

The Jensen-Healey, a product of a new era in technology, is designed for performance, comfort and safety.

Power from the cast aluminium 4 cylinder 2 litre twin O.H.C. engine with 4 valves per cylinder offers performance normally associated with cars of a much higher capacity. Precise sensitive rack and pinion steering and dual circuit disc/drum brakes inspire confidence in handling and stability under

all conditions. Thoughtfully planned location of a full range of instruments and controls in the padded fascia permits effortless operation from the relaxing comfort of the body-contoured fully reclining seats.

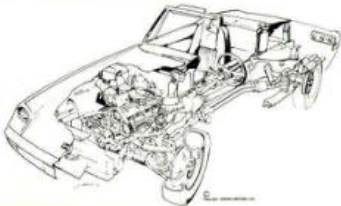

The counterbalanced hood and 4 kw fan assisted heating and ventilation system provides 'Saloon Car' conditions in winter weather. A collapsible steering column, energy absorbing bumpers, laminated windscreen and lap and diagonal safety belts are but a few of the many safety

features which make the Jensen-Healey a car you can drive with confidence and own with real pride.

**JENSEN-HEALEY**

## Specification

### Engine:

4 cylinders, in line, steel 45° C.H.V. twin-camshaft  
120 h.c.u. in. (1973 c.c.) Bore 3.75 in. (95.2 mm) Stroke  
2.73 in. (69.3 mm) Compression ratio 8.4:1. Fuel capacity  
11 gallons (imperial) (30 litres).

### Transmission:

4 speed manual gearbox. Ratio: 1st 11.63:1, 2nd 7.42:1,  
3rd 4.83:1, 4th 3.93:1, reverse 12.37:1. Hypoid rear axle  
ratio 2.73:1.

### Steering:

Rack and pinion. Ratio 16.3:1. Turning circle 32 ft.  
(9752 mm) 3.16 turn lock to lock.

### Brakes:

Hydraulic dual line servo assisted. Front discs, diameter  
10 in. (254 mm) swept area 194 sq. in. (1250 cm<sup>2</sup>) rear  
drums, diameter 9 in. (229 mm) swept area 98 sq. in.  
(640 cm<sup>2</sup>).

When this publication was produced the information given was correct but  
we assume no responsibility for any subsequent withdrawal.

### Suspension:

Front: Independent double wishbones, coil springs.  
Rear: Live axle, four links, coil springs, telescopic dampers  
bars and rear.

### Wheels and Tyres:

13 in. cast aluminium wheels, 180-70 SR 13 tyres.  
Spare wheel below boot floor.

### Heating and Ventilation:

Integral heater/flush air unit. Blown face level vents.  
4 kw 2 speed heater/blower. Rain air to footwells.

### Instruments:

Speedometer, tachometer, voltmeter, oil pressure, water  
temperature and fuel gauges.

### Dimensions:

Length, 13 ft. 6 in. (4113 mm); Width, 5 ft. 3 1/2 in.  
(1600 mm); Height, 3 ft. 11 1/2 in. (1213 mm); Wheelbase,  
7 ft. 6 in. (2317 mm); Ground Clearance, 5 in. (127 mm);  
Gross Weight, 2600 lbs. (1200 kgs)
