JEEP® BRAND 4WD SYSTEMS

COMMAND-TRAC® 4x4 SYSTEM For off-road and all-weather capability, this part-time, shift-on-the-fly system divides torque 50/50 between front and rear axles for tough traction. The NV241 GII transfer case shifts smoothly from 2WD to 4WD at speeds up to 45 mph. For serious rock-crawling, its 2.72:1 low range ensures confidence. Standard on Sport and Sahara.®

SELEC-TRAC® FULL-TIME 4x4 SYSTEM This proven Jeep® Brand 4WD system, with its active 4WD transfer case, does all the thinking so you can concentrate on the scenery. The system's Smart Lock maintains constant 4WD action when you take to the trail or face challenging road conditions. Available on Sahara.

ROCK-TRAC® 4x4 SYSTEM Rubicon® rides with this extreme 4WD system. Its 4:1 low-gear ratio allows Wrangler Rubicon to crawl at a low speed for greater control and increases the amount of torque available at the wheels. Standard on Rubicon.

2.0L TURBO I-4 ENGINE Delivers impressive performance, yet sips fuel as an I-4 should. This remarkable engine offers smart energy-generating functions, including available ESS, electric power assist, extended fuel shutoff, transmission shift management, intelligent battery charging and regenerative braking. eTORQUE TECHNOLOGY By including this efficient mild-hybrid feature, the 2.0L engine offers fuel-saving/energy-generating functions. These include ESS technology, electric power assist, extended fuel shutoff, transmission shift management, intelligent battery charging and regenerative braking.
