ENHANCE YOUR CAPABILITIES

How will your QX60 come to life? Crafted as a 7-passenger premium SUV, it elegantly accommodates all of today's possibilities. Personalize an interior as forward-thinking as you. Tailor a space that adapts to everyone and everything. Command a suite of technologies that amplifies your abilities as a driver, enabling you and your passengers to move forward with a new level of ease.

ENTERTAIN ON THE GO You can anticipate the wants of those inside with the Theater Package¹. Play everything from movies to games on dual 8-inch headrest monitors for your rear passengers, while you and your partner can enjoy the latest tunes. In the rear console, an HDMI port expands the fun even further.²

RESHAPE VERSATILITY Three rows are impressive. But a second-row seat that lets you tilt and slide without removing a child's seat² is liberating – and exclusive to the QX60. If you're inclined towards more room, the second row can easily move 5.5 inches back to welcome taller passengers. Opt for the Deluxe Technology Package¹ and you're a step closer to ultimate freedom and convenience. A Motion Activated Liftgate automatically opens with a swing of your foot under the rear bumper for hands-free entry.¹

SEE EVERY SIDE Gain a new perspective on what's around you with the Premium Plus Package.¹ A world's first technology from INFINITI, the Around View[®] Monitor with Moving Object Detection^{1,5} and Front and Rear Sonar System^{1,4} helps you see and maneuver in even the tightest spaces. Four cameras and one virtual 360° view from above add ease while elevating your parking expertise.

BACKUP WITH CONFIDENCE Extend your awareness when you select the Driver Assistance Package.¹ Backup Collision Intervention^{1,5} another world's first technology, alerts you to crossing traffic and large stationary objects detected when backing up. The system can even brake before you do to help avoid a collision. On the road, you have the ability to sense beyond what you can see with our world's first Blind Spot Warning^{1,5} that uses radar sensors to help detect cars in your blind spot when changing lanes.
