

MERCURY

MYSTIQUE

1

Hey, it's just flat-out fun to drive.

Experience the road in a whole
way — from behind the wheel.

Mercury Mystique. Because the
designed to bring out the driver.

So you'll feel a charge of adrenalin
you approach a stretch of open

Sharp curves will delight you. You
look forward to zipping through

gears. And you'll do all this in a
that has as much style and inde

ty as you do. No wonder Mystique
been named an *Automobile M*

All Star four years in a row.

The rush starts here.

There you are, settled comfortably

behind the wheel of your Mystique.

One hand on the stick. The other grips

the steering wheel. At your side is a

console with a couple of your favorite

CDs and an ice cold soda. On the dash

is a full array of brightly lit instrumen-

tion. All your controls are within easy

reach. You flip on the air, ease into first

gear and brace yourself for a great big

ear-to-ear grin.

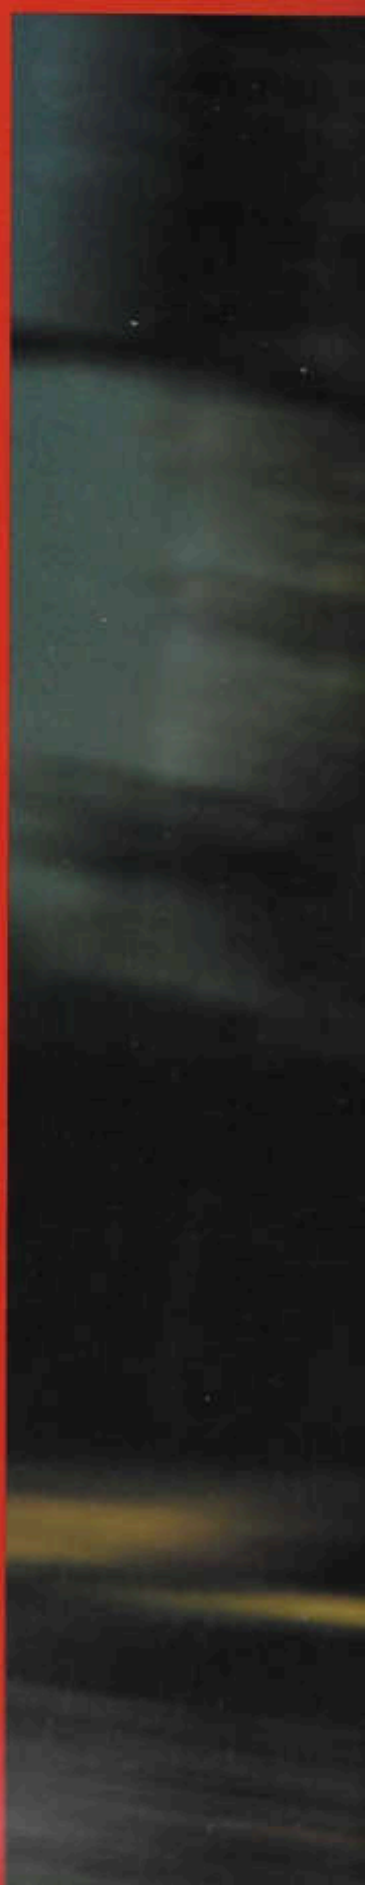

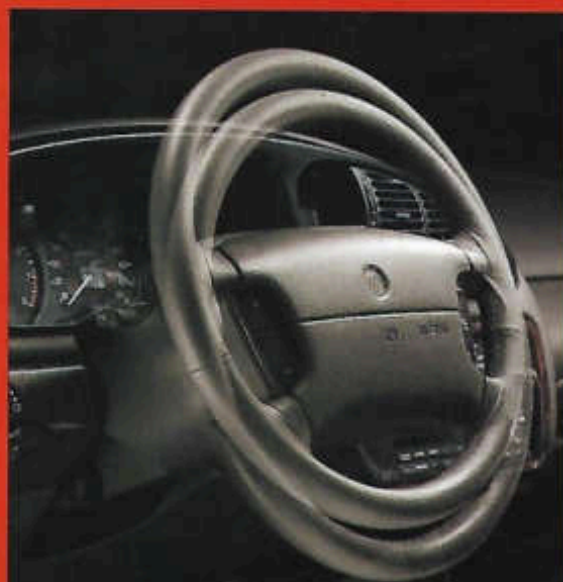

Load'er up? We already d

If you're serious about driving, a tilt steering wheel just makes sense. It comes standard on Mystique and adjusts easily to fit you perfectly. Now you're even more comfortable taking those sharp curves aggressively.

Mystique LS comes with a standard fold-down rear armrest.* It's just one more little touch adding to your comfort.

Need to haul extra long loads like skis or other sports equipment? No need to strap it to the roof. Mystique can easily accommodate you with its 60/40 split-fold rear seat.*

Everyone needs their space. That's why a front center console provides convenient storage. Put your CDs or cassette tapes in here. The two integrated cup holders are handy when you want to sip on something

What makes Myrtique such a blast to drive? No doubt it's the extraordinarily quick 170-hp DOHC Duratec V-6 engine, which is standard on Myrtique LS. GS models come with an equally impressive 16-valve, DOHC Zeta 4-cylinder engine. Adding to your driving excitement is a standard 5-speed manual, designed to fly through the gears. So grab onto the wheel and prepare for a thrill. You'll appreciate the power-assisted rack-and-pinion steering, especially when you're trying to squeeze into those tight parking spots. It makes twisty, windy roads fun, too! MacPherson strut front suspension and Quadralink rear suspension provide stability and handling responsiveness.

the Keyless Entry system (standard

available on GS) lets you lock and

unlock the trunk from

A panic button is also

drive when you can drive with

the music? Equip your Mystique

with a 6-disc CD changer and

so that you always have great

wear your safety belt and please secure

children in the rear seat.)

Available All-Speed Traction Control

(requires ABS) on LS models helps prevent

your wheels from spinning on most

road surfaces. Isn't it nice being in control

Let's say you're driving along and something

unexpected happens in front of you. The

available ABS brakes help provide superior

stops and greater steering control during

emergency stopping on most road surfaces.

A number of dealer-installed accessories

are available for your Mystique. These include

trunk organizer which keeps packages

groceries from sliding around.

If you're really into sports, you'll want a

bike rack, ski rack or a snowboard rack.

There are all kinds of other accessories
