THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our cars' performance.
We innovate, we engineer, we design. We master rules and then break them.
Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.

INTRODUCTION

THE CONCEPT OF THE XE

The XE is the foundation of the Jaguar sedan car family. A distillation of the design, luxury and technology found in the XF and the XJ. Inspired by the F-TYPE sports car, with its assertive looks and agile drive.

The XE range features an extended engine choice, including the new 2.0 liter 4-cylinder 247HP Turbocharged Ingenium Gas engine. There's also the 2.0 liter 180HP Turbocharged Ingenium Diesel engine as well as the dynamic 3.0 liter 380HP V6 Supercharged Gas engine.

The XE is an exceptional blend of technology, design, and driving dynamics that rewrites all the rules.

VEHICLE SHOWN: XE S IN FIRENZE RED WITH OPTIONAL EQUIPMENT

THE XE - THE FACTS

The XE brings together the latest Jaguar innovation, technology and design.

PERFORMANCE AND CHOICE

Find your perfect match in the range of gas and diesel engines offered in the Jaguar XE. Both deliver strong, high-torque performance.

If pure power is your preference, then the XE S with its 380HP V6 Gas engine should satisfy: from a standstill it can reach 60 mph in 4.9 seconds*7.

JAGUAR ELITECARE

Enjoy your Jaguar with peace of mind. The XE is backed by Jaguar EliteCare*8, our exceptional 5 year / 60,000 mile coverage program including New Vehicle Limited Warranty, Complimentary Scheduled Maintenance, Roadside Assistance and InControl Remote & Protect™.

CAPABILITY

The XE offers our unique All Wheel Drive with Intelligent Driveline Dynamics and Adaptive Surface Response. Available with selected engines, these systems are designed to enhance the legendary Jaguar handling, agility and ride, and gives added assistance*5.

*Please see page 96 for further information.

VEHICLE SHOWN: XE S IN FIRENZE RED WITH OPTIONAL EQUIPMENT

ADDED INTELLIGENCE

Innovative technologies makes driving easier and more enjoyable. The XE offers the options of adaptive Xenon headlights, Traffic Sign Recognition with Adaptive Speed Limiter, Lane Keep Assist with Driver Condition Monitor, Emergency Braking, Adaptive Cruise Control with Queue Assist, Park Assist, and now Blind Spot Assist⁵. And with the optional Powered Gesture Trunk Lid, you can access the trunk when your hands are full. Simply wave your foot under either rear corner and the trunk opens or closes.

ALWAYS CONNECTED

Part of Jaguar InControl[®] Technologies, our most advanced infotainment system - InControl Touch Pro[™] - is available in the XE. Its next-generation hardware and software enhances every trip through added connectivity, convenience and entertainment. Features include a 10" Touchscreen in the center console, Meridian[™] Sound Systems, connected navigation and a new 12.3" full digital instrument panel^{*1}.

LIGHTWEIGHT ALUMINUM ARCHITECTURE

The lightweight architecture of the XE creates a strong body - underpinning power with responsive handling, and refinement with beautiful design.

DESIGN EXTERIOR PRINCIPLES

> DYNAMIC PROPORTIONS | MUSCULAR LOOKS

"It's about paring it down to the bare essentials. Good designers have always said less is more."
Ian Callum, Jaguar Design Director.

The XE stands out from the competition with the clean surfaces and dynamic looks that form the core of Jaguar design. This is because the Lightweight Aluminum Architecture gave its designers the freedom to work alongside engineers to optimize the car's proportions - The XE is unmistakably a Jaguar. The long, distinctly defined hood is aerodynamically sculpted to channel air over and around the body for greater efficiency. Along with the rising waistline and 'cab rearward' design, it ensures that the XE shares the athleticism of the other cars in the Jaguar range. The XE is crouching, ready to pounce.

VEHICLE SHOWN RIGHT: XE S IN FIRENZE RED WITH OPTIONAL EQUIPMENT

EXTERIOR DETAIL

INNOVATIVE DESIGN

One glance at the XE and you know that it could only be a Jaguar. From the headlights featuring Jaguar signature 'J' blade Daytime Running Lights**, the powerfully sculpted hood, and the chrome side vents, stamped with the Jaguar name, all the way to those distinctive rear haunches. Jaguar, as a world leader in aluminum car construction, has the technology and expertise to create sharper creases from deeper, more innovatively formed pressings. The body side curvature of the XE is aerodynamically honed to sweep air seamlessly rearwards to the tail. The deliberately cropped rear has a short overhang, underscoring the car's performance credentials and enhancing airflow. It culminates with those iconic tail lights that are inspired by the F-TYPE sports car.

**Available with Adaptive Xenon headlights only.

VEHICLE SHOWN: XE R-SPORT IN CAESIUM BLUE WITH OPTIONAL EQUIPMENT

INTERIOR

> COCKPIT FEEL | EXTENSIVE CHOICE

Connect with XE the moment you slide into the form-hugging seats - you sit low in a Jaguar. The raised center console adds to the cockpit feel.

Pulsing with a heartbeat, the car creates an emotional connection between driver and machine. Its 72 per minute double beat is similar to a jaguar cat at rest. Press the Start button and XE awakes, the needles sweep, the engine growls. The JaguarDrive Selector rises to greet your hand.

The outer air vents are unique in the way that they extend the fascia to nestle in the door casings and give the feeling of width and space. Throughout XE the natural forms of the interior architecture lend themselves to the extensive choice of contemporary or traditional materials and finishes. XE is an inspired place for driver and passengers to be.

INTERIOR SHOWN LEFT AND PREVIOUS PAGE: XE S FEATURING PIMENTO RED LEATHER SPORT SEATS WITH EBONY SUEDECLOTH INSERTS WITH OPTIONAL EQUIPMENT

PERFORMANCE ENGINES

INGENIUM ENGINES

STOP/START TECHNOLOGY

Ingenium technology underpins the diesel engine in the XE range. This low friction, all-aluminum engine has stiff cylinder blocks and twin balancer shafts to ensure inherently low levels of vibration, for smooth day-to-day performance. All engines are equipped with Stop/Start technology and smart regenerative charging - harvesting kinetic energy from braking to charge the battery.

INGENIUM DIESEL ENGINE

318 lb.ft. of Torque

The **Ingenium 2.0 liter 4-cylinder 180HP Turbocharged Diesel** engine offers impressive performance and economy. For an engine of this size it offers high levels of torque and balance, achieved thanks to its variable geometry turbocharger. Adapting to the changing flow of exhaust gases, it maximizes low speed torque for broad power and responsiveness that is uniform, progressive and avoids lag.

*Please see page 96 for further information.

INGENIUM GAS ENGINE

0-60mph from 5.8 sec^{*7}

The **Ingenium 247HP 2.0 liter 4-cylinder Turbocharged Gas** engine delivers outstanding usable power and torque. For excellent acceleration and effortless overtaking, maximum torque is available between 1,200-4,500 rpm. This engine's twin scroll turbocharger is fed by an integrated exhaust manifold that synchronizes exhaust pulses from two separate pairs of cylinders - significantly reducing turbo lag and improving engine response.

SUPERCHARGED GAS ENGINE

0-60mph from 4.9 sec^{*7}

The **3.0 liter V6 Supercharged Gas** engine is available with two power outputs: 340HP and 380HP. The engine features a Roots-type twin vortex supercharger that provides linear delivery of power and maximizes responsiveness. This results in performance matching much larger engines, while optimizing economy and reducing emissions. The engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance. For added refinement there is a twin, contra-rotating balancer shaft system.

*Please see page 96 for further information.

VEHICLE SHOWN: XE R-SPORT IN CORRIS GREY WITH OPTIONAL EQUIPMENT

ADVANCED AERODYNAMICS

ADVANCED AERODYNAMICS

The XE form has been rigorously optimized for aerodynamic efficiency and stability. The XE cuts through the air - helping to reduce fuel consumption and lower emissions. Every element exploits the exterior's maximum aerodynamic potential while preserving the stunning proportions of the XE. Vertical apertures in the front bumper's outer edges channel air through vents in the wheel arches and out over the front wheels. Even the race car-inspired underbody protection and diffuser is designed to make the XE as economical and refined as possible.

*Please see page 96 for further information.

VEHICLE SHOWN: XE R-SPORT IN CAESIUM BLUE WITH OPTIONAL EQUIPMENT

LIGHTWEIGHT ALUMINUM ARCHITECTURE

 **BALANCED** | **STRONG AND LIGHTWEIGHT**

Jaguar Land Rover has been at the forefront of aluminum car construction for more than a decade and continues to push the boundaries of this technology. As part of our pioneering recycled aluminum project, REALCAR*, we've reclaimed over 50,000 tons of aluminum scrap — the mass of 200,000 XE body shells — back into the production process during 2015/16. This has prevented more than the equivalent of 500,000 tons of CO₂ from entering the atmosphere.

The XE is based on our Lightweight Aluminum Architecture, which uses expertise derived from the aerospace industry to deliver premium vehicle characteristics in performance and refinement. This strong bodyshell uses a high strength 6000 series aluminum alloy. Saving weight without compromising durability, it provides very high torsional stiffness, supporting precise handling. It helps achieve optimum weight distribution approaching 50:50.

*Please see page 96 for further information.

ALUMINUM FRONT KNUCKLE

Designed to enhance stiffness and strength, the lightweight aluminum front knuckle helps improve XE agility, responsiveness and refinement for sports-car-like control.

CHASSIS AND SUSPENSION

UNIQUE SUSPENSION
TECHNOLOGY

COMFORTABLE
AND DYNAMIC

The XE responds with agility and performs with dynamism while always maintaining ride comfort - it's a unique balance that makes it a Jaguar. The ideal foundation for these driving dynamics is light, yet strong and stiff, Lightweight Aluminum Architecture with its near 50:50 weight distribution.

The sophisticated front and rear suspension systems complete a chassis that achieves a superb combination of sportiness and refinement. Advanced damper technologies - both passive and adaptive - further improve ride quality and extend the XE breadth of dynamic capabilities. The suspension's control, agility and feedback give the XE the spirit of a sports car.

BRAKE SCOOP

A glass-filled polypropylene brake scoop channels air onto the brakes for enhanced brake performance during enthusiastic driving.

INTEGRAL LINK REAR SUSPENSION

Integral Link rear suspension allows the XE to realize a combination of a refined, luxurious ride and sharp, responsive handling. The system, separates and independently manages the lateral, longitudinal and vertical forces acting on the suspension for enhanced control and comfort. Many components are forged or hollow-cast in aluminum - the optimum production techniques for strong, lightweight suspension.

ALUMINUM DOUBLE FRONT WISHBONE SUSPENSION

Considered by Jaguar as the best configuration for a front suspension system, the aluminum double wishbone design is modeled closely on the F-TYPE for precise handling and steering response.

ADAPTIVE DYNAMICS

The optional Adaptive Dynamics system delivers both precise dynamics and a supple, luxurious ride by monitoring wheel position and body movements. The system constantly monitors conditions and adjusts the dampers to provide the optimum balance between comfort and refinement at all times*5.

*Please see page 96 for further information.

DRIVING TECHNOLOGY

ADVANCED DRIVING DYNAMICS

ENHANCE AGILITY

CONTINUOUSLY ADAPTING

Dynamic Mode revises the car's software to further enhance the sporting character. It sharpens the throttle response, increases steering weighting and performs gearshifts more quickly and at higher engine speeds. It also brings visual drama to the driver as the instrument cluster takes on a red glow. Dynamic Mode enhances your connection with the inherent Jaguar performance.

ELECTRIC POWER ASSISTED STEERING

Electric Power Assisted Steering (EPAS) offers outstanding feedback, control and it is active on demand - saving power for where you really need it. EPAS' sophisticated computer management varies steering assistance as appropriate - increasing assistance for low speed maneuvering and improving feel at higher speeds. It also enables advanced driver assistance features such as Lane Keep Assist and Park Assist**.

ADAPTIVE DYNAMICS***

Whether you're accelerating on the highway, cornering on country roads or navigating around town, optional Adaptive Dynamics modifies the response to match the conditions and your driving style. It analyzes acceleration, cornering, throttle and brake pedal activity, as well as kick-down activation. Steering movement is analyzed up to 500 times a second and body movement up to 100 times a second. Using this information, electronically controlled adaptive dampers then constantly adjust to optimize the suspension settings and maintain the poise and comfort** of the XE.

CONFIGURABLE DYNAMICS**

Bringing technology from the F-TYPE, the optional Configurable Dynamics system allows you to set up the dynamics for throttle mapping, gearbox shift points and steering to suit your performance driving needs. When optional Adaptive Dynamics** is fitted, you can make your setting even more personal by configuring the damper settings.

*Please see page 96 for further information.
**Standard on XE S.

ADDED DRIVER ASSISTANCE

ALL SURFACE PROGRESS CONTROL

ADAPTIVE SURFACE RESPONSE

The All Surface Progress Control (ASPC) developed by Jaguar is a low speed cruise control that helps the XE cope with low traction situations. ASPC allows the driver to concentrate more on steering the vehicle. Once activated, you use the cruise control buttons to set a 'target' speed of between 2.2mph and 18.6mph. The system then works to achieve and maintain that speed while exerting traction control*5.

ASPC is standard and gives the XE drivers added assistance over slippery, loose surfaces, undulating terrain and even while descending a difficult incline. It helps make the XE easier to drive in challenging conditions. ASPC also has a pull-away function allowing the XE to progress from rest on low grip surfaces and ascending gradients, as well as a hill descent function that controls vehicle speed on steeper inclines*5.

On XE S AWD vehicles standard Adaptive Surface Response (AdSR) is designed to recognize differences between surfaces to exploit the maximum available grip. Drawing on Jaguar Land Rover's unrivalled expertise with All Wheel Drive systems, AdSR constantly monitors the car's environment and is designed to adjust the appropriate engine and brake settings. Once selected, AdSR works at all speeds to support you in adverse weather and across challenging surfaces*5.

*Please see page 96 for further information.

Fitting All Season or Winter tires to the XE can improve capability on slippery surfaces.

MUD/GRAVEL

WET GRASS

SNOW/ICE

WET ROAD

DRY ROAD CONDITIONS

In normal conditions, torque is distributed to the rear wheels, delivering acclaimed Jaguar agility and handling.

LOW TRACTION CONDITIONS

On slippery surfaces, such as grass and snow, torque can be balanced between the front and rear wheels to enhance traction.

In extreme conditions where only the front wheels have traction, up to 100 percent of engine torque can be distributed to the front wheels for more optimal grip.

ADVANCED DRIVETRAIN TECHNOLOGY

ALL WHEEL DRIVE

INTELLIGENT DRIVELINE DYNAMICS

The XE All Wheel Drive (AWD) system combines the agility and character of Rear Wheel Drive (RWD) with the increased assistance and traction provided by AWD. In normal driving, the XE is predominantly RWD to deliver handling purity, feel and balance. But when roads become more challenging, or when you accelerate more on low-grip surfaces, the system subtly channels power forwards enabling the XE to maintain improved traction for comfortable progress in various conditions*5.

The XE AWD uses a transfer case at the back of the 8-speed Automatic Transmission to manage the appropriate distribution of torque to the front and rear wheels. Engineered to ensure that the XE retains the dynamic behavior of a Jaguar car, the transfer case contains an electro-mechanically activated multi-plate clutch with an actuator to build hydraulic pressure. This pressure is quickly and accurately controlled to generate the required force in the clutch to transfer the optimal amount of torque to the front wheels.

Unlike other systems that react to wheel slip, Jaguar's Intelligent Driveline Dynamics (IDD) software is predictive and uses sensors measuring throttle and steering inputs to anticipate wheel slip. IDD seamlessly co-ordinates these inputs and compares them with responses from the engine, transmission and traction control systems to calculate the traction available and distribute torque accordingly even before grip is lost.

The result is a drive which blends the character of RWD with the capability of AWD, providing outstanding levels of performance and control.

*Please see page 96 for further information.

TORQUE VECTORING APPLIES
BRAKE PRESSURE TO SLOW THE
INSIDE FRONT AND INSIDE REAR
WHEELS INDEPENDENTLY.

POWER IS SUSTAINED
TO MAINTAIN CONSTANT
SPEED OF OUTER WHEELS.

ADDITIONAL ROTATIONAL
FORCE APPLIED AROUND
VEHICLE'S AXIS.

TORQUE VECTORING

ENHANCED CORNERING CAPABILITY

Torque Vectoring improves capability through even the tightest of corners. Torque Vectoring technology provides controlled independent braking on the individual inside front and rear wheels to add to the turning forces acting on the car. In most conditions more braking pressure is applied to the rear inside wheel as this supports the most increased cornering capability, while the front inside wheel is braked for greater effectiveness and refinement. The result is reduced understeer for sharper turning and more consistent road holding. Torque Vectoring delivers increased sports car-like agility and added driver confidence*5.

*Please see page 96 for further information.

VEHICLE SHOWN: XE S IN FIRENZE RED WITH OPTIONAL EQUIPMENT

STABILITY AND CONTROL

DYNAMIC STABILITY CONTROL

ENGINE DRAG TORQUE CONTROL

The stability systems are designed to keep the XE balanced whether you're driving enthusiastically or simply want some reassurance in challenging conditions*⁵.

Dynamic Stability Control (DSC) monitors the dynamic behavior of the XE, intervening to assist vehicle stability and improving available grip. DSC is designed to reduce engine torque and to apply braking to the appropriate wheels to correct the car's direction of travel by counteracting understeer or oversteer. The XE DSC system has enhanced understeer control to reduce speed and regain control more effectively*⁵.

Engine Drag Torque Control (EDC) mitigates the chance of wheel slip caused by strong engine braking in adverse driving conditions. It acts by briefly increasing torque to the wheels as appropriate*⁵.

BRAKING APPLIED TO APPROPRIATE WHEELS TO HELP COUNTERACT UNDERSTEER/OVERSTEER

UNDERSTEER

OVERSTEER

*Please see page 96 for further information.

HEAD-UP DISPLAY

HEAD-UP DISPLAY WITH LASER TECHNOLOGY

The optional Head-up Display (HUD) with laser technology projects key information onto the windshield. Remaining clear even in direct sunlight, the crisp, bright image can display vehicle speed, navigation, cruise control notifications and Traffic Sign Recognition data, where available. This technology helps you minimize time spent looking down at the instrument cluster and can help you maintain continuous awareness of your speed*⁵.

ADAPTIVE CRUISE CONTROL

*Please see page 96 for further information.

JAGUAR INCONTROL® TECHNOLOGIES INFOTAINMENT AND TECHNOLOGY

 TOUCH | TOUCH PRO

Jaguar InControl® is our suite of advanced technologies that links both you and your XE to the wider world. Choose from two Jaguar InControl® infotainment systems: Touch, available as standard, or upgrade to Touch Pro.

*Please see page 96 for further information.

**Not available on Base XE model.

†Optional on XE Prestige model.

Third Party programs or applications may require an end user license from the supplier.

TOUCH

STANDARD ON EVERY XE

8" Touchscreen*¹
 5" Instrument Panel Display with Analog Dials
 Meridian™ Sound System (380W)**
 HD Digital Radio, iPod®, USB, Bluetooth® and AUX connections

Remote & Protect consists of SOS Emergency Call, Jaguar Optimized Assistance, Stolen Vehicle Locator and Remote smartphone app

OPTIONAL FEATURES

SD Navigation
 Wi-Fi Hotspot*³
 SiriusXM® Satellite Radio*⁴
 InControl Apps™*¹

TOUCH PRO

AVAILABLE AS AN OPTION

10" Touchscreen with multi-touch gestures and customizable homescreen*¹
 12.3" Instrument Panel Display with Virtual Dials and full screen 3D Map View
 Navigation Pro*¹
 Meridian™ Surround Sound System (825W)
 HD Radio™, Bluetooth®, and 2 x USB connections
 CD/DVD Drive

Remote & Protect consists of SOS Emergency Call, Jaguar Optimized Assistance, Stolen Vehicle Locator and Remote smartphone app

Connected Navigation consists of InControl Apps™*¹ and Wi-Fi Hotspot*³

OPTIONAL FEATURES

SiriusXM® Satellite Radio*⁴⁺

For information on Touch see pages 42-43.

For information on Touch Pro see pages 44-45.

8" TOUCHSCREEN SHOWN AT ACTUAL SIZE

Audio	Meridian™ Sound System (380W)
Display	8" Touchscreen*2
Multimedia*2	HD Digital Radio, iPod®, USB, Bluetooth® and AUX connections
Touch Package	Remote & Protect consists of SOS Emergency Call, Jaguar Optimized Assistance, Stolen Vehicle Locator and Remote smartphone app
Optional Features	InControl Apps™*1, SD Navigation*3, Wi-Fi Hotspot*3 and SiriusXM® Satellite Radio*4

*Please see page 96 for further information.

Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. The Wi-Fi hotspot is intended for passenger use only. InControl® features may require an additional subscription with separate terms and conditions.

TOUCH

ADVANCED INFOTAINMENT AS STANDARD

The Touch multimedia system is the hub for connectivity, control and entertainment. The key features*1 are:

8" Touchscreen at the heart of the center console. Clear and responsive graphical interface for quick control. Easy to use Touchscreen responds directly to touch and swipe gestures.

Bluetooth phone connectivity allows you to link and control your smartphone via Touch either for phone calls or music playback: simple, easy and wire-free.

Access a world of music thanks to HD Digital Radio and available SiriusXM® Satellite Radio*4, as well as iPod, USB and AUX connections.

Integrated text-to-voice technology reduces distraction by reading out incoming text messages. You can easily respond with short, prepared messages.

Precise climate control is available via the Touchscreen. Adjust temperature levels, direction and intensity of airflow and operate heated or cooled seats (if fitted).

Remote is a multi-function app that allows you to monitor as well as interact with your XE from your smartphone. Remote start the engine to pre-condition the climate, lock and unlock the car, locate your XE on a map or by using the beep and flash function, and track your journeys – all via the app.

Protect includes SOS Emergency Call and Optimized Jaguar Assistance, which can automatically bring the relevant services to your exact location when needed.

OPTIONAL FEATURES

Enhance the capabilities of the Touch multimedia system by selecting from the following options:

SD Navigation makes planning journeys and following routes easy, thanks to turn-by-turn voice guidance, intersection views and 3D maps.

Wi-Fi Hotspot*3 gives you the option to create a 4G hotspot using the car antenna when you fit a SIM card. This strengthens your link to the outside world, for a more stable connection than an individual device could maintain. Connect up to eight devices to read emails, browse the web and download content.

InControl Apps™ features a range of Jaguar approved apps that can be connected to the car from your smartphone. It ensures the safe and convenient use of these apps that have been optimized specifically to enhance aspects of your in-car experience.

Explore Jaguar InControl® at JAGUARUSA.COM

Please consult your local Jaguar Retailer for further details. Certain features require the fitment of a SIM with a suitable data contract.

10" TOUCHSCREEN SHOWN AT ACTUAL SIZE

Audio	Meridian™ Surround Sound System (825W)
Navigation Guidance	Navigation Pro* ¹
Display	10" Touchscreen* ¹
Multimedia*²	iPod®, Bluetooth®, HDMI, 2 x USB connections, and CD/DVD Drive
InControl Touch Pro™ Package	Remote & Protect consists of SOS Emergency Call, Jaguar Optimized Assistance, Stolen Vehicle Locator and Remote smartphone app. Connected Navigation consists of InControl Apps™* ¹ , Wi-Fi Hotspot* ³ . Additional services include Route Planner Companion App, share your destination and ETA, Commute Mode, Arrival Mode, real time traffic information and fuel and parking services.

*Please see page 96 for further information.

Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. The Wi-Fi Hotspot is intended for passenger use only. InControl® features may require an additional subscription with separate terms and conditions.

12.3" Full Digital Instrument Panel with virtual dials

TOUCH PRO

UPGRADE TO NEXT GENERATION INFOTAINMENT

The next-generation hardware and software of Touch Pro advances your vehicle's connectivity and entertainment to the very highest level. Touch Pro features replace or enhance those found in Touch. The key aspects of the Touch Pro system*¹ are:

Larger, highly-responsive, 10" Touchscreen at the heart of the center console with customizable homescreen and lightning fast response times. Its interactive side panel makes multi-tasking easy.

Pinpoint touch control allows you to manipulate and interact with information swiftly and seamlessly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch to zoom and swipe.

12.3" Instrument Panel Display with Virtual Dials and full screen 3D Map View makes driving even more of a pleasure. It is housed in the instrument display directly in front of the driver. Select full screen 3D Map View or choose one of four graphical themes to suit your personal preference.

Navigation Pro with response times that are a fraction of conventional systems*. One of the many innovative features of Navigation Pro is that it allows you to set a destination and the system alerts you if you have insufficient fuel for the journey. It then displays gas stations on the part of the route where you may be low on fuel. The system automatically displays parking options.

 Explore Jaguar InControl® at JAGUARUSA.COM

Please consult your local Jaguar Retailer for further details. Certain features require the fitment of a SIM with a suitable data contract.

ENHANCED CONNECTIVITY

The services, technologies and applications found within Connected Navigation provide you with the very best in connectivity and convenience^{1*}. It offers many features including:

Route Planner Companion App offers true door-to-door navigation. Pre-plan your destination and route via your Apple or Android smartphone. The app will guide you to your car, where you will find your selected route available on the car's Touchscreen. When you've completed your road journey, the app can guide you by foot or public transport (where supported) to your destination.

Share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, the system can then send automatic updates via text or email, without any further action from you.

Commute Mode allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements. The system learns the routes you take for a given destination and then advises which of those is the quickest.

Arrival Mode displays interactive 360 degree street level imagery of your destination for seamless finishes to journeys. It automatically displays again upon your arrival. You can simply tap the Touchscreen to select a nearby parking spot, which appears as an updated destination.

AUDIO

JAGUAR
SOUND SYSTEM

MERIDIAN™
SOUND SYSTEMS

The superb sound systems bring your music to life. The Jaguar Sound System provides acoustic range through 6 speakers. Offering an enhanced listening experience are the optional Meridian™ Sound Systems. Designed in conjunction with the British audio experts Meridian™, these systems use innovative audio technology and precise speaker placement to give perfectly optimized sound quality. Choose from a range of audio systems, including the 380W Sound System with 11 speakers or the 825W Surround Sound System with 17 speakers. All systems ensure that, wherever you or your passengers sit in your XE, everyone will enjoy a rich, enveloping audio experience.

ASSISTANCE AND EFFICIENCY

ADVANCED DRIVER ASSISTANCE

- 1 **EMERGENCY BRAKING****
Should a potential collision be detected, the XE gives an audible forward collision warning. Visual warnings follow. If the driver takes no action, the system is designed to apply the brakes to help reduce the severity of the possible impact*⁵, when driving below 50 mph.

- 2 **LANE DEPARTURE WARNING****
Lane Departure Warning (LDW) notifies the driver with a visual alert and a gentle vibration of the steering wheel should the car detect an unintentional drift from its lane*⁵.

- 3 **LANE KEEP ASSIST AND DRIVER CONDITION MONITOR****
Lane Keep Assist (LKA) senses unintentional lane drift and helps steer the XE back into its lane. Driver Condition Monitor (DCM) is designed to detect lapses in concentration due to tiredness by monitoring driver inputs and suggests taking a break via an audible alert and a visual notification in the instrument cluster*⁵.

- 4 **TRAFFIC SIGN RECOGNITION AND ADAPTIVE SPEED LIMITER****
Traffic Sign Recognition technology detects speed limits, including variable limits, and no passing signs via the forward-facing camera, then displays them to the driver. The Adaptive Speed Limiter uses detected traffic sign information to help keep the XE within the appropriate speed limit. Where no traffic sign is detected, the Adaptive Speed Limiter can also use the map data from the optional Navigation System*⁵.

- 5 **PARK ASSIST****
Park Assist makes parking in tight spaces easier than ever. The XE can accurately steer itself during both parallel and perpendicular parking maneuvers – the driver only has to control the brakes and accelerator. An exit-assist function can help guide the XE while leaving a parallel space*⁵.

- 6 **BLIND SPOT ASSIST AND REVERSE TRAFFIC DETECTION****
If your car detects another vehicle in or quickly approaching your blind spot, the Blind Spot Monitor system is designed to alert you via a small warning light in the corresponding exterior mirror. As an enhancement to this, Blind Spot Assist will apply steering torque to guide you away from the vehicle in your blind spot if you begin to change lanes. Using the same radar system, Reverse Traffic Detection is designed to alert you via the Touchscreen of moving vehicles during reversing – for example, when leaving a parking spot with restricted vision*⁵.

- 7 **SURROUND CAMERA SYSTEM****
Helping with various maneuvers, from parking by a curb to getting in and out of tight spaces and intersections, Surround Camera System gives you 360° exterior vision on the Touchscreen. To enhance this system further, new Forward Vehicle Guidance and Forward Traffic Detection are also available. Forming part of the Surround Camera System, Forward Vehicle Guidance provides the driver with an on-screen visualization of the vehicle and parking distance. Forward Traffic Detection helps avoid potential collisions in situations where forward maneuvers involve restricted views*⁵.

- 8 **ADAPTIVE CRUISE CONTROL WITH QUEUE ASSIST****
Adaptive Cruise Control uses radar technology to automatically adjust your speed to maintain a set distance from the vehicle ahead. If that vehicle slows, your XE reduces its speed to maintain a set distance. The XE resumes its pre-set speed as soon as the road in front is clear. Should the car in front stop completely, the Queue Assist function brings the XE to a smooth halt. Once the traffic moves, touch the accelerator and the XE will follow the car in front again*⁵.

*Please see page 96 for further information.
**Optional feature.

EFFICIENT TECHNOLOGIES

 **STOP/START TECHNOLOGY** | **CLEAN TECHNOLOGIES**

Everyone wants to do more with less. That is why the XE uses a range of technologies to reduce fuel consumption and CO₂ emissions, all while staying true to the dynamic nature of Jaguar.

STOP/START TECHNOLOGY

The XE engines come with Stop/Start. It shuts down the engine when you come to a complete halt and restarts the engine immediately when required.

ADVANCED AERODYNAMICS

The aerodynamics are developed and optimized with the aid of Computational Fluid Dynamics analysis. This helps the XE cut through air with ease, meaning less work for the engine.

AdBlue®

ADBLUE®

The diesel models are fitted with AdBlue® to help clean exhaust gases. AdBlue® is a non-toxic, non-flammable, biodegradable additive that cleanses the gases in the car's exhaust system to remove harmful nitrogen oxide emissions.

LOW FRICTION TECHNOLOGIES

Technologies such as smart coatings on pistons and needle roller bearings in the Ingenium engine range help to reduce friction, particularly at low engine temperatures. This helps the car perform at its efficient best.

6 CHOOSE YOUR JAGUAR GEAR ACCESSORIES

To find out more about the full range of Jaguar Accessories,
please refer to your Jaguar Retailer or go to JAGUARUSA.COM

Roof Mounted Cycle Carrier
C2A1539**

An easy to fit, roof mounted, lockable cycle carrier which carries one bike per holder. A maximum of three holders can be fitted.

**Requires roof cross bars T4N4709.

VEHICLE SHOWN: XE S IN FIRENZE RED WITH OPTIONAL EQUIPMENT

Personalized Illuminated Sill Treadplates
T4N7511

Elegantly styled stainless steel sill treadplate finishers for driver or passenger doors. Illuminates when either the driver or passenger doors are opened. Highlighted by soft Phosphor Blue lighting. Allows customer to specify a monochrome 'motif' in a choice of approved typefaces/scripts.

Aluminum Gearshift Paddles
T2R6547MMU

Replacement steering wheel gearshift paddles offered in a premium aluminum material providing a high quality finish to a key contact point in the vehicle. Manufactured from billet machined aluminum, the paddles are hand brushed for a premium finish and anodized to ensure they will not deteriorate with wear.

iPad® Holder
T2H7757

Jaguar branded iPad® holder mounts to front seat headrests providing a flexible solution for rear seat entertainment. Quick release design ensures iPad® can be fitted or removed quickly and easily.

Sport Pedal Covers
T2H3746 - Automatic Transmission Vehicles (not shown)

Made from stainless steel and rubber, the pedal kit fits securely over existing pedals for a contemporary, sporting appearance.

Premium Carpet Mats
T4N7146 PVJ - Jet
T4N7146 AMT - Oyster

Luxurious, tailored 2,050g/m² pile front carpet mats with embossed Jaguar logo and Nubuck edge binding. The premium mats provide a well appointed finishing touch to the interior.

Premium Luggage Compartment Carpet Mat
T4N7147PVJ

Luxurious soft luggage mat in Jet Black with the Jaguar logo. Deep premium 2,050g/m² pile with nubuck edging and Dove contrast stitch.

6 CHOOSE YOUR JAGUAR GEAR ACCESSORIES

 Configure your vehicle at JAGUARUSA.COM

Gloss Black Side Power Vent
T4N5176 - Left Side
T4N5178 - Right Side

Gloss Black side power vents provide a dynamic exterior styling enhancement.

Carbon Fiber Side Power Vent
T2H6208 - Left Side
T2H6209 - Right Side

High-grade Carbon Fiber side power vents provide a performance-inspired styling upgrade.

Sports Rear Valance**
T4N5633

The Sports Rear Valance gives the XE an athletic look.

Gloss Black Mirror Cover
C2D6066PEC - Left Side
C2D6067PEC - Right Side

Gloss Black mirror covers accentuate the dynamic design of the exterior mirrors.

Carbon Fiber Mirror Cover
C2P24176 - Left Side
C2P24177 - Right Side

High-grade Carbon Fiber mirror covers provide a performance-inspired styling upgrade.

Chrome Mirror Cover
C2D5489 - Left Side
C2D5488 - Right Side

Chrome mirror covers accentuate the stylish design of the exterior mirrors.

*Requires roof cross bars T4N4709.

**Available on 2.0 Gas 240HP only. Not applicable with R-Sport, standard on S. Not applicable with towing.

Roof Cross Bars
T4N4709

Jaguar branded cross bars required for fitting all roof carrying equipment. Engineered specifically for your vehicle.

Watersports Carrier*
C2Z21730

A versatile system for transporting a variety of water sports equipment including surfboard, kayak or sailboard. Tilts to facilitate loading/unloading.

Roof Sport Box*
C2C41627

Spacious 11 cubic feet capacity lockable roof box designed for sports equipment, measuring 81 x 33 x 13 inches.

Chrome Front Splitter
T4N7599

Give the XE an even more stylish look with this bright finish front splitter blade. Body colored rear spoiler is also available. (T4N5462LML)

Rear Splash Guards
T4N7514

Jaguar branded, rear splash guards complement the lines of your vehicle and provide protection from dirt and stone chippings.

All-Weather Car Cover
T4N7502

All-weather tailored cover for the XE with the Jaguar logo. Protect your XE from the elements, including showers, frost and dust. Quick and easy to fit.

JAGUAR EXPERIENCE

There's no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit. Jaguar Experience also offers the opportunity to see a Jaguar brought to life during a tour of one of our UK manufacturing facilities.

Find out more by visiting JAGUARUSA.COM

BEHIND THE SCENES

Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life - from the molding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you'll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar's most breathtaking cars - from the powerful F-TYPE to the groundbreaking F-PACE performance SUV.

Find out more at JAGUARUSA.COM

DRIVING EXPERIENCES

The opportunity to drive the latest Jaguar cars at their limits, or relive iconic Jaguar history, is rare. Jaguar Driving Experiences offer unique driving adventures you will never forget. Imagine yourself behind the wheel of our highest performing Jaguar models, on a private track, with a Jaguar Experience Instructor at your side. This is the Jaguar Performance Driving Academy.

Find out more at JAGUARUSA.COM

ICONIC EXPERIENCES

Take your driving to the next level with our international adventures facing extreme on-road, and off-road, conditions. Our Iconic Experiences offer journeys and challenges that will test and develop your performance driving skills. Every year, Jaguar customers and enthusiasts join us for our luxury Ice Driving Experience. The exclusive ski resort in Gstaad, Switzerland, is the perfect location to enjoy the thrill of performance driving on ice. Our Ice Driving Experience is a two-day getaway held each winter. You can get a flavor of the event below. Then, if you'd like to be part of it in the next experience, we can keep you posted.

Find out more at JAGUARUSA.COM

THE WORLD OF JAGUAR

Choose an XE and you're joining the exciting World of Jaguar. It makes owning and driving carefree and easy, as well as providing a range of exclusive services and lifestyle products.

JAGUAR ELITECARE

Enjoy your Jaguar with complete peace of mind. The XE is now backed by Jaguar EliteCare[®], our exceptional 5 year / 60,000 mile coverage program including New Vehicle Limited Warranty, Complimentary Scheduled Maintenance, Roadside Assistance and InControl Remote & Protect[™].

NEW VEHICLE LIMITED WARRANTY

The New Vehicle Limited Warranty (the "Warranty") lets you enjoy your driving with peace of mind and runs for a best in class 5 years or 60,000 miles, whichever occurs first. The Warranty is fully transferable to subsequent owners and remains in effect throughout the Warranty coverage period.

*Please see page 96 for further information.

**Servicing your vehicle at the specified interval is critical to maintaining its long-term durability. Failure to perform scheduled maintenance within 1,000 miles of the recommended interval may void the Warranty under certain circumstances.

COMPLIMENTARY SCHEDULED MAINTENANCE**

Relax in the knowledge that long-term performance is assured with the Complimentary Scheduled Maintenance Coverage. It covers factory recommended scheduled servicing as detailed in the "Passport to Service" for 5 years or 60,000 miles, whichever occurs first**. A Service Interval Indicator will appear every 16,000 miles or every 12 months, to remind you to take advantage of your complimentary maintenance.

GENUINE PARTS

Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for the XE to contribute to optimum performance and to help maximize its lifespan.

ROADSIDE ASSISTANCE

Jaguar Optimized Assistance provides assistance in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicles warranty period.

JAGUAR MAGAZINE

Jaguar Magazine is the official magazine of Jaguar Cars. It features the Jaguar F-PACE, XE, XJ, XF and F-TYPE, and the worlds of luxury, style, design and travel.

JAGUAR COLLECTION

The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our cars. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar's heritage we also have a collection that honours past achievements and features race-inspired gift items and apparel. To find out more, visit your local Jaguar Retailer.

GLOSSARY

A

AUDIO EQUALIZATION

Audio Equalization lets you fine tune the sound of your car's audio system by giving you tone adjustment not covered by standard treble, mid-range, and bass controls.

D

DAMPERS/DAMPING

Dampers absorb forces acting on the suspension for greater ride comfort and control. Dampers are also known as shock absorbers.

DSP AMPLIFIER

Meridian's Digital Signal Processing (DSP) technology analyzes a range of variables that may impact audio quality, then processes them using sophisticated algorithms and adapts the system's output accordingly. This enables a level of powerful, authentic performance impossible with a conventional sound system.

E

ECO MODE

Eco Mode encourages fuel efficient driving by reducing throttle sensitivity, selecting more economical engine mapping and, on manual vehicles, advising of gear shifts. It also reduces fuel consumption by reducing the energy demands placed on the engine by climate control and audio systems.

J

JAGUARDRIVE CONTROL

Interacts with the Dynamic Stability Control system, engine and transmission management systems to alter the characteristics of the engine mapping, gear shifts and brakes. It offers different modes designed to optimize the vehicle's response to particular driving conditions and styles.

"J" BLADE DAYTIME RUNNING LIGHTS

"J" blade Daytime Running Lights are separate LED running lights, in a distinctive 'J' shape, built into the headlights. They emphasize the striking on-road style of Jaguar vehicles.

JAGUARDRIVE SELECTOR

The JaguarDrive Selector rises from the center console on start up. It is a rotary shifter used with automatic transmissions that allows you to quickly shift between drive modes.

M

MHL CONNECTION

A Mobile High-Definition Link (MHL) enables connection between a personal device and the InControl infotainment system. It is designed for seamless transfer of audio-visual data.

T

10" MULTI-TOUCHSCREEN WITH MULTI-TOUCH GESTURES

The multi-touch functionality of Touch Pro 10" display allows the screen to recognize multiple points of contact. This provides direct control of the system's features in a more natural, intuitive way, enabling gestures such as pinch and zoom.

TURBOCHARGED DIESEL

Diesel engine with a turbocharger. A turbocharger is a forced induction device powered by exhaust gases. Turbocharging produces higher power outputs, lower emissions levels, and improved efficiency and refinement compared to similar capacity naturally aspirated engines.

X

XENON HEADLIGHTS

Xenon headlights offer improved illumination and feature LED "J" blade Daytime Running Lights for a striking on road style.

*DISCLAIMERS

¹Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

²Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones, and other devices, even with voice commands, when it is safe to do so.

³The Wi-Fi Hotspot is intended for passenger use only. InControl® features may require an additional subscription with separate terms and conditions.

⁴A 3-month trial subscription to the SiriusXM® All Access package is included with the vehicle, which gives you access to 175+ channels of premium programming. Plus you can stream SiriusXM® on your computer, smartphone or tablet – it's included in your trial. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM® at 1-866-635-2349. See the SiriusXM® Customer Agreement for complete terms at siriusxm.com. All fees and programming are subject to change. SiriusXM® Satellite Radio is not available in Alaska, Hawaii, or Puerto Rico.

⁵These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local Jaguar Retailer for more details.

⁶Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

⁷Always follow local speed limits.

ENVIRONMENTAL INNOVATION AT JAGUAR

F-PACE, XF, XE, XJ and F-TYPE innovative use of lightweight aluminum, which incorporates up to 50% closed-loop recycled material from the manufacturing process of the body structures, provides considerable performance benefits. This includes improved fuel consumption and less CO₂ emissions during the use phase of the Life Cycle due to lighter structures. Our on-going target is to ensure scrap aluminum reclaimed from our stamping process is to be segregated and recycled through a closed loop system and incorporated back into the same grade quality aluminum sheet, therefore reducing CO₂ emissions, versus the use of virgin aluminum sheets, during the production phase of the Life Cycle.

Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development, called Environmental Innovation.

The company plan includes ongoing reduction in CO₂ emissions & the use of natural resources and at the end of 2014 we have achieved a 28% reduction in operating CO₂ emissions, 25% in the Company's European fleet average tailpipe emissions, 75% in waste to landfill, logistics efficiencies (18%) and water consumption (10%), all based on per vehicle built since 2007. In addition the manufacturing assembly CO₂ emissions of each Jaguar built in the UK since 2009, is 100% offset as part of our 2020 strategy for carbon neutral manufacturing assembly and since 2013 carbon-for-development projects form a key part of the company's Global Corporate Social Responsibility (CSR) program.

For each ton of CO₂ emitted in the assembly process, the company invests in emissions reductions projects that reduce an equivalent ton of CO₂ elsewhere and provide social and humanitarian benefits at the same time. Since 2013 the program has offset 800,000 ton of CO₂ and improved the lives of over 2 million people from our award winning Lifestraw carbon-for-water emissions reduction program.

Taking into account the company's global sales growth and increased investment in more efficient operating facilities, we are proud to have delivered and in some cases exceeded our Environmental Innovation targets as planned between 2012-2015 But it doesn't stop there. Our manufacturing facilities have been certified to ISO14001 since 1998 and in 2013 the Company was recognised as the UK's Responsible Business of the Year by leading CR index, Business in the Community. In 2014 we built on this success through the Queens award for Enterprise in Sustainable Development for 2014.

Looking forward, we have developed our 2020 vision for sustainable business growth that focuses on continued improvements in operating & tailpipe CO₂ emissions, carbon neutral manufacturing and zero waste. The company will also improve the lives of 12 million people by 2020 as part of the global Corporate Social Responsibility program
