

MINI ELECTRIC

**THE NEW MINI COUNTRYMAN  
PLUG-IN HYBRID.**

# POWERFULLY VERSATILE.

Introducing the first hybrid vehicle from MINI. The New MINI Countryman Plug-In Hybrid combines gas practicality with electric efficiency in a fun-to-drive package. It's super convenient: there is nothing to install at home and plugging it in is not a necessity. The most technologically advanced MINI ever, this newly designed Countryman is packed with standard equipment — ALL4 all-wheel drive, a panorama sunroof, MINI Connected with 6.5" screen, Comfort Access keyless entry, LED headlights and fog lights, and much more.

## GAS AND ELECTRIC. BETTER TOGETHER.

You knew your MINI was smart. But it's intelligent engine management system? Brilliant. The New MINI Countryman Plug-In Hybrid seamlessly manages power from a paired TwinPower Turbo gas engine and eDrive Electric Motor delivering an impressive 221 total horsepower — that's more than the Cooper S. Choose from three operating modes to optimize your ride based on speed, driving conditions and distance. Whether your driving gasoline-powered or full electric, the ride is always pure MINI.

## MINI COOPER S E COUNTRYMAN ALL4

|                               |   |                 |
|-------------------------------|---|-----------------|
| <b>Engine</b>                 | Inline 3-cylinder with TwinPower Turbo technology, turbocharged and direct injected (134 hp); eDrive Electric Motor (87 hp) |                 |
| Horsepower                    | hp  | 134             |
| Battery Type/Net Capacity kWh | Lithium Ion/7.6   |                 |
