

2017 MIRAGE | MIRAGE G4

FUN IS RIGHT AROUND THE CORNER. AND THE NEXT ONE.

For some, living a big life is as simple as having the freedom to hit the open road at a moment's notice. Meet the 2017 Mirage and its all-new sibling the Mirage G4 sedan — two subcompact models designed for people who have an eager sense of adventure. To begin with, both offer the top fuel-efficiency ratings in their respective classes, so even the most inspired road trip destinations are within reach. Inside, they're loaded with versatility and the kind of high-tech features you want when you're checking places off your bucket list. And at such affordable prices — while being backed by one of the industry's leading powertrain warranties — they're two of the best values on the market today. The Mirage and Mirage G4. Time to take small seriously.

[FIND YOUR OWN LANE.](#) MITSUBISHICARS.COM

THE 2017 MIRAGE G4

The all-new Mirage G4 is a subcompact four-door sedan designed for free-spirited drivers who are also environmentally conscientious. With comfortable seating for five, it offers not only one of the best fuel economy ratings in its class, but also one of the the best CO₂ emissions ratings.¹ And equipped with such forward-looking features as Display Audio with Smartphone Link, the Mirage G4 is as ready for fun as you are.

MIRAGE G4 DESIGN

Along with its many high-tech features, the Mirage G4 also provides a host of “high-touch” features, such as a leather wrapped steering wheel, ergonomically designed driver controls, and a rear seat center armrest with two cup holders. In addition to tactile features, you’ll appreciate its many visual details, such as the high-gloss piano black trim elements throughout the interior and the available 15-in. dark chrome alloy wheels.

FILL WITH FRIENDS

While it may be a subcompact car, the all-new Mirage G4 has ample interior space for five grown adults. In fact, you and your friends will enjoy a full 101.8 cubic feet of interior space. And if the five of you are going out of town, you’ll also find plenty of room in the trunk for all your luggage.

CLASS-LEADING LEGROOM

The Mirage G4 doesn’t just accommodate five adults; it does so with class-leading legroom. And it leads the class not only in total legroom, but also in that often neglected category, rear seat legroom.

AUTO DIMMING REARVIEW MIRROR WITH HOMELINK™

Mirage G4 offers an available rearview mirror that helps ease eyestrain by dimming automatically when headlamp glare is detected. Its HomeLink™ system allows you to activate certain home features such as lights, garage doors or gates, and security systems from the comfort of your vehicle.

CLASS-LEADING CURB WEIGHT

Weighing in at a trim 2,172 lbs., the Mirage G4 ES CVT is literally hundreds of pounds lighter than all other vehicles in its class. That significant weight advantage is one reason it also leads the class in fuel efficiency.

THE 2017 MIRAGE

While it's true, the 2017 Mirage was engineered to be efficient; above all it was designed to be fun. Its subcompact size and class-leading turning radius make it ideally suited for exploring the bustling city. You'll look good doing it too, as Mirage's exterior styling, both front and rear, has been freshly enhanced. It's also available with new 15-in. two-tone alloy wheels. And with its class-leading mileage rating, Mirage makes it easy — and practical — to take your fun out onto the open road.

MIRAGE DESIGN

Inside and out, the 2017 Mirage offers bold and energetic styling. Boasting an entirely new and distinctive front-end design, as well as a new rear bumper and LED taillights, Mirage makes a sharp impression from any angle. But it's not all about appearances. Inside, there's ample interior space and versatility to bring along your friends or your stuff — or both. And with eight expressive exterior colors to choose from, Mirage's playful intentions are easy to see.

STANDARD LED TAILLIGHTS

Standard equipment for 2017, Mirage's new LED Taillights not only look sharp, they also light up faster, are more visible both day and night, and they last longer than their conventional counterparts.

AVAILABLE HID HEADLIGHTS

Mirage's available Bi-xenon HID (High-Intensity Discharge) headlights with light tube produce more illumination per unit of electrical power than conventional lamps because a greater proportion of their output is in the visible light spectrum, rather than the infrared light spectrum.

Mirage SE in Infra Red

60/40-SPLIT FOLDING REAR SEAT

Mirage's folding rear seat helps you take full advantage of its interior space, allowing you to carry large or oddly shaped items in the back. Items like, say, a mountain bike or a Great Dane.

AVAILABLE ALLOY WHEELS

Also new for 2017 are freshly styled 14- and 15-inch alloy wheels. With their taller profile, the 15-inch wheels allow for a shorter tire sidewall, which can help minimize side-to-side flex when turning corners. And sporting a sharp two-tone finish, they also excel at turning heads.

MIRAGE G4 | MIRAGE TECHNOLOGY

Who says an affordable subcompact car can't offer hospitable appointments? Certainly not our engineers. With an impressive list of high-tech features, both the Mirage G4 and Mirage offer remarkable value at a very appealing price point.

DISPLAY AUDIO WITH SMARTPHONE LINK

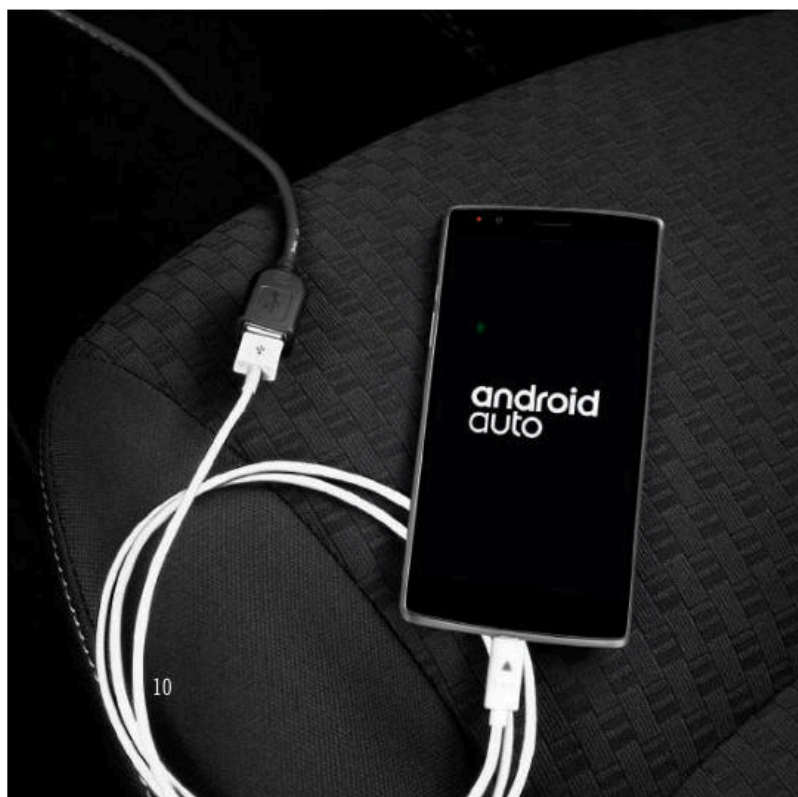

With all the communication and entertainment options offered by our smartphones these days, we can sometimes get distracted while driving. Our available Display Audio with Smartphone Link offers a smarter and safer way to use your smartphone in your car. This advanced feature supports Apple CarPlay[®] and lets you access Apple Music,[™] Maps, make phone calls, and send messages all through the touchscreen, or with your voice using Siri.² The system also supports Android Auto.[™] Simply long press the Push To Talk button to talk to Google and access all the most commonly used features on the Android[™] platform, such as Google Play[™] Music, Google Maps,[™] and Hangouts.^{™3}

USB CONNECTIVITY

If you're like most, you appreciate the right driving soundtrack when you hit the highway. A standard USB port lets you plug in your iPod[®] or other compatible MP3 devices and enjoy access to your library of road trip tunes.⁴

FAST-KEY SYSTEM

An available FAST-Key (Freehand Advanced Security Transmitter) feature lets you not only unlock the front door with the keys in your pocket or purse, but also start the engine with the push of a button.

Mirage G4 SE in Infra Red

MIRAGE G4 | MIRAGE TECHNOLOGY

From high-tech features like hands-free capability to convenient touches like the FAST-Key, the Mirage G4 and Mirage are some of the most thoughtfully equipped vehicles in their respective classes.

AUTOMATIC CLIMATE CONTROL

This available feature helps keep the cabin comfy by automatically monitoring the temperature and fan speed, as well as the air source.

BLUETOOTH TECHNOLOGY

To help you concentrate on the road ahead, available Bluetooth technology allows you to play music from your Bluetooth-enabled phone, iPod® or other MP3 player and USB devices, hands-free.^{4,5}

PUSH BUTTON START

Operating in conjunction with the available FAST-Key system, this convenient feature allows you to start the engine with the keys tucked safely in your pocket or purse.

MIRAGE G4 | MIRAGE ECOLOGY

The all-new Mirage G4 and Mirage enter the 2017 field of subcompact cars with admirably high marks for eco-friendliness. With its combination of high-efficiency powertrain, lightweight body, and streamlined shape, Mirage was able to achieve both the best fuel economy rating in its class, as well as the best CO₂ emissions rating.¹

CONTINUOUSLY VARIABLE TRANSMISSION

Offering both improved performance and enhanced fuel economy, our Continuously Variable Transmission (CVT) is one of the smoothest drivetrains ever developed. It operates on a pulley system, allowing infinite variability between the highest and lowest ratios. Instead of shifting gears, it adapts to changing vehicle speeds and helps keep the engine operating efficiently.

1.2-LITER ENGINE

A peppy 1.2-liter 3-cylinder DOHC engine delivers a balanced 78 horsepower and 74 lb.-ft. of torque. Coupled with either an easy shifting 5-speed manual transmission or an available CVT, this compact power plant provides smooth and efficient power.

Mirage GT in Sunrise Orange

MITSUBISHI INNOVATIVE VALVE TIMING ELECTRONIC CONTROL

The latest generation of Mitsubishi Innovative Valve timing Electronic Control (MIVEC) is an advanced variable valve-timing system that helps maximize fuel efficiency, while minimizing smog-forming exhaust emissions.

TIRE PRESSURE MONITORING SYSTEM

Maintaining proper tire pressure is not only important for safe driving, but also helps your vehicle achieve its best fuel efficiency. The Tire Pressure Monitoring System (TPMS) evaluates the pressure of each tire and issues a warning if the level becomes critically low.

MIRAGE G4 | MIRAGE **ECOLOGY**

Enjoy hybrid performance without the hybrid price. By reducing vehicle weight and optimizing aerodynamics, our engineers have succeeded in decreasing moving resistance and enhancing fuel-efficiency, without having to employ expensive hybrid components. In fact, the 2017 Mirage G4 achieves a combined mileage rating of 37 mpg. And Mirage is the most fuel-efficient non-hybrid car in America with a combined mileage rating of 39 mpg. What's more, its CO₂ emissions rating leads the class, as well.¹

LESS SLOW EQUALS MORE GO

Don't let a blustery thing like wind slow you down. With the help of computer-aided design software, our designers are able to optimize aerodynamic shapes so that they cut easily through the atmosphere. In fact, at our wind tunnel test facility, Mirage achieved a 0.28 coefficient of drag.

ELECTRIC POWER STEERING

Electric Power Steering not only ensures predictable steering, but also improves your gas mileage. Without the burden of a belt-driven hydraulic pump, the engine runs more efficiently. Whether you're parking or traveling at freeway speed, the system offers an agreeable steering experience.

STANDARD REAR SPOILER

Sure, Mirage's rear spoiler looks cool, but it also genuinely enhances aerodynamic performance by reducing air turbulence behind the vehicle.

STREET SMARTS

To help provide you with driving data at a glance, the Mirage family offers an available semi-high contrast meter cluster with sleek chrome accents.

MIRAGE G4 | MIRAGE SAFETY

Your well-being is always top of mind with our engineers. That's why the Mirage G4 and Mirage are so big on safety. We believe the unexpected should never catch you unprepared.

REINFORCED IMPACT SAFETY EVOLUTION BODY

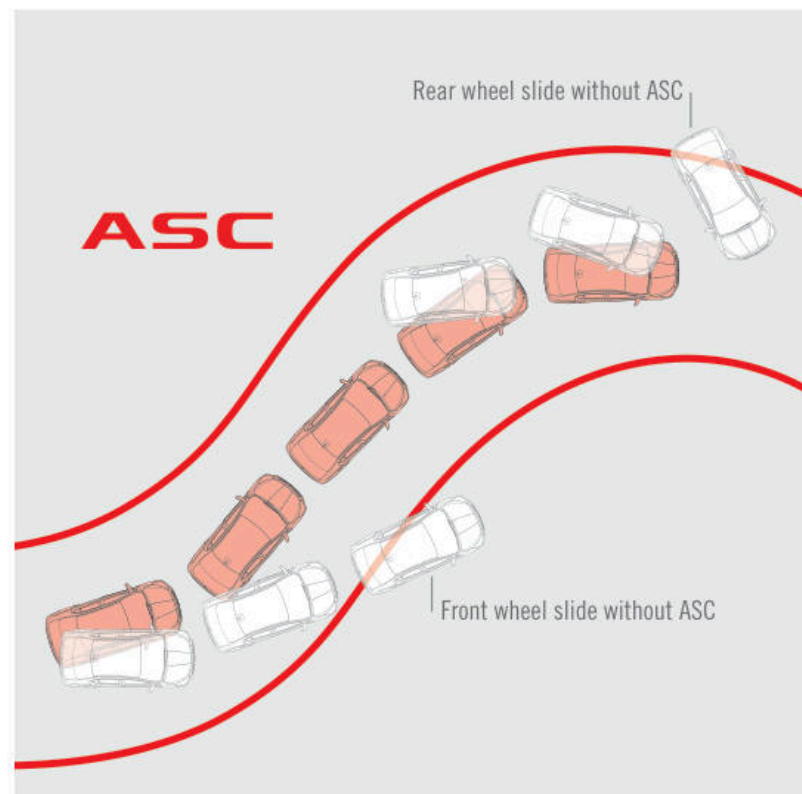

Engineered for maximum protection in the event of a collision, our vehicle bodies employ Reinforced Impact Safety Evolution (RISE) engineering and combine energy-absorbing front and rear structures with a super-rigid occupant cell, along with reinforcing bars in the doors and energy-absorbing materials in the side pillars and roof rails.

AVAILABLE REARVIEW CAMERA

So you won't back into any surprises, an available rearview camera displays on the audio screen an image of the area directly behind the vehicle.

ACTIVE STABILITY CONTROL AND TRACTION CONTROL

Active Stability Control (ASC) with Traction Control Logic (TCL) helps drivers maintain control in adverse driving conditions and during emergency maneuvers. Sensors monitor traction and activate the anti-lock braking system when it detects skidding or a loss of traction. By applying the brakes on specific wheels, the system helps the vehicle track in the driver's intended direction.

SEVEN STANDARD AIRBAGS

The Mirage family features a standard Supplemental Restraint System (SRS) that provides seven airbags, including dual-stage front airbags with a seat position sensor, front side-impact airbags, 1st- and 2nd-row side-impact curtain airbags, and a driver's knee airbag.⁶

HILL START ASSIST

When accelerating from a standstill on a steep incline, Hill Start Assist helps prevent the vehicle from rolling backward. This standard feature, when activated, holds the brakes for approximately two seconds to give you time to move your foot from the brake pedal to the accelerator.

WORLD-CLASS WARRANTIES

What we build, we stand behind. Period. Our vehicles are backed with a 10-year/100,000-mile Powertrain Limited Warranty, a 5-year/60,000-mile fully transferable New Vehicle Limited Warranty, a 7-year/100,000-mile Anti-Corrosion/Perforation Limited Warranty and 5-year/Unlimited Miles Roadside Assistance. These are some of the most comprehensive warranties in the industry. Like our cars, we intend to serve you well for many years to come.

The 10-year/100,000-mile Powertrain Limited Warranty applies only to the original owner of new, retailled 2017 models purchased from an authorized Mitsubishi dealer. Subsequent owners receive the balance of the New Vehicle Limited Warranty of 5 years/60,000 miles. Different coverage applies to the Mitsubishi i-MiEV. The Mitsubishi i-MiEV has a 3-year/36,000-mile coverage for New Vehicles and 5-year/60,000-mile coverage for Powertrain Limited Warranty.	
Technical data, equipment and options shown are based on the latest information available at the time of printing and are subject to change without notice. Colors may vary due to the printing process. Exterior and interior lights on vehicles shown may be illuminated for illustration purposes only. Vehicles are shown with optional equipment. Not all equipment is available on every model. For more complete details about equipment configuration and Mitsubishi Genuine Accessories, please contact your Mitsubishi Retailer.	

FIND YOUR OWN LANE

At Mitsubishi Motors, we believe not all drivers are created equal. So we build our vehicles for a different breed of driver, the fearless ones who take pride in what they drive, and refuse to drive more of the same. It's obvious to us that people who truly want distinctive styling and the latest technology see past the procession of bland imitations. We believe that every vehicle we make should stand for something. Something more than expected. And that's why we don't build Mitsubishi cars for stereotypes. We build them for you.
