LEXUS 2019

Three distinct expressions.
Uncommon craftsmanship.
Unprecedented engineering.

Because standing apart means nothing
if it doesn't lead to the experience
of something greater.

The 2019 Lexus IS.

—
Experience Amazing

IS 300

Bold styling meets a 2.0-liter turbocharged in-line four-cylinder engine with 241 horsepower.¹ Eight-speed Sport Direct-Shift transmission with paddle shifters. Zero to 60 in 6.9 seconds.^{1,2} Rear-wheel drive.

IS 300 AWD

Full-time all-wheel drive (AWD) with a powerful 3.5-liter V6 engine that generates 260 horsepower.¹ Six-speed transmission with paddle shifters. Zero to 60 in 6.1 seconds.^{1,2}

IS 350

Exhilarating performance delivered by a powerful 3.5-liter V6 engine with 311 horsepower.¹ Eight-speed Sport Direct-Shift transmission with paddle shifters (RWD). Zero to 60 in 5.6 seconds (RWD)^{1,2} / 5.7 seconds (AWD)^{1,2} Rear-wheel drive or available all-wheel drive.

IS F SPORT MODELS

The next level of dynamic design and performance. Exclusive track-inspired details, such as an F SPORT-tuned suspension, a limited-slip rear differential (IS 350 RWD), dramatic interior and exterior styling, and F SPORT front seats with enhanced bolsters, are available on all IS models.

IS shown in Caviar (left), IS F SPORT shown in Redline (center), IS F SPORT shown in Atomic Silver (right) // Options shown

IS F SPORT shown in Ultra White // Options shown

IS FSPORT shown with Black NuLuxe[®] and Dark Gray Streamline interior trim // Options shown

IS F SPORT shown in Ultra White

With an aggressively styled front fascia, head-turning LED headlamps, distinctive taillamps with signature L-shaped illumination, and an advanced driver-centric cockpit, the 2019 IS commands the road and captivates the eye.

CUTTING-EDGE DESIGN

Every angle is crafted to create our most expressive IS yet.

Options shown

IS shown in Atomic Silver // Options shown

The 2019 IS makes its track-honed heritage known with a ground-hugging, aerodynamic exterior and assertive styling. An aggressive stance and a striking front fascia are punctuated by sculpted lines that finesse their way from the rocker panels through the rear wheel arches and culminate in the dramatic, sweeping taillamps.

The unmistakable LED headlamp design not only attracts attention but also enhances visibility. The available Adaptive Front Lighting System⁴ uses steering and speed sensors to direct the angle of low-beam illumination as the vehicle enters a curve.

INTERIOR DESIGN

Where versatile accommodations meet iconic Lexus craftsmanship.

The 2019 IS pairs high design with the highest attention to detail. Combining meticulous craftsmanship with exceptional comfort, the interior features a shift knob and steering wheel trimmed in hand-selected leather. Located where your hands naturally rest on the steering wheel, an available heating element continually monitors and adjusts the heating level to help maintain a set temperature.

Seating throughout the IS is as adaptable as it is striking. The low-set, 10-way power-adjustable driver's seat, including lumbar, and the eight-way power-adjustable front passenger's seat provide peak comfort, while standard 60/40-split fold-down rear seats provide remarkable versatility. Available heated and ventilated front seats also offer separate heaters and fans in the seat cushions.

The dual-zone climate-control system features individual settings to allow the driver and front passenger to adjust their preferred temperatures.

Experience innovation in sharp focus. LED headlamps with Intelligent High Beams,⁶ Lexus Safety System+⁷, an available class-leading 10.3-inch center-console-mounted multimedia display,⁵ class-exclusive Scout[®] GPS Link^{8,9} navigation⁵ and more create a world of connectivity designed for and around the driver.

LEADING-EDGE TECHNOLOGY

With the most standard safety features in its class and class-exclusive technology,⁵ the 2019 IS has the intelligence to set it apart.

Options shown

PEACE OF MIND, STANDARD

Presenting Lexus Safety System+, an integrated suite of class-leading standard active safety equipment.^{5,7}

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

This system¹⁰ is engineered to help detect a vehicle or a pedestrian¹¹ in the path of your Lexus under certain conditions. Should it detect a potential frontal collision, it's designed to automatically prepare Brake Assist¹² for increased brake force and, in some cases, can even automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system¹³ utilizes a camera to monitor visible lane markings. If an inadvertent lane departure, or potential departure due to swaying, is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

HIGH-SPEED DYNAMIC RADAR CRUISE CONTROL

This system¹⁴ uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. If you get closer than the preset distance, the throttle is automatically reduced and the brakes may be applied. As soon as the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams⁶ offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

LEXUS SAFETY SYSTEM +

IS F SPORT shown in Caviar

360-DEGREE CONTROL

NAVIGATION SYSTEM WITH 10.3-INCH MULTIMEDIA DISPLAY

Largest in its class,⁵ the available 10.3-inch high-resolution split-screen multimedia display provides immediate, simultaneous access to audio or climate controls and various systems, including the voice-activated Navigation System.¹⁵

Class-leading available
10.3-in
 high-resolution multimedia display⁵

MARK LEVINSON® PREMIUM SURROUND SOUND AUDIO SYSTEM

The available 15-speaker, 835-watt Mark Levinson® Premium Surround Sound Audio System¹⁶ features patented, proprietary Clari-Fi^{®16} technology that restores audio quality from compressed music, resulting in crisp, clear, dynamic sound from any source. This, combined with technology designed to create an expansive "sweet spot" of audio, envelops every passenger in three-dimensional sound that rivals the finest home audio systems.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime.^{®22} Learn more about these complimentary services at lexus.com/specialists.

LEXUS ENFORM

Lexus Enform^{®8} elevates connected technology and provides concierge-level convenience. From emergency assistance and a live response center agent, to the ability to start your engine remotely¹⁷ through your smartphone, smartwatch or using the Lexus skill on Amazon Alexa^{®18}-enabled devices, our premium suite of connected technology offers peace of mind with every drive.

DRIVE MODE SELECT

Drive Mode Select enables you to make your vehicle more responsive or efficient with a simple turn of a dial. Sport mode alters the powertrain for faster and more dynamic throttle response. Normal mode provides the optimal balance of fuel efficiency and engine performance. ECO mode moderates the throttle response, engine power output and climate settings for increased fuel efficiency.

DRIVER-CENTRIC TECHNOLOGY

From touch-based climate controls to Siri[®] Eyes Free¹⁹ to the available advanced Voice Command with Enhanced Bluetooth[®] technology²⁰ and more, the IS delivers smart, seamless convenience. In addition to the center-console controller, available Remote Touch²¹ allows you to easily move through logical menus of the vehicle's features, with buttons on either side for both driver and front passenger accessibility.

Class-leading
10
 airbag system^{5,23}

SCOUT® GPS LINK

An intelligent alternative to available Navigation¹⁵, Scout® GPS Link^{8,9} uses a smartphone app to offer turn-by-turn directions via the Lexus Multimedia System.²¹ Separate from Lexus Enform⁸ services, the standard Scout® GPS Link provides drivers with real-time traffic info, personalized commute times, automatic traffic avoidance and more.

INTUITIVE PARKING ASSIST

The available Intuitive Parking Assist²⁴ utilizes inconspicuous sensors integrated into the front and rear bumpers that are designed to detect surrounding objects. Using audible tones and an indicator on the multimedia display, the system can notify you of a detected object's location and proximity, helping with routine tasks like parallel parking.

BLIND SPOT MONITOR WITH REAR CROSS-TRAFFIC ALERT

To help you change lanes with confidence, the available Blind Spot Monitor²⁵ is designed to detect and warn you of vehicles approaching or positioned in the adjacent lanes. And for added peace of mind, Rear Cross-Traffic Alert²⁶ can help you when backing out of a parking space by notifying you of vehicles approaching from either side under certain conditions.

BACKUP CAMERA WITH DYNAMIC GRIDLINES

When you put the vehicle in reverse, the view from the backup camera²⁷ is shown on the multimedia display in full color with dynamic gridlines to assist you with parking and other maneuvers.

RAZOR'S-EDGE PERFORMANCE

IS F SPORT shown in Obsidian

Experience precise handling, thrilling control and enhanced power in the most rigorously tested IS ever.

Fanatically tested and tuned at renowned tracks across the globe, the 2019 IS offers three expressions of power and a single vision of visceral, direct performance. With advanced tuning techniques for enhanced fuel efficiency and advanced casting techniques for enhanced responsiveness, the IS delivers acceleration and adrenaline on demand.

Options shown

IS shown in Atomic Silver // Options shown

THREE FORMS *OF POWER*

IS 300 / IS 300 F SPORT

Engineered with highly advanced twin-scroll turbocharger technology and a paddle-shift transmission, the 241-horsepower¹ IS 300 provides the robust power, low-end torque and responsive performance you can feel the moment you accelerate.

IS 300 AWD / IS 300 AWD F SPORT

With an all-wheel drive system designed to adapt to changing conditions, the IS 300 AWD delivers V6 power with 260 horsepower¹ and a paddle-shift transmission. The F SPORT model also offers a more robust engine note when pushed to higher rpm.

IS 350 / IS 350 F SPORT

Engineered for peak performance, the IS 350 wields a powerful 311-horsepower¹ V6 and paddle-shift transmission. When pushed to higher rpm, the IS 350 F SPORT is filled with a throaty engine note that complements its exhilarating performance.

ALL-WHEEL DRIVE

Style doesn't have to take a snow day with the IS 300 AWD and IS 350 AWD. By automatically allocating engine power between the front and rear axles from 30/70 to as much as 50/50, all-wheel drive can help provide enhanced traction and control on a wide range of road surfaces and conditions.

Torque split up to
50/50

IS F SPORT shown in Ultra White

F SPORT PERFORMANCE

Tuned by the same team behind the legendary LFA supercar, the IS F SPORT offers the next level of dynamic handling and exhilarating response.

The IS F SPORT is an overdose of performance, engineering and dynamic styling. Exclusive to the IS 350 F SPORT, Adaptive Variable Suspension monitors and adjusts the shock settings on each wheel, depending on the conditions. And, while cornering, the suspension is tightened for reduced body lean and even greater response. A limited-slip rear differential effectively distributes engine power to the rear wheel with the most grip to help optimize traction, handling and control in a variety of conditions.

SPORT S / SPORT S+ DRIVE MODES

Sport S mode adjusts the amount of steering response, alters the powertrain for faster gear changes and more dynamic throttle mapping, and switches the outer ring of the LFA-inspired tachometer to white on F SPORT models. The IS 350 F SPORT's Sport S+ mode goes a step further by tightening the suspension. In both modes, the transmission's shift points are automatically altered coming into and out of corners for sharper acceleration.

IS F SPORT shown in Redline

F SPORT STYLING

The interior of the F SPORT is a sleek and aggressive command center. Featuring enhanced bolsters and a unique foam-injected construction designed to cradle the driver during high-G turns, exclusive F SPORT seats wrap the driver from hip to shoulder. Their low position helps place the driver's hip point as close as possible to the vehicle's center of gravity

for a more dynamic driving experience. Beyond the track-inspired seating, a steering wheel trimmed in perforated leather, aluminum pedals, exclusive stitching and race-inspired instrumentation deliver unmistakable F SPORT style.

LFA-INSPIRED DIGITAL INSTRUMENTATION

Nearly identical to the digital gauges in the world-renowned LFA supercar, the instrument cluster in the IS F SPORT models features a digital display that moves in concert with a sliding bezel, expanding and retracting digital readouts when information is accessed.

EXCLUSIVE 18-INCH SPLIT-FIVE-SPOKE ALLOY WHEELS

Exclusive 18-inch alloy wheels²⁸ feature a dynamic split-spoke design inherited from the LFA, and pair with high-friction brake pads²⁹ designed to offer greater responsiveness and reduced fade.

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the IS Warranty and Services Guide at your Lexus dealer for details.

DISCLOSURES 1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 2. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 3. NuLexus is a registered trademark of Toyota Motor Sales, U.S.A., Inc. 4. The Adaptive Front Lighting System helps improve vision at night. Situations such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness, requiring the driver to manually turn off the system. See Owner's Manual for details. 5. 2019 IS vs. 2018/2019 competitors. Information from manufacturers' websites as of 5/11/2018. 6. Intelligent High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner's Manual for additional limitations and details. 7. LSS+ drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 8. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change at any time without notice. See [lexus.com/enform](https://www.lexus.com/enform) for details. 9. The Scout GPS Link app is compatible with select vehicle models. Availability and accuracy of the information provided by Scout GPS Link is subject to change at any time without notice and is dependent upon many factors, including smartphone connectivity, capability and cellular reception. Always use safe driving practices and follow all traffic rules. Data charges may apply. Scout and Telenav are registered trademarks of Telenav, Inc. The Scout GPS Link trial is at no extra cost and begins when the app is downloaded on the vehicle. Contact the Lexus Customer Assistance Center at 800-255-3987 for length of trial period. After the trial period expires, enrollment in a paid subscription is required to access the service. Terms and conditions apply. 10. The LSS+ Pre-Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 11. The Pedestrian Detection System is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, and weather, light and road conditions. See Owner's Manual for additional limitations and details. 12. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner's Manual for additional limitations and details. 13. Lane Departure Alert with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 14. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors, including road, weather and traffic conditions. See Owner's Manual for additional limitations and details. 15. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See Owner's Manual for details. 16. Mark Levinson and Clari-Fi are registered trademarks of Harman International Industries, Inc. 17. Use only if aware of circumstances surrounding vehicle and it is legal and safe to do so (e.g., do not remotely start engine if vehicle is in an enclosed space or vehicle is occupied by a child). Remote Connect is dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Lexus' control, which can limit the ability or functionality of the system. Registration and app download are required. See usage precautions and service limitations in Owner's Manual. To learn about Lexus Enform's data collection, use, sharing and retention, please visit <https://www.lexus.com/privacyvts/>. The Remote Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in a paid subscription is required to access the service. Terms and conditions apply. 18. Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates. Certain Alexa functionality is dependent on smart home technology. Not all Amazon Alexa skills are available for in-vehicle use. Always drive safely and obey traffic laws. Apps, prices and services vary by phone carrier and are subject to change at any time without notice. Subject to smartphone connectivity and capability. Data charges may apply. 19. Always drive safely, obey traffic laws and focus on the road while driving. Siri is available on select iPhone/iPad models and requires Internet access. Siri is not available in all languages or all areas and features vary by area. Some Siri functionality and commands are not accessible in the vehicle. Data charges may apply. See Apple.com and phone carrier for details. Siri is a registered trademark of Apple Inc. 20. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 21. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. 22. FaceTime is a registered trademark of Apple Inc. All rights reserved. Always drive safely and obey traffic laws. Apps, prices and services vary by phone carrier and are subject to change at any time without notice. Subject to smartphone connectivity and capability. Data charges may apply. 23. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 24. Intuitive Parking Assist (IPA) is designed to assist drivers in avoiding potential collisions at speeds of 9 mph or less. Certain vehicle and environmental factors, including an object's speed, shape, size and composition, may affect the system's effectiveness. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner's Manual for additional limitations and details. 25. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details. 26. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See Owner's Manual for additional limitations and details. 27. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner's Manual for additional limitations and details. 28. 17- or 18-inch performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy or 15,000 miles, depending upon driving conditions. 29. High-friction brakes require periodic inspection and measurement as outlined in the Warranty and Services Guide. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles depending on driving conditions. It is an inherent characteristic of materials and design of brake pads used in this high-performance brake system that brake noise/squeal may result. 30. Preliminary mileage estimates determined by Lexus. EPA mileage estimates not available at time of publishing. Actual mileage will vary. 31. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 32. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aaa.org. 33. May not be compatible with all mobile phones, MP3/WMA players and like models. 34. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. HD Radio Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 35. Lexus Enform services are dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Lexus' control, which can limit the ability to reach the response center or receive emergency support or otherwise limit the functionality of the system. Terms and conditions of subscriber agreement apply. To learn about Lexus Enform's data collection, use, sharing and retention, please visit <https://www.lexus.com/privacyvts/>. Stolen vehicle police report required to use Stolen Vehicle Locator. The Safety Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply. 36. Information provided is based on the last time data was collected from the vehicle and may not be up to date. Service Connect is dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Lexus' control, which can limit the ability or functionality of the system. To learn about Lexus Enform's data collection, use, sharing and retention, please visit <https://www.lexus.com/privacyvts/>. The Service Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the respective trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply. 37. 2018 Kelley Blue Book Brand Image Awards are based on the Brand Watch™ study from Kelley Blue Book Strategic Insights. For more information, visit www.kbb.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co., Inc. 38. Destination Assist is dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Lexus' control, which can limit the ability or functionality of the system. Use common sense when relying on this information. To learn about Lexus Enform's data collection, use, sharing and retention, please visit <https://www.lexus.com/privacyvts/>. See Owner's Manual for additional details. The Destination Assist trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in a paid subscription is required to access the service. Terms and conditions of subscription service agreement apply. 39. F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car/CPO warranty in force at the date of installation by a Lexus dealer, whichever is greater. These warranties do not cover maintenance services such as replacement of brake pads/linings, clutch linings, noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. See dealer for details. 40. Carpet and all-weather floor liners/mats are model-specific with model names. Floor liners/mats are designed for use in a specific model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each liner/mat must be secured with its fasteners. Do not install a floor liner/mat on top of an existing floor liner/mat.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
