THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our vehicles' performance. We innovate, we engineer, we design. We master rules and then break them. Only to push further. Past the limits of convention. This is when performance becomes art.

The New Jaguar I-PACE is the electrifying future of Jaguar. It is the culmination of eighty years of innovation, design and engineering that builds on our achievements: art that never stops evolving and performance that never stops advancing. It heralds a new era of electric powertrains. At Jaguar we don't predict the future. With the New I-PACE we create it.

Jaguar. The Art of Performance.

THE NEW JAGUAR I-PACE

Every Jaguar feels like no other car on the road. Moving to all-electric power doesn't change this. It offers even more opportunities to shape the dynamic performance and dramatic design for which we're renowned. The New Jaguar I-PACE is a pure battery electric vehicle (BEV) built from the ground up to embrace these new possibilities.

Radical design conceals an exquisite interior with SUV levels of practicality. A sophisticated, all-electric powertrain provides high performance with zero tailpipe emissions. Its cutting-edge technologies work seamlessly with the car and with you. Thrilling to look at and drive, easy to live with, and connected like never before - the New I-PACE is our smartest five-seater sports car.

INTRODUCTION

THE ELECTRIC BENEFITS OF THE I-PACE

"We've created the I-PACE to represent the next generation of battery electric vehicle design. It's radical, dramatic, and future-facing – the product of authentic Jaguar DNA matched with beautiful, premium details and British craftsmanship."

Ian Callum, Director of Design.

ELECTRIFYING PERFORMANCE

The linear acceleration of the I-PACE is instantaneous with no lag and no gearshift interruptions. Its 394HP of peak power takes you from 0-60 mph in only 4.5 seconds*. For sports car agility, the 90kWh battery is positioned within the floor, between the axles, giving a low center of gravity and outstanding mass distribution. See page 15 for details.

QUIET INTERIOR REFINEMENT

Electric power is naturally quiet, at low speeds an electrical acoustic sound is emitted. We've still gone to great lengths to make the I-PACE an oasis of calm. Sophisticated motor encapsulation dampens sound while the radical design has been engineered to minimize wind noise. The intrusion of exterior noise is further reduced by acoustic lamination on the front windows. See page 13 for details.

PEACE OF MIND

For added peace of mind, the 90kWh battery is covered by a comprehensive 8 year warranty¹ in addition to your standard Jaguar warranty. What's more, you'll always have the full support of our established Jaguar Retailer network and highly-trained technicians who know your Jaguar inside and out. See page 55 for details.

NEW SPACE

The I-PACE uses axle-mounted electric motors and concentric single speed transmissions. This creates considerable room within the cabin, giving the I-PACE a compact footprint from the outside but space within. See page 12 for details.

EASE OF USE

Clean, convenient, hassle-free – that's the future of car ownership. Visits to the gas station will be a thing of the past – the battery can be charged from a conventional socket, a wall box or at a public charging station. So instead of taking time out to recharge, you simply get on with the things you want to do. See page 18 for details.

LOW COST OF OWNERSHIP

Owning the I-PACE means that you may be eligible to benefit from incentives. Additionally, fewer moving parts can help to reduce servicing and maintenance costs.

Visit jaguarusa.com/incentives to find out more

RANGE

A single full charge provides a range of 234 miles – more than enough to cover the average weekly commute of 150 miles. See page 15 for details.

*Always follow local speed limits.

¹The I-PACE 90kWh battery warranty is limited to 8 years or 100,000 miles (whichever comes first). It is redeemable in the case of any manufacturing defect or should a certified Jaguar Retailer measure that the battery has dropped below a 70 percent State of Health.

ON-BOARD CHARGER

Electricity can be supplied to the car in AC or DC format. To charge the car, the I-PACE on-board charger converts the electricity to DC.

FRONT AND REAR MOTORS

Instead of an engine to drive the front and rear wheels, the I-PACE has two efficient and compact Permanent Magnet Synchronous Electric Motors. Independently each motor can deliver 197HP and torque of 256 lb-ft - for a total output of 394HP and 512 lb-ft, as well as high performance All Wheel Drive (AWD)**.

BATTERY

The 90kWh battery has high energy density lithium-ion pouch cells to store the car's energy.

INVERTER

The I-PACE inverter takes the direct current (DC) stored in the battery package and turns it into the alternating current (AC) that feeds the motors.

CHARGING SOCKET

A charge point is conveniently located on the driver's side front wheel arch. Just plug in and charge.

**This feature is not a substitute for safe and attentive driving, nor can it overcome all extreme circumstances. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

INTRODUCING THE NEW JAGUAR I-PACE

JAGUAR DYNAMICS

The driving experience reflects its dynamic design. Using the proven Jaguar setup of a double wishbone suspension at the front and Integral Link suspension at the rear, this is a true driver's car. Engaging and rewarding handling is balanced with exceptional ride comfort and refinement. See page 16 for details.

ELECTRIC POWERTRAIN

The Jaguar I-TYPE Formula E racing car and I-PACE both use Permanent Magnet Synchronous Electric Motors and lithium-ion pouch battery cell technology. These motors are small, compact and efficient, which helps to optimize performance and range. See page 15 for details.

ALWAYS CONNECTED

Jaguar InControl® technologies seamlessly connect you to your car and the outside world. There's Connect Pro with Smart Settings to learn your preferences, and Pro Services - perfect for finding charging stations on the go. Smartphone Package makes it easy to use selective apps on the Touchscreen*, while Remote lets you interact with your car from your smartphone. See pages 22 to 25 for details.

INTEGRATED TECHNOLOGY

At the heart of the I-PACE is a 'floating' center console containing our latest infotainment system. Our Touch Pro Duo infotainment system makes controlling all the car's features, and your connected devices, incredibly simple. It comprises a 10" Touchscreen integrated into the dashboard and a lower 5" Touchscreen with multi-function dynamic dials*. In front of the driver is a 12.3" high-definition Interactive Driver Display*. 4G Wi-Fi Hotspot** capability is standard, as is our powerful navigation system with range-maximizing route recommendations. See page 21 for details.

INTERIOR CRAFTSMANSHIP AND SPACE

An electric architecture has allowed our designers to combine luxury craftsmanship with new levels of interior space and storage. With the absence of a conventional transmission brings an opportunity for a 0.43 cu.ft. storage bin beneath the center armrest. No conventional gearbox means there is storage within the 'floating' center console perfect for phones and keys. Completing the I-PACE carrying capacity, the rear cargo space is a substantial 25.3 cu.ft. with the under hood front storage compartment providing an additional 0.95 cu.ft. See page 34 for details.

EXTERIOR DRAMA

The radical sweeping cab-forward profile, dramatic hood scoop and Jaguar signature rear haunches are far more than striking design elements. They form integral parts of the car's aerodynamics and help deliver a low drag coefficient to improve range. See page 10 for details.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

**The Wi-Fi hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions.

DESIGN EXTERIOR

The revolutionary design of the I-PACE is both true to the spirit of Jaguar and the I-PACE Concept. From the pronounced front wheel arches to the rear diffuser, every supercar-inspired styling element allows the I-PACE to slice cleanly through the air for improved range and stability. The bold grille curves inwards – reducing drag by channelling air through the hood scoop and out, where it passes over a roofline that is curved for optimum efficiency.

Ensuring that airflow passes smoothly around the entire exterior, integrated deployable door handles sit flush with the car's sides. Giving a distinctive on-road presence, the slim futuristic LED headlights feature our optional signature double 'J' blade graphic. The sleek tail lights are also LED.

VEHICLE SHOWN: JAGUAR I-PACE FIRST EDITION IN CORRIS GREY WITH OPTIONAL EQUIPMENT

INTERIOR

The I-PACE reimagines the classic Jaguar balance of sports car focus and luxury craftsmanship for the digital age. Electric architecture defines the five-seater cabin's character. The cab-forward design means the front seats are placed further forward. This creates more space between the front and rear seats, giving rear seat passengers added legroom and knee room. Driver and front passenger feel an immediate sense of engagement with the car thanks to form-fitting sports seats. Deepening the sense of driver focus, the instrument panel is low, with minimalist lines wrapped in soft leather. Throughout the spacious interior, beautiful, handcrafted touches reaffirm the cabin's luxury atmosphere. Rich, solid finishers surround you and fine contrast twin-needle stitching adds tailored sophistication.

Maximum front headroom with fixed panoramic roof fitted	39.9 inches
Rear headroom	38.1 inches
Maximum front legroom	40.9 inches
Maximum rear legroom	35.0 inches

Whatever combination of materials you choose, their modern feel will complement the stylish, uncluttered environment. To complete the interior, the full length panoramic glass roof, which as a result of its tint and infrared absorbing laminate construction, prevents strong sunlight, UV light and heat from entering the cabin. As well as flooding the interior with natural light, the panoramic glass roof maintains comfortable cabin temperatures in hot sunny conditions and keeps the cabin warm in cold climates. At night, Ambient Interior Lighting accentuates the exquisite details.

The cabin is a sanctuary from the outside world. For outstanding refinement, a sophisticated motor encapsulation dampens sound while the sharp exterior design minimizes wind noise. To enhance your sense of wellbeing, the I-PACE offers an optional Cabin Air Ionization system. This technology ionizes particles in the air, making them attract to surfaces and thus helping to cleanse the air. It can be switched on or off. So everyone is comfortable the moment they step inside, you can pre-heat or pre-cool the cabin through the Touch Pro™ Duo system or via your Jaguar Remote smartphone app. See page 23 for details.

PERFORMANCE POWERTRAIN

Under the skin, the I-PACE is radically different from an internal combustion-engined car. Instead of a gas or diesel engine, it features two extremely lightweight and compact Synchronous Permanent Magnet Electric Motors. They were developed by Jaguar engineers to take advantage of the knowledge experienced and collected from the I-TYPE Formula E racing car.

To deliver maximum power in the smallest possible footprint, the two Synchronous Permanent Magnet Electric Motors are axle-mounted and use concentric single speed transmissions. The motors are also positioned lower in the vehicle, contributing to the low center of gravity and enhancing the control, handling and agility of the I-PACE. It also enables the combination of a spacious cabin with a 25.3 cu.ft. luggage compartment.

Transforming the driving experience, the electric motors are quieter and create fewer vibrations than conventional internal combustion engines - with none of the interruptions normally associated with gear changes. For electrifying performance, the I-PACE delivers up to 512 lb-ft of torque with maximum torque available from zero rpm.

Positioned as low down as possible and right between the axles, the 90kWh battery is constructed of high energy density lithium-ion pouch cells. It's designed for longevity and supports protracted periods of sustained maximum power. The I-PACE constantly maintains the ideal temperature for its battery using state-of-the-art thermal management systems. For your peace of mind, the I-PACE 90kWh battery comes with an 8 year 100,000 miles warranty¹.

Power	394HP
Drive	2 x Electric Motors All Wheel Drive (AWD)
Battery	90kWh
Range	Up to 234 miles
Maximum speed*	124 mph
Acceleration*	0-60 mph 4.5 secs

VEHICLE SHOWN: JAGUAR I-PACE FIRST EDITION IN CORRIS GREY WITH OPTIONAL EQUIPMENT

*Always follow local speed limits.

¹The I-PACE 90kWh battery warranty is limited to 8 years or 100,000 miles (whichever comes first). It is redeemable in the case of any manufacturing defect or should a certified Jaguar Retailer measure that the battery has dropped below a 70 percent State of Health.

Torque Vectoring by Braking applies brake pressure to slow the inside front or inside rear wheels independently helping to prevent understeer and stay on the true line of travel.

Possible understeer without Torque Vectoring by Braking technology.

PERFORMANCE TECHNOLOGY

The I-PACE is underpinned by an advanced electric vehicle architecture created specifically for this car that delivers excellent driving dynamics while minimizing mass. These foundations are paired with a suspension setup proven on F-PACE, XE and XF. The double wishbone suspension at the front and Integral Link suspension at the rear have been tuned to give the I-PACE the perfect balance of dynamic handling and refinement.

TORQUE VECTORING BY BRAKING

Torque Vectoring by Braking can help deliver controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels*.

ALL WHEEL DRIVE

The electric All Wheel Drive (AWD) system features two independently controlled motors, one on the front axle and one on the rear. This means that no complex mechanical connection is required between the two axles to deliver AWD capability. The system uses sensors to continually monitor driver inputs and available traction, to calculate the optimum torque delivery at all four wheels to enhance available grip*.

ALL SURFACE PROGRESS CONTROL

All Surface Progress Control (ASPC) is a state-of-the-art system that can provide assistance in setting and maintaining a steady speed in challenging conditions such as slippery surfaces, including: mud, wet grass, snow and dirt roads. Operating like a conventional cruise control system, it functions between 2 mph and 18 mph**, enabling you to concentrate on the road ahead*.

ADAPTIVE SURFACE RESPONSE¹

Available Adaptive Surface Response (AdSR) recognizes differences between surfaces to exploit the optimal available grip. Drawing on Jaguar Land Rover's unrivalled expertise with All Wheel Drive systems, AdSR constantly monitors the car's environment and adjusts the appropriate motor and brake settings. Once selected, AdSR works at all speeds to support you in adverse weather and across challenging surfaces*.

LOW TRACTION LAUNCH

For optimum torque control when you move from a standstill, select Low Traction Launch on the Touchscreen. This system can help enhance capability in slippery conditions like wet grass and snow. It remains active until the car reaches 18 mph – then the I-PACE seamlessly blends back into the selected driver mode*.

DYNAMIC MODE AND CONFIGURABLE DYNAMICS¹

Engaging Dynamic Mode amplifies the sporting character of the I-PACE. Throttle response is sharpened, the dampers are stiffened and steering weighting is increased. The I-PACE Interactive Driver Display and Configurable Ambient Interior Lighting instantly take on a red glow.

The Configurable Dynamics system allows you to personalize the I-PACE Dynamic Mode. Via the Touchscreen, driving characteristics can be changed to Dynamic or left as normal. So whatever combination of throttle sensitivity, steering weighting or damper stiffness you want, Configurable Dynamics allows you to set up Dynamic Mode to suit your driving needs.

ADAPTIVE DYNAMICS

The optional Adaptive Dynamics system optimizes ride comfort and dynamic body control using continuously variable damping technology. The system monitors multiple sensors that analyze vertical wheel positions, vehicle acceleration, steering inputs, as well as throttle and brake pedal activity to adjust the suspension damping settings. This provides the optimum balance between comfort, refinement and agility*.

ACTIVE AIR SUSPENSION

The sophisticated Active Air Suspension automatically lowers the car by 0.4 inches when travelling at speeds in excess of 65 mph** over extended periods of time, when certain conditions are met. Reducing the space between the car and the road improves aerodynamic performance and therefore range. For better off-road ground clearance, the suspension can increase ride height too.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

**Always follow local speed limits.

¹Only available with Adaptive Dynamics.

CHARGING

Charging the I-PACE is convenient. This means you can top up the battery whenever you wish, to ensure your car is ready for when you need it. You can charge the car in the rain, or even when parked in snow as the charging system is entirely self-contained. The battery charge connector is conveniently and discreetly located on the front wheel arch, while the charge port allows access to all common international charging standards. The Timed Charging feature allows you to set specific charging times via the Touchscreen or via your Jaguar smartphone app. This lets you take advantage of off-peak electricity rates.

PUBLIC CHARGING

On longer journeys you may need a quick top up of your battery's charge to complete your trip. DC rapid chargers are the best way to deliver this – a typical 50kW charge can provide up to 80% charge in less than an hour and a half. As the public charging infrastructure improves, the I-PACE is equipped to accept up to a 100kW DC charge rate. This means you can easily add up to 80% charge in less than an hour². Depending upon the service provider, public AC chargers can have a variety of outputs. You can also find convenient charging points at places you may want to stay for several hours – or even overnight – including local shopping centers, hotels and gyms.

HOME CHARGING

Charging the battery at home couldn't be easier. For optimum charging, you can install an approved Jaguar wall box¹. The I-PACE is equipped with a 7kW single phase AC on board charger, which can fully recharge the vehicle overnight. To ensure that you are always able to charge your I-PACE, the vehicle also comes with a universal charging cable, as standard, that can be used with a domestic socket. When using a domestic socket, charging rates are slower than a wall box.

¹Jaguar have authorized charging infrastructure partnerships for all markets in which I-PACE is available. Our infrastructure partners are available to advise of the best solutions for you. Please consult your Jaguar Retailer for further information. ²Estimated charge time for 100kW charger is 45 minutes. A DC rapid charger provides large amounts of energy in a short amount of time. The charging rate decreases as the battery reaches full capacity, therefore in most use cases it is quicker to rapid charge up to 80 percent capacity or for the extended range required. Actual charge times may vary according to environmental conditions and available charging installation.

Charging times will vary by market, power supply and charging solution. Please refer to jaguarusa.com for further information.

VEHICLE SHOWN: JAGUAR I-PACE FIRST EDITION IN CORRIS GREY WITH OPTIONAL EQUIPMENT

HOME CHARGING

AC 7kW
0-100% CHARGE
12.9 HOURS

PUBLIC CHARGING

Charging times may vary depending on the public charging infrastructure available. To find out more about charging times, visit jaguarusa.com/charging

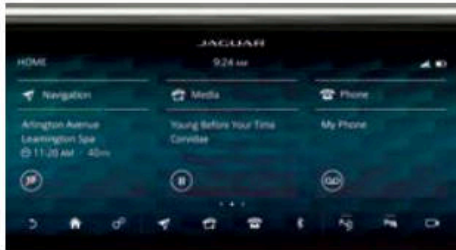

Charging solutions shown are not available in the U.S. Please contact your Jaguar Retailer for further details.

TECHNOLOGY INFOTAINMENT

Delivering a wealth of information and entertainment, every I-PACE is equipped with our Jaguar InControl® infotainment system, Touch Pro Duo. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey*.

TOUCH PRO DUO

The new standard 10" and 5" dual high-definition Touchscreens allow the user to view required information while simultaneously being able to interact with additional features, for increased flexibility and efficiency of use. For instance, you can use the navigation system in the upper screen while adjusting multimedia settings on the lower. Direct access to cabin and seat temperature controls are also available via the new multi-function dynamic dials. For a truly elegant and streamlined appearance, the steering wheel also has new hidden-until-lit, touch-sensitive switches as standard. One of these switches is programmable, so that it can be personalized to your preferences to accomplish a host of functions*.

INTERACTIVE DRIVER DISPLAY

The 12.3" high-definition Interactive Driver Display can receive and project a vast amount of driving information, entertainment and driver assistance data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics. To help you find your way more easily, Navigation Pro enables you to display full screen navigation with 3D mapping (where available)*.

HEAD-UP DISPLAY

Minimizing distractions and the need to take your eyes off the road, Head-up Display is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windshield. It features crystal clear full-color graphics in high resolution, enabling you to see all driver inputs and information with ease**. It can display important information from Touch Pro including phone and media information such as the name of the track you might be listening to. The feature can be turned on and off dependent on driver preference.

MERIDIAN™ AUDIO EXCELLENCE

Jaguar audio partner Meridian's technologies have helped ensure that the I-PACE is a superb space in which to experience sound. Digital Signal Processing delivers performance that would otherwise require significantly larger speakers, while Cabin Correction tailors the sound to the vehicle's precise acoustics. Digital Dither Shaping preserves performance details to evoke the emotions of the original recording. Exclusive to Meridian, Trifield™ produces a consistent, concert-like experience for all occupants. I-PACE offers the 380 watts, 11 speaker Meridian Sound System as standard. The 825 watts, 15 speaker Meridian Surround Sound System is available as an option.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.
**These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

CONNECTIVITY

Jaguar InControl® is our suite of features that connects you to your vehicle and links you seamlessly with the outside world. There are a range of packages and features included as standard on the I-PACE. Select the appropriate apps and some of the InControl features stay with you, even when you are away from the car, to make sure the Jaguar experience is more enjoyable than ever*.

STANDARD FEATURES

PINPOINT TOUCH CONTROL*

Pinpoint touch control allows you to interact with information swiftly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch-to-zoom and swipe.

PERSONALIZED HOMEPAGE*

You can set up your homescreens the way you want them. With over 60 shortcuts and widgets, you can customize your system around the features you use most.

INTERACTIVE SIDE PANEL*

A choice of side panels means you can multi-task. For example, your main screen area can be used for navigation, while the side panel provides phone controls. Simply swipe up and down to switch between multiple panels.

MULTIMEDIA*

Enjoy a range of multimedia features on the Touchscreen. Connect your device and see details of playlists and music displayed by artist, album and genre. Create a list of songs you want to play and add to the line up at any time.

ENHANCED PHONE INTERFACE*

Making it easier you can call a favorite contact with a single touch. Additional functionality includes direct access to voicemail, conference calling and homescreen integration.

VOICE RECOGNITION SYSTEM*

So you can complete tasks without taking your eyes off the road, the I-PACE offers intelligent voice recognition. For example, 'Tune to 97.9' or 'Call home'.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

REMOTE**

The Jaguar Remote smartphone app, available for download, provides information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android™ Wear or the Apple Watch®, this service includes:

Charging Status Information – Stay continually updated with key battery function indicators including charge state, charging status, charge rate, plug state and estimated EV range.

Remote Charging Control – Use your smartphone to remotely start and stop charging, manage charging rates and even set the maximum state of charge.

Remote Lock/Unlock – Lock or unlock your doors remotely with the click of a button. Simply press the 'lock' button on the Vehicle Security screen of the Jaguar Remote smartphone app to single lock the doors, arm the alarm and fold in the side mirrors. Press the 'unlock' button to open your vehicle, unfold the side mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.

Remote Climate – Prepare your Jaguar in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.

Beep/Flash – This feature turns on your Jaguar's hazard lights, dipped headlights and sounds an audible alert to help you locate your vehicle.

Journey Tracking – This opt-in feature can automatically record your trip history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be imported to a spreadsheet.

Vehicle Status Check – Check current range levels, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

Jaguar Optimized Assistance – You can make a direct call to the Jaguar Assistance team by pressing the button on the overhead console or from the Assistance screen within the Jaguar Remote smartphone app.

SOS Emergency Call – Emergency services will automatically be notified if the airbags are deployed.

Stolen Vehicle Locator – Utilizes GPS tracking technology to help police locate and recover your vehicle.

**Remote contains subscription services that can be extended after the initial term advised by your local authorized Jaguar Retailer.

InControl features, options and their availability may vary – check with your Jaguar Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

STANDARD FEATURES

NAVIGATION PRO

Navigation Pro allows you to save your favorite places, use pinch and zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics. Navigation Pro also details range on a map, in various driving modes, as a 'spider' diagram that takes into account various factors – for example road topology and speed limits*.

CONNECT PRO PACKAGE¹

Connect Pro consists of Smart Settings, a 4G Wi-Fi Hotspot**, and Pro Services. It's designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey while remaining connected to the world*.

SMART SETTINGS

Designed to deliver a truly personalized experience and reduce driver distraction, Smart Settings combines a number of features.

Profile – The system automatically identifies each driver using their key and phone, and can remember a number of settings saved to their profile. It can select your preferred seat and mirror positions, as well as which media to play at the start of your journey.

Learning – With the 'Learning' function, Smart Settings can also learn and automate your preferences, based on your habits, past routines and the current temperature – including whether you like a warm steering wheel or heated seats² on a morning commute.

4G WI-FI

The 4G Wi-Fi Hotspot** provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle's wireless network to surf, work, update social media and stay entertained throughout the journey.

PRO SERVICES³

Real Time Traffic Information – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.

Online Search – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.

Planning Routes and Door-to-Door Routing – Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. When you arrive at your parking, it isn't always clear how to get to your final destination. As you exit the vehicle, the Navigation Pro system will automatically transfer the directions to the Route Planner app on your smartphone. You can then access the directions on how to get to your destination via public transportation or on foot. You are always connected – every step of the way, right to the door*.

Share ETA – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you*.

Commute Mode – Allows the system to learn your commutes and automatically advises you of the expected trip time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.

Parking Service – As you approach your destination, you can see where parking is available. Simply tap on your preferred parking and the navigation system updates to direct you to it.

Online Routing – While you're on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

**The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions.

³Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with a suitable data contract.

²When heated steering wheel and heated seats are selected.

¹Features within Pro Services and Smartphone Package may vary between markets. Please contact your local Jaguar Retailer for more information.

InControl Apps will need to be downloaded from the Apple/Play Store.

SMARTPHONE PACKAGE³

By screen sharing with the I-PACE infotainment system, the standard Smartphone Package helps you stay connected to your smartphone even while in the car. Featuring Jaguar InControl Apps technology, the Smartphone Package allows vehicle-optimized apps on your Android™ or Apple® smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player, via a USB cable*.

You can also download third-party apps offering a vast range of services. Applications include:

Spotify⁴ - Access a library of more than 30 million songs with this seamlessly integrated app. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode. Simply log in using your existing Spotify Free or Spotify Premium account.

Tile⁵ - Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle's Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey*.

³Please check App Store and Google Play for availability.

⁵Bluetooth tracker tiles must be purchased separately. 2016 Tile Inc. and the Tile design are trademarks of Tile, Inc.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Jaguar is under License. iPhone is a registered trademark of Apple Inc., registered in the US and other countries. Please ensure iPhone compatibility is reviewed with your local authorized Jaguar Retailer.

DRIVER ASSISTANCE

MAKING DRIVING EASIER

From negotiating city traffic or the highway, to providing additional assistance for you and your passengers, there's a wealth of innovative technologies available; either as standard, optional or as part of an optional Package. Whichever you choose, you'll find every feature has been designed and engineered to heighten your enjoyment of the vehicle.

STANDARD FEATURES

Emergency Braking can help prevent foreseeable collisions with other vehicles, as well as cyclists or pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action**. A camera at the front of the vehicle monitors at speeds from 3 mph to 50 mph for frontal collisions, 3 mph to 37 mph for pedestrians and 12 mph to 37 mph for cyclists. If a collision is still anticipated and you have taken no action, this system is designed to apply the brakes to help reduce the severity of the possible impact*.

Cruise Control with Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal. In addition, the Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired*.

Driver Condition Monitor is designed to detect if you're starting to feel drowsy and to give you an early warning when you need to take a break*.

Lane Keep Assist is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back*.

Traffic Sign Recognition keeps you informed and aware on the road, by displaying speed limits and no passing signs in the instrument cluster, where they can easily be seen.

Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly by using the cruise control system.

Rear Camera provides improved visibility when reversing*. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image displayed on your Touchscreen.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Please note that if any action is taken, even minimal steering, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage.

Adaptive Cruise Control with Stop & Go

Blind Spot Assist

PARK PACKAGE

Standard on the I-PACE, Park Package enables you to park and maneuver in and out of tight spaces and into traffic that is obscured by buildings or other vehicles*.

It features:

Park Assist makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle speed with the brake and accelerator pedals. Graphics and notifications guide you through the maneuvers. Park Assist is also designed to steer you out of a space, taking all of the stress out of parking*.

360° Parking Aid gives you added confidence when maneuvering in tight spaces. Sensors located around the car are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles*.

Rear Traffic Monitor is particularly useful when reversing out of a parking space. The system is designed to warn you of vehicles, pedestrians or other hazards approaching from either side of your vehicle. It will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed*.

Clear Exit Monitor alerts passengers leaving the vehicle from the rear doors to any approaching cars, cyclists or other hazards. If an incoming obstacle is detected, a warning light will flash on the door. The light will immediately go off when it is clear to open the door.

OPTIONAL PACKAGES

DRIVE PACKAGE¹

Making every journey more relaxing. The Drive Package includes:

Adaptive Cruise Control with Stop & Go is designed to keep your vehicle a set distance from the one in front should it slow or stop when you're cruising on the highway or travelling in slow-moving traffic. Should the vehicle in front stop completely, the system is designed to activate to bring your vehicle to a smooth halt. In stop/start traffic, Adaptive Cruise Control will automatically resume following the car in front. The system can be activated from 12 mph and once activated will operate up to highway speeds*.

High-speed Emergency Braking is designed to detect when a potential frontal collision with another vehicle may occur and to display a forward alert to warn the driver to brake. If the driver doesn't react[†], the car can provide braking assistance to help reduce the severity of the possible impact*. High-speed Emergency Braking is ready and active from 6 mph to 99 mph^{††}.

Blind Spot Assist² alerts you to vehicles in, or quickly approaching, your blind spot. When a vehicle is detected, a small warning light will illuminate in the corresponding side mirror. When a rapid approaching vehicle is detected the warning light will flash to highlight potential danger. If you continue to commence changing lanes, this system is designed to provide a gentle steering torque - to guide your car away from the approaching vehicle^{††}.

[†]Please note that if any action is taken, even minimal steering, the High-speed Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage. ^{††}Always follow local speed limits.

¹Included within SE Specification Package or optional. ²Only available when optional auto-dimming, power fold door mirrors are fitted.

OPTIONAL PACKAGES

DRIVER ASSIST PACKAGE

The optional Driver Assist Package¹ offers a wide range of driver aids including the features found in the Drive Package (see page 27) and the 360° Surround Camera². It also includes new Adaptive Cruise Control with Steering Assist*. This latest technology makes highway driving and heavy traffic situations even easier and more comfortable. It achieves this by gently assisting steering, acceleration and braking to center the vehicle in lane while maintaining a set distance from vehicles ahead. Moderate steering interventions ensure that the physical effort of maintaining a central vehicle position is reduced.

¹Included within HSE Specification Package.

²Available as a optional feature. Only available when optional auto-dimming, power fold door mirrors are fitted.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. The driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

VEHICLE SHOWN: JAGUAR I-PACE FIRST EDITION IN CORRIS GREY WITH OPTIONAL EQUIPMENT

Adaptive Cruise Control with Steering Assist can be activated from 12 mph and once activated will operate up to highway speeds. It begins functioning when you press the "Set" cruise button. A camera and radar then work together to track vehicles and lanes ahead to maintain a central position for your vehicle, and moderate its speed according to the behavior of the traffic ahead of you. If the vehicle ahead slows, even to a standstill – the feature automatically slows your vehicle, bringing it to a stop where necessary and automatically resuming to maintain a relaxed and composed drive in busy traffic situations*.

Adaptive Cruise Control with Steering Assist works with you; as you keep your hands on the wheel anticipating the road ahead, the system assists with steering, braking and acceleration. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated but the Adaptive Cruise Control remains active*.

FRONT CAMERA

FRONT RADAR

EFFICIENT TECHNOLOGIES

FLOW ENHANCED DESIGN

The flow enhanced design of the I-PACE, maximizes aerodynamic efficiency and range. At the front, the top of the I-PACE grille curves inwards – enhancing aerodynamics by drawing air through the hood scoop. The slender spoiler and flush door handles keep airflow running smoothly over the car. Aerodynamically optimized side skirts also blend form and function by channelling air more efficiently around the wheels. At the rear, the squared off corners optimize aerodynamic performance by encouraging air to detach cleanly and efficiently from the car in a controlled way that minimizes the pressure differences that cause drag.

ACTIVE VANES

To give the optimum balance between cooling and aerodynamics, Active Vanes open when cooling of the batteries is required, but close when not needed to smooth airflow.

ECO MODE

Eco Mode helps optimize the I-PACE range on long drives. This mode modifies the car's settings to reduce energy depletion as well as encouraging a more efficient driving style by displaying a 'driving style rating' in the message center. Eco Mode can make subtle changes to cabin heating and cooling, the amount of air recirculation and to a number of the car's features. If required, the driver can override these changes by normal operation of each feature or via the menu settings.

ACTIVE AIR SUSPENSION

To improve aerodynamic performance and range, the Active Air Suspension lowers the car by 0.4 inches when travelling at speeds in excess of 65 mph. See page 17 for details.

ENHANCED BRAKE REGENERATION SYSTEM

As soon as the driver lifts off the accelerator, the Enhanced Brake Regeneration system in the motors efficiently converts available kinetic energy to electricity to charge the battery. Driving in heavy traffic is also easier – using the Touchscreen you can raise the level of regenerative braking. The corresponding increase in deceleration means that, in stop and go traffic for example, there is far greater control of the car's speed using only the throttle.

HEAT PUMP

The highly efficient heat pump enhances real world EV range, without compromising on passenger comfort. It harvests heat from the outside air and electronic components of the I-PACE. The collected heat transforms a special liquid within the heat pump into a gas, which causes it to rise in temperature. The warmth is transferred to the cabin via the heating and ventilation system, reducing the power demand from the vehicle battery and improving range – even in the coldest winter conditions, when you need it most.

DRIVER ASSISTANCE

Designed with safety in mind, the I-PACE has been engineered to include a wealth of features designed to provide protection to you and your passengers, but to also provide the driver with assistance when needed. Sure-footed All Wheel Drive (AWD) capability is designed to help you stay planted on the road, in various weather conditions*.

Dynamic Stability Control (DSC) monitors the dynamic behavior of the I-PACE, can intervene to enhance vehicle stability. DSC is designed to reduce motor torque and to apply braking to the appropriate wheels to correct the vehicle's direction of travel by counteracting understeer or oversteer*.

Electronic Traction Control (ETC) enhances traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required*.

Motor Drag Torque Control mitigates the chance of wheel lock-up caused by strong regenerative braking in slippery conditions. It acts by briefly increasing torque to the driven wheels as appropriate.

Roll Back Protection can provide assistance to prevent the vehicle from rolling backwards as you pull away on an incline*.

Roll Stability Control (RSC) is integrated with DSC to help reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to help reduce forces which contribute to rollover*.

Emergency Brake Assist (EBA) analyzes braking input and if additional braking force is required, it boosts the brake pressure through the ABS pump to provide braking assistance. To help reduce the risk of a foreseeable collision, the emergency brake lights automatically activate the hazard warning lights during emergency braking*.

Emergency Braking gives an audible forward collision warning should a potential frontal collision be detected. Visual warnings follow. If you take no action**, the system provides braking assistance to help reduce the severity of the possible impact*. See page 26 for details.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface while braking and prevents wheels from locking – thereby retaining the vehicle's ability to steer. The system helps to shorten the braking distance*.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to reduce stopping distance, while still maintaining stability and the vehicle's ability to steer.

All-round exterior LED lighting is standard on every I-PACE. LEDs are more energy-efficient and produce a light close to daylight conditions for less tiring night-time driving. The optional Premium LED headlights feature signature Daytime Running Lights and Auto High Beam Assist (AHBA) which automatically dips the main beam for oncoming traffic.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. The driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Please note that if any action is taken, even minimal steering, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage. *Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place a baby/child seat in the front seat.

EXTERNAL SOUND SYSTEM (ESS)

As the electric powertrain of the I-PACE is almost silent at low speeds, an external acoustic signal is emitted under 12 mph to help make pedestrians aware of the car's presence.

LATCH AND AIRBAGS*

Latch points for baby/child seat restraints are fitted on each side of the rear seats and a comprehensive system of six airbags including driver and passenger airbags, side curtain and thorax are standard.

CHARGING/BATTERY SYSTEMS

The car will not engage Drive while the charging cable is plugged in and a warning message will be displayed on the Interactive Driver Display.

SAFETY CELL

Designed for safety, the I-PACE utilizes a combination of aluminum and steel to form a strong cage around the occupants as well as the battery.

PRACTICALITY EVERY DETAIL RECONSIDERED

The space-efficient electric architecture offered numerous opportunities to create a highly practical interior – and we seized every one of them. Our designers have been able to place the front seats further forward, towards the space where the combustion engine would normally be, without compromising the driving position. This means there's a greater distance between the front and rear seats, giving rear seat passengers added legroom and comfort. Behind the rear seats, the cargo space is a substantial 25.3 cu.ft. with a length of 38.1 inches.

As the motors are integrated with the axles, space has been created for a 0.43 cu.ft. storage bin under the front center armrest. It also means the floor of the interior is almost flat, providing ample legroom for a passenger sitting in the middle rear seat. There's convenient storage space under the full width of the rear seats too. And because electric motors don't require a conventional gearbox, we've used this space to create room in front of the console perfect for phones and keys. If you need more room, both deep front door bins have been sculpted to carry a variety of items. Completing the I-PACE carrying capacity is a front storage compartment that provides 0.95 cu.ft. of additional storage.

The I-PACE offers numerous convenient places to connect your smartphone, tablet or other devices. Beneath the 5" Touchscreen you'll find two USB ports. Inside the console, a 12V power socket and two USB sockets are available for charging, while the rear of the center console has two USB sockets and a 12V socket as standard for passengers in the back. For added convenience, the cargo space features a 12V power socket.

With the optional Activity Key you can enjoy your favorite activities, and keep your car key securely in the car. The Activity Key fits conveniently on your wrist. The wristband is robust and fully waterproof, allowing you to take part in many activities from cycling to swimming. Simply place your Activity Key against the letter 'J' on the tailgate's Jaguar badge to lock or unlock the car and deactivate or reactivate the conventional key fob. If your hands are full, optional powered gesture tailgate* lets you open the trunk hands-free. Simply present your foot under one of the I-PACE rear flanks and the tailgate opens or closes.

*Included within HSE Specification Package.

25.3 CU.FT.

34.4 CU.FT.

40.0 CU.FT.

51.0 CU.FT.

SPECIFICATIONS

FIRST EDITION

Only available for a limited time, the First Edition specification is inspired by the I-PACE Concept, and includes design details including Photon Red paint¹ and 20" split-spoke alloy wheels in Technical Grey with Polished finish. High specification exterior features include Premium LED headlights with Jaguar signature Daytime Running Lights.

Inside a choice of color combinations, Ebony or Light Oyster, are available with an exclusive combination of a suedecloth headlining, Gloss Charcoal Ash First Edition veneer and First Edition branded metal treadplates.

First Edition includes all of the features available on the I-PACE HSE (see pages 40 and 41) plus the following as standard:

EXTERIOR FEATURES

- Heated windshield • Heated washer jets • Gloss Black side window surround
- 20" 5 split-spoke 'Style 5070' alloy wheels in Technical Grey with Polished finish²

INTERIOR FEATURES

- Metal treadplates with First Edition branding • Suedecloth headlining • Gloss Charcoal Ash First Edition veneer • Heated steering wheel • Four-zone Climate Control
- Configurable Ambient Interior Lighting • Head-up Display* • Activity Key

DYNAMICS

- Adaptive Dynamics* with Configurable Dynamics

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

¹Photon Red is exclusive to First Edition for a limited time only. First Edition is also available in Santorini Black and Corris Grey. ²22" 5 spoke 'Style 5069' alloy wheels in Gloss Black with Diamond Turned finish and carbon inserts are also available as an option.

All features described as exclusive to I-PACE First Edition may become available as options in future model years.

JAGUAR RACING

From Le Mans to Formula 1, and now Formula E and the Jaguar I-PACE eTROPHY – Jaguar's reputation for performance, technology and design has always been forged by the world's most challenging circuits and championships.

FORMULA E

In 2016, Jaguar was the first premium car manufacturer to enter the exciting FIA Formula E Championship. Taking place on street circuits in the world's greatest cities – including Hong Kong, Paris and New York – Formula E provides the perfect proving ground for electric vehicle technology in a high performance environment.

Featuring unforgettable moments, from hard-fought qualifying and stunning finishes, to blistering speeds and record lap times, Formula E has accelerated the development of our electric powertrains. Every race helps our engineers create better electric vehicles.

Find out more at jaguarusa.com/jaguar-racing

JAGUAR I-PACE eTROPHY

Now we've stepped up the pace again to create the world's first production battery electric vehicle race series. The Jaguar I-PACE eTROPHY will be the support series for the FIA Formula E Championship, taking place on the same weekends at the same city circuits, and will exclusively feature Jaguar I-PACE eTROPHY race cars.

Designed, engineered and built by the Jaguar Land Rover Special Vehicle Operations team, these all-electric race cars will deliver a truly engaged, exhilarating drive. The Jaguar I-PACE eTROPHY gives racers of the future the chance to showcase their talent, competing on the world stage in zero emissions motorsport.

Find out more at jaguarusa.com/eTROPHY

THE WORLD OF JAGUAR

Choose the I-PACE and you're joining the exciting World of Jaguar.

TRACK DAYS

There's no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a variety of unique opportunities to really find out what it feels like to get the most out of a Jaguar vehicle. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit.

BEHIND THE SCENES

Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life – from the molding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you'll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar's most breathtaking cars.

Find out more at jaguarusa.com

ICE DRIVE EXPERIENCES

Take your driving to the next level with the Jaguar Land Rover Ice Drive Experience. We are offering an adventure in Arjeplog, Sweden, that will test and develop your performance driving skills in extreme conditions. It's a rare chance for owners and enthusiasts to tackle some of the harshest and most challenging tracks on earth, under the skilled guidance of our experts. Our driving instructors are of the highest-caliber and will be with you every step of the way – ready to impart years of driving wisdom. You will dance on ice, glide around some of the most awe-inspiring corners imaginable and realize the true exhilarating potential of Jaguar and Land Rover.

If you'd like to be part of the next adventure, find out more by visiting jaguarusa.com

JAGUAR COLLECTION

The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our vehicles. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar's heritage, we also have a collection that honors past achievements and features race inspired gift items and apparel.

Visit shop.jaguarusa.com to browse the Jaguar collection.

THE JAGUAR MAGAZINE

This is our own vibrant, cosmopolitan and contemporary magazine. Produced by a team of enthusiastic designers and feature writers, it goes behind the scenes at Jaguar as well as providing insight into the world of luxury, design, style and travel.

AT YOUR SERVICE

As well as providing a range of exclusive services and lifestyle products, the World of Jaguar makes owning and driving carefree and easy.

JAGUAR ELITECARE*

Enjoy your Jaguar with peace of mind. The I-PACE is backed by Jaguar EliteCare, our coverage program including New Vehicle Limited Warranty, Complimentary Scheduled Maintenance, Roadside Assistance and Jaguar InControl Remote & Protect™.

BATTERY WARRANTY

For your added peace of mind, the I-PACE's 90kWh battery comes with an 8 year or 100,000 miles warranty**.

GENUINE PARTS

Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your I-PACE to contribute to optimum performance and to help maximize its lifespan.

FLEET & BUSINESS

Jaguar vehicles are dynamic and distinctive vehicles that help companies express the unique character and personality of their business. We are committed to providing customer focused aftersales services, ensuring that every Jaguar performs to the highest standard and in the most cost-efficient way for businesses. Visit jaguarusa.com for more information.

JAGUAR ASSISTANCE

Jaguar Assistance provides assistance in motoring emergencies, from immobilization due to mechanical breakdown to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicles warranty period.

JAGUAR FINANCIAL SERVICES

New or used, for personal or business use, we have a finance option that puts you in complete control. Please speak to your local authorized Jaguar Retailer to find out more.

IMPORTANT NOTICE

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation. Comparisons are based on manufacturer's own data and testing prior to publication.

COLORS

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your local Jaguar Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

ENVIRONMENTAL INNOVATION AT JAGUAR

Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development.

Search 'Jaguar Environmental Innovation' for more details.

*For complete details regarding Jaguar EliteCare coverage, visit jaguarusa.com, call 1-800-4-JAGUAR or visit your local Jaguar retailer.

**The I-PACE 90kWh battery warranty is limited to 8 years or 100,000 miles (whichever comes first). It is redeemable in the case of any manufacturing defect or should a certified Jaguar Retailer measure that the battery has dropped below a 70 percent State of Health.
