(2) Jeep brand "Mid-Size SUV" sub-segmentation based on 17 & 18MY cross shop activity: Ford Escape, Honda CR-V, Hyundai Santa Fe Sport (5 pass), Subaru Forester, Toyota RAV4, Chevrolet Equinox, and Kia Sorento. Excludes vehicles with 3rd row seating. (1) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (3) Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. (4) This system is a driver's convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle. (5) Always look before proceeding. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. (6) This system is not intended to avoid collisions on its own, nor can FCW detect every type of potential crashes. The driver must remain aware of traffic conditions and prepared to brake and steer to avoid potential collisions at all times.
