For your security an available Remote Keyless Entry includes two remote transmitters that allow you to unlock or lock all doors and open the trunk from up to 33 feet away. A panic button will sound the horn and flash exterior lights when engaged.

Include intermittent wipers for optimal visibility from a light downpour.

Wipers help clear fog in cold or rainy weather. Side mirrors help clear heated or cooled air over the side windows.

Brake shift interlock prevents shifting the transmission out of park unless the brake pedal is depressed.

Front air bags provide protection in moderate-to-severe crashes. Side air bags provide protection for the driver and front passenger. (Always wear your seat belt.)

Front safety belts move with the seat, providing proper belt placement regardless of seat position.

Seat belt grabber is designed to hold the seat belt during an emergency braking to prevent seat belt slippage.

All five seating positions in Mystique incorporate a specially designed seat to help prevent occupants from sliding forward under safety belts in a frontal collision.

Side-impact beams are located on each door for added protection. For extra protection, side-impact trim safety beams are also included.

Uniquely designed cowl-top grille and "A" pillar water channel moldings improve visibility by helping keep water displaced by the wipers from spreading over the windshield and side glass.

When activated, child-proof safety locks keep children in the rear seat from opening doors from inside the car while parents can still open doors from the outside.

Mystique's rigid body structure

An electronic AM/FM stereo radio with cassette player (not shown) is standard on LS and available on GS models. This system can be upgraded to a Premium Sound system with 80 watts of power and premium speakers. Also available is an electronic AM/FM radio with CD player and Premium Sound that includes a scan feature (top). For cassette and CD capability, a dealer-installed CD player (bottom) can be added to the electronic AM/FM stereo cassette radio with Premium Sound.

Invite the sun, the moon and fresh air along for the ride. The power moonroof opens and closes at the touch of an overhead tactile switch.

Controls for the 10-way power driver's seat are conveniently located on the side of the seat and adjust for fore/aft, recline, tilt/height. They also provide lumbar support, making it easy to find your desired level of comfort. (Standard on LS)

This optional air-conditioning system helps you keep your cool and operates free of ozone-depleting CFCs.

An optional power antenna automatically retracts when the sound system is not in use. (Standard on LS)

With its aerodynamic design, a rear spoiler gives Mystique a sleek, sporty look. It's available as a stand-alone option or as part of the Sport Appearance Package.

A sporty Spree Edition Mystique is available. It includes 15-inch tires with alloy wheels, unique interior trim, leather-wrapped steering wheel and shifter, fog lamps and special floor mats. A spoiler can also be added to your Spree.
