THE 2020

G-CLASS

Some seek a destination. Some create a destiny.

Where will you go today? This year? With this lifetime? Fulfilling your desires for travel and exploration is up to you, but for decades, some of the world's most adventurous dreamers have achieved their goals—and returned safely home—in a vehicle known by a single letter: G. Short for *Geländewagen*, or cross-country vehicle, its go-anywhere attitude has been proven at virtually every latitude, and on all seven continents. It is shaped by its mission, and has remained true to both for over 40 years, and counting. And more importantly, dreamers—counting yours.

Mercedes me connect featuring smartphone app with Remote Start, 4G LTE WiFi,* and more⁴

Burmester® Surround Sound System

Rear Seat Entertainment system*

*Optional or not available on some models. Please see back of brochure.

In design, character, and even the way it's made – crafted almost entirely by hand – the G-Class has remained true to its roots for four decades. Underneath, it marches boldly toward the future.

GET READY TO MAKE SOME
NEW HISTORY

An ever-advancing sense of adventure

Fresh from its first complete redesign in four decades, the 2020 G-Class embodies the unwavering confidence and capability that have taken it from Siberia to the Sahara. Within that iconic body, advanced technologies team up to make every capability more effective, and every drive—daily commute to epic road trip—uniquely enjoyable.

A never-forgotten sense of belonging

Every G-Class is still crafted virtually entirely by hand in Graz, Austria, from its rigid frame to its supple seating. Its off-road prowess is still proven on the nearby 4,740-ft Shöckl mountain—its clearance, climbing and fording² stats all improved even as it grew more agile and refined. And the G must cocoon its passengers in serene comfort, while instilling a sense of calm command in its driver.

PICTURE YOURSELF

ANYWHERE

Legendary character, proved and improved

When the engineers set out to fully modernize the underpinnings of the G-Class, the first rule was "Don't sacrifice what makes it a G." So while a new independent front suspension and steering system greatly refined its on-road composure, its off-road competence also grew stronger, from higher ground clearance to steeper climbing.² Optional new all-terrain tires³ for the G 550 or an AMG Trail Package, along with three standard lockable differentials,¹ help you tackle rough terrain. Multimode adaptive damping, standard on the G 63 and a G 550 option, helps you tame city streets and curving roads.

Capability highlights

Biturbo engine: V8 (G 550) or handcrafted AMG V8 (G 63)

Transmission: Paddle-shifted 9-speed or AMG SPEEDSHIFT® TCT 9-speed

Permanent all-wheel drive, 2-speed transfer case, 3 lockable differentials¹

Double-wishbone front/rigid-axle rear suspension; adaptive damping (G 550*) or adaptive AMG RIDE CONTROL (G 63)

Exhaust: Sport (G 550*), or AMG Performance with sidepipes (G 63)

The G-Class has endured grueling conditions on all seven continents. What it's learned from Siberia to Sri Lanka helps put you at ease in suburbia or on Sunday adventures.

*Optional. Please see back of brochure.

YOU CAN TAKE IT

PERSONALLY

More than a million ways to make it

You'll lose track counting all the ways you can make a G all your own. Literally dozens of paint colors, seating designs and leathers, wheels and steering wheels, plus trim and accents inside and out, add up to well over a million combinations. So yours can be one of a kind.

Many ways to make it over, and over

Even after your G-Class has been handcrafted to your exact specification, you can still tailor its cabin to suit your mood. Choose from 64 colors of ambient lighting. Enjoy any of six rejuvenating front-seat massages.* And open the glass sunroof for some fresh air, or close it for some quiet starlight amid freshly ionized cabin air.

How far can you take your G-Class? More than a question, it's almost a challenge. And it starts while your G is handcrafted to suit your character.

Luxury highlights

- Heated/memory power front seats
- Rapid-heating, ventilated, massaging active multicontour front seats*
- Heated outboard rear seats
- 3-zone climate control with dust/pollen/odor filters and ionizer
- 64-color LED ambient lighting, with multi-hue and color-shifting modes
- Heated steering wheel*
- Heat- and noise-insulating front door, windshield, and power sunroof glass

*Optional. Please see back of brochure.

KEEP AHEAD OF THE MOMENT

Virtual eyes on what's ahead, or behind

Advanced standard driver assists⁵ help ease your way in urban jungles and untamed traffic. Radar can keep its virtual eye on traffic ahead, for smoother cruising and forward collision avoidance. When towing, Trailer Stability Assist can help keep your worries behind you.

Anticipates the unexpected, and acts

When PRE-SAFE[®] senses a collision is about to happen, it can take action to prepare the restraint systems and front passenger-seat position, close the windows and sunroof, and pump up the side bolsters of the available multicontour front seats. PRE-SAFE Sound can emit a special tone to trigger your ears' natural defenses.

Safety highlights

Radar-based Active Brake Assist frontal collision mitigation⁶

PRE-SAFE[®] with hearing protection technology⁷

ATTENTION ASSIST,[®] Active Lane Keeping Assist,⁸ Blind Spot Assist⁹

Rearview camera (G 550), or multi-camera Surround View System (G 63)¹⁰

Active Distance Assist DISTRONIC[®] cruise control,¹¹ Speed Limit Assist¹²

Active Parking Assist with Rear Cross-Traffic Alert¹³

Already legendary for its ruggedly protective nature, the G-Class has advanced to a thoroughly modern level of active, and proactive, safety.

STAY ON TOP OF YOUR WORLD

Countless features at your fingertips

Steering-wheel Touch Control Buttons place navigation,¹⁴ audio, driver-assist and cabin settings at your thumbs. The console touchpad lets you pinch to zoom in on a map display, or input an address by handwriting. You can also control features—even comfort settings—by voice.

Vividly informed, brilliantly entertained

A 12.3" digital instrument cluster* with reconfigurable displays complements the vivid 12.3" central screen. Burmester,[®] one of Germany's most respected names in high-end home audio, has created a surround sound system with a 10-channel digital amp. Exquisite metal grilles help its 15 speakers delight your ears and eyes.

The beauty of a G-Class has always come from its functionality. Its digital cockpit has raised both to soaring new pinnacles.

Technology highlights

12.3" central display for COMAND[®] navigation/audio, console touchpad controller, steering-wheel Touch Control Buttons, and voice control

12.3" digital instrument cluster*

Apple CarPlay[™] and Android Auto¹⁵

Bluetooth[®] audio streaming, HD Radio[®] stations, SiriusXM,^{®16} and global TuneIn Radio^{®4}

Burmester[®] Surround Sound

Rear Seat Entertainment system*

Mercedes me connect in-car WiFi⁴

*Optional on one or more models. Please see back of brochure.

other cabin elements; Seat Comfort Package

Create a G that's totally you.

Every G-Class starts out so generously equipped that it might be hard to imagine there are any options. But an extensive menu of personalization items lets you tailor your G-Class in a way that's a perfect match for your life, your style, and your dreams. Along with thoughtfully curated option packages—like the selection shown here—there is a wide selection of individual options and Genuine Mercedes-Benz Accessories that help you create a handcrafted original from over a million possible configuration combinations.

Package contents and standard equipment vary by model. Turn to page 25 or visit MBUSA.com/G for details.

Other packages and options

AMG Line exterior and interior styling (G 550)
Adaptive suspension (G 550)
Roof in Obsidian Black
Spare tire ring in Obsidian Black or vehicle color
Two-tone Nappa leather-trimmed dashboard
Wood/leather or two-tone steering wheel (G 550)
Heated steering wheel
12.3" digital instrument cluster (standard on G 63)
All-season floor mats
Rear Seat Entertainment system
AMG Trail Package (G 63)
Increased top speed (G 63)
Silver brake calipers (G 63)
AMG carbon fiber engine cover (G 63)
AMG Performance steering wheels (G 63)

There might be no other vehicle in production that combines the individual attention to detail that comes from handcraftsmanship, with so many details you can tailor to express your own individuality.

Please see endnotes at back of brochure.

G 550

416-hp V8 biturbo engine,
all-wheel drive

LEFT: Jade Green metallic
19" twin 5-spoke wheels

RIGHT: *G manufaktur* Jupiter Red
20" AMG® multispoke wheels
AMG Line
Night Package Plus

Deep torque over a wide range

An advanced 416-hp 4.0L V8 rushes the G 550 from 0 to 60 in just 5.6 seconds.¹⁷ Its two turbos, located to minimize lag and losses, help put all 450 lb-ft of torque on tap across a 2,000–4,750-rpm plateau. A paddle-shifted 9-speed plus a 2-speed transfer case maximize flexibility, from crawling to cruising.

Differentials make the difference

A G-Class hallmark, its three differentials—front, center and rear—can be locked sequentially via dashboard buttons as you venture deeper into the rough.² On the road, the permanent all-wheel drive and 4-wheel Electronic Traction System (4-ETS) can adapt to traction at each wheel to turn grip into go.

Defined by its finest details

Styling options let you fine-tune the iconic design of your G 550. Start by adding the wider fender flares and deeper bumpers of the AMG Line. To that, add the black accents of the Night Package. Go further with the black roof, bumpers and flares of the Night Package Plus. Individual elements are available, too.

Refined even in its largest elements

Seven choices in wheels—in 19" and 20" sizes—are available individually and with the styling packages. For more dedicated off-roaders, you can also opt for 18" wheels with higher-profile, all-terrain tires.³

Does any SUV have such a storied history, so rich in journeys that it's bravely embarked upon—and faithfully returned from? Yet even as a legend, the G has never lived in the past. What's next for yours?

FIRST-CLASS, WORLD, AND

TIME TRAVELER

The G 550 SUV

When Mercedes-Benz set out to create a vehicle pairing capability with civility like never before, they really had no idea how far it would go. Sure, they developed it to go great distances, climb grand peaks, cross broad deserts, and endure wide extremes of temperature, altitude and even population. But did they foresee the G-Class would remain relevant, much less thriving, more than 40 years in the future? No matter where it has gone so far, the G continues to venture anew, to explore new destinations, and discover new places deep within its owners' hearts.

While its technology had always evolved, the G recently underwent a dramatic revolution. More spacious though more aerodynamic, and more advanced yet still crafted by hand, the latest G 550 carries over only four items from before: The spare tire ring. Its headlamp washer nozzles. The latches that create the beloved vaultlike click as you shut a door. And a reputation earned on seven continents. From the Red Sea to Hollywood's red carpet, a G 550 has its own special way of taking you wherever your dreams lead, taking you back home, and taking change in stride.

FOR ALL THE GLOBE'S **CORNERS**

Flat-out fast, surprisingly well-rounded

When a legacy of handcrafted performance meets a legend of hand-built endurance, the result turns dichotomy into harmony like no other SUV. The AMG G63 is track-tuned yet trail-proven. Confident in corners, or any corner of the earth. Extraordinarily rugged yet exquisitely finished. An upper strut brace stiffens its double-wishbone front suspension. All-wheel drive with a 60% rear bias feels sportier. Yet its AMG DYNAMIC SELECT driving modes include Sand and Rock, and you can add a new AMG Trail Package.² Two legacies join hands, to put the world at your feet.

AMG G63 highlights

Handcrafted AMG 4.0L V8 biturbo engine: 577 hp, 627 lb-ft of torque

AMG SPEEDSHIFT[®] TCT 9-speed; permanent all-wheel drive w/2-speed transfer case; 3 lockable differentials¹

AMG RIDE CONTROL suspension, 20" to 22" wheels³ (six options)

AMG DYNAMIC SELECT drive modes

AMG Performance sidepipe exhaust

AMG Performance steering wheel with AMG DRIVE UNIT controls

Its engine was born on the track. The rest was raised far from every beaten track on earth. The result is a performance SUV crafted by hand to put the world at your feet.

Please see endnotes at back of brochure.

THE DIFFERENCE IS IN EVERY EXPERIENCE

The moment you take delivery of your new Mercedes-Benz, it starts to deliver for you. The joys of driving are engineered to excite and endure. Its progressive technology is designed to keep you connected now, and at the forefront of a changing world. And the people who stand behind your Mercedes-Benz are devoted to earning their Star, and your trust.

Daily commute or roadtrip, thoughtful technology helps make any journey a joy.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you.⁴ And all of them collaborate to help keep you on track, on time, and feeling you're on top of your real world.

- You can remote-start your car, locate where it's parked, configure vehicle settings from your phone, and more.
- You can look up destinations on your phone and send them to the COMAND[®] navigation system in your car.
- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

Your car's navigation map database and some vehicle operating software can be updated in your driveway, over the air, with no need to bring it to the dealership.

Wherever you drive, there's a team of supportive people looking out for you.

Mercedes-Benz was the first automaker to introduce its own **Roadside Assistance Program** in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.²²

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.
- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.
- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Mercedes me Concierge can fulfill a range of requests like hotel and restaurant reservations for a monthly fee.

- They can look up a destination or point of interest for you, then download it right to your car's navigation.
- They can give turn-by-turn directions as you drive.

Your Mercedes-Benz experience should always feel special.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you're part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.
- From the **AMG Lounge** to **#MBPhotoPass** on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- *Mercedes me* lets your car communicate its service needs to your preferred dealer.
- Your dealer can reach out to you to book an appointment or offer drive-in service.

ENDNOTES

- * Item is optional or not available on some models. See Packages and Options listing in this brochure or visit MBUSA.com for more information.
- 1 ESP, 4-ETS, ABS, Brake Assist and Trailer Stability Assist do not operate when the differential locks are engaged. Locked differentials will limit steering ability.
- 2 Off-road driving should only be attempted by drivers with the necessary skill, experience and understanding of the vehicle's limits. Read Operator's Manual before driving off-road or in deep water.
- 3 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. All-terrain tires may provide increased noise and reduced ride comfort compared to all-season tires.
- 4 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect assist* services, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with COMAND[®] navigation also include 3 years of over-the-air map updates (up to twice per year), 3 years of live traffic information provided by HERE Technologies, 1 year of Concierge Service, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me connect* Mobile App is compatible with Apple iPhone[®] models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.
- 5 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at MBUSA.com, and in the vehicle's Operator's Manual. Some systems may be optional.
- 6 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.
- 7 PRE-SAFE[®] closes the side windows when the system's sensors detect side movements that suggest a possible rollover or side impact. A small gap is left near the fully closed position. Audio/multimedia system must be turned on for PRE-SAFE Sound to operate.
- 8 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST[™] is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.
- 9 Blind Spot Assist is a warning system only. It may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
- 10 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
- 11 Active Distance Assist DISTRONIC[®] is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system operating speeds and additional information and warnings.
- 12 Speed Limit Assist does not adjust vehicle speed, and is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 13 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips and warnings.
- 14 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area, may require periodic updating, and may not reflect recent or temporary changes to roadways.
- 15 Apple CarPlay[™] is a product of Apple Inc. Android Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri[®] or Google voice recognition software for voice commands.
- 16 The purchase of a new, SiriusXM[®]-equipped vehicle includes a 6-month introductory subscription to the SiriusXM All Access package. Eligible pre-owned vehicles equipped with SiriusXM will receive a 3-month trial subscription to SiriusXM All Access package. Trial length and service availability may vary by model, model year or trim. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- 17 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 18 Read Operator's Manual before towing. In some states, aftermarket trailer brakes are required. See dealer for details.
- 19 Unsecured cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.
- 20 Obey local speed and traffic laws.
- 21 Not available with Black, Magnetite Black, Obsidian Black, *designo* Mocha Black, *designo* Platinum Black, or *designo* and G *manufaktur* Magno paintwork.
- 22 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.

Committed to Community

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders. To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow. *Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community*

A nationwide network of youth sports programs, Laureus Sport for Good USA is focused on improving the health, education, employment and social cohesion of youth in underserved communities. Since 2012, Laureus USA has helped nearly half a million young people in 150 cities. *To learn more, visit laureususa.com*

JOHNNY MAC SOLDIERS FUND

Johnny Mac Soldiers Fund helps honor military service and sacrifice by providing scholarships to veterans and military family members—particularly the children of our nation's fallen and disabled. Since 2014, Johnny Mac has awarded \$12 million in scholarships to more than 1,000 students. *To learn more, visit johnnymac.org*
