

 HYUNDAI

2025

IONIQ 5

Hyundai IONIQ 5: This is electric on the edge.

In its futuristic angles and edges, the design of IONIQ 5 tells you Hyundai is pushing the electric vehicle to exciting new places. In the awards and accolades from automotive experts, you'll know it's true. After all, the 2024 Hyundai IONIQ 5 is a Kelley Blue Book KBB.com Best Buy for the second year in a row.¹ It was also named 2024 Best Electric SUV for the Money by *U.S. News & World Report*.²

So what did we do for 2025? Made it even sharper, of course – with redesigned front and rear fascias. With dynamic new wheels. With fresh tech like wireless Apple CarPlay[®] and Android Auto.[™] And with a new XRT trim that bolsters IONIQ 5's off-pavement capabilities thanks to a higher ride height, all-terrain tires and rugged XRT styling inside and out.

As you approach your IONIQ 5, you're greeted by automatically extending door handles – the first of many sophisticated touches that await you. Step inside, and you'll see fresh styling complementing timeless design in its clean lines. An available sliding center console and wireless phone charger.³ And dual 12.3-inch screens integrated into a single, dramatic display panel that stretches across the center stack.

So, ready to charge up and go?

That'll take less time than you think. With IONIQ 5, you can use a DC fast charger, the fastest type of charger on the grid, to energize quickly.⁴ A full charge can deliver and EPA-estimated range of up to 318 miles.⁵ And if you want to fully charge your sense of excitement, the thrilling new IONIQ 5 N⁶ – our first all-electric N model – unleashes its power to propel you from 0-60 mph in just under 3.3 seconds.⁷

¹For more information, visit Kelley Blue Book's KBB.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co., Inc. ²View U.S. News Best Cars at cars.usnews.com. ³Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. ⁴Actual charging time varies based on a number of factors, including current battery charge level, output of the charging unit, vehicle and battery settings, battery temperature and outside temperature. DC fast charging stations are provided by independent companies and availability is not guaranteed. ⁵IONIQ 5 RWD 318-mile range based on a fully charged battery and 114 combined MPGe. MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. All figures are EPA estimates and for comparison purposes only. Actual range and mileage will vary with options, driving conditions and habits, vehicle and battery's condition and other factors. ⁶IONIQ 5 N is available at select dealers in select states in limited quantities. Contact your Hyundai dealer for availability information. ⁷2025 IONIQ 5 N can accelerate from 0-60 mph in approximately 3.25 seconds when N Launch Control and N Grin Boost are engaged. Actual results may vary depending on options, driving conditions, driving habits and vehicle's condition.

Performance that screams with a whisper.

Press the pedal formerly known as 'gas', and the electric energy of your IONIQ 5 rockets confidently – and quietly – ahead with little more than a quiet whoosh. For 2025, you have more ways to experience IONIQ 5 power and efficiency: A 168-hp Rear Wheel Drive powertrain, an extended range 225-hp Rear Wheel Drive, or available All Wheel Drive with a full 446 lb-ft of torque surging from a 320-hp dual-motor system.

You'll experience IONIQ 5's speed and flexibility in how you charge as well. Thanks to a newly available adapter, you can plug into a US 400V conventional charger, a 350 kW DC Fast Charger or the growing NACS (North American Charging Standard) Network, which can help boost you from 10 to 80% charge in as little as 20 minutes.¹ About the same amount of time it takes to order and enjoy your cup of coffee.²

What will you do with all of that range? How about a little more exploring? A rugged new XRT trim lets you take the traction of IONIQ 5's All Wheel Drive even further. It's equipped with 23 mm more ride height to clear rocky terrain, all-terrain tires on 18-inch wheels, and a body wrapped in protective cladding.

Wherever you go in your IONIQ 5, bring your sense of adventure. And bring your electronic toys, too. IONIQ 5's available onboard V2L charger lets you energize e-bikes, game consoles, espresso machines – whatever you want to plug in and power up.³

All Wheel Drive with a 320-hp dual-motor electric powertrain

Ultra-fast 350 kW DC fast charger

Exclusive XRT red front tow hooks

Exclusive XRT interior accents

Exclusive 18" XRT wheel design

Extra protection with XRT digital camo cladding

¹ Approximately 20 minutes to charge from 10% to 80% on a 350-kW, 800V DC ultra-fast charger using included Hyundai CCS Adapter. Actual charging time varies based on a number of factors including current battery charge level, output of the charging unit, vehicle and battery settings, battery temperature and outside temperature. DC fast charging stations are provided by independent companies and availability is not guaranteed. ² Actual charging time varies based on a number of factors, including current battery charge level, output of the charging unit, vehicle and battery settings, battery temperature and outside temperature. DC fast charging stations are provided by independent companies and availability is not guaranteed. ³ Vehicle-to-Load (V2L) two-way charging will deplete the battery and become inoperable once battery discharge limit reaches 20 percent. Not all electrical appliances will operate properly when using this feature. Do not use products that require a continuous power supply, and only use appliances under 16 amps. Additional limitations may apply. See Owner's Manual for details and limitations.

NEVER JUST DRIVE 

 **WINNER**
2024 WORLD CAR AWARDS™
WORLD PERFORMANCE CAR

¹Always use extreme caution when using N Grin Boost feature. The driver is responsible for being attentive and maintaining control of the vehicle at all times. See Owner's Manual for further details and limitations. ²Always use extreme caution when using the N Corner Carving Differential (e-LSD) feature. The driver is responsible for being attentive and maintaining control of the vehicle at all times. See Owner's Manual for further details and limitations. ³This feature is intended for track use only. Always use extreme caution when using the N Drift Optimizer feature. The driver is responsible for being attentive and maintaining control of the vehicle at all times. See Owner's Manual for further details and limitations.

IONIQ 5 N in Performance Blue Matte

N has a new meaning: Never felt this before.

Conceived in Namyang, our global R&D facility, and the legendary Nürburgring circuit where the bar is set for world-class performance, a Hyundai bearing the 'N' designation delivers our highest level of thrill. Today, the IONIQ 5 N doesn't just deliver N-level performance. We rethought the performance EV to deliver our most powerful – and playful – Hyundai ever.

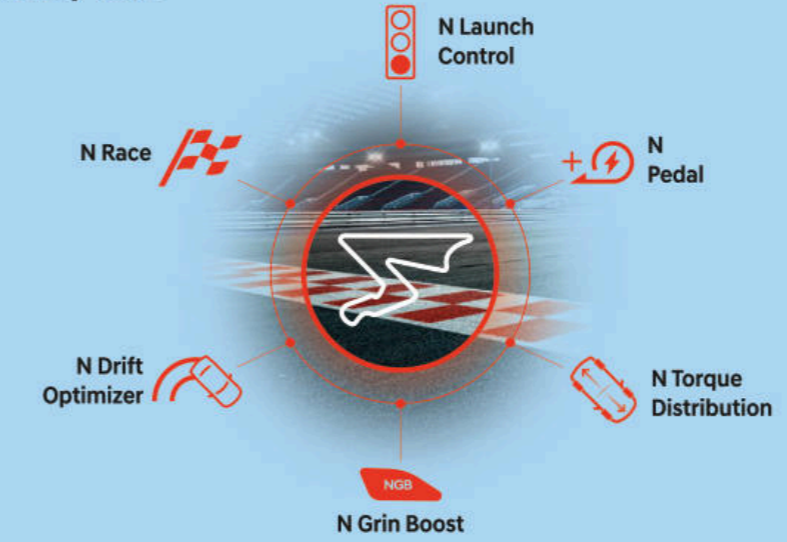

Are you ready? The IONIQ 5 N dishes up to 641 hp with N Grin Boost engaged, giving you 10 seconds of boosted acceleration – and adrenaline! All that power is controlled with the e-Limited Slip Differential² and N Torque Distribution that dials in the amount you want going to the rear wheels or fronts. Then, to help you unleash it for optimal fun on track, engage the N Drift Optimizer.³ It easily instigates a sideways slide by replicating clutch kick.

Of course, anything this fast needs to stop just as quickly. The N-tuned braking system packs 4-piston calipers in a single-piece monobloc design for more bite when you brake. The IONIQ 5 N looks the part, too, sitting low and aggressive on its 21-inch N design wheels with muscular wheel arches. You'll also see its performance edge in a plethora of details inside, where N Light sport bucket seats keep you comfortably in control during high-g cornering.

Engage even more of your senses by turning up your seat's heating or cooling, and turning on N Active Sound+, which pumps out distinct performance sound from eight internal and two external speakers.

Track-Ready Tech

Even its safety is forward-looking. And side. And rear.

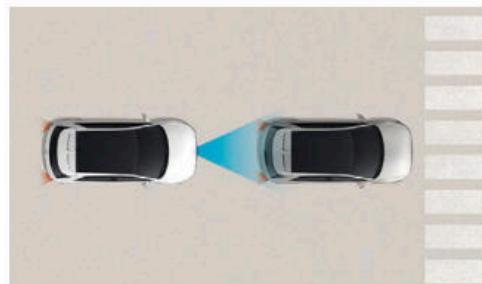

Protection starts with vision. And our vision takes shape in a suite of advanced safety and driver-assistance technologies known as Hyundai SmartSense. Using an integrated system of cameras, radar sensors and ultrasonic sensors, SmartSense monitors your surroundings from nearly every angle to help avoid potential hazards.¹

For 2025, IONIQ 5 is not only watching what's around you outside the vehicle, but watching out for you inside as well. One example: Forward Attention Warning,² which helps alert you to

signs of driver fatigue or distraction. IONIQ 5 also helps look out for your little ones with a newly available Advanced Rear Occupant Alert feature that uses super-sensitive radar to warn the driver if a sleeping child has been left in the 2nd-row seats.³

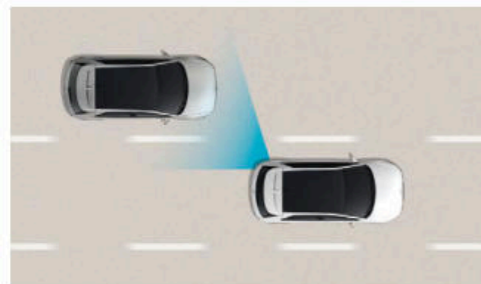

Finally, to match safety with convenience, parking assistance features on XRT and Limited trims now offer proximity sensors to the front, side and rear that help you confidently navigate crowded parking areas. Is it any wonder that the Hyundai IONIQ 5 was named a 2024 IIHS *TOP SAFETY PICK+?*⁴

Hyundai SmartSense Technologies

1. Forward Collision-Avoidance Assist

When the front-facing camera and radar detect a vehicle, pedestrian or cyclist in your path, or an oncoming car when turning left in an intersection, your IONIQ 5 warns you of a potential collision. If necessary, the system may automatically apply emergency braking to help avoid a collision.⁵

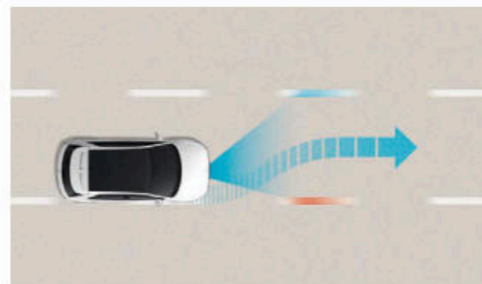

2. Blind-Spot Collision Warning

If your IONIQ 5 detects a vehicle in your blind spot while the turn signal is on, it issues an alert before you change lanes to help avoid a collision. It also monitors for vehicles approaching from behind to help prevent collisions when you are exiting a parallel parking spot.⁶

3. Rear Cross-Traffic Collision-Avoidance Assist

Backing out of a parking space and wondering whether there is cross traffic coming your way? This feature helps warn you of another vehicle approaching from the side. If necessary, your IONIQ 5 may automatically apply braking to help prevent a collision.⁷

4. Lane Following Assist

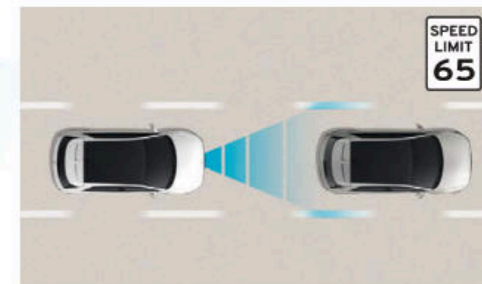

Using IONIQ 5's front-facing camera to detect lane markers on the road, this feature assists the driver's steering to help keep you centered in your lane. It even helps determine a virtual path based on the movements of the preceding vehicle.⁸ Meanwhile, haptic feedback through the steering wheel helps remind you to keep your hands on the wheel.

Blind-Spot View Monitor

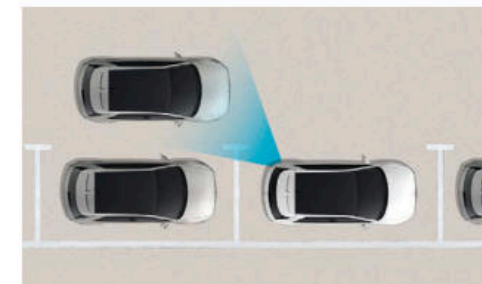

Surround View Monitor

5. Highway Driving Assist

Acting as your copilot on freeways, this available feature helps keep you centered in your lane while also maintaining a set speed and distance from the vehicle in front. It can use navigation map data to automatically adjust for changing speed limits and reduce your speed when it detects you're approaching a curve in the road. The system can even respond to vehicles that drive too close in the adjacent lane and assist in making lane changes.⁹

6. Safe Exit Assist | Rear Occupant Alert

After you park, Safe Exit Assist issues an alert when a vehicle is detected to be approaching from behind, letting the driver know it may not be safe for passengers to open the street-side door.¹¹ The available Advanced Rear Occupant Alert feature can help remind the driver to check the 2nd-row seats for kids or pets after turning off the engine.

2024 Hyundai IONIQ 5 AWD⁴

Overall 5-Star Safety Rating
2024 Hyundai IONIQ 5⁹

¹ Safety features vary by model and trim level. For details, refer to the Features chart in this brochure or visit HyundaiUSA.com. ² Forward Attention Warning helps monitor the driver's eye position using an infrared camera and provides an audible warning if it detects a potential lack of driver attention. It does not detect and provide an alert in every situation. It is the driver's responsibility to remain alert at all times. See Owner's Manual for details and limitations. ³ When the vehicle is parked and the engine has been turned off, Advanced Rear Occupant Alert (AROA) can help alert the driver if it detects movement from a child or pet. Upon exiting and locking the vehicle, the AROA may provide visual, audible, and/or BlueLink+ alerts if the interior sensors detect movement. AROA is not a substitute for driver attentiveness. Never leave a child or pet unattended in a vehicle. BlueLink+ notification requires a properly equipped vehicle with an active BlueLink+ account. See Owner's Manual for details and limitations. ⁴ To qualify for 2024 TOP SAFETY PICK+, a vehicle must earn good ratings in the small overlap front and updated side tests and no less than acceptable in the updated moderate overlap front test. It also must earn an acceptable or good rating for pedestrian front crash prevention and come with standard acceptable- or good-rated headlights. For details visit www.iihs.org. ⁵ Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect vehicles, pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. Junction Turning helps the driver avoid collisions involving turning left at an intersection by applying the opposing front brake only when an oncoming vehicle is detected in the opposing lane. There are limitations to the function, detection, range and clarity of the system. Junction Turning may not function correctly if one or more of the sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with sensor operation. It will not prevent loss of control. This driver assistance system is not a substitute for safe driving. See Owner's Manual for details and limitations. ⁶ Blind-Spot Collision Warning (BCW) assists the driver by warning of other cars in the blind-spot region. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. BCW may not operate if sensors are obscured in any way. Do not rely exclusively on BCW. BCW is a supplemental system, and the driver must be attentive and exercise caution when

driving. It is important to always signal, look over your shoulder and through your mirrors before changing lanes. See Owner's Manual for details and limitations. ⁷ Rear Cross-Traffic Collision-Avoidance Assist (RCCA) can alert the driver of a potential collision by providing an audible warning and/or applying braking. RCCA is active when the vehicle is in reverse and operating at low speeds. Never rely exclusively on RCCA. RCCA cannot prevent all collisions and may not provide alerts or braking in all conditions. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. ⁸ Lane Following Assist (LFA), when actively engaged with Smart Cruise Control or Highway Driving Assist, helps keep your vehicle centered in its lane when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. ⁹ Government 5-Star Safety ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (nhtsa.gov). ¹⁰ Highway Driving Assist (HDA) is for highway use only and helps keep you centered in your lane while maintaining a safe distance from the vehicle ahead. Lane markings must be clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the car to avoid a collision. See Owner's Manual for details and limitations. ¹¹ When the vehicle is parked, Safe Exit Assist (SEA) can alert occupants planning to exit the IONIQ 5 when another vehicle is approaching from behind. SEA does not work in all situations and is not a substitute for driver or passenger attentiveness. Always be aware of your surroundings and be attentive of approaching vehicles. See Owner's Manual for details and limitations.

IONIQ 5 Limited in Gray 2-Tone H-Tex®

Big thinking. Intelligent space.

Inside, IONIQ 5 has always been an icon of innovative design and space. Now we've made it even more intuitive, starting where you'll feel it most intimately: In your hands. The new 3-spoke steering wheel offers more natural hand positions for comfort and control.

Now look to your right. Smartly sculpted tactile buttons mean you don't have to use a touchscreen to operate the infotainment system or activate features like heated seats or available ventilated seats. Between those front seats, a redesigned center console is available with a floating island that slides fore and aft to keep your dual cupholders and wireless phone charger in perfect reach.

Look further, and you'll see more smart use of space. The cabin floor is completely flat to give the feeling that you're relaxing in your living room. Settle into IONIQ 5 Limited's driver seat – you'll enjoy the supple feel of H-Tex®-trimmed seating and a reclining Relaxation Function that supports your legs while you rest. Up above, an available glass Vision Roof expands your sense of spaciousness. In back, the 2nd-row features reclining seatbacks and slide for more legroom.

You'll also enjoy intelligent tech like an available Bose® premium audio system that lets you connect two phones simultaneously via Bluetooth® streaming. Everyone can stay plugged in with three standard USB-C ports up front and two in the 2nd row. Over-the-Air updates conveniently keep your software up to date.¹ And when it's time to park or recharge, integrated Hyundai Pay lets you pay for it right from your 12.3-inch center screen.²

¹ Fees apply for map and multimedia Over-the-Air (OTA) updates after an initial three-year period of complimentary updates. Three-year term starts from the new vehicle date of first use. Features, specifications and fees are subject to change. ² Hyundai Pay is available on select 2021-2025 model year Hyundai vehicles equipped with Bluelink and touchscreen navigation. Requires an active Hyundai Bluelink mobile app account, subject to the Connected Services and Hyundai Pay Terms and Conditions. Cellular and GPS coverage is required. Only use Bluelink features and corresponding devices when safe to do so. Valid Visa, MasterCard or American Express credit card must be linked to Hyundai Pay. Credit card eligibility and terms are determined by the card issuing bank. Hyundai Pay is currently accepted at select gas stations, charging stations and parking facilities (collectively, "Merchants") in the U.S. Participating Merchants may not operate in all states or locations. Additional Merchant terms and fees may apply. Features, specifications, fees and availability are subject to change. Visit Owners.HyundaiUSA.com for more information.

Introducing Bluelink+: No fees. No trial. No worries.

With Bluelink+, Hyundai has become the first automotive brand to offer its suite of connected car features to new car purchasers at no extra cost. Bluelink is complimentary with the purchase of your new 2025 IONIQ 5.¹

Bluelink technologies are designed to help keep you safe – ranging from automatic collision notifications to enhanced roadside assistance that sends your location to a roadside assistance associate.² And much more. Bluelink also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary with a 2025 IONIQ 5 new vehicle purchase for the life of the supporting wireless network technology.³

Our MyHyundai with Bluelink app turns your compatible smartphone, smartwatch or home assistant device into a Bluelink remote control that can unlock your IONIQ 5's doors and start the vehicle and climate controls before you leave the house, office or restaurant.⁴

Enter your IONIQ 5 using the available Digital Key 2 Premium for your compatible smartphone or wearable device, and your radio and navigation system presets are automatically restored using your Bluelink personal profile.⁵ Apple Wallet,⁶ Google Wallet⁶ and Samsung Pass⁶ let you share your digital key with trusted friends and family members⁶ – as the primary driver, you control when a shared key can be used, and pause or end shared-key access at any time.

Automatic Emergency Assistance

Bluelink offers you 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you're in an accident where your vehicle's airbags deploy.²

Remote Vehicle Status

Wondering how much charge your IONIQ 5's battery has? If the doors are locked or your liftgate is closed? Your MyHyundai with Bluelink app knows the answers to these questions and more.

Remote Charge Access

You can control your IONIQ 5's charging remotely while it is plugged into an external power source, and schedule charging at specific times to take advantage of low-demand hours and rates.⁷

Remote Climate Controls

Preheating your IONIQ 5 when it's connected to a power source saves battery power needed to heat your vehicle on the road. On warm days, Remote Climate Control can cool your cabin before you drive.

Surround View Monitor

Keep a close eye on your parked IONIQ 5 from your smartphone using the available Surround View Monitor feature. Access its four exterior cameras or an overhead view with a few taps in the app.

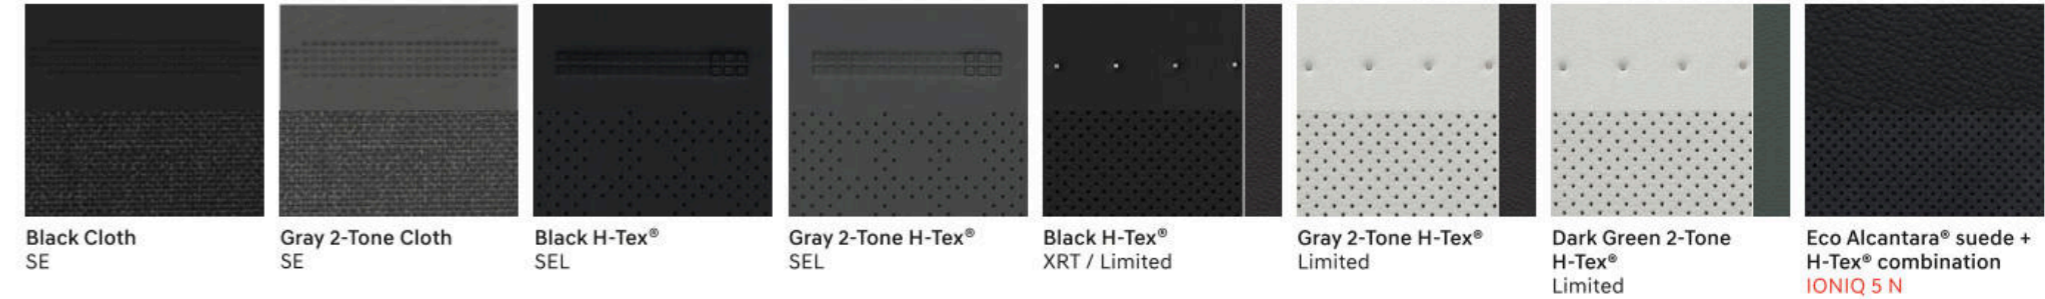

Destination Send-to-Car

Use your MyHyundai app to find points of interest that may not be updated on your vehicle's maps, then send the destination to your IONIQ 5's navigation system before you start driving.

¹ Bluelink+ is available to purchasers and lessees of new 2025 and newer Bluelink-equipped Hyundai models. Bluelink+ requires an active Bluelink subscription agreement subject to the Connected Services Terms and Conditions. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. ² Bluelink agents will contact existing emergency service responders. ³ All Bluelink services rely on digital wireless telecommunications technology outside of our control and in the control of the wireless carriers who provide the telecommunications technology. 4G LTE cellular networks are controlled and maintained by third-party wireless carriers. Telecommunication technologies have been known to change over time. If and when these networks change and discontinue services or the underlying technology required to support Bluelink is obsolete, then the connected services will not work, and we will be forced to cancel impacted subscription services. ⁴ Requires active Bluelink Advanced subscription (complimentary for the original owner). Remote climate control available on properly equipped models with fully automatic temperature control. Remote stop only available when in remote start mode. ⁵ Near Field Communication (NFC) digital key requires a compatible iPhone,⁶ Apple Watch,⁶ Google Pixel,⁶ or Samsung Galaxy⁶ phone. Not all Android, Apple or Samsung devices are compatible. Digital key sharing requires an active Bluelink Advanced subscription (complimentary for the original owner). See your Owner's Manual for details and limitations. ⁶ Apple is a registered trademark of Apple Inc. Samsung is a registered trademark of Samsung Electronics Inc. Google is a trademark of Google LLC. ⁷ Requires Bluelink Advanced package (complimentary for the original owner). For remote charging, vehicle needs to be plugged into an electrical socket. See Owner's Manual for details and limitations.

Hyundai Hope On Wheels®

Helping Kids Fight Cancer Since 1998

Hope comes standard on every Hyundai.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 26 years, Hyundai Hope On Wheels has donated \$250 million to pediatric cancer research. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.

Hyundai Complimentary Maintenance

COMPLIMENTARY MAINTENANCE INCLUDES FOUR (4) BASIC MAINTENANCE SERVICE VISITS THAT MUST BE USED IN THE FIRST 3 YEARS OR 36,000 MILES, WHICHEVER COMES FIRST. Basic maintenance includes Hyundai-approved oil and oil filter change (except for electric vehicles and fuel cell electric vehicles), multi-point inspection plus tire rotation. Driving at normal factory-scheduled maintenance intervals would cover four services for the first 3 years or 36,000 miles. Any additional services and parts are excluded. Offer valid only for original owners of new 2025 model year Hyundai vehicles. See your Hyundai dealer for details and limitations.

Owner Assurance

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we have got your back with Hyundai Owner Assurance – an umbrella of services and benefits that includes America's Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.

America's Best Warranty claim based on total package of warranty programs. See dealer for LIMITED WARRANTY details and HyundaiUSA.com/Assurance for Owner Assurance details and limitations. While the information contained in this brochure is based on the latest information available at the time of publication, specifications and equipment can change. Feature comparisons are based on competitor information available at the time of publication. Although the information contained in this brochure is believed to be correct, accuracy cannot be guaranteed. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time, without notice or incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer or visit HyundaiUSA.com for current vehicle specifications or details on any of the programs or services listed here. As part of Hyundai's commitment to a responsible environment, our brochures are printed using paper certified by the Forest Stewardship Council® FSC® certification helps ensure that the highest social and environmental standards are met in the making of the paper we use, contributing to conservation, responsible management and community-level benefits for people near the forests.
