

COMMITMENT PLUS

From the swivel orientation—and full tank of gas—you receive when you take possession of your Acadia to the **24-Hour Roadside Assistance, Courtesy Transportation and Travel Benefits**, Commitment Plus is a portfolio of owner privileges that lasts throughout your warranty. For expert product information, Roadside Assistance or other services, call 1-800-GMC-8762.

TRAVEL BENEFITS AND ROADSIDE ASSISTANCE Available around the clock; trip routing service, a program for reimbursement for trip interruption due to necessary warranty repairs, towing, flat tire change, jump-starts and more for 5 years or 100,000 miles (whichever comes first).

COURTESY TRANSPORTATION Available at participating dealers: shuttle service, reimbursement of certain public transportation or fuel expenses for overnight warranty repairs and courtesy rental for overnight work repairs. See your dealer for details.

GMC OWNER CENTER A complimentary, one-stop resource to enhance your GMC ownership experience. It's easy to sign up. Just go to gmc.com/gmownercenter/gmc.

ONSTAR

OnStar is a core asset of your Acadia. Benefiting from more than a decade of innovative development, it is both a highly advanced technology—fully integrated within the vehicle—and a warm human service. Standard on all Acadia models are 6 months of the OnStar Directions & Connections Plan, including the convenience of available Hands-Free Calling.¹ It also includes Automatic Crash Response, Stolen Vehicle Assistance, link to Emergency Services, Roadside Assistance, Remote Door Unlock, OnStar Vehicle Diagnostics, Crisis Assist and Remote Horn and Lights. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Visit onstar.com for coverage maps, details and system limitations. Services vary with conditions.

HANDS-FREE CALLING

Available OnStar Hands-Free Calling capability is built into your Acadia. It's there when your cell phone is unavailable, its battery is low, you can't reach it easily or you left it at home or in the office. Your Hands-Free Calling system is the right choice whenever you need an easy way to make and receive calls—at the touch of the phone icon on the rearview mirror or the steering-wheel-mounted controls. Voice-activated dialing is convenient because you don't have to dial when you are at the wheel. And Hands-Free Calling is reliable because it's specially designed for better reception and fewer dropped calls in areas of limited cellular reception.

ONSTAR TURN-BY-TURN NAVIGATION

Standard on all Acadia models are 6 months of the OnStar Directions & Connections Plan that adds innovative, easy-to-use Turn-by-Turn Navigation plus Information and Convenience Services and Driving Directions. With Turn-by-Turn Navigation, you simply tell the OnStar Advisor your intended destination, and directions will automatically be sent to your Acadia. If you drive off course, the system can reroute you to your intended destination. An automated voice then guides you turn-by-turn until you arrive at your destination. Turn-by-Turn Navigation is further enhanced with eNAV² allowing you to send MapQuest[™] directions directly to your vehicle. No need to print out directions; just call them up with simple voice commands.

SIRIUSXM SATELLITE RADIO

SiriusXM Satellite Radio³ is standard on all Acadia models. It includes 3 trial months of service. SiriusXM Satellite Radio makes your drive come alive with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Welcome to the world of satellite radio. Visit siriusxm.com for details.

GMC CERTIFIED SERVICE

GMC Certified Service To help your Acadia live up to its performance promise, GMC Certified Service—found exclusively at your GMC dealer—is there. With all the engineering excellence in Acadia, GM-trained technicians have the expertise to care for all of it.

ADDITIONAL NOTES

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

TRAILERING AND OFF-ROAD INFORMATION Please carefully review the Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC Dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times. All competitive claims are based on the latest information available at the time of printing and GM Mid-SUV segment.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

ENGINES GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

GMC.COM See more of Acadia on our Web site: gmc.com/acadia. More photos and information: hot links to related subjects: convenient dealer locator; pricing guide; spec out your own vehicle. Or call 1-800-GMC-8762.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems, or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

NEW-VEHICLE LIMITED WARRANTY All GMC light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty. GM vehicles registered in the USA are also covered for 3 years or 36,000 miles (whichever comes first). Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles (whichever comes first). See dealer for details.

ASSEMBLY GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GMMOBILITY.COM [1-800-323-9935] GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

GMCARDMEMBERSERVICES.COM Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you.

Visit onstar.com for coverage maps, details and system limitations. Dealer Hands-Free Calling requires existing OnStar service contract and prepaid minutes. Not available in certain markets. Calls can be made in U.S. and Canada only. ²If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. For more information about NavTraffic, visit siriusxm.com/navtraffic. XM satellite service is available only to those in the 48 contiguous USA and DC.

2014 GMC ACADIA. Continuous innovation results from a steadfast refusal to engineer anything less than Professional Grade vehicles. From the beginning, GMC has been dedicated to the highest standards of design and engineering—creating precision-crafted vehicles that exceed expectations. That's why the 2014 Acadia is the crossover engineered to handle life's demands. With models designed to accommodate up to eight, its interior quickly transforms to offer more cargo capacity than any class competitor. And now GMC's Pro Grade Protection is standard on every 2014 Acadia. Learn more about this enhanced peace of mind on page 21. GMC. We Are Professional Grade.

INTERIOR

UPGRADE TO A SUITE.

GMC engineers crafted the Acadia cabin to be remarkably spacious, quiet and comfortable.

Choose Denali, a level of design and craftsmanship that is the pinnacle of GMC engineering,

and elevate yourself further. Acadia Denali combines premium materials, distinctive style

and advanced technologies like new standard Forward Collision Alert and Lane Departure

Warning to help you avoid mishaps. Refinements include perforated leather appointments on the

first- and second-row seats and the precise detailing of contrasting French seam stitching.

ACADIA SLT IN CRYSTAL RED TINTCOAT (left) ACADIA DENALI IN CARBON BLACK METALLIC (right) Vehicles shown with available equipment.

IT SHOUTS PREMIUM, USING ITS INSIDE VOICE. Acadia Denali surrounds you with real premium materials, a soft-touch instrument panel and countless features designed to make your travels pleasurable. You and your companions can spread out and make yourselves comfortable, relaxed and at ease.

FRENCH SEAM STITCHING In Acadia Denali, refinement is the supple touch of perforated leather appointments on the first- and second-row seats and the precise detailing of contrasting French seam stitching.

PREMIUM MATERIALS Denali's standard leather-wrapped, mahogany wood and aluminum-trimmed steering wheel puts you in touch with sophisticated style. You'll also find aluminum trim highlighting the instrument panel.

BOSE® SOUND SYSTEM For your listening pleasure, the Bose audio system in Denali features 10 speakers in the cabin. Available digital 5.1 surround technology unlocks the benefits of digital recordings for a full, detailed sound.

ACADIA DENALI INTERIOR IN COCOA DUNE shown with available equipment.

Control your environment with heated/cooled front seats, pg. 31.

Give everyone a choice with available tri-zone climate control, pg. 17.

A close-up, high-angle view of the driver's side interior of a vehicle. The steering wheel is prominent in the foreground, featuring a dark leather-like texture and a silver-colored trim. The instrument cluster behind the wheel includes a tachometer, a speedometer, and a digital display showing 'P R N D L'. The center console has a gear shifter and handbrake. The dashboard and door panels are finished in a dark, textured material. The overall lighting is dim, highlighting the textures and metallic accents.

IN HERE, PERFORMANCE IS MEASURED IN BRAIN POWER.
From new driver alert technologies to available navigation systems, Acadia Denali
never stops thinking.

ACADIA DENALI INTERIOR IN COCOA DUNE

Heighten your confidence with Forward Collision Alert and Lane Departure Warning, pg. 20.

Personalize your entertainment with voice-activated IntelliLink, pg. 9.

ACADIA SLT INTERIOR IN EBONY
shown with available equipment.

Keep information in sight with the
Driver Information Center, pg. 16.

PULL UP A SEAT—EIGHT OF THEM. Acadia is offered with a second-row bench seat to accommodate up to eight adults, or choose your second row with a pair of captain's chairs for seven-passenger seating.

Back up confidently with the Rear-Vision Camera System, pg. 9.

Access the third row using one hand with Smart Slide seating, pg. 16.

DRIVER TECHNOLOGIES

ALERT, INFORMED, ENTERTAINED. Acadia is all about keeping you in tune with your surroundings—both inside as well as out—using the latest mobile technologies. The more you know, the better your driving experience. That's why information is ergonomically positioned to optimize driving awareness and minimize distractions.

1 INTELLILINK[®] Available with Color Touch Radio and included with Color Touch Navigation,² IntelliLink provides smartphone integration with Bluetooth[®] for audio and voice-activated control of your communication and entertainment selections, including placing a telephone call, changing the station, streaming Internet radio stations Pandora[®] and Stitcher[™] SmartRadio through your smartphone or accessing your iPod[®] music library.

2 HEAD-UP DISPLAY This available cockpit-inspired gauge readout projects important driving information directly onto the windshield, tracking speed, engine rpm, outside air temperature and more.

3 TOUCH-SCREEN NAVIGATION² The available Touch-Screen Navigation System offers advanced mapping capabilities in 2-D or 3-D view and includes 3 months of XM NavTraffic,⁴ giving you construction, road closure and accident reports in real time.

4 REAR-VISION CAMERA SYSTEM The touch-screen display is also a monitor for the Rear-Vision Camera. It provides a wide view behind the vehicle when backing up.

*Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. Data plan rates apply. ²Map coverage available in the United States, US Virgin Islands, Puerto Rico and Canada. ³Go to gmotalconnect.com to find out which phones are compatible with the vehicle. ⁴If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms and geographic limitations at siriusxm.com.

ACADIA DENALI IN WHITE DIAMOND TRICOAT shown with available equipment.

Stand out on the road with LED daytime running lamps, pg. 20.

Signal your arrival with 20" aluminum wheels, pg. 27.

THE HEIGHT OF STYLE. It's a level of design and craftsmanship uncommon in today's vehicle landscape.

Acadia Denali's attention to every detail is easy to see wherever you look. Its distinctive style is a product of smooth, flowing lines running uninterrupted from the front to the rear, culminating in a crossover that's every inch a Denali.

DUAL FLOW-THROUGH EXHAUST Thoroughly integrated into the corners of the rear bumper of Acadia Denali is a pair of chrome outlets for a dual flow-through design.

PROJECTOR HEADLAMPS High Intensity Discharge (HID) projector headlamps and LED daytime running lamps increase visibility, giving Denali a jewel-like necklace of illumination.

DENALI GRILLE The distinctive honeycomb pattern of its 3-D chrome grille is a signature detail unique to the Denali series, GMC's top-of-the-line models.

ACADIA SLT IN CRYSTAL RED TINTCOAT
shown with available equipment.

Defy the elements with available heated,
power-retractable mirrors, pg. 14.

Low step-in height makes Acadia
even easier to get into, pg. 14.

Illuminate your path with available
HID projector headlamps, pg. 11.

EXTERIOR

SCULPTED TO PERFORM.

Acadia's sculpted surfaces are where form meets function. No matter which model you choose, Acadia combines design, power and the versatility to help you achieve more. Add the Denali name and you enhance the level of style and convenience. Acadia Denali combines premium materials, distinctive styling and advanced technologies to make it the premier choice among crossovers.

FEATURES & BENEFITS

PROFESSIONAL GRADE: A USER'S GUIDE.

Every one of Acadia's components is engineered to a level of excellence we call Professional Grade. The result is uncompromising comfort, highly capable performance and innovation at every turn. What follows are detailed insights into how these features span the entire vehicle—including Pro Grade Protection (see page 21 to learn more) to help maintain a premium driving experience.

FORM MERGES SEAMLESSLY WITH FUNCTION. At GMC, our designers crafted the high-roof, five-door design of Acadia with a clear understanding of your functional requirements—the low height of the rear bumper makes loading easier, while the low step-in door height allows people to enter without climbing steps. Once they created a design that embodies spacious comfort, a smooth ride, flexible seating and cargo configurations, then came the exquisite details, from the jewel-like headlamps to the dazzling chrome accents.

WRAP-AROUND REAR GLASS The distinctive exterior design of Acadia is apparent at a glance with the wrap-around rear glass. The seamless rear glass design provides a clean, streamlined look on the outside.

HEATED POWER-RETRACTABLE MIRRORS Heated to help remove snow, frost and fogging, these available power mirrors offer excellent visibility and extra clearance. On SLE models, they have a black grain finish and fold manually. SLT-1 mirrors are body-color and manual folding. On SLT-2 and Denali models, they are color-matched to the body and power fold. Shown with available Side Blind Zone Alert.

LED TAILLAMPS To help Acadia stand apart, enhanced dynamic styling with LED technology provides better energy efficiency than traditional lights.

ACADIA SLT IN CRYSTAL RED TINTCOAT shown with available equipment.

We've got your back with Ultrasonic Rear Parking Assist, pg. 19.

Get a helping hand with the available Remote Power Liftgate, pg. 17.

INTERIOR FEATURES

ITS TRUE BEAUTY LIES IN ITS VERSATILITY. We know your expectations are high when it comes to the quality and flexibility of your interior space. That's why Acadia is designed to surround you with premium materials and configurations that elevate your driving experience. Then, with an extensive list of convenience features, Acadia makes it easy to achieve even more.

E SEATING CONFIGURATIONS Choose eight-passenger seating and get a sliding second-row bench seat that fits three adults comfortably. Select the available seven-passenger configuration, and the second row has two captain's chairs.

DRIVER INFORMATION CENTER Staying in touch with the most important information is as easy as pressing a button. The Driver Information Center includes the odometer and A/B trip odometers, as well as a message center that keeps you informed about vital vehicle functions and driving conditions.

SMART SLIDE SEATING Making third-row entry and exit easier, Acadia has Smart Slide second-row seats that slide forward with just one hand. The seats fold up for space like a beach chair. **EXPERIENCE IT AT GMC.COM/SMARTSLIDE.**

NOISE SUPPRESSION To reduce road noise and control wind noise, Acadia uses sound-blocking and -deadening materials to fill even the most minute gaps and sound paths.

G CENTER CONSOLE Acadia's convenient and spacious center console gives you multiple storage compartments for the essentials you rely on. The center floor console offers deep, concealed storage for CDs or DVDs, MP3 players or other electronics. The padded armrest slides forward and backward to keep you comfortable in any seating position.

HEAD-UP DISPLAY Inspired by fighter aircraft technology, this available system projects important driving information at eye level. Speedometer and rpm readings, turn signal and high-beam indicators, transmission position, outside air temperature and, when equipped with a navigation radio, Turn-by-Turn Navigation information.¹

¹Requires OnStar Directions & Connections Plan. Visit gmc.com for coverage map, details and system limitations. Standard for 6 months.

TECHNOLOGY PACKAGE This available grouping includes Head-Up Display, cargo area audio system controls and HID projector low-beam headlamps.

I FOLD-FLAT FUNCTIONALITY For the impressive capacity of a full-size SUV, the second- and third-row seats fold forward to create a flat, uninterrupted load floor. This flexibility gives you up to 116.1 cu. ft.¹ of cargo capacity.

¹Cargo and load capacity limited by weight and distribution.

7 CUPHOLDERS Acadia has two console-mounted cupholders and two in the doors for driver and passenger. Additional holders are in the second row, with one in each door, plus two more molded into the third-row side panels.

SILL PLATE Step through the driver's or front passenger's door of Acadia Denali and its illuminated, satin chrome sill plates let you know you've entered luxury.

TILT AND TELESCOPING STEERING WHEEL On Denali models, the power tilt and telescoping steering wheel moves up/down and in/out to make it easy to set the precise driving position.

STEERING-WHEEL-MOUNTED CONTROLS

Access the audio system with your fingertips while you keep your eyes on the road. This available feature controls most music search features of compatible MP3 players, as well as the hands-free phone interface.

REMOTE KEYLESS ENTRY With one touch, lock or unlock your Acadia or flash its lights and sound the horn to help you locate it in a parking lot. At a range of up to 195 feet, it unlocks your doors for fast entry and quick escape from wind, rain, snow or sleet.

8 TRI-ZONE CLIMATE CONTROL Acadia's available tri-zone climate control allows the driver and front-seat passenger to set separate temperatures for personalized comfort. Shown on Denali.

REMOTE VEHICLE START Warm up—or cool off—your Acadia for up to 10 minutes without leaving the house. This available feature is capable of starting your vehicle from up to 195 feet away, so your Acadia's interior will begin adjusting to your preset temperature. With tri-zone climate control, the system can automatically heat or cool the interior.

9 REAR CONTROLS Second-row passengers get their own controls included with the available tri-zone climate control system, so they're able to set the temperature and fan speed to their liking.

REMOTE POWER LIFTGATE Let Acadia help you with that. The available power liftgate opens with a touch of your key fob for easier access to your Acadia's cargo area. You can close it the same way, or use the button on the liftgate or the center console.

DUAL PANEL SUNROOF Front seats shouldn't have all the fun. Acadia's available two-panel dual sunroof lets those seated in the second and third rows feel special, too.

TECHNOLOGY

DRIVE SMARTER. With its advanced technologies, Acadia becomes an integral part of your life. At the center is a Color Touch Radio System that links you to a host of entertainment and information sources. Auxiliary inputs transform the enjoyment for rear-seat passengers, while driver-oriented technologies like a Rear-Vision Camera System and Ultrasonic Rear Parking Assist are standard on every Acadia.

10 COLOR TOUCH RADIO SYSTEM This standard entertainment system uses a simple, intuitive 6.5" diagonal high-definition touch-screen Color Interface Display to make it easy to find your most important information quickly. It includes AM/FM/CD/HD radio/SiriusXM[®] capabilities (standard 3-month trial period), and gives you a customizable home page and a USB[®] and auxiliary input for your MP3 player.

*Standard for 3 months. If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. [®]Not compatible with all devices.

INTELLILINK[®] Available with Color Touch Radio and included with Color Touch Navigation[®], IntelliLink provides smartphone integration and voice-activated control of your communication and entertainment selections, including placing a telephone call, changing the station, streaming Internet radio stations Pandora[®] and Stitcher[™] SmartRadio through your smartphone or accessing your iPod[®] music library. New for 2014, IntelliLink will convert text messages into voice messages. **EXPERIENCE IT AT GMC.COM/INTELLILINK.**

[®]Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. Data plan rates apply. [®]Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada.

COLOR TOUCH NAVIGATION[®] WITH INTELLILINK[®] The available NAV-system, which includes IntelliLink, adds more than just navigation to the screen of the standard high-definition Color Touch Radio. Multiple map views are also at your fingertips with the touch of an icon on the home screen. It also features 3 months of NavTraffic[®] and Local Forecast feature (in areas with this broadcast capability). With a USB[®] adapter, the Color Touch Navigation System also allows a digital card reader to link with Photoviewer to review pictures from your camera or smartphone in the LCD display, as well as display album art (if available) when listening to music from your iPod.[®]

[®]Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. [®]Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. For more information about NavTraffic, visit siriusxm.com/navtraffic. XM Satellite service is available only to those in the 48 contiguous USA and DC. [®]Not compatible with all devices.

SIRIUSXM SATELLITE RADIO/NAVTRAFFIC[®] Enjoy SiriusXM Satellite Radio with a 3-month trial subscription to the XM Premier Package. SiriusXM brings you over 130 channels, including commercial-free music, plus the best sports, news, talk, comedy and entertainment. With NavTraffic, you'll get continuously updated traffic information, right on your vehicle's available navigation system.

[®]If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. For more information about NavTraffic, visit siriusxm.com/navtraffic. XM Satellite service is available only to those in the 48 contiguous USA and DC.

MP3 PLAYBACK CAPABILITY Bring the music and entertainment you love to your Acadia just by plugging your playback cable into the auxiliary input jack on your radio. Accommodates most MP3 players and devices, including many smartphones.

11 USB CONNECTIVITY Plug into the USB port¹¹ and control most of your iPod[®] or MP3 music player's functions, including playlists and song selection, from available steering-wheel-mounted radio controls. For 2014, all Acadia models feature dual-charge-only USB ports on the back of the center console.

¹¹Not compatible with all devices.

12 10-SPEAKER BOSE AUDIO SYSTEM The available Bose systems are engineered to give you the realism and presence of a live performance. Standard on SLT and Denali models, the premium 10-speaker Bose sound system with subwoofer offers incredible detail and richness.

IN-CONSOLE POWER PORT For secure and concealed charging of your portable electronic devices, Acadia includes a 12-volt DC power outlet in the storage well of your center console. It lets you quickly recharge small portable devices such as phones, camera batteries or MP3 players.

BLUETOOTH[®] FOR PHONE Extend your capabilities just by activating the Bluetooth feature on your phone or portable device. It will then work through many of the controls and features already installed in your Acadia, including hands-free operation and dialing.

¹²Go to gmradioconnect.com to find out which phones are compatible with the vehicle.

13 120-VOLT AC POWER OUTLET Acadia helps you stay energized with an available 150-watt/120-volt AC household current grounded power outlet with the Rear-Seat Entertainment System to keep your phone, laptop or music player powered up. It can also power portable televisions, video players or game systems and most inflators for sporting goods.

14 REAR-SEAT ENTERTAINMENT SYSTEM

This available system offers video gaming and DVD playback for rear-seat passengers. It includes a rear-seat DVD player with remote, overhead display, two sets of wireless infrared headphones (batteries included) and more.

REAR-VISION CAMERA SYSTEM Make it easier to back up to a trailer or negotiate a tight space. This standard system displays a real-time video feed from the rear-mounted camera onto the Color Touch Radio screen when Acadia is in reverse. **WATCH IT AT GMC.COM/VISION.**

ULTRASONIC REAR PARKING ASSIST This standard system sends out ultrasonic waves from sensors in the rear bumper that function like radar to alert you to certain objects when backing up at slow speeds. The closer you are, the faster it beeps to help avoid an impact.

UNIVERSAL HOME REMOTE Open your garage without leaving the driver's seat. This available remote can be easily programmed to operate the majority of garage-door openers. It operates from the Acadia's electrical system, so it will never need batteries.

SAFETY FEATURES

INDUSTRY FIRST. AND EXCLUSIVE. The industry-first and GM-exclusive front center air bag¹ is designed to help protect you in a collision. Acadia offers a reassuring level of safety features—including the available front center air bag, Forward Collision Alert and Lane Departure Warning, as well as sensor-based technologies like StabiliTrak, a stability control system. And for 2014, Acadia received a 5-Star Overall Vehicle Score² for safety.

*Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct child restraint for your child/age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your Owner's Manual and child safety seat instructions for more safety information. ²Government 5-Star Safety ratings as part of the National Highway Traffic Safety Administration (NHTSA) New Car Assessment Program (www.SaferCar.gov)

REAR CROSS TRAFFIC ALERT Monitoring your surroundings and working with the Rear-Vision Camera System, it sends audio and visual warnings, alerting you to cross traffic while backing up. It's standard on SLT-2 and Denali models.

DRIVER ALERT SYSTEMS These systems are standard on Denali and available on SLT models. Using sophisticated digital imaging technology, Forward Collision Alert produces audible and visual signals if you are rapidly approaching another vehicle and a collision may be imminent. Lane Departure Warning alerts you if you wander from your lane without using your turn signal.

LED DAYTIME RUNNING LAMPS By running the LED lamps in daytime, you gain recognition by other drivers from a greater distance, giving you an extra measure of security.

LATCH CHILD SEAT ANCHORING SYSTEM Lower Anchors and Top tethers for Children (or LATCH) means a LATCH-equipped child seat installs to specially designed retainer hooks in your Acadia. It also enables a child seat top tether strap to be attached to help limit movement in a forward crash, helping reduce the chance of injury.

PASS-KEY III THEFT DETERRENT SYSTEM A tiny chip found in your ignition key prevents unauthorized starting attempts in your Acadia. It functions as an electronic "fingerprint" that disables your starting system if it detects a theft attempt.

REINFORCED STEEL SAFETY CAGE DESIGN Acadia's robust body-frame-integral structure is engineered to help maintain the integrity of the passenger compartment in the event of a collision.

FRONT CENTER AIR BAG¹ The available front center air bag is designed to help protect drivers and front-seat passengers in far-side crashes where the affected occupant is on the opposite, non-struck side of the vehicle. **SEE IT IN ACTION AT GMC.COM/REASSURING.**

SIDE-IMPACT AIR BAGS³ Helping protect the thorax and pelvic regions of the driver and front passenger in a side-impact collision are standard side-impact air bags mounted on the driver and front passenger seats.

HEAD CURTAIN SIDE-IMPACT AIR BAGS³ These air bags unfurl from the roof rail like a protective curtain for outboard passengers and can be activated by either rollover or side-impact sensors.

FRONTAL AND SIDE-IMPACT AIR BAGS³ To help reduce the risk of injury to driver and front passengers, the dual-stage frontal air bags use sensors to gauge crash severity, then employ one or two levels of inflation. A Passenger Sensing System for the outboard front passenger automatically turns off the air bag if the passenger is under the appropriate weight. In addition, seat-mounted side-impact air bags help protect the driver and front passenger in the event of certain side collisions.

*Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your Owner's Manual and child safety seat instructions for more safety information.

STABILITRAK STABILITY CONTROL SYSTEM To help you stay in control when the road surface is loose, snowy, icy, wet or uneven, StabiliTrak uses a network of vehicle sensors to monitor how your Acadia is responding to your steering and braking commands. If the system determines your vehicle is not responding properly, it can pulse the brakes or reduce engine power to help you stay on the path being steered.

SIDE BLIND ZONE ALERT Available radar-equipped sensors monitor Acadia's blind spots, alerting the driver via audio and visual warnings to help reduce the risk of collisions.* It's standard on SLT-2 and Denali models.

*Before making a lane change, always check the Side Blind Zone Alert display, check the side and inside rearview mirrors, look out your shoulder for vehicles and hazards and start the turn signal.

ONSTAR FEATURES

HELP IS A BLUE BUTTON AWAY. Standard for 6 months, the

OnStar Directions & Connections Plan⁵ lets you speak to a live OnStar Advisor

just by pressing the blue button on your rearview mirror.

⁵Visit onstar.com for coverage map, details and system limitations. OnStar acts as a link to existing emergency service providers.

SAFETY

AUTOMATIC CRASH RESPONSE² In many crashes, built-in sensors can automatically alert an OnStar Advisor, who is immediately connected into your vehicle to see if you need help sent to your location—even if you can't respond.

²OnStar acts as a link to existing emergency service providers.

CRISIS ASSIST During severe weather or other crisis situations, OnStar offers assistance to help you connect with loved ones and navigate your way to safety.

EMERGENCY SERVICES If someone in your Acadia needs emergency help, the OnStar emergency button gives you a priority connection to a specially trained Advisor at any time, day or night.

ROADSIDE ASSISTANCE³ If you're stranded, run out of gas or have a flat tire—one push of the OnStar button can immediately connect you to an Advisor, ready to help any hour of the day or night.

³Roadside service provided by Alstare Roadside Services.

REMOTE DOOR UNLOCK⁴ If you get locked out of your Acadia, OnStar can help. An OnStar Advisor can send a signal to your Acadia that usually unlocks the doors within minutes.

⁴Services vary by model and conditions.

REMOTE HORN AND LIGHTS Can't remember where you parked? Call the toll-free number and OnStar will send a signal to flash your lights and sound your horn to help you locate your Acadia.

STOLEN VEHICLE ASSISTANCE¹ If your Acadia is ever stolen, OnStar can help locate it after verification with law enforcement.

¹Services vary by model and conditions.

CONNECTIONS

HANDS-FREE CALLING⁶ WITH VOICE COMMAND BUTTON Available OnStar Hands-Free Calling is built into your Acadia. Push a button, call out the number and you're free to keep your eyes on the road.

⁶Visit onstar.com for coverage map, details and system limitations. OnStar Hands-Free Calling requires existing OnStar service contract and prepaid minutes. Not available in certain markets. Calls can be made in U.S. and Canada only.

TURN-BY-TURN NAVIGATION OnStar Turn-By-Turn Navigation is simple—all you have to do is push one button and ask the OnStar Advisor to download directions to your Acadia.

ONSTAR ENAV WITH MAPQUEST.COM⁷ Get a head start on a trip by checking out your destination on mapquest.com. With OnStar eNav, just click the "Send" link on the Web site, and directions will be sent to your vehicle.

DESTINATION DOWNLOAD With the optional Navigation System, simply press your blue OnStar button, and a trained Advisor will download directions to your Acadia's navigation screen.

ONSTAR REMOTELINK⁸ APP The OnStar RemoteLink app offers control of and connection with your vehicle. GMC owners with an eligible vehicle can use their iPhone[®] or Android[™]-based mobile devices to control their vehicle from their phone and perform specific commands remotely.

⁸Available on select iPhone[®], Android[™] and BlackBerry[®] devices. Services vary by device, vehicle and conditions. Requires an active OnStar subscription.

GMC PRO GRADE PROTECTION

PROFESSIONAL GRADE COVERAGE.

To make sure GMC's Professional Grade engineering stays

that way, Pro Grade Protection is now standard on every

2014 Acadia. From covering scheduled maintenance to

protecting the entire vehicle and the powertrain in

between, you can drive with confidence knowing that

Professional Grade doesn't simply describe your Acadia's

design and engineering, it's how well we protect it, too.

▼
**2-YEAR/24,000-MILE RECOMMENDED
SCHEDULED MAINTENANCE⁹**

▼
**3-YEAR/36,000-MILE BUMPER-TO-BUMPER
LIMITED WARRANTY¹⁰**

▼
**5-YEAR/100,000-MILE POWERTRAIN
LIMITED WARRANTY¹¹**

⁹Covers only scheduled oil changes with filter, tire rotations and 27-point inspections, according to your new vehicle's recommended maintenance schedule for up to 2 years or 24,000 miles, whichever comes first. Does not include air filters. Maximum of 4 service events. See participating dealer for other restrictions and complete details. ¹⁰Whichever comes first. See dealer for limited warranty details.

POWERTRAIN FEATURES

HORSES THAT REQUIRE LESS, DELIVER MORE. Acadia's technologically advanced engine and transmission are at the heart of its Professional Grade capabilities. With 288 horsepower, 270 lb-ft of torque and an EPA-estimated 24 highway mpg, its 3.6L V-6 engine is the perfect expression of what GMC engineering is all about—powerful yet efficient performance.

3.6L V-6 VVT (LLT) Engineered for responsiveness at all speeds, the 3.6L V-6 VVT is the ideal blend of power and efficiency. With a high-performance direct-injected 24-valve, dual-overhead cam design, the 3.6L V-6 accelerates smoothly and quickly for confident highway passing and merging. Yet its efficiency gives it surprising highway fuel economy—an EPA-estimated 24 highway mpg.

VARIABLE VALVE TIMING (VVT) This gives you the power of a high-performance engine with the low-speed response you need for situations such as trailering or climbing steep inclines. This technology constantly monitors and changes when the valves open and close to give you near-peak levels of torque across the entire range of engine speeds.

OIL LIFE MONITOR For long life and durability, nothing is more important than changing your oil at the right time. GMC engineered the mystery out of this essential service with the Oil Life Monitor. It calculates how much life your oil has left, based on when and how you drive. Then it updates you with a message on your Driver Information Center.

6-SPEED AUTOMATIC OVERDRIVE TRANSMISSION Designed to work seamlessly with the engine and control system, this transmission chooses the best gear for fuel economy or power based on your driving style. For steep hills, bad weather or a really great driving road, all Acadia models feature tap-up/-down gear selection with Driver Shift Control. It gives you the ability to manually shift gears for optimal control.

ONSTAR VEHICLE DIAGNOSTICS* The peace of mind that comes from knowing the condition of your Acadia's key systems is as easy as checking your e-mail. The OnStar Vehicle Diagnostics service that comes standard with your 6-month trial subscription to OnStar can run hundreds of checks of your Acadia's engine, transmission, antilock brakes and more, then organize the information into an easy-to-read monthly report. OnStar can also run a check of your vehicle as you drive just by pressing the blue button and asking the Advisor for an On-Demand Diagnostics check.

*Visit onstar.com for coverage map, details and system limitations. Services vary with conditions.

CHASSIS & SUSPENSION FEATURES

WHERE YOUR COMFORT MEETS CONTROL. The foundation for the premium character of Acadia is its strong chassis and sophisticated suspension design. Acadia's smooth ride starts with its lengthy wheelbase and continues with a host of suspension features that balance ride comfort with responsive handling to create a refined driving experience.

WIDE STANCE/LONG WHEELBASE Acadia has the longest wheelbase in its class, which helps smooth the ride at highway speeds. The wide track pushes the wheels out to the edge of the body for the stability and sure-footed cornering found in much smaller vehicles.

ADVANCED DUAL-FLOW VALVING This feature in Acadia Denali's front suspension provides a smoother ride and improved handling across a broad range of driving conditions.

24 FULLY INDEPENDENT SUSPENSION For precise control and premium refinement, Acadia is engineered with a four-wheel independent suspension. As the name implies, each wheel can act independently to maintain road contact, which helps you stay in control. With sophisticated shock absorbers and struts filled with nitrogen gas and conventional fluid, the ride is smooth and controlled even on poorly maintained roads.

POWER RACK-AND-PINION STEERING For precise and accurate response, Acadia features power rack-and-pinion steering. It provides a positive on-center feel at highway speeds, as well as low-speed assist for maneuvering in tight spaces. On SLT and Denali models, variable assist power steering adjusts steering assist torque in relation to your speed, contributing to the accurate handling of your Acadia.

25 ALL-WHEEL DRIVE (AWD) For an extra measure of traction in wet or dry weather, a fully automatic AWD system is available on all Acadia models. This system transfers power between front and rear wheels based on driver input and available traction, giving you control when you need it.

TRACTION CONTROL SYSTEM To make the most of available traction on many road surfaces, traction control measures and compares the speed of your wheels. If it senses one or more wheels starting to spin, such as on a slippery surface, the system applies individual brakes and manages engine power to direct torque to the wheels with the most traction available, so you can move forward with a better sense of control.

ANTILOCK BRAKING SYSTEM (ABS) For confident stops in a variety of conditions, every Acadia features four-channel antilock brakes. When the brakes are applied, ABS can detect impending wheel lock-up, and then pulse that wheel's brake to prevent it. A four-channel system, it can activate any combination of vehicle brakes independently to maintain control.

26 POWER FOUR-WHEEL DISC BRAKES For outstanding braking performance in virtually any conditions, power four-wheel disc brakes are standard on every model. The discs are ventilated to help shed heat and prevent brake fade, letting you brake with confidence.

TRAILERING PACKAGE Acadia is engineered with a maximum trailer weight rating of up to 5200 lbs.* When you order this available package, you get the heavy-duty cooling system, a factory-installed trailer hitch with a standard 2" receiver, attaching points for safety chains and a seven-pin trailer harness with a built-in universal adapter.

*Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details.

SELECTION

YOUR ACADIA IS ALMOST READY.

This is where you'll find numerous exterior, interior, entertainment, performance and accessory selections so you can make Acadia truly your own. Build your Acadia to reflect your particular color, premium material, accessories and feature preferences.

FINISHING TOUCHES. GMC Accessories are engineered and tested to meet the Professional Grade standards of your Acadia. Available individually or as part of a package, they allow you to further personalize your Acadia. Your dealer can help make it happen.

1 SIDE-WINDOW WEATHER DEFLECTORS

Let fresh air in and keep rain, sleet and snow out with custom-molded Side-Window Weather Deflectors. Available in Smoke.

2 ROOF RACK CROSS RAIL PACKAGE

Carry up to a 200-lb* load on the roof of your Acadia with these Roof Rack Cross Rails that add both function and style.

*Cargo and load capacity limited by weight and distribution.

3 ASSIST STEPS Stylish Assist Steps make it easier to get in and out of your Acadia. Constructed of high-strength aluminum, these 6-inch chrome steps are topped with full-length black traction pads.

DUAL-HEAD-RESTRAINT DVD SYSTEM

Rear-seat passengers will enjoy this DVD Rear-Seat Entertainment System. Dual LCD monitors and DVD players are built into the back of the front-seat head restraints. Includes wireless headphones and a remote control for personal programming.

WI-FI HOT SPOT Provides 50 feet of Internet connectivity in and around your Acadia.² Stream Internet radio stations, while rear-seat passengers can use laptop computers, game players and other portable devices. Various applications are also available.

²Monthly rates apply. Visit autonemobile.com for coverage map and details.

PREMIUM ALL-WEATHER FLOOR MATS

Complement your Acadia with Premium All-Weather Floor Mats. Designed to fit the floor configuration, a deep-ribbed pattern collects debris. Nibs on the back keep them in place. Available in three colors to match your interior: Ebony, Light Titanium and Dune.

CARGO ORGANIZER This durable, flexible, collapsible organizer has multiple compartments, allowing you to carry lightweight items of various sizes in the rear of your Acadia. Can be folded flat or removed from the vehicle as needed. Black with GMC logo.

HITCH BALL ASSEMBLY This standard-size assembly comes complete with a chrome-finish tow ball, washer and retaining nut. Designed to fit standard ball mount assemblies (sold separately).

CARGO NET Enhance the efficiency of your Acadia with this black Cargo Net. It attaches easily to the sides of your cargo area to secure small, light items while in transit.
