

GMC | A WHOLE NEW YUKON | 2015

WE ARE PROFESSIONAL GRADE

AT GMC, designing, engineering and crafting the 2015 Yukon meant bringing together hundreds of innovations to create an SUV above all others. Yukon combines powerful, efficient engines and a quiet, spacious interior that's loaded with premium materials and ingenious technologies. The result of this incredible thinking is a whole new Yukon.

ELEVATES YOUR SENSE OF PURPOSE.

In Yukon Denali, the aluminum trim, premium leather accents, contrasting French seam stitching and fine wood grains look and feel like the real thing, because they are. ▶

Yukon offers the confidence of unparalleled safety technologies, with available features such as a Safety Alert Seat, Side Blind Zone Alert, Lane Departure Warning, Forward Collision Alert, Rear Cross Traffic Alert and a segment-exclusive front center air bag.¹ ▶

Safety Alert Seat uses vibrations to warn you.

¹Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safe when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing child restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

RESPONDS INSTANTLY TO THE ROAD. AND TO YOUR VOICE.

In the time it takes to say "play my music," IntelliLink¹ with enhanced voice-recognition technology streams audio files from your smartphone through Yukon's Bose[®] speakers. ▶

In milliseconds, Denali's Magnetic Ride Control System reads and adjusts the suspension's response for a consistently smooth ride and precise control over uneven terrain. ▼
