

2020 Hyundai

KONA Electric

¹MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. Use for comparison purposes only. Mileage may vary depending on driving conditions, driving habits, the vehicle's condition, the age/condition of the lithium-ion polymer battery, and other factors. ²Claim based on comparison of specifications on manufacturer websites. ³Comparison of standard battery size driving ranges and comparison of specifications on manufacturer websites. ⁴Do not rely exclusively on the Rear View Monitor. Kona Electric's Rear View Monitor is a supplemental system, and the driver must still be attentive and exercise caution when driving. See Owner's Manual for further details and limitations. ⁵Requires Blue Link Remote package. 2020 Kona Electric includes 3 years of the Blue Link Connected Care, Remote and Guidance (factory-equipped navigation required) packages. All trials require an active Blue Link subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use, is available for new vehicle purchases and leases and is transferable to subsequent owners subject to the Terms and Conditions. Only use Blue Link and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees are subject to change. For more on details and limitations, visit hyundai.com or your authorized Hyundai dealer. ⁶For remote charging, vehicle needs to be plugged into a 120V or 240V electrical socket. See Owner's Manual for details. ⁷From "2019 Hyundai Kona Electric Edmunds' Expert Review" on Edmunds.com.

KONA Electric Ultimate in Galactic Gray

An electric SUV perfectly sized for urban adventures.

Looking for a versatile zero-emissions SUV that makes a great big world of experiences possible? Start by considering the 2019 North American Utility Vehicle of the Year™ – the Hyundai Kona Electric.

With its striking 'smart armor' style, sporty driving character and unrivaled suite of advanced safety technologies, Kona Electric lets you live large while leaving a small footprint. Its EPA-estimated 120 combined MPGe rating¹ lets you go long distances, easily exceeding the efficiency of the Nissan LEAF and Chevy Bolt.² And Kona Electric's estimated 258-mile driving range is eclipsed only by Tesla among all-electric vehicles.³

Yet unlike the Tesla, Kona Electric won't cost you a small fortune. A footprint that's as compact as its price tag allows you to easily maneuver around town and snag coveted curbside parking spaces. Press the accelerator, and it's obvious that Kona Electric's performance isn't all about efficiency: The 150 kW motor packs a 201-horsepower punch with 291 lb-ft of instant torque.

Inside, there's plenty of reconfigurable room and a big touchscreen audio display that doubles as a Rear View Monitor with Parking Guidance for added safety when backing into or out of tight spaces.⁴

Hyundai Blue Link,[®] our award-winning suite of connectivity technologies, offers the convenience of remotely starting your Kona and setting the cabin temperature before walking out the door.⁵ You can also schedule and monitor your vehicle's charging remotely via the MyHyundai smartphone app.⁶ Modern thinking like this has gained Hyundai a lot of new owners. And a parade of raving reviews, ranging from a 2019 Edmunds Editors' Choice Award for Best Electric Vehicle to a Wards 10 Best Engines award for 2019.

Edmunds Editors' Choice Award
for Best Electric Vehicle

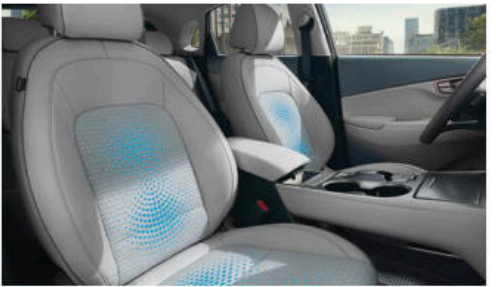

"The Kona Electric feels more like an electric hot hatch than the crossover SUV it's marketed as. Whatever you call it, this vehicle accelerates swiftly and gobbles up curvy mountain roads." – Edmunds 2019 Kona Expert Review⁷

Front grille charge port
Apple CarPlay® and dual USB ports

Shift-by-Wire push-button gear selector
Ventilated front seats

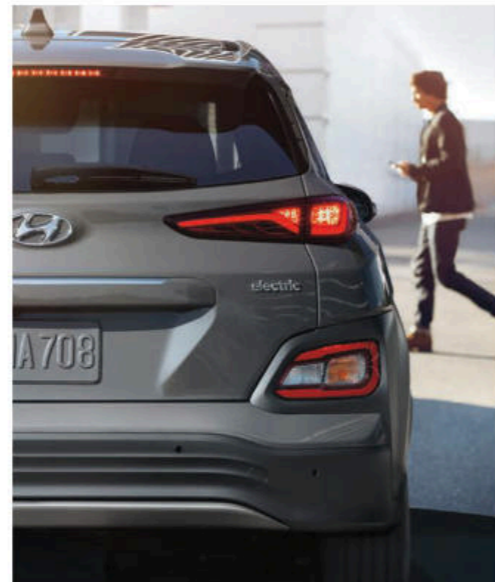

Now this is space travel.

Sporting one of the largest interiors in its class,¹ Kona Electric features 19.2 cubic feet of cargo space behind the rear seats. And unlike many other electrified vehicles that compromise cargo space to make room for hybrid batteries, Kona Electric's battery components are packaged within its platform. That leaves flexible interior space with a dual-stage cargo floor and 60/40 fold-flat rear seats that offer loads of room for passengers and their belongings.

Kona Electric welcomes you with large door openings that reveal a versatile and spacious cabin. Settle into your high seat position in the Limited model, and you'll enjoy the luxury of a heated 8-way power driver seat with power lumbar adjustment and controls placed precisely where your fingertips expect them to be. Steering wheel paddles let you control four levels of regenerative braking, and a convenient Utility Mode lets you camp out in your Kona Electric by operating the air conditioning and audio system while your vehicle is stopped.

The 10.25" high-resolution touchscreen display punctuating the Ultimate model's center console is your control center for checking the battery charge or tuning the Infinity® Premium Audio system. And if you think your music sounds exceptionally crisp and dynamic, your ears aren't deceiving you: Clari-Fi™ Music Restoration Technology is at work, analyzing and restoring sound qualities lost in compressed digital music files.

Forward Collision-Avoidance Assist with Pedestrian Detection

60/40 split fold-down seats
High-resolution 10.25" display with navigation

Standard SmartSense Safety Technologies

There's Safety In Numbers

Hyundai SmartSense is a suite of advanced safety features most other SUVs reserve for expensive option packages or higher trim levels. The technologies listed above have contributed to 13 different Hyundai models equipped with front crash prevention and specific headlights being awarded IIHS 2019 Top Safety Pick or Top Safety Pick+ ratings – one of the industry's highest honors.²

¹Claim based on comparison of specifications on manufacturer websites. ²2019 Top Safety Pick for 2019 Accent, Elantra GT, Ioniq Hybrid, Ioniq Plug-In Hybrid built after July 2018, Veloster built after August 2018 and Santa Fe XL. 2019 Top Safety Pick+ for 2019 Elantra built after September 2018, Tucson built after March 2019, NEXO built after June 2019, Sonata, Kona, Santa Fe and 2020 Palisade.

Technology this amazing borders on magic.

Thankfully, there's no trick to enjoying all of the innovations available with Kona Electric. Using our Blue Link® app on your smartphone or smartwatch – or your Amazon Echo® or Google Home™ device¹ – you can remotely unlock your Kona Electric's doors, start the electric motor and activate the climate controls while you're getting ready to leave.²

Blue Link's array of Connected Care services offer security on the road – and convenience on the go. You can control your Kona Electric's charging remotely, receive Monthly Vehicle Health Reports and reminders for service check-ups, and much more.

With Blue Link's Guidance package, you can tap POI Search on your smartphone to find a new restaurant or point of interest, then send it to Kona Electric's available navigation system (which also includes features like junction view lane guidance and subscription-free traffic updates).³

Of course, Blue Link is just one of the ways Kona Electric makes life easier. Apple CarPlay® and Android Auto™ sync your smartphone with the large color touchscreen display for easy access to your contact lists, texts, calls, maps and navigation, music library and more – ensuring the smarts of your smartphone travel with you wherever you go.⁴ Kona Electric was also the first vehicle in its segment available with wireless device charging.⁵ Like its standard dual front USB outlets, you'll wonder how you ever got along without it.

Amazon Echo® integration

Wireless device charging

¹ Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Assistant and Google Home are trademarks of Google Inc. ² Requires active Blue Link Remote package. ³ Requires active Blue Link Guidance package with Kona Electric Ultimate. ⁴ Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple CarPlay® is a registered trademark of Apple Inc. Android Auto™ requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, and Google Play are trademarks of Google Inc. ⁵ Claim based on comparison of specifications on manufacturer websites. Q1 wireless charging function is based on smartphone compatibility and/or specific accessory cases. ⁶ Blue Link agents will contact existing emergency service responders. ⁷ For remote charging, your vehicle needs to be plugged into a 120V or 240V electrical socket. See Owner's Manual for details. ⁸ Smartphone GPS location must be within a 1-mile radius of the vehicle's location to display searched location.

Automatic Emergency Assistance

Blue Link Connected Care offers 24/7 SOS Emergency Assistance and Automatic Collision Notification that calls for help if you're ever in an accident where the airbags deploy.⁶

On-Demand Diagnostics

Run vehicle diagnostics from your Kona Electric's touchscreen, report issues at the press of a button and receive Monthly Vehicle Health Reports or maintenance reminders by email.

Vehicle Charging Dashboard

Find charging stations, control your Kona Electric's charging remotely and schedule charging times at cheaper off-peak hours.⁷

Service Link

Conveniently schedule your vehicle for service from the driver seat of your Kona Electric or MyHyundai smartphone app.

Car Finder

Our Car Finder smartphone app feature lets you navigate through crowded parking lots back to your Hyundai.⁸

Remote Controls

Use your smartphone, home assistant or wearable device to remotely start your Kona Electric's motor, unlock the doors, set the cabin temperature and more.⁹
