EFFORTLESS HANDLING

The 2024 Outlander is a result of countless hours of engineering expertise. The platform and suspension allow for effortless handling, creating a smoother ride for everyone. It's 2.5-liter 4-cylinder engine delivers enhanced horsepower and torque distribution to give you seamless acceleration. Add the increased comfort and control that come with Electric Power Steering that adjusts in different drive modes, and the line starts to blur between where you end and the Outlander begins. By incorporating the latest technologies, like direct injection, an electrically operated valve timing control system, cooled exhaust gas recirculation, and mirror bore coating, the Outlander's engine balances fuel economy with acceleration performance.

FUEL-EFFICIENT DRIVING

The Outlander boasts an impressive combined rating of 27 MPG¹ but did you know it can take fuel economy even further? Made for environmentally-conscious and fuel-efficient driving, activate the Outlander's Eco Mode to reduce energy consumption and enjoy a cleaner ride.

SUPER ALL-WHEEL CONTROL (S-AWC)

Perfected after decades of being put to the test on the rally course, Mitsubishi's available, signature Super All-Wheel Control (S-AWC) system is the evolution of 4WD technology. S-AWC improves handling and stability by seamlessly managing the Outlander's movements during accelerating, cornering, and braking while keeping you comfortable and confident behind the wheel. The Outlander's Drive Mode Selector adapts to different terrain and weather conditions with the simple turn of a dial. By choosing between five drive modes - eco, normal, tarmac, gravel, and snow - you can optimize driver control for a variety of surfaces and situations. Plus, each mode stays in sync with your unique driving style so that you can take command of any road, anywhere.

DRIVING

ADVANCED DRIVER ASSISTANCE

Standard feature. Equipped with multiple standard Advanced Driver Assistance Systems², the 2024 Outlander features advanced safety technology. This can be seen in features like Blind Spot Warning³, which monitors vehicles approaching your blind spot and notifies you with a light in the corresponding side mirror. If your turning signal goes on, the light flashes and a warning sounds. Should you then try to change lanes, available Blind Spot Warning with Lane Change Assist³ will apply the brakes, helping to avoid potential collisions.

COLLISION MITIGATION

Forward Collision Mitigation with Pedestrian Detection⁴ monitors for obstacles in front of your vehicle and applies the brake to help avoid a potential collision. And, thanks to Rear Cross Traffic Alert and Rear Automatic Emergency Braking³, the Outlander covers your back too. Rear sensors detect nearby objects and sound an alert if objects are detected.

MI-PILOT

Available MI-PILOT Assist⁵ is an advanced technological solution that helps reduce the stress out of driving. Combining Adaptive Cruise Control⁶, with Lane Keep Assist⁵ and Embedded Navigation⁵, this driver-assist system helps you stay centered on the road. MI-PILOT Assist includes features that can adjust steering input, reduce speed to safely navigate curves and keep pace in stop-and-go traffic. That means you can enjoy longer and safer road trips without tiring out.

MULTI-VIEW CAMERA SYSTEM

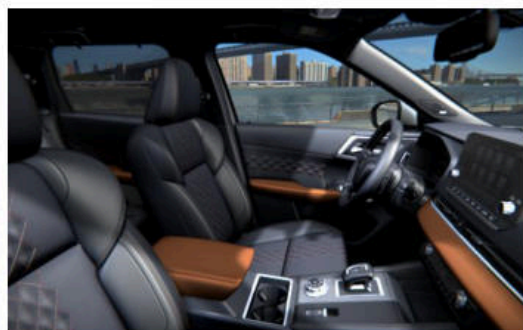

The Outlander's available Multi-View Camera System⁷ helps you confidently maneuver tight corners and navigate parking lots. Using cameras mounted on the front, rear and side of the vehicle to create a composite image, the system creates a 360 degree view of your surroundings. With a better parking vantage point, getting around hard-to-see areas becomes a lot more convenient.

INTERIOR

INSIDE YOUR OUTLANDER

Seating preferences that are right every time. With eight available, unique power seating adjustment options, the mirrors, digital cluster settings, and leather or semi-aniline leather cushions all adjust to suit the driver's body for a perfect, custom fit. And don't forget: there's an available memory seat function key-linked to each driver.

7 SEATS

Start sharing your adventures with more people. Boasting standard third-row seating for up to seven, the 2024 Outlander is the perfect road trip vehicle with plenty of versatile room for everyone – and their luggage!

REDUCED NOISE AND VIBRATION

Enjoy the music from your playlist without the distracting bumps and jumps of the road. The 2024 Outlander's double-pane front windows and windshield help reduce noise and vibration, helping make everyone's ride smooth and relaxing.

MY MITSUBISHI CONNECT™⁸

An innovative host of services designed to give you a more comfortable and safe driving experience. Safety services like Automatic Collision Notification, SOS Emergency Assistance, and Roadside Assistance⁹ keep you connected when it matters most, while convenience services like Smart Remote Start, Parental Control, and Car Finder help to reduce stress by simplifying your day-to-day drive. Plus, with available myQ[®]¹⁰ Connected Garage, the in-dash touchscreen control lets you open/close your garage door from anywhere.

TRIPLE-ZONE CLIMATE CONTROL

Debates over the perfect temperature are a thing of the past. Available Triple-Zone Climate Control gives the driver, passenger, and rear passengers separate control over their own comfort zone.

CARGO CAPACITY

Fold down the third row and the 2024 Outlander offers 30.6 cubic feet of cargo space. The extended door frame widths make loading and unloading a breeze, and the space itself is customizable, so you can organize your cargo how you like.

THEATER-LIKE SOUND

With built-in theater-like sound from the available Bose[®] sound system, Android Auto™¹¹ connectivity, and available wireless Apple CarPlay[®]¹², the 2024 Outlander is an awesome extension of your smartphone. And as if that weren't enough, thoughtful features like the available Head-Up Display¹³ and even a Digital Assistant mean that you sit back and really enjoy the show.

Computer renderings depicted. Actual production model may vary. Optional features shown. Available at additional cost. Information accurate at time brochure is generated but is subject to change. Visit mitsubishicars.com or see your local Mitsubishi Motors dealer for complete details.

1 2024 EPA Fuel Economy Estimates: 24 City/31 Highway/27 Combined for Outlander ES, SE, SEL 2WD, 24 City/30 Highway/26 Combined for Outlander ES, SE & SEL S-AWC. Actual mileage may vary with driving conditions. Use for comparison only.

2 Advanced Driver Assist Systems are driver aids only and are not substitutes for safe and careful driving. Under certain circumstances, these systems may not sound an alert, provide steering input, or apply braking. The driver must remain engaged with the driving task and monitor the environment at all times. See Owner's Manual for further information.

3 Available feature. The Blind Spot Warning (BSW) system, Rear Automatic Emergency Braking (Rear AEB) and Driver Attention Alert systems are driver aids only and are not substitutes for safe and careful driving. Under certain circumstances, these systems may not detect other vehicles, pedestrians, or objects correctly. Availability of advanced safety features varies by model, see dealer for details.

4 The Forward Collision Mitigation (FCM)/Pedestrian (PD) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, the system may not detect other vehicles and/or pedestrians correctly.

5 MI-PILOT Assist™ is a driver assistance system only and is not a substitute for safe and careful driving. The driver must remain engaged with the driving task and monitor the environment at all times.

6 Available feature. The Adaptive Stability Control system is not a collision avoidance system or an automatic driving system. It is designed to use only limited braking and is never a substitute for safe and careful driving. Never rely solely on the Adaptive Stability Control system.

7 The Multi-View Camera System is a driver aid only and is not a substitute for visual confirmation. The view on the screen is limited and objects outside that view will not be seen.

8 Included for two years as a new Mitsubishi owner of a Mitsubishi Connect-capable vehicle. After the two-year trial, standard yearly subscription costs apply.

9 Services require My Mitsubishi Connect account, cellular connectivity, network compatible hardware, availability of vehicle GPS signal, and acceptance of My Mitsubishi Connect Terms & Conditions. Services depend on connection to and continued availability of compatible cellular network service, which is outside of MMNA's control. Services are not guaranteed or warranted in the event compatible cellular networks are shutdown, or in the event of any other unavailability of cellular connectivity that relies on existing vehicle hardware and technology. Distracted driving is dangerous. Restrict use of connected devices to safe times and always exercise caution so your full attention is given to vehicle operation., is timed from the date first sold or put into use, whichever is earlier. Coverage excludes winching of vehicles off road, vehicles disabled in rally racing or other competitive events and vehicles used for commercial purposes, such as police, taxi, route delivery, livery or daily rental services. Please see your warranty manual for details. MMNA reserves the right to limit and/or change available services.

10 myQ® Connected Garage is available on Outlander. You must have a trial or paid subscription to My Mitsubishi Connect® and myQ Connected Garage to use this service. myQ Connected Garage and My Mitsubishi Connect are available for use with Android Auto™ and Apple CarPlay®. The Chamberlain Group, Inc. owns myQ® word mark and logos, and any use of such marks by Mitsubishi is under license. Distracted driving is dangerous. Restrict use of connected devices to safe times and always exercise caution so your full attention is given to vehicle operation.

11 Android Auto,™ Google Maps,™ and other marks are trademarks of Google, LLC.

12 Apple CarPlay®, Siri®, Apple Music™, and Apple Maps™ are trademarks of Apple Inc., registered in the U.S. and other countries.

13 Available feature. The Head-Up Display system is a driver aid only and is not a substitute for safe driving. Never focus your attention only on the display while driving since you may fail to see pedestrians, other vehicles, and objects on the road.
