EXTERIOR COLORS

START WITH A BLANK CANVAS It's the only way to create something that the world has never seen – a premium crossover that embodies the perfect balance of dynamism and purpose. A new clamshell hood design wraps over the fenders. The large wheel-to-body ratio translates into daring proportions, while eye-inspired I-LED headlights in the Sensory Package¹ speak to the future through angled geometric shapes.

REFUSE TO COMPROMISE The biggest revolution in the internal combustion engine since its inception, the INFINITI VC-Turbo™ is the world's first production-ready engine that continuously transforms to optimize both power and efficiency. The multi-link system flexes to lower the compression ratio when more power is needed and relaxes to raise the compression ratio when greater fuel efficiency² is desired.

ENHANCE YOUR CAPABILITIES

How will your QX50 come to life? Start with a modern interior that offers semi-aniline leather-appointed seats,¹ striking Ultrasuede^{®1} accents and open pore Natural Maple Wood trim.¹ Press a button and command the road with a newfound ease. Select advanced technologies that help empower you to do more, mile after mile.

ADAPT TO ANYTHING Whatever comes your way, know that you are ready. Sliding and reclining² second-row seats move forward and back almost 6 inches to enhance leg room or cargo capacity. A standard power liftgate effortlessly opens, allowing you to store most child strollers lengthwise with the seats upright. Opt for the Sensory Package¹ and step up to greater ease and convenience. A Motion Activated Liftgate¹ automatically opens with a swing of your foot under the rear bumper for hands-free access.

PUSH FOR LESS STRESS When technology advances to enhance the driver, you can help reduce the stress of highway traffic. Introducing INFINITI ProPILOT Assist^{1,4} in the ProACTIVE Package,¹ a suite of drive assist technologies that can empower the driving experience. Push a button and technology is at your command. Maintain a set speed and distance, and flow with traffic. ProPILOT Assist can also slow down your vehicle to a complete stop when necessary and then automatically accelerate when traffic clears. To further support the driver, a Head-Up Display¹ ensures information is in your line of sight.

STEER WITH EASE As a single-lane drive assist technology, INFINITI ProPILOT Assist works with world's first Direct Adaptive Steering^{®1} to help keep your vehicle centered within a lane, even around gentle curves. Choose the ProACTIVE Package¹ and the digital steering system can enhance steering when traveling along highways. The technology also offers effortless steering at low speeds for easier parking.

EXTEND YOUR AWARENESS Heighten your abilities with leading safety technologies. For example, Predictive Forward Collision Warning⁵ an INFINITI world's first technology, monitors not only the vehicle directly in front of you but also the vehicle in front of that one, to help warn you of sudden deceleration.
