

IONIQ

2019 Hyundai

The world didn't need another hybrid car. It needed a better car, period.

If you're thinking about driving a car designed to reduce emissions and save fuel, your timing is excellent. The days of having to settle for a car that drives like a glorified golf cart with styling straight out of a sci-fi movie are over.

The 2019 Hyundai Ioniq's dedicated lightweight body design combines responsive performance, quiet comfort and sophisticated style with the unique engineering of an eco-friendly vehicle. Each of Ioniq's three powertrains uses Hyundai's Blue Drive® technology to radically reduce pollution without compromising driving performance.

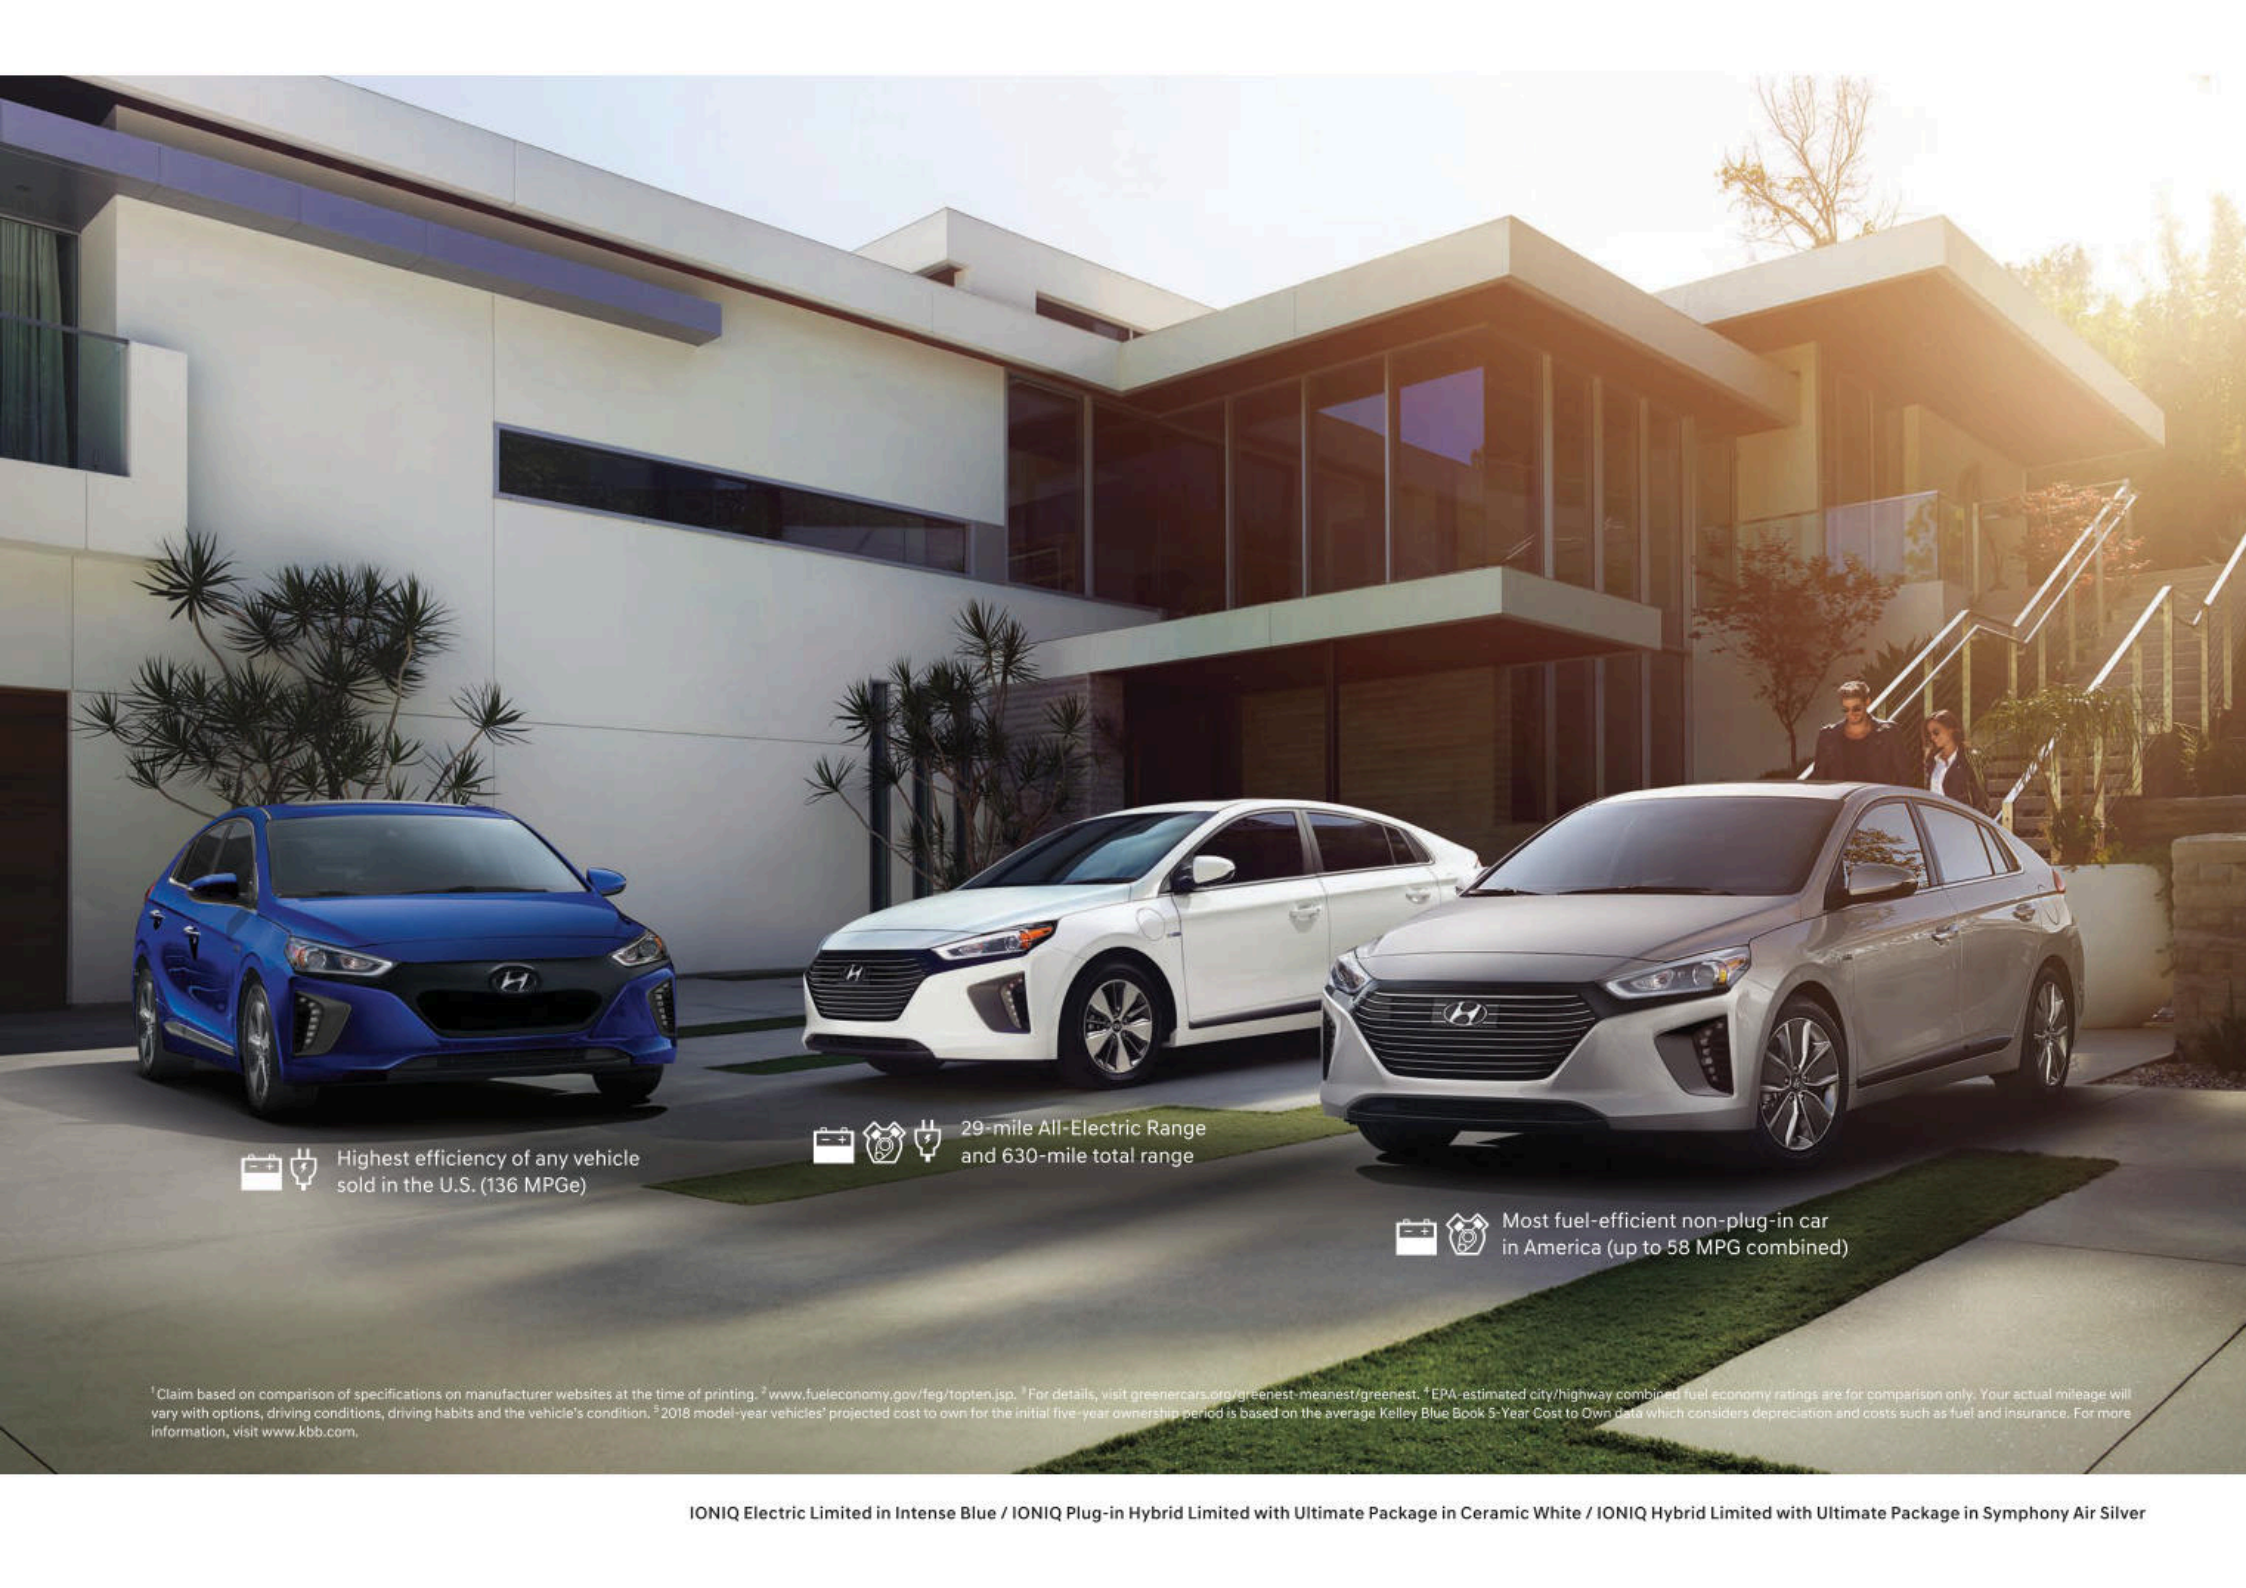

Each delivers outstanding fuel economy. Ioniq Hybrid Blue is rated by the EPA as the most fuel-efficient non-plug-in car in America.¹ Ioniq Electric is not only the most efficient vehicle of any car sold in America according to the EPA,² but the greenest car in the USA according to the American Council for an Energy-Efficient Economy.³ It tops the study ahead of Chevrolet Bolt and Nissan Leaf, while also besting premium-priced models like the BMW i3 and the entire Tesla lineup.¹ And Ioniq Plug-in Hybrid? It delivers the best of both worlds: An EPA-estimated 52 MPG,⁴ an emissions-free All-Electric Range of 29 miles, and a total driving range of 630 miles.

With Ioniq, efficiency doesn't mean austere. Each is filled with comfort and convenience features you'll find rewarding. Each surrounds you with advanced safety technologies and the latest innovations for keeping you connected to your digital life on the road. And each is backed by America's Best Warranty, including a Lifetime Warranty on Ioniq's lithium-ion polymer battery system.

The 2019 Hyundai Ioniq. No matter what version you choose, get ready to experience a better car. Period.

Hyundai has the lowest 5-Year Cost to Own of all brands for 2018 according to Kelley Blue Book's KBB.com, highlighting our industry-leading ownership value.⁵

Highest efficiency of any vehicle sold in the U.S. (136 MPGe)

29-mile All-Electric Range and 630-mile total range

Most fuel-efficient non-plug-in car in America (up to 58 MPG combined)

¹ Claim based on comparison of specifications on manufacturer websites at the time of printing. ² www.fueleconomy.gov/feg/topten.jsp. ³ For details, visit greencars.org/greenest-meaneast/greenest. ⁴ EPA-estimated city/highway combined fuel economy ratings are for comparison only. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition. ⁵ 2018 model-year vehicles' projected cost to own for the initial five-year ownership period is based on the average Kelley Blue Book 5-Year Cost to Own data which considers depreciation and costs such as fuel and insurance. For more information, visit www.kbb.com.

¹EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition. ²MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. Use for comparison purposes only. Mileage may vary depending on driving conditions, driving habits, the vehicle's condition, the age/condition of the lithium-ion polymer battery, and other factors. ³Claim based on comparison of specifications on manufacturer websites.

IONIQ Plug-in Hybrid Limited with Ultimate Package in Summit Gray

With the 2019 Ioniq, there's plenty of fuel for thought.

Hyundai created Ioniq to be the world's first vehicle offered with a choice of three electrified powertrains. Which one is right for you? A powerful 60-hp electric motor helps give Ioniq Plug-in Hybrid a 630-mile total driving range and an All-Electric Range of 29 miles! So depending on your commute and proximity to charging stations, you may never use the gas engine at all. Ioniq Hybrid's 690-mile driving range and EPA-estimated 58 MPG rating help you go even farther on a gallon of gas.¹ Then, there's Ioniq Electric, whose EPA-estimated 136 MPGe rating and 124-mile driving range on a full charge help you avoid gas stations altogether.²

No matter how far you travel, Hyundai Ioniq is a joy to drive. Behind the wheel of an Ioniq Hybrid or Plug-in Hybrid, the shifts of a 6-speed Dual Clutch Transmission are crisp, without the strange rubber-band sensation you feel with some other hybrids' continuously variable transmissions. Press the brake pedal, and the response is reassuringly direct (unlike the squishy pedal feel of many other hybrids). There are no odd noises from the electric motor, either. Instead, you feel the electric motor's seamless torque propelling you forward, with the grip of a multi-link rear suspension holding the road. And that just feels right.

Giving The Battery A Brake

Control paddles on the Ioniq Electric's steering wheel let you increase the amount of energy captured during regenerative braking, as well as decrease the regenerative braking levels to create a smoother, more natural feel during deceleration and downhill coasting.

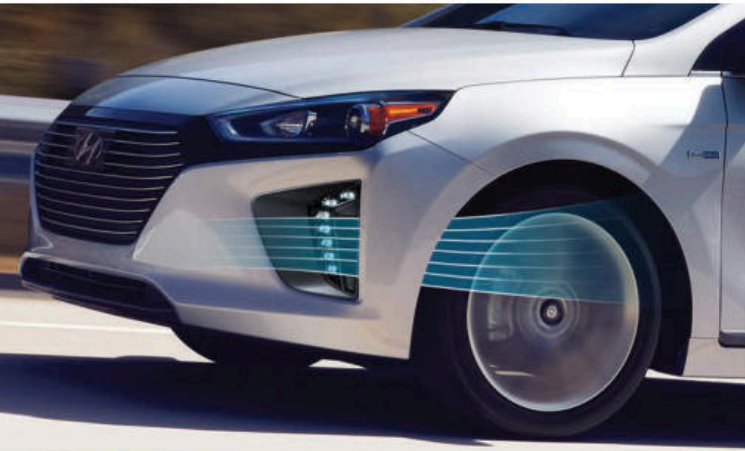

You Always Wanted A Sports Car

Drive Mode Select's Sport mode keeps Ioniq Hybrid and Plug-in Hybrid's gas-powered engine on at all times, using the electric motor to power added traction. It firms up steering, quickens the shift points and changes the color of the gauges to enhance the sense of sportiness.

Better Batteries Included

Ioniq's lithium-ion polymer battery charges quickly, stays cool and holds more power than nickel-metal hydride batteries. It fits under the rear seats and cargo floor, leaving more room for you and your gear (Ioniq Hybrid's 122.7 cu-ft interior volume beats Prius, Volt, Bolt, Leaf and Clarity).³

Design so thoughtful, it lets you forget your cares.

Ioniq's groundbreaking design received a prestigious Red Dot Award, which recognizes excellence in product design. What the international jury considered was the same criteria you do: How does Ioniq's design make things easier? For starters, its aerodynamics are enhanced by an integrated rear spoiler, smooth underbody covers, wheel air curtains and, on Ioniq Hybrid and Plug-in Hybrid, an active aero front grille. The result is an astounding 0.24 coefficient of drag that helps the car slip through the air and make more efficient use of its powertrain.

Another rewarding aspect is the way Ioniq's design manages to fulfill the car's core mission of efficiency, yet still give you the premium features that make driving comfortable and carefree. For one thing, Ioniq has more interior volume than Toyota Prius, Chevrolet Bolt and Volt, Honda Clarity and Nissan Leaf! Ioniq's luxuries include Proximity Key entry with push button start, door handle approach lights and an available power sunroof. The heated front seats² are available with driver's seat memory so you can quickly set the perfect driving position.

There's also a standard 7" high-resolution color touchscreen audio display that integrates Android Auto,[™] Apple CarPlay,[™] SiriusXM[®] Satellite Radio and a Bluetooth[®] hands-free phone system with audio streaming.³ Available Infinity[®] Premium Audio uses Clari-Fi[™] Music Restoration Technology to return compressed digital audio files to the full sound of a live performance.

A Better Climate

The Ioniq's low-emission powertrains and eco-friendly exterior paints help address the Earth's climate. But what about the climate inside your car? Ioniq interiors include heated front seats,² an available sunroof, dual automatic temperature control⁴ and an auto-defogging windshield with a humidity sensor.

Sweet Science

Run your hand across Ioniq's armrest. That soft touch you feel is a radical new technique we pioneered for making bio-plastic materials from sugar cane fibers. Recycled plastics combined with powdered wood and volcanic stone help make interior components strong yet light.

Cut The Cord

We get it – your life basically runs on your smartphone. Which is why Ioniq is available with a large built-in wireless charging pad. Leave the hassle of messy cords behind – just place your compatible phone on the pad and let it soak up the juice.

Eco-Friendly Materials

Volcanic Stone
Natural Plastic

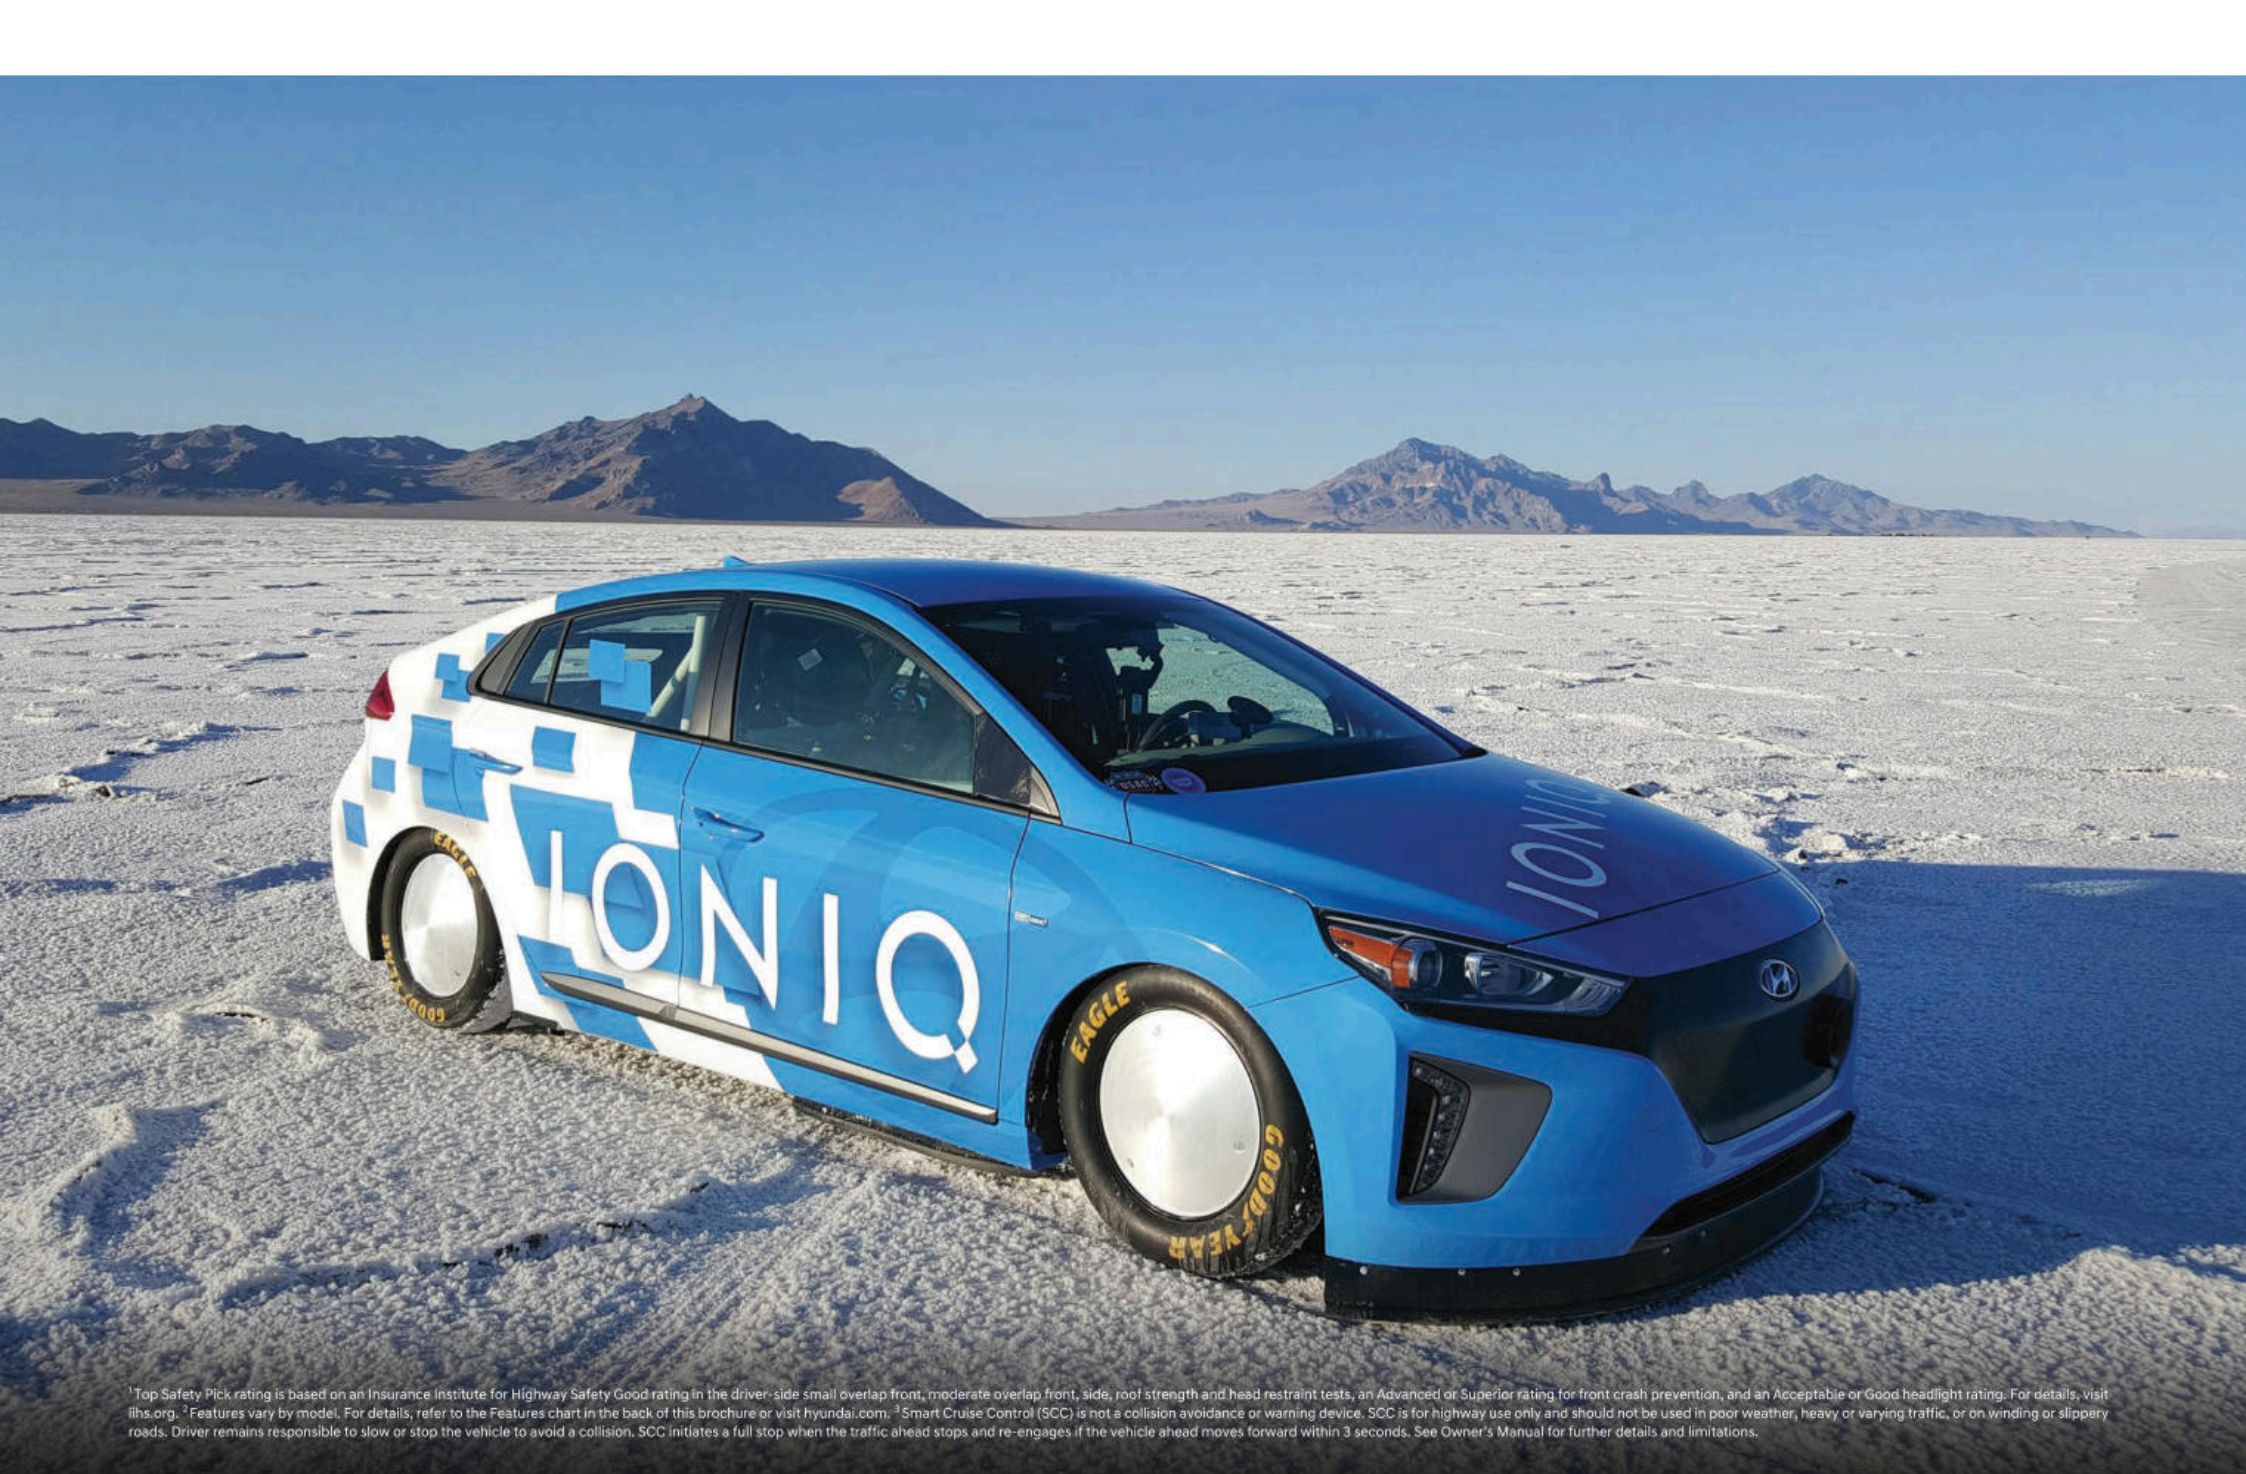

Sugar Cane
Bio-Fabric

¹ Claim based on comparison of specifications on manufacturer websites. ² Standard on Ioniq Plug-in Hybrid and Ioniq Electric, available on Ioniq Hybrid. ³ Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, Google Play and other marks are trademarks of Google Inc. All SiriusXM services require a subscription sold separately, or as a package, by Sirius XM Radio Inc. after a 3-month trial period. The subscription plan you choose will automatically renew, and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. ⁴ Not available on Ioniq Electric.

¹ Top Safety Pick rating is based on an Insurance Institute for Highway Safety Good rating in the driver-side small overlap front, moderate overlap front, side, roof strength and head restraint tests, an Advanced or Superior rating for front crash prevention, and an Acceptable or Good headlight rating. For details, visit [iihs.org](https://www.iihs.org). ² Features vary by model. For details, refer to the Features chart in the back of this brochure or visit [hyundai.com](https://www.hyundai.com). ³ Smart Cruise Control (SCC) is not a collision avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. Driver remains responsible to slow or stop the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and re-engages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for further details and limitations.

We knew technology was moving fast. But 157 mph?

Dateline: November, 2016. Hyundai engineers take a race-prepared Ioniq prototype for a test run on Utah's Bonneville Salt Flats. This wide-open expanse of white crystal is the perfect place to pressure-test a car by pushing it to the limits. During this test, Ioniq reaches 157.825 mph – a land speed record for a production-based hybrid vehicle. It's the kind of achievement under extreme stress that helps validate the durability of engineering like the quick-shifting Dual Clutch Transmission on Ioniq Hybrid and Plug-in Hybrid.

The record-setting run also reflects our commitment to ensuring you feel confident every time you take a seat inside your Ioniq. It starts with the construction of the body itself. Forged from over 50 percent advanced high-strength steel, its rigid design helps absorb and channel the impact forces of a collision to preserve the integrity of the passenger compartment.

Of course, Ioniq's first line of defense is to help avoid accidents altogether. Which is why Hyundai offers a comprehensive suite of advanced safety technologies that help protect you from every angle. Another reassuring fact: Ioniq Hybrids equipped with available Automatic Emergency Braking and HID headlights earned a 2018 IIHS Top Safety Pick award.¹

Hyundai Advanced Safety Technologies²

Automatic Jump-Start

Ioniq Hybrid features the world's first 12-volt battery integrated with the car's powerful hybrid battery pack. Car battery drained after leaving the lights on? Push the "12V Batt Reset" button, and the car's lithium-ion polymer hybrid battery system delivers an automatic jump-start.

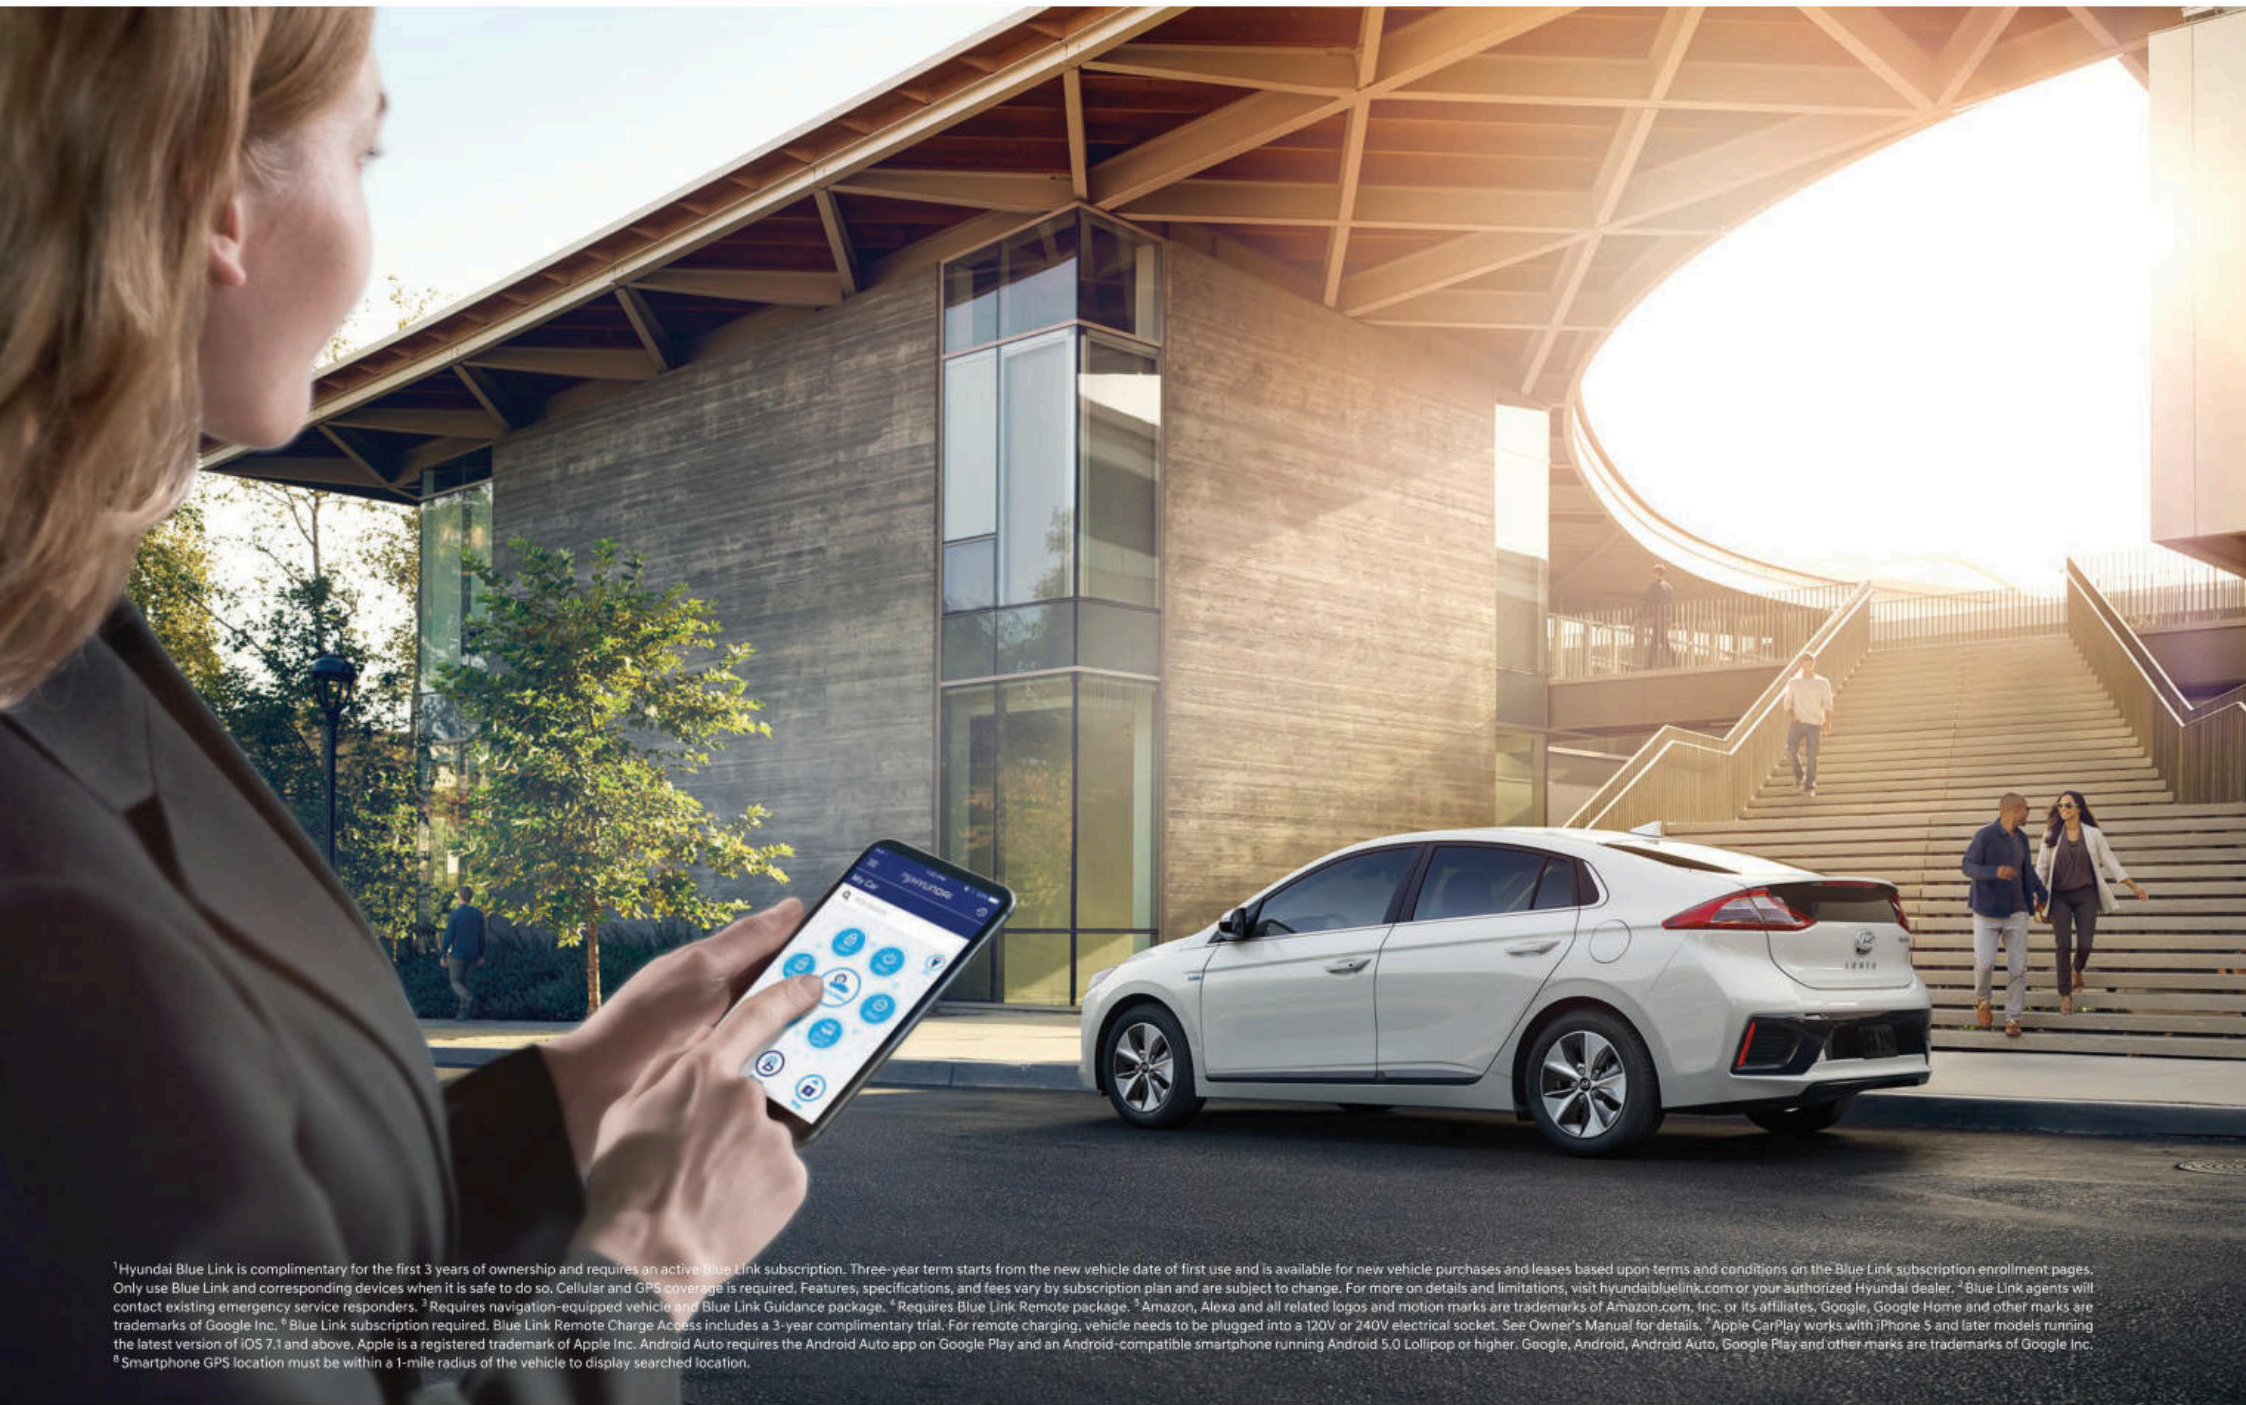

A Brighter Idea

When driving through turns, an available Dynamic Bending Light feature moves Ioniq's headlight beams in sync with your steering to help you see what lies around the bend. No, it's not quite X-ray vision...but it might be the next best thing.

Safety Smarts

Road trip, anyone? Out on the open road, Ioniq's Smart Cruise Control, which automatically adjusts your speed to maintain a safe driving distance from the vehicle ahead of you, helps make long-distance journeys safer. And more relaxing, too.³

¹Hyundai Blue Link is complimentary for the first 3 years of ownership and requires an active Blue Link subscription. Three-year term starts from the new vehicle date of first use and is available for new vehicle purchases and leases based upon terms and conditions on the Blue Link subscription enrollment pages. Only use Blue Link and corresponding devices when it is safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees vary by subscription plan and are subject to change. For more on details and limitations, visit hyundaibluelink.com or your authorized Hyundai dealer. ²Blue Link agents will contact existing emergency service responders. ³Requires navigation-equipped vehicle and Blue Link Guidance package. ⁴Requires Blue Link Remote package. ⁵Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates, Google, Google Home and other marks are trademarks of Google Inc. ⁶Blue Link subscription required. Blue Link Remote Charge Access includes a 3-year complimentary trial. For remote charging, vehicle needs to be plugged into a 120V or 240V electrical socket. See Owner's Manual for details. ⁷Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, Google Play and other marks are trademarks of Google Inc. ⁸Smartphone GPS location must be within a 1-mile radius of the vehicle to display searched location.

It's time you felt a truly special connection with your car.

Hyundai's award-winning Blue Link technology keeps you connected to the services, information and entertainment you want and need on the road.¹ It starts with Blue Link Connected Care. Complimentary for your first three years, it offers exceptional peace of mind. Your vehicle can automatically call for help if you're in an accident that deploys the airbags. You can also push Blue Link's SOS button for 24/7 emergency assistance 365 days a year.² Then there's Blue Link Guidance. It lets you search, download and navigate to addresses and points of interest using voice commands from the driver's seat or your smartphone before entering the car.³

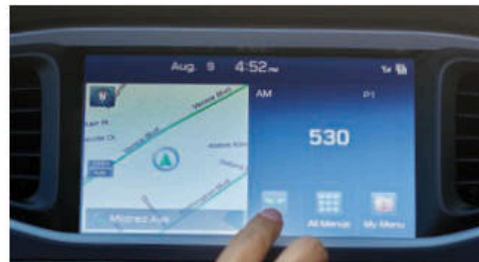

The MyHyundai with Blue Link® app offers remote features that enable you to do some very cool things with your smartphone.⁴ You can lock your car from inside the stadium or use voice commands with your Amazon Echo® or Google Home™ device to remotely start the engine and set climate controls to cool the interior on sweltering days – or heat the cabin on cold mornings.⁵ Ioniq Plug-in Hybrid and Ioniq Electric owners can monitor battery charge levels and set a charging time that lets you take advantage of lower off-peak electric rates.⁶ Blue Link can even help law enforcement recover your vehicle if it's ever stolen.

Visit hyundaibluelink.com for more information on the complete list of innovative features Blue Link puts at your fingertips.

The Smartphone, Now Smarter

Apple CarPlay™ and Android Auto™ integrate your smartphone's functionality with Ioniq's large, high-resolution display. You can seamlessly access maps and navigation, contact lists, texts, calls, your music library and more using the car's touchscreen or simple voice commands.⁷

Know On The Go

Ioniq is a revolution in how you travel. But where you go is still up to you. An available 8" high-resolution navigation system includes 2D and 3D map views, mixed AM/FM/SiriusXM radio presets and HD Radio™ traffic services for real-time traffic updates that don't require a paid subscription.

Hyundai Blue Link®

What gives Ioniq owners a better connection to the things they need? Hyundai's Blue Link Connected Car System, complimentary for the first 3 years of ownership. For details on all of the Blue Link features offered, visit hyundaibluelink.com.

Automatic Emergency Assistance

Blue Link Connected Care offers 24/7 SOS Emergency Assistance and Automatic Collision Notification that calls for help if you're in an accident where airbags deploy.

On-Demand Diagnostics

Run vehicle diagnostics from your Hyundai's touchscreen, report issues at the press of a button, and receive Monthly Vehicle Health Reports or maintenance reminders by email.

Destination Send-to-Car

Use your smartphone to find new restaurants or points of interest that may not be updated yet on your vehicle's maps, then send the destination to Ioniq's navigation system.

Remote Controls

Use your smartphone, home assistant or wearable device to remotely start your Ioniq's engine, unlock the doors, set the cabin temperature, and more.

Car Finder

Forget where you parked? Hyundai's handy Car Finder smartphone feature lets you navigate your way through crowded parking lots back to your car.⁸

Vehicle Charging Dashboard

Find charging stations, control your Ioniq Electric or Plug-in Hybrid's charging remotely, and even schedule charging times at cheaper off-peak hours.

Models & Packages

IONIQ Hybrid Blue

Popular Features

- 139 net hp, 1.6L GDI Atkinson Cycle 4-cylinder hybrid engine
- 32 kW permanent magnet high-power density motor
- Proximity Key entry with push button start
- 60/40 split-folding rear seats
- 7" high-resolution touchscreen audio display
- SiriusXM® Satellite Radio, Android Auto™ and Apple CarPlay™

15" Eco-Spoke

IONIQ Hybrid SEL

Popular Features

- Blind Spot Detection with Rear Cross-traffic Alert and Lane Change Assist
- Automatic Emergency Braking with Pedestrian Detection
- Smart Cruise Control
- Lane Keep Assist
- 7" color LCD instrument cluster
- Heated front seats
- Power driver seat with adjustable lumbar support

15" Eco-Spoke

IONIQ Hybrid Limited

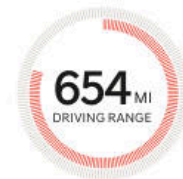

Popular Features

- 17" alloy wheels with 225/45R17 tires
- Power tilt-and-slide sunroof
- Leather seating surfaces
- HID headlights with LED accent lighting
- High Beam Assist
- Hyundai Blue Link® Connected Car System (3 years complimentary)
