

 HYUNDAI

2023

VENUE

Our SUVs are habit-forming.

VENUE Limited in Scarlet Red Pearl

With Venue's chiseled angles, cascading mesh grille and available two-tone roof, it's easy to see the attraction. Get to know its smart technologies and safety innovations, and Venue reveals more reasons why Hyundai has ranked #1 in Customer Loyalty for the past 13 years in a row!¹

Step inside, and Venue plays host with seating for five and party favors like wireless Apple CarPlay[®] and Android Auto.[™] Use their familiar icons on Venue's standard 8" touchscreen display, or the voice command button on your steering wheel, to access smartphone playlists, maps, text messages and more.²

Got cargo to carry or gear to pack? Venue offers the flexibility of 60/40 split fold-down rear seats. An adjustable two-level cargo floor is also available. Slide open the available power sunroof, and Venue feels even more spacious inside.

Ready to make tracks? Your Venue is, too, with a Smartstream 1.6L 4-cylinder engine rated at an EPA-estimated 31 combined MPG.³ Available Drive Mode Select lets you choose Normal or Sport driving dynamics. When the road is slippery, Snow mode offers enhanced traction control.

¹Based on Brand Keys 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021 and 2022 Customer Loyalty Engagement Index[®]. ²Wireless Android Auto/Apple CarPlay standard on SE and SEL trims, not available on the Limited trim. Apple CarPlay is a registered trademark of Apple Inc. Android Auto[™] is compatible with Android[™] phones running Android 5.0 or higher. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. ³EPA estimates for comparison only. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition. ⁴Safety features vary by trim level. For details, refer to the Features chart in this brochure or visit HyundaiUSA.com. ⁵Forward Collision-Avoidance Assist with Pedestrian Detection (FCA) helps detect pedestrians, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles and pedestrians under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for maintaining control of the vehicle and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for details and limitations. ⁶Lane Keeping Assist operates only when the lane markings are clearly visible on the road. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. ⁷It is the driver's responsibility to remain alert at all times. Driver Attention Warning warns the driver of a potential lack of attention or drowsiness. It does not detect or provide an alert in every situation. See Owner's Manual for details and limitations. ⁸Blind-Spot Collision Warning (BCW) assists the driver by warning of other cars in the blind-spot region when traveling over 20 mph. There are limitations to the function, range, detection and clarity of the system. Do not rely completely on BCW and use proper lane changing procedures. BCW may not detect every object or vehicle and will not prevent accidents. Rear Cross-Traffic Collision Warning (RCCW) is active when the vehicle is in reverse gear and operating at low speeds. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCW. Always look over your shoulder and use your mirrors to confirm rear clearance. See Owner's Manual for details and limitations. ⁹To qualify for 2022 TOP SAFETY PICK, a vehicle must earn good ratings in the driver-side and passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and an acceptable or good headlight rating. For details visit www.iihs.org.

Safe driving starts with being prepared.

Venue expands your safety zone with SmartSense, a suite of advanced technologies designed to help prevent accidents from occurring in the first place.⁴ To help keep you aware of potential hazards in front of you, there's Forward Collision-Avoidance Assist with Pedestrian Detection.⁵ Whether it's a slowed vehicle detected in your path, or a pedestrian detected to be walking in the road, your vehicle can alert you to trouble ahead. If necessary, emergency braking is automatically applied to help avoid a collision.

Should you begin drifting outside of your lane without signaling, Lane Keeping Assist can help alert you and actively engage your Venue's steering to gently nudge you back into your lane.⁶ If fatigue or inattentiveness is detected in your driving behavior, a feature called Driver Attention Warning alerts you that it may be time to take a break.⁷

Beyond these standard features, Venue is also available with Blind-Spot Collision Warning and Rear Cross-Traffic Collision Warning, which can act as extra sets of eyes.⁸ Venue's core safety engineering starts with a body constructed of advanced high-strength steel and zones designed to absorb and disperse impacts, helping to protect you and your passengers inside the cabin.

Hyundai SmartSense Technologies

2022 Hyundai VENUE received a 5-Year Cost to Own Award from Kelley Blue Book's KBB.com for the 3rd consecutive year.

2020-2022 model-year vehicle's projected cost to own for the initial five-year ownership period is based on the average Kelley Blue Book 5-Year Cost to Own data, which considers depreciation and costs such as fuel and insurance. For more information, visit www.kbb.com.

Live large. Leave a small footprint.

Venue is the crossover SUV that packs a whole lot of living into an economical space. Sit inside, and you'll feel like it's an extension of your personality. Like you, Venue is totally plugged in. You can connect your devices using USB, 12-volt and auxiliary audio input ports, and control many of their functions from the large touchscreen display located front and center.

Like you, Venue knows how to be comfortable in different situations. Whether it's hot or cold outside, an available automatic temperature control maintains preset cabin temperatures. Heated front seats are also available to take the chill off.

And like you, Venue is organized. Hyundai designers carefully studied the gear you carry, then created innovative storage solutions to help keep it concealed. With the available two-level cargo floor in the upper position, you can securely stow your stuff and still have lots of space available for the things your crew of passengers bring along.

So now that you've put everything in its proper place, it's time to put yourself in the proper frame of mind. Tap the touchscreen display to call up your favorite tunes from the playlists on your smartphone, then enjoy how great your music sounds on Venue's available 6-speaker audio system.

Versatile cargo area

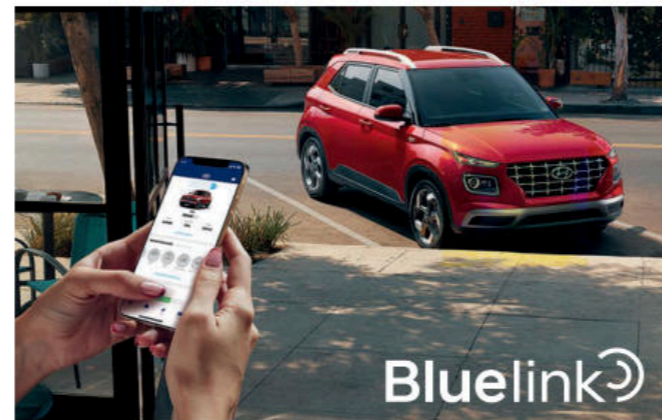

Turns out the key to happiness isn't actually a key. It's an app.

What Hyundai offers its owners goes well beyond our award-winning vehicles. It includes BlueLink[®], a range of innovative technologies that enable remarkable connectivity between you and your Venue.

Download the MyHyundai app, and Hyundai BlueLink[®] will transform your smartphone into a remote control that lets you unlock your Venue's doors and start the engine before leaving the house.² With your Amazon Echo[®] or Google Home[™] device, you can also use voice commands to set Venue's cabin temperature from the comfort of your couch or kitchen before you drive.³ BlueLink's Guidance package

lets you search for addresses or points of interest on your smartphone, then send the destination straight to Venue's available navigation system before you slip behind the wheel.⁴

Then there is BlueLink Connected Care. Like all BlueLink packages, it's complimentary for your first three years and offers exceptional peace of mind. If you're in an accident and the airbags deploy, your Venue automatically calls for help.⁵ You can also push the SOS button on your rearview mirror for emergency assistance 24/7, 365 days a year. Visit HyundaiBlueLink.com for more information on the complete list of innovative features BlueLink puts at your fingertips.

Automatic Emergency Assistance

Blue Link Connected Care offers 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you're in an accident where airbags deploy.⁶

On-Demand Diagnostics

Run vehicle diagnostics from your MyHyundai mobile app, report issues at the press of a button and receive maintenance reminders or Monthly Vehicle Health Reports by email.

Safeguard Alerts

Proud parent of a teenage driver? BlueLink lets you set geofence, curfew and speed alerts so you can relax when your loved ones are behind the wheel.

Remote Vehicle Controls

Use your smartphone, home assistant or wearable device to remotely start your Venue's engine, lock/unlock the doors, set the cabin temperature you desire, and more.

Hyundai Car Finder

Our Car Finder smartphone app feature helps you find your way back to your Venue after a day of downtown shopping or an evening spent at your favorite sports venue.

Connected Care Service Link

With BlueLink, it's easier than ever to schedule your vehicle for routine maintenance or service – from the driver seat of your Venue, or using your MyHyundai smartphone app.

Exterior Colors

¹Select 2023 Venue models are available with 3 years of the BlueLink Connected Care, Remote and Guidance (factory-equipped navigation required) packages. All trials require an active BlueLink subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use, is available for new vehicle purchases and leases, and is transferable to subsequent owners subject to the Terms and Conditions. Only use BlueLink and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, visit HyundaiUSA.com or your authorized Hyundai dealer. ²Requires active BlueLink Remote package subscription and a vehicle equipped with push button start. ³Requires active BlueLink Remote package subscription and a vehicle equipped with automatic temperature control. Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Assistant and Google Home are trademarks of Google Inc. ⁴Requires active BlueLink Guidance package subscription. ⁵Requires active BlueLink subscription with Connected Care package. ⁶BlueLink agents will contact existing emergency service responders. ⁷EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition.
