

NEXO

2019 Hyundai

¹Driving range based on EPA estimates for comparison purposes only. Your actual mileage will vary with options, driving conditions, driving habits, the condition of your vehicle and other factors. ²Fueling times can vary based on ambient temperature, hydrogen fueling pressure, current fill level and other factors. ³Remote Smart Parking Assist can autonomously park the vehicle. However, several factors can reduce the performance of this feature. The parking sensors may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with sensor operation. Always inspect the parking area with your own eyes. ⁴Lane Following Assist (LFA) automatically adjusts steering to help keep your vehicle centered in its lane of travel. LFA can keep a Hyundai vehicle centered at speeds between 0 and 80 miles per hour on both highways and city streets.

NEXO Limited in Copper Metallic

Every future is possible in the new Hyundai NEXO.

Imagine a future where automotive engines do no harm. A future where a more sustainable world is unlocked through the potential of hydrogen fuel cells that generate electric power. That future is today: Introducing the new 2019 Hyundai NEXO.

As the only fuel cell SUV on the market, NEXO sets a new benchmark for zero-emissions alternative fuel vehicles: A driving range of up to 380 miles¹ (the highest of any zero-emissions vehicle) with a refueling time of less than 5 minutes.² It responds with instant torque, it's remarkably quiet, and it's less impacted by extreme weather than vehicles which rely on electric batteries. Using Remote Smart Parking Assist, you can autonomously park or retrieve your NEXO from a parallel or perpendicular parking space by pressing a button inside the cabin or using your Smart Key outside of the vehicle.³

A Surround View Monitor offers invaluable assistance in parallel parking and negotiating narrow garages. On the road, a Blind View Monitor displays video from not one, but both sides of the vehicle when you use your turn signal. On crowded freeways, Lane Follow Assist helps keep you centered in your lane by automatically adjusting your steering.⁴ All in all, NEXO is flush with technologies that make your drive time more enjoyable. And with two models to choose from (NEXO Blue and NEXO Limited), you'll have your own alternatives for how you go alternative.

Standard Advanced Driver Assist Technologies

Good Chemistry

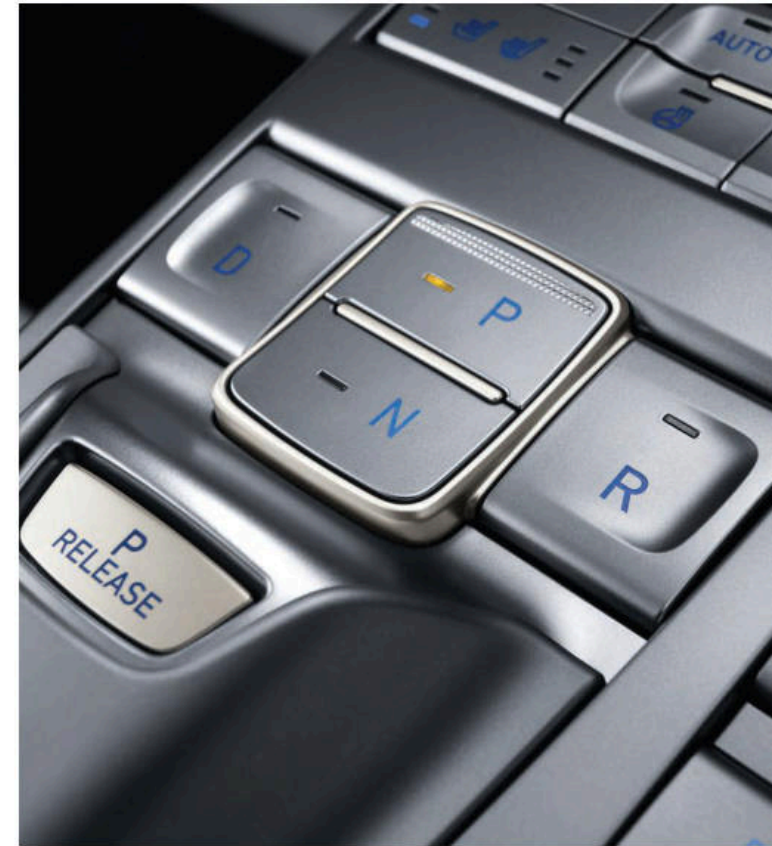

How does NEXO work? By combining hydrogen and oxygen from ambient air, NEXO's fuel cell generates electricity that feeds the 161-hp electric motor and drives its front wheels through a direct-drive transmission. The only by-product? A few droplets of water.

Rethinking Refueling

Traditional electric vehicles plug in for hours before they're ready to go. NEXO is ready in about 5 minutes, thanks to its hydrogen fuel cell. And finding a hydrogen filling station is easy: NEXO's navigation system includes a hydrogen station finder.

Less Than Zero

In addition to zero emissions, NEXO purifies the surrounding air as it drives. Its air filter helps remove micro-particulates. The purified air not needed in the fuel cell is expelled, leaving the air outside cleaner than before.

Move over leather, wool and wood. Here comes soybean, canola oil and bamboo.

The definition of a luxury car is changing. It's no longer strictly about enjoying the good life, is it? As NEXO proves, modern luxury embraces a bigger idea: It's only good if it's good for the planet. Which is why NEXO's passenger cabin was crafted using UL-Certified biomaterials not typically found in automotive interiors. Like a headliner woven from bamboo threads, carpet fibers spun from sugarcane and interior trim dyes extracted from soybeans and canola oil.

NEXO also redefines the level of quiet you should look for – make that listen for – in a car. The sound you'll hear at speed is one of near-silence thanks to the smooth, quiet operation of its hydrogen fuel cell motor. It's complimented by generous front and rear leg room for five passengers. And unlike typical electric vehicles, where interior cargo space is compromised to accommodate large battery packs, NEXO's cargo area is spacious and full of utility.

Audiophiles will love the unparalleled sonic performance of NEXO's Krell Premium Audio system. With a 440-Watt, 8-channel amplifier as its centerpiece, it features an 8" subwoofer and Live Dynamic Algorithm technology that restores the fullness of sound lost in compressed music files.

The Lap Of Luxury

Picture yourself relaxing in NEXO's 8-way power driver seat with power lumbar support. Picture your comfort maintained by dual automatic temperature controls, heated front seats, available ventilated front seats and an available wide sunroof. Sounds like the lap of luxury, does it not?

Big On Little Touches

NEXO's standard navigation system offers a 12.3" high-resolution touchscreen, one of the largest offered in any type of vehicle. Use voice commands or the wide split-screen display's pinch zoom in/out features to view real-time HD Radio™ traffic flow and incident data (no subscription required).

This Is Sure Handy

Approach your NEXO Limited from the rear with the key fob in your pocket or purse, and the hands-free smart liftgate opens automatically.¹ It raises high enough for taller people to walk under it and can adjust its rise to avoid bumping low garage ceilings.

NEXO Limited in Stone Gray Synthetic Leather with UL-Certified Interior Bio-Based Materials

It's time you felt a truly special connection with your SUV.

Welcome to Blue Link,[®] a technology that transforms your NEXO into an extension of your highly connected life.¹ It starts with Blue Link Connected Care. Complimentary for your first 3 years, it offers exceptional peace of mind with 24/7 access to Enhanced Roadside Assistance, SOS Emergency Assistance,² on-demand vehicle diagnostics and more.

Then there's Blue Link Guidance. It lets you search, download and navigate to addresses and points of interest using voice commands from the driver seat or your smartphone before entering your vehicle.³ NEXO's standard navigation system features a huge split-screen display, junction view lane guidance, a hydrogen station finder and traffic services through HD Radio™ that provides real-time traffic flow and incident data without requiring a subscription.

If you're like most Hyundai owners, the Blue Link feature you'll love most is Remote Access.⁴ Using the MyHyundai app on your smartphone or smartwatch, or your Amazon Echo[®] or Google Home™ device,⁵ you can lock or unlock NEXO's car doors and start the climate controls before you walk out the door. Your Blue Link app can even help law enforcement recover your vehicle if it's ever stolen.

Smartphones Made Smarter

Standard Android Auto™ and Apple CarPlay™ let you integrate your smartphone with NEXO's large high-resolution display. So you can seamlessly access phone-selected points of interest, your contact lists, texts, calls, your music library and more using the touchscreen display or voice commands.⁶

Cut The Cord

We get it – your life basically runs on your phone. Which is why the NEXO features a built-in wireless charging pad. Leave the hassle of messy charging cords behind – just place your compatible phone on the pad, and it soaks up the juice. Simple as that.

Hyundai Blue Link[®]

What gives NEXO owners a better connection to the things they need? Hyundai's Blue Link Connected Car System, complimentary for the first 3 years of ownership. For details on all of the Blue Link features offered, visit hyundaibluelink.com.

Automatic Emergency Assistance

Blue Link Connected Care offers 24/7 SOS Emergency Assistance and Automatic Collision Notification that calls for help if you're in an accident where airbags deploy.

On-Demand Diagnostics

Run vehicle diagnostics from your Hyundai's touchscreen, report issues at the press of a button, and receive Monthly Vehicle Health Reports or maintenance reminders by email.

Destination Send-To-Car

Use your smartphone to find restaurants or points of interest that may not be updated on your vehicle's maps, then send the destination to NEXO's navigation system.³

Remote Seat Heating/Cooling

NEXO is the first Hyundai vehicle that allows you to remotely activate the seat heating and cooling using the MyHyundai app on your smartphone.⁵

Car Finder

Our Car Finder smartphone feature lets you navigate your way through crowded parking lots back to your Hyundai.⁷

Customizable Alerts

Proud parent of a teen driver? Blue Link lets you set curfews and speed alerts so you can relax when loved ones are on the road.

¹ Hyundai Blue Link is complimentary for the first 3 years of ownership and requires an active Blue Link subscription. Three-year term starts from the new vehicle date of first use and is available for new vehicle purchases and leases based upon terms and conditions on the Blue Link subscription enrollment pages. Only use Blue Link and corresponding devices when it is safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees vary by subscription plan and are subject to change. For more on details and limitations, visit hyundai.com or your authorized Hyundai dealer. ² Blue Link agents will contact existing emergency service responders. ³ Requires Blue Link Guidance package. ⁴ Requires Blue Link Remote package. ⁵ Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google, Google Home and other marks are trademarks of Google Inc. ⁶ Apple is a trademark of Apple Inc., registered in the U.S. and other countries. Apple CarPlay is a trademark of Apple Inc. Android Auto is compatible with Android phones running Android 5.0 or newer. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android Auto is a trademark of Google Inc. ⁷ Smartphone GPS location must be within 1-mile radius of vehicle's location to display searched location. ⁸ Ventilated front seats standard on NEXO Limited only. ⁹ Driving range for NEXO Blue based on EPA estimates for comparison purposes only. Your actual mileage will vary with options, driving conditions, driving habits, the condition of your vehicle and other factors. ¹⁰ MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. Use for comparison purposes only.
