

SANTA FE

2019 Hyundai

Leaving well enough alone just isn't our style.

Want to spend some quality time with your family? Find your way to Santa Fe, and you'll quickly discover why Hyundai is the automotive brand ranked No. 1 in customer loyalty for the past nine years.¹

The 2019 Santa Fe features stunning new styling. It's longer outside, so it's bigger inside. The list of standard safety features is longer, too. None of Santa Fe's competitors offer such a comprehensive suite of standard safety technologies across the entire lineup.²

Santa Fe gives you the choice of a fuel-efficient 2.4L GDI engine or a more powerful 2.0L Turbo GDI engine. Best of all, the new Santa Fe is filled with a wealth of comfort and convenience features that help you and your family make the most of your road trips.

Our Hyundai engineering family recently embarked on an epic road trip of their own, traveling to the end of the earth in order to put their ideas to the ultimate test. They brought a lightly modified Santa Fe to Antarctica, where it became the first and only vehicle to cross the frozen continent, and back again. That's our idea of quality time.

And while our engineers delight in forging innovative ideas out of metal, glass and leather, we never forget that you're the reason we pursue these passions. Which is why every new Hyundai is backed by America's Best Warranty. And why Hyundai has the lowest 5-Year Cost to Own ranking of all brands for 2018 according to Kelley Blue Book's KBB.com.³ In a Santa Fe, drive time is time well spent.

Hyundai has the lowest 5-Year Cost to Own of all brands for 2018 according to Kelley Blue Book's KBB.com, highlighting our industry-leading ownership value.

¹Based on 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017 and 2018 Brand Keys Customer Loyalty Engagement Index[®]. ²Claim based on comparison of specifications on manufacturer websites. ³2018 model-year vehicles' projected cost to own for the initial five-year ownership period is based on the average Kelley Blue Book 5-Year Cost to Own data, which considers depreciation and costs such as fuel and insurance. For more information, visit www.kbb.com.

SANTA FE Ultimate in Lava Orange

¹Claim based on comparison of 2018 model specifications on manufacturer websites. ²"First Drive: 2019 Hyundai Santa Fe", February 2018. ³The hands-free smart liftgate will open when your Proximity Key is within 3 feet of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with normal operation. Not available on SE and SEL models. Please consult your Owner's Manual for details.

Take it easy on yourself. And on your precious cargo.

In the all-new Santa Fe, life is about to get a whole lot easier. The interior is roomier in all the right places. With the 60/40 rear seats folded flat, Santa Fe's hands-free smart liftgate offers access to a cavernous 71.3 cubic feet of space. Even with the rear seats up, there's more cargo room than Nissan Murano, Jeep Cherokee or GMC Terrain offer.¹

Large windows and side mirrors offer exceptional visibility in an airy, light-filled interior (be sure to check out the views through Santa Fe's available panoramic sunroof, too). Available dual automatic temperature control with a CleanAir Ionizer helps freshen all of that cabin air. And even before you settle into your seat, you'll notice deeply pleated seat inserts with texture echoed by other details inside. All around you, soft-touch materials make you feel instantly at ease.

Leather-trimmed front seats are available with the added luxuries of soothing heat and cooling ventilation. Their 8-way power adjustment includes power lumbar support (Santa Fe Ultimate offers extendable thigh support, too). Choose to sit in the second row, and there's class-leading legroom,² available heated seats at the two outboard positions, air conditioning vents and two USB outlets for your electronic devices.

"Inside is a redesigned cockpit that is one of Hyundai's best."²

- Automobile

Through The Looking Glass

Onboard the 2019 Santa Fe Ultimate, the windshield doubles as a projection screen for the new 8.5" full-color Heads-up Display. No need to take your eyes off the road for speed and turn-by-turn navigation information.

Hear Perfectly Clear

An available Infinity® Premium Audio system adds hi-fidelity accompaniment to family outings. Clari-Fi™ Music Restoration Technology rebuilds details lost in digitally compressed music, while QuantumLogic® extracts signals from the original recording and redistributes them into a multidimensional sound stage.

Getting The Height Right

Santa Fe's available height-adjustable hands-free smart liftgate raises high enough for taller people to walk under it, and can limit its rise to avoid bumping on low garage ceilings or longer items like canoes when the roof rack is loaded.³

¹Motor Trend, February 28, 2018.

SANTA FE Ultimate in Lava Orange

A look of smooth power. And the performance to back it up.

You know that intense look a coiled cobra gets when it's about to strike? That's how entranced the reviewer at *Motor Trend* was by the 2019 Santa Fe's bold new design.¹ Equally intense is the engineering you'll find beneath Santa Fe's sculpted sheet metal.

Under the hood is your choice of a 185-hp, 2.4-liter GDI engine that maximizes fuel economy with Idle Stop & Go or a 235-hp, 2.0-liter turbo powerplant with a robust 260 lb-ft of torque. Both engines extract their power through a new 8-speed transmission and pour it onto the pavement with your choice of standard Front Wheel Drive or the latest generation of Hyundai's available HTRAC All Wheel Drive.

No matter which you choose, the new Santa Fe elevates your SUV driving experience to new levels of comfort and control. All aided by refinements to Santa Fe's multi-link rear suspension design. Without getting into a lesson in geometry, let's just say Hyundai engineers did their homework and mastered the math. The result is a ride that's remarkably smooth and quiet, with steering and handling response that's crisp and confident.

The Santa Fe 2.0T engine
offers up to 3,500 lbs
of towing capacity

Smoother Shifts

The 2019 Santa Fe's engines twirl on an all-new 8-speed automatic transmission that offers smooth, powerful shifting and contributes to improved fuel economy. There is also none of the rubber-band effect felt with the continuously variable transmissions used on some competing midsize SUVs.

Driving On Your Terms

Versatility isn't limited to Santa Fe's interior configurations. Using Drive Mode Select, you can choose between normal, fuel-efficient and sporty driving dynamics at the press of a button. Santa Fe's dashboard gauge display changes its color scheme to match your driving mode.

All-New All Wheel Drive

The Santa Fe offers a new, driver-selectable All Wheel Drive option. Electronic and instantly variable active torque control between the front and rear axles sends precisely the right amount of power to the right wheels at the right time. So you can always feel like you've got a grip on things.

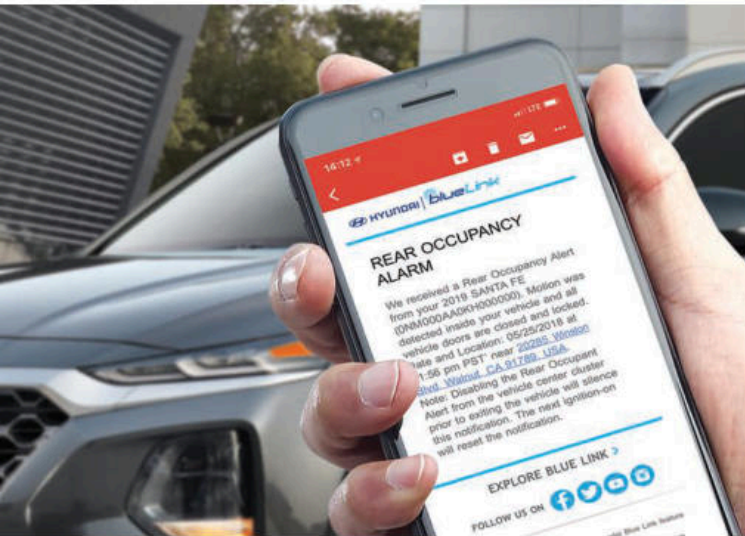

Safety advances are moving quickly. To our list of standard features.

In a relatively short time, a whole new generation of advanced automotive safety features has been introduced. And while that's obviously a welcome development, we've never stopped imagining how much further we can go. Which is why, on the new Santa Fe, we've made an all-encompassing suite of advanced safety technologies standard on every model.

Unlike most competing brands, you don't need to opt for an expensive package or move up to a higher trim level to enjoy the peace-of-mind that comes from surrounding yourself – and your passengers – with the latest safety features. While you're driving, Hyundai's SmartSense technologies are working in the background at every instant to protect you from all sides.

Making things safer ahead of you are standard features like Forward Collision-Avoidance Assist with Pedestrian Detection,¹ Smart Cruise Control with Stop & Go,² High Beam Assist and Driver Attention Warning.³ Innovations such as Blind-Spot Collision-Avoidance Assist,⁴ Lane Keeping Assist⁵ and Safe Exit Assist⁶ protect your flanks. And behind you, Rear Cross-Traffic Collision-Avoidance Assist,⁷ a rearview monitor with dynamic guidelines and available Parking Distance Warning sensors have your back.

Lane Keeping Assist

Safety Channel

The 2019 Santa Fe is forged from advanced high-strength steel in its core body structure to better manage the effects of an impact. Santa Fe's design helps channel the forces of an impact around its passenger compartment in order to protect the occupants inside.

Safe Exit Assist

When parallel parked on a busy street, your Santa Fe can sense a vehicle approaching from the rear and automatically locks the rear doors to protect young passengers. A visual/audible alert also warns of a passing vehicle while passengers are opening doors to begin exiting.

Rear Occupant Alert

An ultrasonic sensor in Santa Fe's headliner scans for movement in the rear seats after the vehicle is parked and locked. If movement by a child or pet is detected, it will honk the horn, flash its lights and send an alert to your smartphone using the Blue Link app.⁹

¹ Forward Collision-Avoidance Assist (FCA) with Pedestrian Detection helps detect pedestrians, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. See Owner's Manual for details. ² Smart Cruise Control (SCC) is not a collision avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for details. ³ It is the driver's responsibility to remain alert at all times. Driver Attention Warning is only a warning to inform the driver of a potential lack of attention or drowsiness. It does not detect and provide an alert in every situation. See Owner's Manual for details. ⁴ Do not rely completely on Blind-Spot Collision-Avoidance Assist (BCA) and be sure to use proper lane changing procedures. BCA may not detect every object or vehicle and will not prevent accidents. BCA provides an audible and visual alert if the turn signal is activated and another vehicle in the blind spot is sensed. There are limitations to the function, range, detection and clarity of these systems. See Owner's Manual for details. ⁵ Lane Keeping Assist operates above approximately 44 mph and only when the lane markings are clearly visible on the road. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist, and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details. ⁶ When the vehicle is parked, Safe Exit Assist (SEA) can alert occupants planning to exit the vehicle when a vehicle is approaching from behind. When Child Locks are active, SEA prevents the rear doors from opening if a vehicle approaching from behind is detected. All doors must be closed for Safe Exit Assist to operate. Functionality is retained for 10 minutes after the ignition is turned off. Opening the door switches Safe Exit Assist off. See Owner's Manual for details. ⁷ Rear Cross-Traffic Collision-Avoidance Assist is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. Never rely exclusively on the Rear Cross-Traffic Collision-Avoidance Assist. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual to learn more. ⁸ Features vary by model. For details, refer to the Features chart in the back of this brochure or visit hyundai.com. ⁹ When the vehicle is parked and the driver has exited the vehicle, Rear Occupant Alert can alert the driver if the rear seat sensors detect passengers or pets still in the rear seats of the vehicle. Never leave a child unattended in a vehicle. See Owner's Manual for important details and limitations.

“...this is a solid-feeling crossover, mature, richly finished, and blanketed in interesting features that’ll make your life – your real life – easier.”⁸ – *Motor Trend*

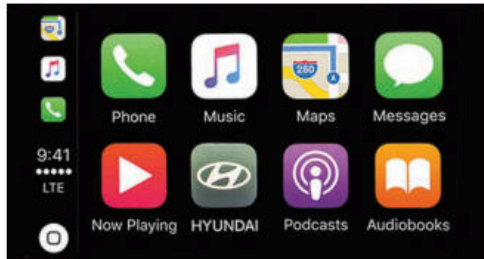

¹Not available with Santa Fe SE. Blue Link is complimentary for the first 3 years of ownership and requires an active Blue Link subscription. Three-year term starts from the new vehicle date of first use and is available for new vehicle purchases and leases based upon terms and conditions on the Blue Link subscription enrollment pages. Only use Blue Link and corresponding devices when it is safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees vary by subscription plan and are subject to change. For details, visit hyundai.com or your authorized Hyundai dealer. ²Blue Link agents will contact existing emergency service responders. ³Requires navigation-equipped vehicle and Blue Link Guidance package. ⁴Requires Blue Link Remote package. ⁵Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. ⁶Apple CarPlay works with iPhone 5s, iPhone 5c, iPhone 5 and later models running the latest version of iOS 7 and above. Apple is a registered trademark of Apple Inc. Android Auto works with smartphones running on Android 5.0, Lollipop and higher. Android, Android Auto, Google Play and other marks are trademarks of Google Inc. ⁷Smartphone GPS location must be within 1-mile radius of vehicle's location to display searched location. ⁸*Motor Trend*, February 2018.

It's time you felt a truly special connection with your SUV.

Hyundai's award-winning Blue Link® technology keeps you connected to the services, information and entertainment you want and need on the road.¹ It starts with Blue Link Connected Care. Complimentary for your first three years, it offers exceptional peace of mind. Wherever you may roam, trained operators are standing by to provide emergency roadside assistance in the event of an accident where airbags have been deployed.²

Then there's Blue Link Guidance. It lets you search, download and navigate to addresses and points of interest using Santa Fe Ultimate's navigation system and voice commands from your driver seat (or your smartphone before entering your vehicle).³ The navigation system is also enhanced with traffic services through HD Radio™ that provide real-time traffic flow and incident data without requiring a subscription.

If you're like most Hyundai owners, the Blue Link feature you'll love most is Remote Access.⁴ Using your MyHyundai app, you can turn your smartphone into a remote control that locks/unlocks your Santa Fe's doors and starts/stops the engine before you walk out the door. You can also use voice commands with your Amazon Echo® or Google Home™ device to set your Santa Fe's cabin temperature from the comfort of your couch or kitchen.⁵ Blue Link can even help law enforcement recover your vehicle if it's ever stolen. Visit hyundaibluelink.com for more information on the complete list of innovative features Blue Link puts at your fingertips.

The Smartphone, Now Smarter

Santa Fe's standard Apple CarPlay™ and Android Auto™ let you integrate your smartphone with its large high-resolution display. You can seamlessly access maps and navigation, contact lists, texts, calls, your music library and more using Santa Fe's touchscreen or simple voice commands.⁶

Cut The Cord

We get it – your life basically runs on your phone. Which is why the 2019 Santa Fe Ultimate features a built-in wireless charging pad. Leave the hassle of messy cords behind – just place your compatible smartphone on the pad, and it soaks up the juice. Simple as that.

Hyundai Blue Link®

What gives Santa Fe owners a better connection to the things they need? Hyundai's Blue Link Connected Car System, complimentary for the first 3 years of ownership. For details on all of the Blue Link features offered, visit hyundaibluelink.com.

Automatic Emergency Assistance

Blue Link Connected Care offers 24/7 SOS Emergency Assistance and Automatic Collision Notification that calls for help if you're in an accident and airbags deploy.

On-Demand Diagnostics

Run vehicle diagnostics from your Hyundai's touchscreen, report issues at the press of a button, and receive Monthly Vehicle Health Reports or maintenance reminders by email.

Destination Send-To-Car

Use your smartphone to find restaurants or points of interest that may not be updated yet on your vehicle's maps, then send the destination to Santa Fe's navigation system.

Remote Controls

Use your smartphone, home assistant or wearable device to remotely start your Santa Fe's engine, unlock the doors, set the cabin temperature and more.

Car Finder

Our Car Finder smartphone feature lets you navigate your way through crowded parking lots back to your Hyundai.⁷

Service Link

Conveniently schedule your vehicle for service from the driver seat of your Santa Fe or MyHyundai smartphone app.
