

2016

RX

INTRODUCING THE ALL-NEW 2016 RX

RX 350

Completely redesigned for 2016 with a striking, chiseled exterior; 295-horsepower, 3.5-liter V6 engine with eight-speed automatic transmission; available color Heads-Up Display, Lexus Safety System+ and 12.3-inch multimedia display with full-screen map. Front-wheel drive or available all-wheel drive.

RX 450h

Lexus Hybrid Drive with Atkinson-cycle V6 engine, 308 total system horsepower¹, 30-MPG combined rating², Intelligent Shift Control, standard Navigation System³ and heated and ventilated front seats. Front-wheel drive or available all-wheel drive.

RX F SPORT MODELS

Take both models to the next level with Adaptive Variable Suspension, bold interior and exterior styling, including sport seats with enhanced bolsters and new 20-inch alloy wheels⁴ with Dark Graphite finish, and standard all-wheel drive.

SOPHISTICATION. SHARPENED.

Never has luxury been this expressive.

VISION IN FOCUS

THE SEDUCTIVE STRENGTH OF THE 2016 RX

A larger, more aggressively sculpted body; a sumptuous, futuristic interior; enhanced driving performance with advanced V6 engines; the most comprehensive safety system ever offered on the RX—this is luxury in sharp focus.

The cutting edge doesn't have to sacrifice comfort. The RX offers power-reclining⁵ and power-folding 60/40-split heated rear seats, as well as heated and ventilated front seats.

FREEDOM

THE WAY FORWARD

A warning to the lukewarm. This is luxury without apology. The RX embodies a commanding, evocative design philosophy that demands a passionate point of view. Staying under the radar is off the table.

OF EXPRESSION

A muscular body with a solid, powerful stance, sharp LED headlamps, an extended wheelbase and available panorama glass roof—discover a luxury crossover that crosses the line from simple elegance to pure expression and emotion.

SPUR THE SENSES

DESIGN IN FLUX

Engineered to turn heads, the angular and assertive 2016 RX makes the message clear—aggressive design and expressive styling are not for the shy of heart. Molded to change its silhouette when viewed from different angles, the RX flaunts razor-sharp character lines and a sleek profile leading to a distinctive floating roofline—and a new era of Lexus design.

ELEMENTS OF STYLE

Experience intense elegance with available features such as the panorama glass roof, dramatic LED taillamps, Gray Sapele Wood with Aluminum trim, customizable wheel inserts, semi-aniline leather trim with seductive crimson stitching, and dual exhaust (RX).

THE CENTER OF ATTENTION

Simple, broad flowing lines form a center instrument panel that's as captivating as it is convenient. The creation of distinct interior spaces—separating the display zone from the operation zone with open, fluid design elements—adds to an enticing cockpit atmosphere. The available new 12.3-inch multimedia display, Panoramic View Monitor,⁶ color Heads-Up Display and Remote Touch⁷ ensure that the RX interior remains intelligently intuitive.

12.3-INCH MULTIMEDIA DISPLAY

The RX lets drivers see the bigger picture—the available 12.3-inch high-resolution multimedia display. Providing immediate, simultaneous access to audio or climate controls and various systems including Navigation,³ the new display offers a full-screen map for added convenience.

SEAMLESS INNOVATION

MARK LEVINSON® PREMIUM SURROUND SOUND AUDIO SYSTEM

Discover high-fidelity sound in high style with the available 835-watt, 15-speaker Mark Levinson Premium Surround Sound Audio System.⁸ Lexus and Mark Levinson engineers collaborated to plan, develop and place every component for the most accurate reproduction of artists' original recordings.

3-D NAVIGATION

This available voice-activated system³ can map millions of points of interest across the country and can display information in English, French and Spanish. And, in addition to offering up-to-date traffic and weather information,⁹ 3-D city views, and simulated views of approaching highway junctions, it can display the current speed limit and can automatically identify nearby gas stations if you begin to run low on fuel.

HEADS-UP DISPLAY

Bringing the futuristic design of the RX full circle, the available new full-color Heads-Up Display can project dynamic information like speed, turn-by-turn navigation and alerts directly onto the windshield, merging impressive design with safety technology. Even customizable to different heights, the Heads-Up Display helps drivers stay focused and informed.

PANORAMIC VIEW MONITOR

The RX offers passionate design with peace of mind, as seen in the available Panoramic View Monitor.⁶ Four high-resolution cameras mounted on the front, sides and rear of the vehicle give drivers a bird's-eye view of the near environment. Moving View and See-Through View options create a composite image of the vehicle's surroundings as on-screen guides assist with parking and tight maneuvering.

DUAL-SCREEN REAR-SEAT ENTERTAINMENT SYSTEM

Enhanced for 2016, the available dual-screen Rear-Seat Entertainment System¹⁰ offers an HDMI input that enables two video sources to be viewed at the same time on two expansive 11.6-inch LCD screens. Using a single remote control, one can be used as a DVD/CD player, for example, and the other as a game console or audio player. A wireless remote, wireless headphones¹¹ and a two-prong AC power outlet are also included.

POWER-FOLDING REAR SEAT

Offering ample space with ultimate convenience, the RX offers power-reclining⁵ and power-folding 60/40-split rear seating. Switches located on the side of the rear seats and the inside of the luggage compartment allow for customizable cargo space while a jam prevention function automatically reverses seat movement if an obstruction is detected.

TOUCH-FREE POWER REAR DOOR

A Lexus first, the available touch-free power rear door harnesses intuitive technology to offer RX drivers the height of convenience. A sensor on the rear door enables a raised hand, or elbow, held near the Lexus emblem to effortlessly open the door.

THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform,¹² our available suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

Lexus Enform Safety Connect¹³ offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you're involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle's GPS location.

SERVICE CONNECT

Our new Lexus Enform Service Connect¹⁴ offers remote access to information about your vehicle's status and maintenance needs. Easily accessed through LexusDrivers.com or the My Lexus and Beyond mobile app, you can get information on everything from your vehicle's fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The Lexus Enform Remote¹⁵ mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle's location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS

Lexus Enform Destinations¹² offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your available Navigation System.³ Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE

The Lexus Enform App Suite¹² offers access to your favorite mobile applications through your vehicle's center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad^{®16} apps like FaceTime.^{®17} Learn more about these complimentary services at lexus.com/specialists.

THE ASCENT OF LUXURY

COMPEL WITHOUT COMPROMISE

Experience stunning without sacrifice. With models ranging from the RX 350 to the RX 450h to their performance-minded F SPORT counterparts, the 2016 RX offers utility with heightened luxury.

ENTICE WITH POWER

Give rush hour a rush of adrenaline. The RX 350 offers more power, more agility and more reasons to get behind the wheel. Experience an advanced 3.5-liter V6 engine, a new eight-speed automatic transmission and Drive Mode Select. A larger, stronger body delivers a quiet drive as optimized suspension tuning harnesses the full power of the muscular new chassis.

URBAN LEGEND

THE WORLD'S FIRST LUXURY HYBRID GOES FURTHER

Inventing the first luxury hybrid was just the first step to pushing the category further. The 2016 RX 450h announces the next level of hybrid performance. With a 30-MPG combined rating² and 308 total system horsepower,³ the RX 450h is making big steps forward with a small environmental footprint. And now, with the first-ever F SPORT model, the RX 450h offers efficiency with an edge. Featuring a 3.5-liter Atkinson-cycle V6 with Lexus Hybrid Drive, the RX 450h F SPORT pairs exclusive F SPORT styling with impressive hybrid fuel economy.

**ALL-WEATHER DRIVE.
ALL-POWERFUL.**

Stay in control and in style with the available Active Torque Control all-wheel drive. This intelligent system monitors road conditions in real time, automatically shifting engine power between front and rear axles, while 100% of the power goes to the front wheels during normal driving conditions for improved efficiency.

SOPHISTICATION NEVER SURRENDERS

F SPORT

For those who live on the razor's edge. Enter the 2016 RX F SPORT. With a new Adaptive Variable Suspension tuned by the same team that fine-tuned the LFA supercar, the RX F SPORT delivers a driving experience far beyond the crossover category. Charge forward with aggressive sculpting, LFA-inspired electronic instrumentation and F SPORT 20-inch alloy wheels⁴ with Dark Graphite finish.

F SPORT COCKPIT

Race-inspired F SPORT bolstered seats support the driver, providing the ideal posture, control and visibility for enhanced driving performance. Exclusive paddle shifters and perforated leather trim with aluminum accents accentuate the muscle behind the F SPORT badge.

LEXUS SAFETY SYSTEM+

The most comprehensive safety system ever offered on the RX, the available Lexus Safety System+ is an integrated suite of advanced technologies designed to work together in order to help pave the way to a world with fewer collisions and better-informed drivers.

SAFE HAVEN

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

The Pre-Collision System (PCS)¹⁸ is engineered to detect vehicles and pedestrians¹⁹ in the vehicle's path under certain conditions. Should the system determine a frontal collision is imminent, it's designed to automatically prepare Brake Assist²⁰ for increased brake force, and can even automatically brake the RX to a stop when traveling at speeds above 6 mph.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

To help you maintain a preset following distance from the vehicle ahead, All-Speed Dynamic Radar Cruise Control²¹ uses radar technology to sense the speed and distance of vehicles in front of you. If you get too close to the vehicle ahead, it can automatically reduce your speed accordingly, and can even operate in stop-and-go traffic.

INTELLIGENT HIGH-BEAM HEADLAMPS

To help provide added visibility, intelligent high-beam headlamps²² offer added illumination when the road ahead is clear and temporarily switch to low-beam when they sense another vehicle ahead.

LANE ASSIST TECHNOLOGY

Lexus Safety System+ offers multiple technologies designed to help prevent inadvertent lane departure. Lane Departure Alert²³ with Steering Assist²³ can warn you if it determines you are beginning to drift and can even take corrective measures to help keep you within your visibly marked lane. Additionally, Lane Keep Assist²⁴ can take this a step further by helping the driver remain in the center of the visibly marked lane, to help prevent lane drifting before it occurs.

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. Eight-year/100,000-mile Hybrid System Warranty. All warranties with zero deductible. See the *RX Warranty and Services Guide* at your Lexus dealer for details.

DISCLOSURES **1.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **2.** 2016 RX450h (AWD) EPA 30/28/30 city/hwy/combined mpg estimates. Actual mileage will vary. **3.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available at an additional cost from your dealer. See *Navigation System Owner's Manual* for details. **4.** 18- or 20-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles (18-in) or 20,000 miles (20-in), depending upon driving conditions. **5.** Do not allow passengers to sit in a seat that has been fully or severely reclined while driving. This feature is intended for use only when the vehicle is parked. While the vehicle is being driven, all vehicle occupants should have the seatback upright, sit well back in the seat and properly wear the seatbelts provided. In the event of a collision, the more the seat is reclined, the greater the risk of death or personal injury. See *Owner's Manual* for additional information. **6.** The Panoramic View Monitor does not provide a comprehensive view of the area around the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather may limit effectiveness and view may become cloudy. **7.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. **8.** Mark Levinson® is a registered trademark of Harman International Industries, Inc. **9.** HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **10.** A single-disc DVD player is included. A separate DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the dual-screen system. **11.** Headphones are for passenger use only. Do not while operating vehicle. **12.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com/enform for details. **13.** Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details. **14.** Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. **15.** Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & *Owner's Manual*. Data charges may apply. Registration, app download are required. Must have active Safety Connect subscription. Annual fee required after 1-year trial. **16.** iPhone® and iPad® are registered trademarks of Apple Inc. All rights reserved. **17.** FaceTime® is a registered trademark of Apple Inc. All rights reserved. **18.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for further information. **19.** The Pedestrian Detection System, part of the Lexus Safety System+, is designed to detect the presence of a pedestrian ahead of the vehicle, to determine if impact with the pedestrian is imminent and to help reduce impact speed. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. See *Owner's Manual* for further information. **20.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. **21.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See *Owner's Manual* for details. **22.** Intelligent high-beams system operates at speeds above 21 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See *Owner's Manual* for details. **23.** Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See *Owner's Manual* for more information. **24.** Lane Keep Assist is designed to read lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See *Owner's Manual* for more information. **25.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **26.** 2016 EPA-estimated ratings. Actual mileage will vary. **27.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **28.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. **29.** Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. **30.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. **31.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See *Owner's Manual* for further information/warnings. **32.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See *Owner's Manual* for further details. **33.** Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. See *Owner's Manual* for further details. **34.** Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see *Owner's Manual*. **35.** Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see *Owner's Manual*. **36.** Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See *Owner's Manual* for details. **37.** Roof rack with rails not recommended for luggage. **38.** Roof rack capacity is 165 lb (74 kg). See *Owner's Manual* for details.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-Lexus (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
