **GMC ACADIA.**

SMARTPHONE OR VISIT GMC.COM/ACADIA_RUGBY

ACADIA DENALI IN WHITE DIAMOND TRICOAT
With StabiliTrak electronic stability control and the longest wheelbase in its class, Acadia performs in even the most adverse conditions and takes on any commute with confidence.

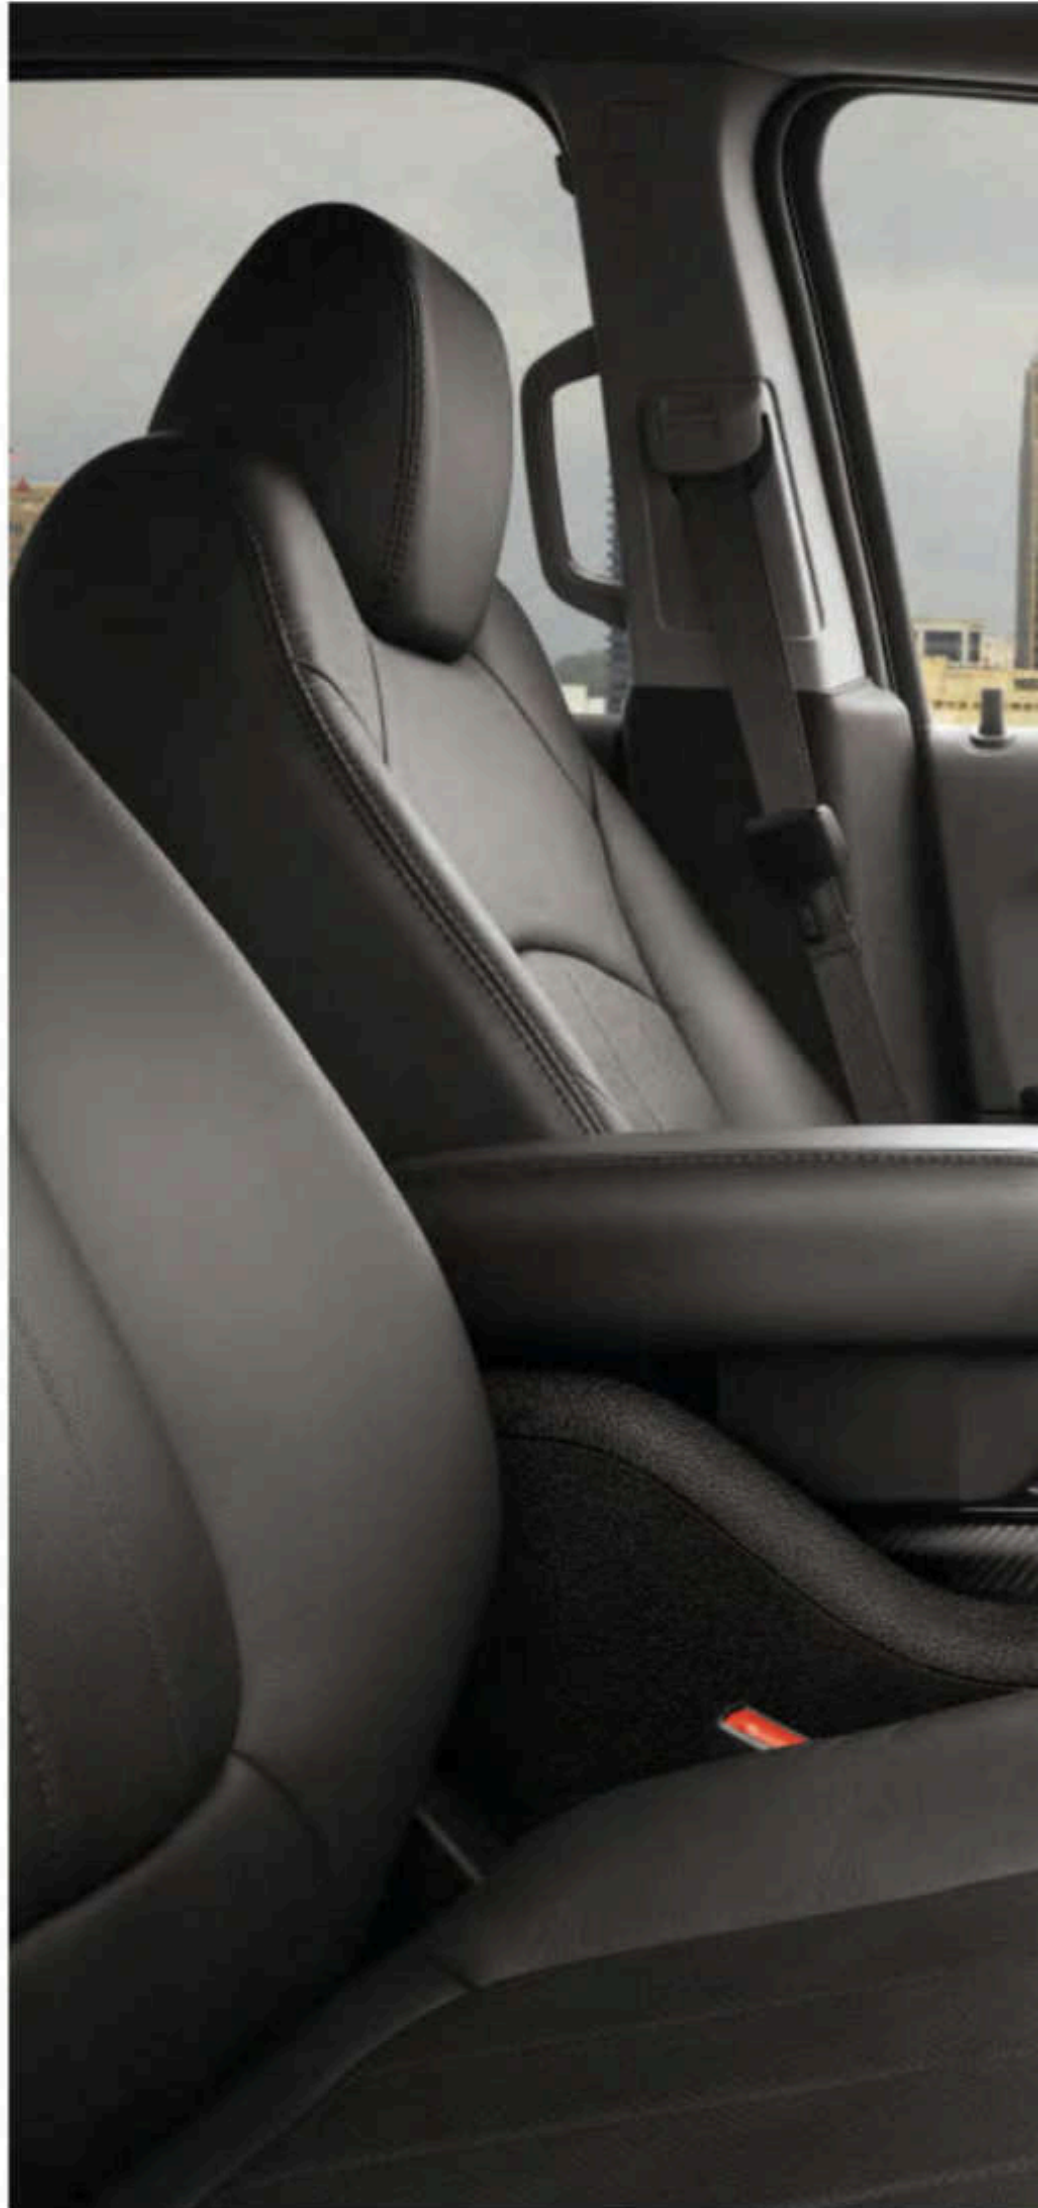

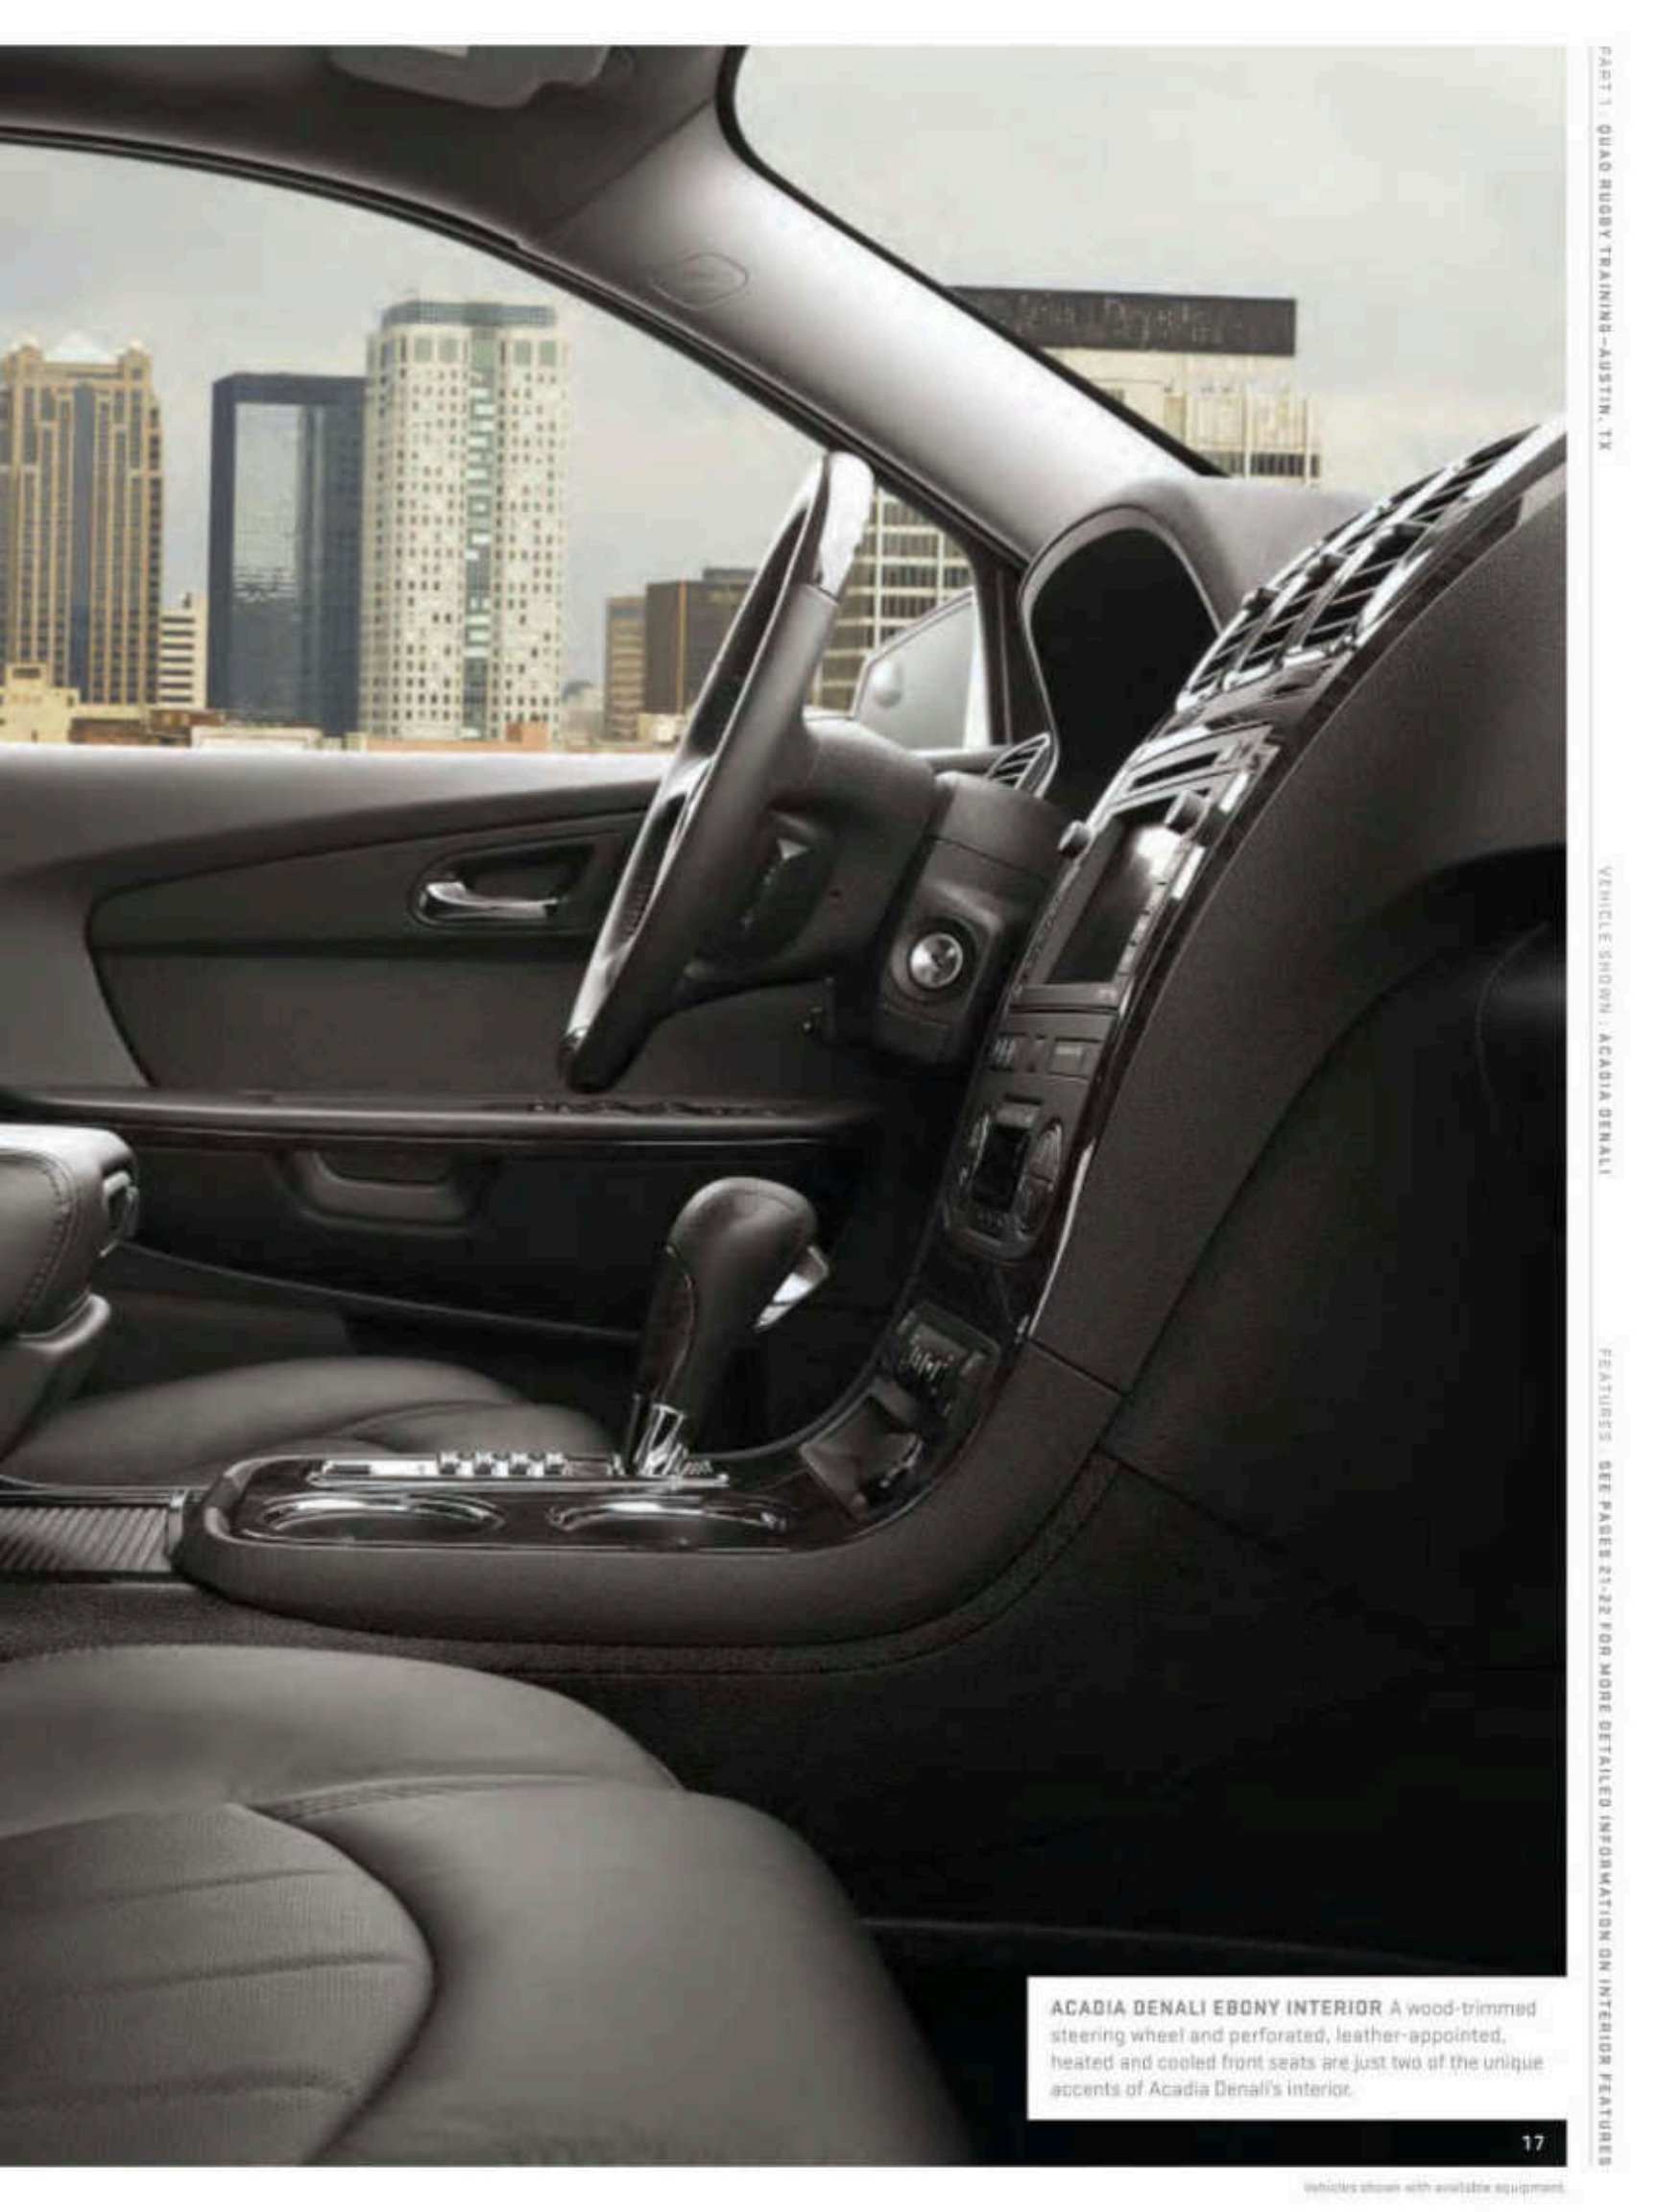

↑ **ACADIA DENALI IN WHITE DIAMOND TRICOAT**

Acadia's gleaming chrome accents and impressive presence make a powerful statement on the road.

↓ The unique illuminated chrome door sill plate of the Denali.

⇓ Acadia's available Rear-Seat Entertainment System comes with a remote control and two sets of wireless headphones.

ACADIA DENALI EBONY INTERIOR A wood-trimmed steering wheel and perforated, leather-appointed, heated and cooled front seats are just two of the unique accents of Acadia Denali's interior.

↓ **ACADIA SLT IN QUICKSILVER METALLIC** The athletic stance, distinguished look and exceptional convenience of Acadia make it the premium crossover for luxury and refinement.

↑ Acadia's low drag co-efficient and aerodynamic design help give it better highway fuel economy* than any other eight-passenger SUV.

THE ATHLETES OF TEAM FORCE QUAD RUGBY

GMC ACADIA

Team Force Quad Rugby pulls the best athletes from wheelchair rugby teams around the country for a chance to test their skills against the highest level of competition. With 13 members and an 8-month season, the team serves as a valuable training ground for the National team, advancing 10 players in their 6 years of existence.

↓ The Quad Rugby Coach, James Gumbert, aka "Coach Gumbie"

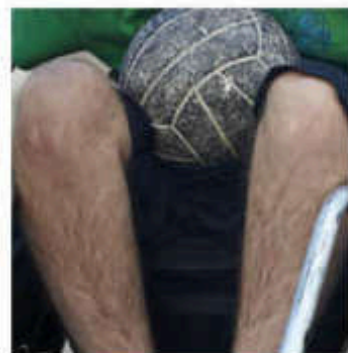

↓ Players have a warm-up game in Austin, TX.

↑ Players practice in a parking garage in Austin, TX.

↑ A player wraps his hands with tape before practice.

↓ Advancing the ball.

↓ Player C.J. Brown using his "tire-dragging" technique for training.

↓ Quad Rugby is played with a soccer ball.

ENGINE

Engineered for responsiveness at all speeds, the 3.6L V-6 VVT in GMC Acadia is the ideal blend of power and efficiency. With a high-performance 24-valve, dual-overhead cam design, the 3.6L V-6 accelerates smoothly and quickly for confident highway passing and merging. Yet its efficiency gives it surprising highway fuel economy — the best of any eight-passenger SUV.

3.6L V-6 VVT (LLT)
HORSEPOWER:
TORQUE:

298 hp @ 6300 rpm
270 lb-ft @ 3400 rpm

VARIABLE VALVE TIMING (VVT) This gives you the power of a high-performance engine with the low-speed response you need for situations such as trailering or climbing steep inclines. This technology constantly monitors and changes how the valves open and close to give you near-peak levels of torque across the entire range of engine speeds.

TRANSMISSION

6-SPEED AUTOMATIC OVERDRIVE TRANSMISSION Designed to be an interactive partner with the engine and control system, this transmission chooses the best gear for economy or power based on your driving style. For steep hills, bad weather or a really great driving road, all Acadia models feature tap-up/-down gear selection with Driver Shift Control. It gives you the ability to manually shift gears for optimal driver control.

STRENGTH AND RELIABILITY

OIL LIFE MONITOR For long life and durability, nothing is more important than changing your oil at the right time. GMC engineered the mystery out of this essential service with the Oil Life Monitor. It calculates how much life your oil has left, based on when and how you drive. Then it updates you with a telltale on your Driver Information Center.

ONSTAR VEHICLE DIAGNOSTICS The peace of mind that comes from knowing the condition of your Acadia's key systems is as easy as checking your e-mail. The OnStar Vehicle Diagnostic service that comes standard with your 6-month trial subscription to OnStar can run hundreds of checks of your Acadia's engine, transmission, antilock brakes and more, then organize the information into an easy-to-read monthly report. OnStar can also run a check of your vehicle as you drive just by pressing the blue button and asking the Advisor for an On-Demand Diagnostics check. That's peace of mind when you need it.

COMPONENTS

ALL-WHEEL DRIVE (AWD) For an extra measure of traction in wet or dry weather, a fully automatic AWD system is available on all Acadia models. This system sends power to each wheel based on available traction. Because the AWD system is so well integrated with Acadia, it is almost imperceptible in daily driving.

FULLY INDEPENDENT SUSPENSION For precise control and luxury-vehicle refinement, GMC Acadia is engineered with a four-wheel independent suspension. As the name implies, each wheel can act independently to maintain road contact, which helps you stay in control. With sophisticated shock absorbers and struts filled with nitrogen gas instead of conventional fluid, the ride is smooth and controlled even on poorly maintained roads.

TRACTION CONTROL SYSTEM To make the most of available traction on many road surfaces, traction control measures and compares the speed of your wheels. If it senses one or more wheels starting to spin, such as on a slippery surface, the system applies individual brakes and manages engine power to slow the wheel down and maintain traction, so you can move forward with a better sense of control.

WIDE STANCE / LONG WHEELBASE For the ride comfort of a full-size SUV, the Acadia has the longest wheelbase measurement in its class, which reduces fore-aft rocking at highway speeds. The wide track pushes the wheels out to the edge of the body for the stability and sure-footed cornering found in much smaller vehicles.

TRAILERING PACKAGE In addition to the luxury-sedan ride and the exceptional maneuverability, Acadia is engineered with a maximum trailer weight rating of up to 5200 lbs.¹ When you order this available package, you get the heavy-duty cooling system, a factory-installed trailer hitch with a standard 2" receiver, attaching points for safety chains and a seven-pin trailer harness with a built-in female connector.

STEERING

POWER RACK-AND-PINION STEERING For precise and accurate response, Acadia features power rack-and-pinion steering. It provides a positive on-center feel at highway speeds, as well as extra low-speed assist for maneuvering in tight spaces. SL and SLE models feature constant-effort power steering.

BRAKING

ANTILOCK BRAKING SYSTEM (ABS) For confident stops in a variety of conditions, every Acadia features four-channel antilock brakes. When the brakes are applied, ABS can detect impending wheel lock-up, and then pulse that wheel's brake to prevent it. A four-channel system, it can activate any combination of vehicle brakes to maintain control.

POWER FOUR-WHEEL DISC BRAKES For outstanding braking performance in virtually any conditions, power four-wheel disc brakes are standard on every model. Their ample size offers the capacity for repeated stops, while the smooth, progressive action of the brake pedal can help you to maintain control in situations where only a small amount of brake force is required.

DESIGN

ALUMINUM WHEELS The good looks are always standard on Acadia. SL and SLE models have a handsome, deeply sculptured, 18" painted aluminum five-spoke wheel, while SLT models roll on 19" ultra-bright machined aluminum five-spoke wheels for a custom look with factory strength. Exclusive 20" wheels² set Denali apart with a flash of chrome-clad brilliance.

DISTINCTIVE GMC STYLING You can feel GMC's century of experience the instant you see it. From the handsome wheel arches and the bold mesh grille to the powerful stance and rugged details, you can tell this is a true GMC, not a passenger car masquerading as an SUV.

FOG LAMPS In driving conditions where high beams are impractical, fog lamps can help to give you an extra measure of confidence. They throw extra light down the road, but their beams spread low and forward to give a better sense of what's ahead.

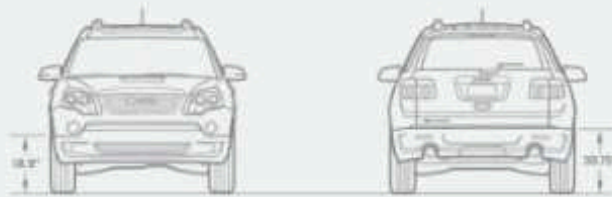

HEATED POWER-RETRACTABLE MIRRORS For excellent visibility and extra clearance, these available power mirrors are the ideal solution. They are heated to remove snow, frost and fogging. On SLE models, they have a black grain finish and fold manually. On SLT-2 and Denali models, they are color-keyed to the body and power fold. SLT-1 is manual folding.

¹FWD models. EPA-estimated 24 hwy mpg. ²Capabilities vary by model. Visit gmc.com for details and system limitations. ³Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your dealer for details. ⁴Use only GM-approved wheel and tire combinations. For important wheel and tire information, go to gmcaccessories.com or see your dealer for details.

HIGH ROOF FIVE-DOOR DESIGN For the versatility and spaciousness of a full-size SUV, GMC designed Acadia for easy access and long-distance comfort. The door openings are generously sized for plenty of head room on entry, and the liftgate opens high enough for full access to the rear opening.

HIGH-INTENSITY DISCHARGE HEADLAMPS There's more to a light than on and off. The available bi-xenon lamps throw a brighter, whiter light farther down the road for better illumination and greater contrast than conventional headlamps. This brighter beam is also more focused, so that more of its lighting power is used to illuminate your path.

LOW STEP-IN HEIGHT AND LOW LIFT-OVER HEIGHT Acadia is engineered to take the work out of typical tasks, such as loading cargo or taking passengers. The low height of the rear bumper makes loading luggage or heavy objects easier, while the low step-in height lets people of every size enter without climbing extra steps.

DESIGN

ACOUSTICS AND NOISE SUPPRESSION To reduce road noise and control wind noise, Acadia uses sophisticated sound-blocking and sound-deadening techniques, including liquid-applied sound deadeners to fill even the most minute gaps and sound paths.

CUPHOLDERS Acadia has two console-mounted cupholders and two in the doors for driver and passenger, another two in the second row with one in each door, plus two more molded into the side panels for the third row.

CLIMATE CONTROL—TRI-ZONE The available tri-zone climate control creates individual areas for the driver, the front-seat passenger and the rear-compartment passengers. Second-row passengers get their own controls for temperature and fan speed, so drivers can concentrate on the road.

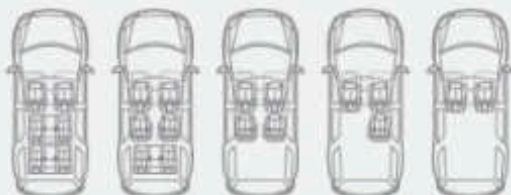

CONSOLE To help everything fall into place, Acadia's convenient and spacious center console gives you multiple storage compartments for the essentials you rely on every day. The center floor console offers deep, concealed storage for CDs or DVDs, MP3 players or other personal electronics. The padded armrest slides fore and aft to help you stay comfortable, regardless of your seating position.

DRIVER INFORMATION CENTER Staying in touch with the most important information is as easy as pressing a button. The Driver Information Center includes the odometer and A/B trip odometers, as well as a message center that keeps you informed about vital vehicle functions and driving conditions.

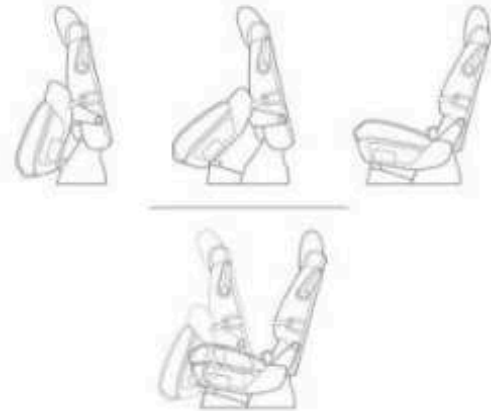

FULL ANALOG GAUGE INSTRUMENTATION For quick, clear readings, nothing beats the simplicity of traditional needle-and-dial gauges. All models include a tachometer to monitor engine speed, an engine temperature gauge and fuel indicator.

SEATING

SEATING CONFIGURATIONS GMC leaves the final passenger list to you. When you choose eight-passenger seating, you get a sliding second-row three-across seat that feels like anything but a bench. If you choose the available seven-passenger configuration, the second row receives two captain's chairs. In either case, you get the convenience and space of fold-flat functionality from the tailgate to the front-row seatbacks.

SMART SLIDE SEATING To make third-row entry and exit easier for people of many sizes, Acadia has Smart Slide second-row seating that slides the seats to their forward-most position, and then compacts them for space with the same folding action you would use for a chaise lounge or beach chair. For convenience, the Smart Slide feature operates with just one lever and one hand.

FOLD-FLAT FUNCTIONALITY For the impressive capacity of a full-size SUV, the second- and third-row seats inside Acadia fold forward to create a flat, uninterrupted load floor. The result of this flexibility is up to 115.9 cu. ft. of cargo capacity, and a load floor that can accommodate a 4' x 8' sheet.¹

CONNECTIVITY AND TECHNOLOGY

AIRCRAFT-INSPIRED HEAD-UP DISPLAY Acadia is the only crossover in its class that has it available. Head-Up Display works by projecting important information at eye level, so you can monitor vital functions without looking down. Inspired by fighter aircraft technology, Head-Up Display projects speed and rpm readings, turn signal and high-beam indicators, transmission selection, outside air temperature and, when equipped with the available navigation radio, Turn-By-Turn Navigation instructions.²

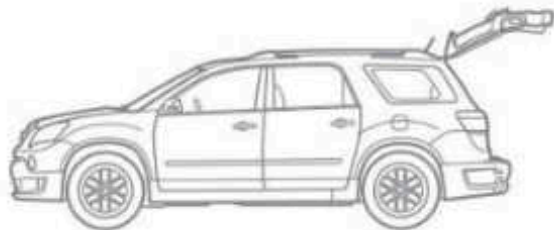

REMOTE KEYLESS ENTRY One touch is all it takes to lock or unlock your Acadia or flash its lights and sound the horn to help you locate it in a busy parking lot. It works at a range of up to 195 feet to unlock your doors for fast entry, saving you and your passengers from unwanted exposure to wind, rain, snow or sleet.

REMOTE VEHICLE START Warm up—or cool off—your Acadia for up to 10 minutes without leaving the door. This available feature is capable of starting your vehicle from up to 195 feet away, so your Acadia's interior will begin adjusting to your preset temperature. With tri-zone automatic climate control, the system can automatically heat or cool the interior based on outdoor temperatures.

¹Cargo and load capacity limited by weight and distribution. ²Requires OnStar Directions & Connections Plan. Visit onstar.com for coverage map, details and system limitations.

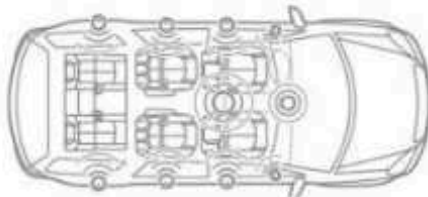

REMOTE POWER LIFTGATE Loading up your Acadia with your hands full? Let us help you with that. The available power liftgate opens with a touch of your key fob for easier access to your Acadia's impressive cargo capacity. You can close it the same way, or use the fingertip buttons located on the liftgate or on the center console.

ENTERTAINMENT

AM/FM STEREO WITH MP3-COMPATIBLE CD PLAYER For your convenience and listening enjoyment, this system features seek-and-scan station location; auto-tune control; Radio Data System (RDS)¹ that displays the artist, album, song and station information; speed-compensated volume that matches audio output to interior sound levels and TheftLock that disables the radio if removed. This radio also features an auxiliary input jack.

10-SPEAKER BOSE® AUDIO SYSTEM The available Bose systems are engineered to give you the realism and presence of a live performance. Standard on SLT and Denali models, the 10-speaker Bose sound system with the Bose Nd® Richbass^{II} woofer offers incredible sound detail and richness.

TOUCH-SCREEN NAVIGATION SYSTEM² Find your way just by touching the screen or stating your destination and let the system do the rest. For easy operation, the available touch- and voice-activated DVD-based system includes a large 7" in-dash touch-screen display with Rear-Vision Camera System, plus all premium AM/FM/CD functions and a 3-month trial subscription to NavTraffic³. OnStar subscribers can also use this system with OnStar Turn-by-Turn Navigation.

MP3 PLAYBACK CAPABILITY Bring the music and entertainment you love to your Acadia just by plugging your playback cable into the auxiliary input-jack on your radio. Accommodates most MP3 players and devices, including iPod[®] and many smartphones.

REAR-SEAT ENTERTAINMENT SYSTEM Help your rear-seat passengers enjoy the ride even more, while treating the front seat to some well-deserved peace. Available in all Acadia models except SL models, this system includes a DVD player with remote control, two sets of two-channel wireless headphones, auxiliary input jacks that can accommodate most gaming systems as well as a 10-speaker Bose audio system that supports Bose 5.1 Surround Sound recorded material.

STEERING-WHEEL-MOUNTED RADIO CONTROLS Play your audio system with your fingertips, while you keep your eyes on the road. These available fingertip controls can also control most music search features of compatible MP3 and iPod[®] players, as well as the hands-free phone interface built into your Acadia.

USB CONNECTIVITY Plug into the available USB port,⁴ and you can control most of your iPod[®] or MP3 music player's functions, including playlists and song selection, from your available steering-wheel-mounted radio controls.

120-VOLT AC POWER OUTLET Your electronics are not accessories; they are necessities in today's fast-paced world. Acadia is helping you to stay in charge by offering an available 150-watt/120-volt AC household current grounded power outlet with the Rear-Seat Entertainment System to keep your phone, laptop or music player fully charged and ready for action. This outlet can also be used to power most inflators for sporting goods, portable televisions, video players or game systems.

SIRIUSXM SATELLITE RADIO⁵ / NAVTRAFFIC³ Enjoy SiriusXM Satellite Radio in your Acadia with a 3-month trial subscription to the XMPremier Package. Only SiriusXM brings you more of what you love, all in one place. Get over 130 channels including commercial-free music, plus the best sports, news, talk, comedy and entertainment. With NavTraffic, you'll get continuously updated traffic information as it occurs, right on your vehicle's available navigation system. Welcome to the world of SiriusXM.

BLUETOOTH[®] FOR PHONE Extend your capabilities just by activating the available Bluetooth feature on your phone or portable device. This lets your Bluetooth device work through many of the controls and features already installed in your Acadia, including hands-free operation and dialing.

DEALER-INSTALLED WI-FI⁶ Connect up to 20 wireless users at one time and stay in touch with your life's vital information with the first wireless router designed just for automotive use. It's called Autonet Wi-Fi, and it allows any combination of laptops, phones or other Wi-Fi-enabled devices to connect to the Internet, wherever you are. Ask your dealer for specific plans and prices.

CONVENIENCE

IN-CONSOLE POWER PORT For secure and concealed charging of your portable electronic devices, Acadia includes a 12-volt DC power outlet in the storage well of your center console. It lets you quickly recharge small portable devices such as phones, camera batteries or MP3 players.

REAR-VISION CAMERA SYSTEM Make it easier to back up to a trailer or negotiate a tight space. This available system places a monitor in your rearview mirror (or DVD navigation screen if equipped) to display real-time video from a near-bumper-level view.

ULTRASONIC REAR PARKING ASSIST This available system sends out ultrasonic waves from the rear bumper that function like radar to alert you to certain objects, buildings or people who are within range of your rear bumper. The closer you are, the faster it beeps, to give you a clear signal that can help you operate the vehicle with maximum care.

UNIVERSAL HOME REMOTE Open your garage without leaving your locked vehicle. This available remote can be easily programmed to operate the majority of garage-door-opening systems. Because it operates from the Acadia's electrical system, it will never need batteries.

DIRECTIONS & CONNECTIONS

DIRECTIONS & CONNECTIONS PLAN⁷ Success in today's fast-moving world means finding and focusing on the information that means the most to you. To put this capability at your fingertips, all Acadia models feature a 6-month trial subscription to the OnStar Directions & Connections Plan, standard.

RDS functions only where stations broadcast RDS information. ¹Map coverage for Puerto Rico and the U.S. Virgin Islands available on separate disc. Coverage not available for portions of Canada. ²NavTraffic requires a monthly subscription after introductory trial service, sold separately by SiriusXM. NavTraffic only available in select markets. For more information, visit siriusxm.com/navtraffic. ³Not compatible with all devices. ⁴Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit siriusxm.com. ⁵Go to go.com/bluetooth to see which Bluetooth phones are compatible with the vehicle. ⁶Monthly rates apply. Visit autonetmobile.com for coverage map and details. ⁷Visit onstar.com for coverage map, system limitations and details. Dollar sign as a link to existing emergency service providers. Services vary with conditions.

HANDS-FREE CALLING WITH VOICE-ACTIVATED DIALING OnStar Hands-Free Calling is built into your Acadia. Just push a button, call out the number and you're free to keep your eyes on the road. It's reliable, because it is specially designed for better connectivity and fewer dropped calls in areas with limited cellular reception.

TURN-BY-TURN NAVIGATION Drive with more confidence and certainty. OnStar Turn-By-Turn Navigation is built into your Acadia. It's simple—all you have to do is push one button and ask the OnStar Advisor to download directions to your Acadia. Turn-By-Turn is also smart, because an automated voice calls out every turn as you need it.

ONSTAR eNAV WITH GOOGLE™ MAPS AND ONSTAR eNAV WITH MAPQUEST.COM™ Want to get a head start on a trip? Start by checking out your destination on Google Maps or mapquest.com. With OnStar eNav, just click the "Send" link on the Web site, and it will be sent to your vehicle. When you're ready to head out, simply retrieve the destination and directions will be downloaded to your vehicle based on your location, with nothing to type on the screen and no maps to hold.

DESTINATION DOWNLOAD Looking for a destination in your vehicle's screen-based navigation system? OnStar will do it for you. Simply press your blue OnStar button, and you will be connected with a trained Advisor who will download your directions to your Acadia's screen-based navigation system. You can also have destinations downloaded on the go—no need to pull over to enter new addresses. It's an enhancement to Navigation that makes screen-based navigation systems easier and faster to use.

VEHICLE SECURITY

STOLEN VEHICLE ASSISTANCE If your Acadia is ever stolen, OnStar can help locate it after verification with law enforcement. OnStar can use built-in GPS technology to help to locate it, prevent it from restarting with Remote Ignition Block or if the vehicle is in use, engage the Stolen Vehicle Slowdown technology to help police recover it quickly and safely.

ROADSIDE ASSISTANCE¹ If the unexpected happens on the road—you're stranded, run out of gas or have a flat tire—one push of the OnStar button can immediately connect you to an Advisor, ready to help any hour of the day or night. OnStar can use GPS technology to pinpoint your location and connect you to a service provider. No guessing about where you are or what to do.

REMOTE DOOR UNLOCK It's happened to everyone. But there is an easy solution. If you get locked out of your Acadia, OnStar can help. After verifying your account, an OnStar Advisor can send a signal to your Acadia that usually unlocks the doors within minutes.

REMOTE HORN AND LIGHTS Say you're in a large parking area, and you just can't remember where you parked. Just call the toll-free number and OnStar can send a remote signal to flash your lights and sound your horn to help you locate your Acadia.

DRIVER CONFIDENCE

AUTOMATIC CRASH RESPONSE If your Acadia is in a crash, built-in sensors can automatically send an alert to OnStar. An OnStar Advisor is immediately connected to your vehicle to help you. Even if you aren't capable of responding, the Advisor can use GPS technology to locate you and request that emergency help is sent right away.

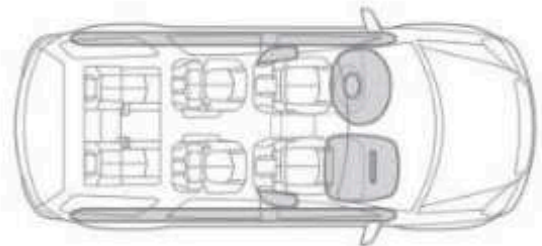

CRISIS ASSIST During severe weather or other natural disasters, OnStar can offer assistance and help you navigate your way to safety. Just push the red OnStar emergency button and our specially trained Crisis Assist Team moves quickly to help you. OnStar can pinpoint your location and provide up-to-date information from public safety authorities, request that help be sent to you or even contact family members or loved ones.

EMERGENCY SERVICES If someone in your Acadia needs emergency help, the OnStar emergency button gives you a priority connection to a specially trained Advisor at any time, day or night. OnStar uses GPS technology to pinpoint your location and can request police, fire or medical support be sent right away. The Advisor can also stay with you on the line until help arrives.

ONSTAR REMOTELINK APP The OnStar RemoteLink app offers an amazing level of control and connection with your vehicle. After downloading and registering the app, GMC owners with an eligible vehicle can use their iPhone® or Android™-based mobile devices to control their vehicle from their phone and perform specific commands—like unlocking their doors—remotely. You can lock/unlock your doors from any distance, start your vehicle remotely,² sound your horn and flash your lights to help locate your vehicle or contact an OnStar Advisor, Roadside Assistance or your preferred dealer. To learn all about all the great features available, go to onstar.com.

DAYTIME RUNNING LAMPS Let other drivers know where you are. By running the low-beam lamps in daytime, you can gain recognition by other drivers from a greater distance, giving you an extra margin of security.

DUAL-STAGE FRONTAL AIR BAGS AND SIDE-IMPACT AIR BAGS³ To help reduce the risk of injury to driver and front passengers, the dual-stage frontal air bags in Acadia have sensors that gauge the severity of a crash, then determine whether to employ one or two levels of inflation. Acadia also features a Passenger Sensing System for the outboard front passenger that automatically turns off the air bag if the passenger is under the appropriate weight.

HEAD CURTAIN SIDE-IMPACT AIR BAGS³ These air bags unfurl from the roof rail like a protective curtain for outboard passengers and can be activated by either rollover sensors or side-impact sensors.

SIDE-IMPACT AIR BAGS³ To help protect the thorax and pelvic regions of the driver and outside front passenger in a side-impact collision, Acadia models include standard side-impact air bags mounted on the driver and outside front passenger seats.

LATCH CHILD SEAT ANCHORING SYSTEM Make it easier to properly install a child seat. LATCH stands for Lower Anchors and Top tethers for CHildren. It means that a LATCH-equipped child seat will install to specially designed retainer hooks in your Acadia. It also enables a child seat top tether strap to be attached that helps limit movement in a forward crash to help reduce the chance of injury.

PASS-KEY III+ THEFT DETERRENT SYSTEM Preventing unauthorized starting attempts in your Acadia comes down to a tiny chip found in your ignition key. It functions as an electronic "fingerprint" that disables your starting system if it detects a theft attempt is underway.

REINFORCED STEEL SAFETY CAGE DESIGN Acadia's robust body-frame integral structure is engineered to help maintain the integrity of the passenger compartment in the event of a collision.

STABILITRAK STABILITY CONTROL SYSTEM To help you stay in control when the road is loose, snowy, icy, wet or uneven, StabiliTrak uses a network of vehicle sensors to monitor how your Acadia is responding to your steering and braking commands. If the system determines your vehicle is not responding properly, it can pulse the brakes or reduce engine power to help you stay on the path being steered. StabiliTrak is not a substitute for common sense; please drive carefully within the limits of the road conditions and your vehicle's capabilities.

TIRE PRESSURE MONITORING SYSTEM⁴ Properly inflated tires are critical to your comfort, vehicle control and economy. Tire Pressure Monitoring uses tiny sensors inside the wheel to "broadcast" tire pressure to your vehicle, which alerts you to their status and inflation level through the Driver Information Center. If you subscribe to OnStar Vehicle Diagnostics, this information is part of their monthly e-mail update, or if you have the OnStar RemoteLink app, you can check the status from your smartphone.

¹Roadside service provided by Cross Country. ²Requires factory-installed remote start. ³Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information. ⁴Does not monitor spare tire. RemoteLink requires active OnStar subscription.

Coverage not available for portions of Canada. ⁴NavTraffic requires a monthly subscription after introductory trial service, sold separately by SiriusXM. NavTraffic only available in select markets. For more information, visit siriusxm.com/navtraffic. ⁵Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit siriusxm.com. ⁶Visit gm.com for details and system limitations. ⁷Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

AVAILABLE FEATURES

REAR SEAT ENTERTAINMENT SYSTEM

Includes a rear-seat DVD player with remote, overhead display, two sets of wireless infrared headphones (batteries included) and more.

REAR-VISION CAMERA SYSTEM

When you shift into reverse, the available NAV screen displays a view of what's behind Acadia. On models without Touch-Screen Navigation, the image is displayed in a portion of the rearview mirror.

SECOND-ROW BENCH SEAT

The 60/40 split flat-folding bench seat with Smart Slide gives Acadia up to eight-passenger seating (2-3-3).

PART 3
SPEC YOUR MODEL

GMC ACCESSORIES FOR YOUR ACADIA

Make Acadia your very own with available accessories created specifically to match its distinctive style, as well as yours. All of these items have been tested to meet GMC's original equipment standards for performance and appearance. Their cost can be applied to your purchase, installed by your GMC dealer and covered under GM's New-Vehicle Limited Warranty. Just ask your dealer.

CARGO SECURITY SHADE

This Ebony fabric shade keeps the cargo area of your Acadia under wraps. Attaches easily and folds or rolls for convenient storage.

HEAD RESTRAINT DVD

Entertain your rear-seat passengers. Separate players are available for the driver-side and passenger-side head restraints.

PREMIUM ALL-WEATHER FLOOR MATS

Designed to handle the elements, these precision-designed mats precisely fit the floor of your Acadia. Front mats feature an embossed GMC logo. Available in Ebony.

MOLDED TRAILER HITCH CLOSETOUT

This custom-molded trailer hitch closetout hides the receiver opening when you remove your ball mount assembly. Molded to match lower trim.

MOLDED HOOD PROTECTOR

Look stylish while you help protect your vehicle's finish from insects and road debris. Designed and engineered specifically to fit the contours of your Acadia.

MOLDED SPLASH GUARDS

These molded splash guards are custom designed to fit directly behind the wheels. They accent the exterior while protecting it from road splashes and mud. Rear splash guards feature the GMC logo.

CHROME ASSIST STEPS

Constructed from high-strength aluminum, these 6" oval steps feature full-length black traction pads for confident footing while entering and exiting your vehicle.

19" AND 20" CAST CHROME WHEELS*

Roll with the best. These custom wheels feature a brilliant, lustrous, durable chrome finish, and are available with matching lug nuts and GMC center caps.

¹GM Accessories permanently installed at the time of new-vehicle delivery are covered under the New-Vehicle Limited Warranty. If installed after delivery, coverage (parts and labor) is for the balance of the new-vehicle warranty or a minimum of 12 months / 10,000 miles, whichever comes first. GM Accessories not requiring installation or purchased over the counter carry a 12-month limited warranty (parts only). Does not apply to licensed products. ²Offered as a dealer-ordered accessory option. *See only GM-approved wheel and tire combinations. Unapproved combinations may change the vehicle's performance characteristics. For approved wheel and tire combinations and other important information, go to gmaccessories.com or see your dealer for details. *Maximum trailer weight ratings are calculated assuming a base vehicle, except for any options necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your dealer for details. ³When properly equipped, includes weight of vehicle, passengers, cargo and equipment. ⁴Cargo and load capacity limited by weight and distribution.

COMMITMENT PLUS

From the owner orientation – and full tank of gas – you receive when you take possession of your Acadia to the **24-Hour Roadside Assistance, Courtesy Transportation and Travel Benefits.** Commitment Plus is a portfolio of owner privileges that lasts throughout your warranty. For expert product information, Roadside Assistance or other services, call 1-800-GMC-8782.

TRAVEL BENEFITS AND ROADSIDE ASSISTANCE Available around the clock: trip routing service, a program for reimbursement for trip interruption due to necessary warranty repairs, towing, flat tire change, jump-starts and more for 5 years or 100,000 miles (whichever comes first).

COURTESY TRANSPORTATION Available at participating dealers: shuttle service, reimbursement of certain public transportation or fuel expenses for overnight warranty repairs, and courtesy rental for overnight work repairs. See your dealer for details.

GMC OWNER CENTER A complimentary, one-stop resource to enhance your GMC ownership experience. It's easy to sign up. Just go to gmc.com/gmownercenter/gmc.

ONSTAR

OnStar is a core asset of your Acadia. Benefiting from more than a decade of innovative development, it is both a highly advanced technology – fully integrated within the vehicle – and a warm human service. Standard on all Acadia models are 6 months of the OnStar Directions & Connections Plan, including the convenience of Hands-Free Calling. It also includes Automatic Crash Response, Stolen Vehicle Assistance, link to Emergency Services, Roadside Assistance, Remote Door Unlock, OnStar Vehicle Diagnostics, Crisis Assist and Remote Horn and Lights. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Visit onstar.com for coverage maps, details and system limitations. Services vary with conditions.

HANDS-FREE CALLING

Available OnStar Hands-Free Calling capability is built into your Acadia. It's there when your cell phone is unavailable, its battery is low, you can't reach it easily or you left it home or in the office. Your Hands-Free Calling system is the right choice wherever you need an easy way to make and receive calls – at the touch of the phone icon on the rearview mirror or the steering-wheel-mounted controls. Voice-activated dialing is convenient because you don't have to dial when you are at the wheel. And Hands-Free Calling is reliable because it's specially designed for better reception and fewer dropped calls in areas of limited cellular reception.

ONSTAR TURN-BY-TURN NAVIGATION

Standard on all Acadia models are 6 months of the OnStar Directions & Connections Plan that adds innovative, easy-to-use Turn-by-Turn Navigation plus Information and Convenience Services and Driving Directions. With Turn-by-Turn Navigation, you simply tell the OnStar Advisor your intended destination, and directions will automatically be sent to your Acadia. If you drive off-course, the system can reroute you to your intended destination. An automated voice then guides you turn-by-turn until you arrive at your destination. Turn-by-Turn Navigation is further enhanced with eNAV, allowing you to send Google™ Maps and MapQuest™ directions directly to your vehicle. No need to print out directions; just call them up with simple voice commands.

SIRIUSXM SATELLITE RADIO

SiriusXM Satellite Radio® is standard on all Acadia models with 3 trial months of service to the XMPremier Package. SiriusXM Satellite Radio makes your drive come alive with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Welcome to the world of satellite radio. Visit siriusxm.com for details.

NAVTRAFFIC

Nav TRAFFIC Included with the available Touch-Screen Navigation System, 3 trial months of NavTraffic® enhances Acadia's GPS navigation system by showing continuously updated traffic data – while you're driving. Available in over 100 markets, NavTraffic displays information on construction, road closures and accidents so that you can get to your destination faster, plus average traffic speed and estimated drive time in select markets. For more information, visit siriusxm.com/navtraffic.

GMC CERTIFIED SERVICE

GMC Certified Service To help your Acadia live up to its performance promise, GMC Certified Service – found exclusively at your GMC dealer – is there. With all the engineering excellence in Acadia, GM-trained technicians have the expertise to care for all of it.

A NOTE ON CHILD SAFETY Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

TRAILERING AND OFF-ROAD INFORMATION Please carefully review the Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

ENGINES GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

GMC.COM See more of Acadia on our Web site: gmc.com/acadia. More photos and information, hot links to related subjects, convenient dealer locator, pricing guide, spec out your own vehicle. Or call 1-800-GMC-8782.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

NEW-VEHICLE LIMITED WARRANTY All GMC light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty. GM vehicles registered in the U.S.A. are also covered for 3 years or 36,000 miles (whichever comes first). Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles (whichever comes first). See dealer for details.

ASSEMBLY GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GM MOBILITY.COM (1-800-325-3335) GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

GMCARDMEMBERSERVICES.COM Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you.

Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit siriusxm.com. NavTraffic requires a monthly subscription after introductory trial service, sold separately by SiriusXM. NavTraffic only available in select markets. For more information, visit siriusxm.com/navtraffic.
