- Mud Guards, Rear
- Rear Bumper Plate
- Roof Rack Kit
- Ski & Snowboard Carrier Attachment

At Mitsubishi Motors, we believe not all drivers are created equal. So we build our vehicles for a different breed of driver, the fearless ones who take pride in what they drive, and refuse to drive more of the same. It's obvious to us that people who truly want distinctive styling and the latest technology see past the procession of bland imitations. We believe that every vehicle we make should stand for something. Something more than expected. And that's why we don't build Mitsubishi cars for stereotypes. We build them for you.

OUTLANDER / OUTLANDER SPORT

2019

DRIVEN TO RISE

Ambition knows no bounds, and nor should it. Which is why, like you, Mitsubishi seeks possibility around every bend and takes all corners in stride. Because since day one, over 100-years ago, we have been crafting tools disguised as vehicles. Meticulously crafted resources aimed to provide the driven with exactly what they need to seek opportunity.

And whether you're looking to pack up the family and explore with confidence in the 2019 Outlander, or venture freely in the versatile 2019 Outlander Sport, always remember, there is no force more powerful than ambition's will to rise.

DRIVE YOUR AMBITION

OUTLANDER
GT

DESIGN OUTLANDER

Explore with confidence

New aesthetics. More premium features. The 2019 Outlander is shaking the very ground it's cruising down. With several enhancements from its exterior and interior to its vehicle dynamics and overall ride comfort, the confidence to explore comes standard regardless of where the asphalt, trail or stars lead.

DESIGN OUTLANDER

A SUPERIOR EXTERIOR

The front grille's solid-surface design blends artfully with its surrounding honeycomb mesh inserts. And the new chrome accented lower bumper extension deftly executes a modern update of the advanced Dynamic Shield's front face design. And with a new rear bumper extension, the Outlander looks as stunning as it is safe.

LED HEADLIGHTS

The headlights now offer LED Hi-beams and have been redesigned to have a more technical appearance, while also incorporating a character line that flows with the enhanced front grille. The available LED fog lights complete its aggressive disposition.

BEHIND THE WHEELS

The Outlander's standard 18-inch alloy wheels have been completely redesigned with a straight multi-spoke form. Wrapped around the black accents are low-profile tires that reduce road noise for a more comfortable approach.

THE INSIDE TRACK

New to 2019 are the driver side auto up/down illuminated window switches, the conveniently located front USB port, rear air vents, and an available rear USB port. Plus, the Silver accent panels on the dash add just enough attitude, while keeping the mood just right.

MORE POISE, LESS NOISE

The Outlander is undeniably easy on the eyes. With its enhanced ride quality, it appeals to your other senses as well. To reduce ambient noise, the windshield features sound-dampening acoustic glass. To combat wind noise, internal body panels are streamlined. And once you sit behind the wheel, there's even more to appreciate. Body and suspension rigidity make for more accurate handling, and a meticulously calibrated electric power steering unit delivers precise steering feedback.

COMFORT OUTLANDER

FUNCTIONALLY FORMING

The Outlander blurs the line between function and form. Crafted for purpose, each interior feature is designed to amplify the driving experience. And with adventure perpetually on the horizon, the view inside is always as stunning as where you're headed.

INNER COMFORT THAT GOES ALL OUT

Comfort is always top of mind with Dual Zone Automatic Climate Control and rear air vents. Additionally, available power driver and front passenger seats makes leg-room a no-brainer.

HEATED SEATS AND STEERING WHEEL

There's plenty of warmth to go around with the Outlander's standard heated front seats and available steering wheel.

ROWS 1-3, WELCOME ABOARD

No matter the adventure, you'll find all the room you need. And then some. The Outlander's standard third-row seats enhance not only vehicle occupancy, but also versatility. Split 50/50, easily stow with the pull of a single fold-and-store strap, or quickly reconfigure them upright by raising the seatback. Additionally, 60/40 split/fold second-row seats provide numerous passenger and cargo configurations to choose from.

POWER FOLDING SIDE MIRRORS

Available power-folding side mirrors come in handy not just when parking's tight, but for added vehicle protection in crowded areas.

SLIDING POWER SUNROOF

The available Sliding Power Sunroof promises a spectacular view no matter the surrounding.

ELECTRIC PARKING BRAKE WITH BRAKE AUTO HOLD

To help keep your Outlander from moving while parked, models are equipped with an Electric Parking Brake. A convenient, simple switch on the center console replaces the traditional manual parking brake lever. Auto Hold, when activated, is an extension of the Electric Parking Brake system, holding the Outlander stationary at traffic lights - even if you release your foot from the brake pedal. Pressing the accelerator releases the brakes, and you're on your way.

TECHNOLOGY OUTLANDER

TECH. BOOM

It's no secret the Outlander has a dynamic exterior. But there's brains behind its beauty. Offering the latest tech like a Smartphone Link Display Audio System, Apple Car Play™¹² and Android Auto™¹³, a Rockford Fosgate® Premium Sound System¹⁵, USB ports and more, the smart and sleek interior allows for more connections while roaming free.

7-IN. SMARTPHONE LINK DISPLAY AUDIO

With all the communication and entertainment options offered by our smartphones these days, we can sometimes get distracted while driving. Our available Smartphone Link Display Audio system allows you to maintain caution behind the wheel while enjoying your smartphone's convenience features in your car. This advanced feature supports Apple CarPlay™ and lets you access Apple Music® and Maps, make phone calls, and send messages all through the touch panel, or with your voice using Siri®.¹² The system also supports Android Auto™.¹³ Simply press the Push To Talk button to talk to Google and access all the most commonly used features on the Android™ platform, such as Google Play Music, Google Maps, and Hangouts.¹³

BLUETOOTH® WIRELESS TECHNOLOGY

To help you concentrate on the road ahead, standard Bluetooth® wireless technology connects your Outlander with your smartphone, iPod® or other MP3 player, and most Bluetooth® audio-streaming devices, enabling you to take your playlists on the road.¹⁴

PREMIUM AUDIO

The available 710-watt Rockford Fosgate® audio system powers up to nine premium speakers, including a 10 in. dual-voice coil subwoofer.¹⁵ The system incorporates an advanced Digital Signal Processor (DSP) and offers the listener PUNCH® control over the subwoofer, control over the image and staging of the system and the latest DTS Neural Surround® technology. The system is also equipped with Dolby® Volume, PremiDIA HD® surround and PremiDIA-Wide® for dynamic audio performance.¹⁵

SIRIUSXM® SATELLITE RADIO

Enjoy over 150 channels of the best commercial-free music, plus every major sport and the biggest names in entertainment, news and comedy. Listen in your car, on the app, and online with a 90-day All Access trial subscription.¹⁶

FAST-KEY ENTRY WITH PUSH BUTTON START

Available FAST-Key (Free-hand Advanced Security Transmitter) makes vehicle entry easy. To unlock the doors, simply press the button on either front door or the tailgate. Starting the engine is also push-button easy with the keys tucked safely away in a pocket or purse.

ALWAYS IN POWER

Power for adventure requires power for devices. With front and available rear USB ports, keeping those tablets and phones charged is painless.

PERFORMANCE OUTLANDER

OUTPERFORM. OUT-OF-BOUNDS

For the past 100 years, performance and driving confidence have been ingrained in Mitsubishi's DNA. Our mission, as we see it, is to make sure it stays that way for the next 100, so you can get out there and explore with confidence.

PERFORMANCE THAT OUTPERFORMS

The Outlander offers two Mitsubishi Innovative Valve-timing Electronic Control (MIVEC) engines. The MIVEC 2.4 liter boast a combination of 166 horsepower and 30 mpg highway.^{1,2,16} While the GT model offer a 3.0 liter, V6 MIVEC engine that produces a full 224 horsepower at 6,250 rpm and 215 lb.-ft. of torque at 3,750 rpm with a towing capacity of 3500 lbs.¹

TWO GREAT TRANSMISSIONS, NO BAD CHOICES

Offering a smooth-accelerating CVT (Continuously Variable Transmission), the Outlander is designed to maximize efficiency. But for those who demand more power, the available GT provides a six-speed automatic for a drive that's efficient and powerful.

INTUITIVE HANDLING

What good is power without control? The intuitive suspension, steering and body construction in the Outlander keeps drivers in tune and in touch with the road for a smoother, safer ride.

RESPONSIVE PADDLE SHIFTERS

Take full control of your drive with the available responsive paddle shifters. A tap or two of the conveniently placed upshift and downshift paddles add more control and thrill to every driving experience.

SUPER ALL-WHEEL CONTROL AND ALL-WHEEL CONTROL

When it comes to all-wheel drive systems, Mitsubishi continues to blaze new roads. The available All-Wheel Control (AWC) system on ES continually monitors the road, and intelligently transfers power to the wheels with the most traction to improve handling and performance without drastically reducing efficiency. Available Super All-Wheel Control (S-AWC) on SE, SEL and GT is our most advanced form of vehicle control systems. It's an integration of several advanced technologies that together take full advantage of the engine's power. The Active Front Differential (AFD) distributes engine power between left and right on the front axle. Active Stability Control (ASC) helps keep the vehicle on its intended path when cornering, and the Anti-lock Braking System (ABS), along with Electronic Brakeforce Distribution (EBD), improves control and stability under hard braking. With the push of a button, the driver can select from four S-AWC modes to help achieve maximum available traction regardless of surface conditions.

NORMAL MODE

Normal Mode is employed to help maximize fuel efficiency and driving comfort on regular asphalt roads, wet or dry.

SNOW MODE

Snow Mode is engaged on ice and snow, or whenever the road surface conditions are extremely slippery.

LOCK MODE

Lock Mode locks in full 4-wheel drive capability to help maximize traction on unpredictable road surfaces.

AWC ECO MODE

AWC ECO Mode helps maximize fuel economy by making more efficient 2-wheel drive the priority, engaging the 4-wheel drive only if the wheels begin to slip.

SAFETY OUTLANDER

PLAY IT SAFE

Safety is always top of mind. And by offering an array of available and standard safety features like seven standard airbags³, Automatic High Beam (AHB) headlights⁴, Forward Collision Mitigation (FCM) with pedestrian detection capability⁵, Blind Spot Warning (BSW)⁶ with Lane Change Assist (LCA)⁷ and Rear Cross Traffic Alert (RCTA)⁸, Adaptive Cruise Control (ACC)⁹, Lane Departure Warning (LDW)¹⁰ and a Multi-View Camera system¹¹, which provides both 360 degree and bird's-eye images, the Outlander stays over-prepared for the unexpected.

FORWARD COLLISION MITIGATION

The available Forward Collision Mitigation (FCM) system⁵ utilizes both laser radar and camera technology to determine if a frontal collision with a vehicle or pedestrian is imminent. If so, it warns you with both audible and visual signals, and automatically applies moderate to emergency braking to reduce the severity of the collision and, if possible, avoid it altogether.

LANE DEPARTURE WARNING (LDW)

Available LDW uses onboard cameras to monitor lane position. So, if you should unintentionally drift from your lane, a beep and a visual alert will let you know.¹⁰

ADAPTIVE CRUISE CONTROL (ACC)

Available ACC⁹ uses radar to detect a vehicle ahead and maintain a preset distance between the two of you. If the vehicle ahead speeds up, or slows down, the system will adjust your speed accordingly. And if the vehicle ahead moves out of your lane, ACC will return your car to its previously selected speed. It's our way of confronting obstacles, so you don't have to.

REARVIEW CAMERA

The road behind you can be as critical as the road ahead. The standard rearview camera provides a measure of assurance by showing what the naked eye doesn't always see. In Outlander, visibility comes standard.

RISE BODY CONSTRUCTION

The Reinforced Impact Safety Evolution (RISE) engineering helps provide occupant protection in the event of a collision. RISE combines energy-absorbing front and rear structures with a rigid occupant cell. Along with reinforcing bars in the doors and energy-absorbing materials in the side pillars, the RISE body features high-tensile strength steel that reduces weight while helping to protect occupants in the event of a collision.

SEVEN STANDARD AIRBAGS

Think of it as strength in numbers. The standard Supplemental Restraint System (SRS) features not five or six, but seven airbags: dual-stage front airbags with seat position sensors, front side airbags, side curtain airbags, and one for the driver's knees.³

MULTI-VIEW CAMERA SYSTEM

It never hurts to get a second opinion. Or a third or fourth. That's why the available Multi-View Camera System finds cameras mounted in back, front and sides. Views from these multiple angles - including a bird's eye view - can be shown in various combinations to create a virtual 360° image on the display screen. Which empowers you with all the perspectives you need to park or back up safely.¹¹

REAR CROSS TRAFFIC ALERT (RCTA)

When you're backing out of a parking space or driveway, available RCTA will alert you if another vehicle is about to cross your path.⁸

AUTOMATIC HIGH BEAM HEADLIGHTS

Never worry about switching between low and high beams. The Outlander's available Automatic High Beam Headlights will do the work for you by automatically adjusting between the two brightness levels depending on the surrounding light.⁴

BLIND SPOT WARNING WITH LANE CHANGE ASSIST

These two available features alert you when a vehicle is approaching, or lurking in your blind spot.^{6,7} When a vehicle in the next lane reaches the detection areas, a warning light illuminates on the corresponding side mirror. And if your turn signal is on, that warning light will blink while an audible beep will alert three times, all to simply let you know that it's a bad idea to change lanes.

DESIGN OUTLANDER SPORT

Venture Freely

Everyone adventures differently. Which is exactly why the Outlander Sport is perfect for those whose path leads into the city or beyond the great outdoors. The aggressive, yet agile silhouette commands attention while the refined interior raises the standard on what's available. With new, enhanced safety features, the 2019 Outlander Sport cradles the driver, and hugs all roads.

HID HEADLIGHTS

The Outlander Sport always looks on the bright side. Its available High Intensity Discharge headlights (HID) use xenon gas and project a beam that's 35% brighter than normal lights. The light emitted more closely mimics daylight, making for better definition and less eye fatigue.

LED RUNNING LIGHTS

The LED running lights on SE and GT trims boost your style quotient and help make your Outlander Sport more noticeable to oncoming vehicles.

LED COMBINATION TAILLIGHTS

The Outlander Sport has your back with LED combination taillights. These high-quality units not only look sharp, they also light up faster, are more visible, and last longer than traditional taillights.

18-IN. ALLOY WHEELS

There's more to the Outlander Sport's standard 18 in. alloy wheels than just looking great. They're designed to actually enrich performance. Their tall profile allows for a shorter tire sidewall, which helps minimize side-to-side flex when cornering.

COMFORT OUTLANDER SPORT

ROAM SWEET ROAM

While the dynamic, angular exterior may catch eyes, the functionally inspiring interior is also impossible to ignore. From ambient lighting to premium accents, the Outlander Sport is an escape within the getaway.

WELL-APPOINTED INTERIOR

The agreeable interior design of the Outlander Sport boasts wide, supportive seats featuring tailored, premium upholstery. The upper door trim and dash panel feature soft-touch material with a lavish texture. At key points around the cabin, subtle silver accents add that certain touch of class. Plus, the available combination leather and aluminum shift-knob welcomes all hands and excites all eyes.

LED ILLUMINATION

LED lights are no longer exclusive to the exterior. Available blue LED lighting beautifully illuminates the floor and center console to match any driving mood.

LED ROOM LAMP

Using less power than typical dome lighting, the Outlander Sport comes equipped with an available LED room lamp.

SOUND ISOLATION

To help reduce engine and road noise, along with unwanted vibration, the Outlander Sport maximizes sound-insulation thickness in key areas. By engineering a special vibration-absorbing damper for the engine compartment, additional noise, vibration, and harshness (NVH) is minimized by strategically placing optimized insulators around the vehicle to decrease noise levels inside the cabin.

60/40 SPLIT REAR SEATS

With 60/40 split folding rear seats, the Outlander Sport provides the space needed for any adventure. Choose between cargo, passengers or both by dropping the seatbacks quickly and easily at the press of the conveniently located lever.

AUTOMATIC CLIMATE CONTROL

With standard Automatic Climate Control set the cabin temperature, fan speed, and air source to your preference, so your hands stay on the wheel, and off the AC controls.

HEATED FRONT SEATS AND SIDE MIRRORS

In the Outlander Sport, chilly mornings are no longer an issue. The available heated front seats provide the warmth while the standard heated side mirrors provide clear visibility.

TECHNOLOGY OUTLANDER SPORT

STARTUP AND GO VIRAL

As technological innovation continues to push boundaries, so does the Outlander Sport. Between its smart interior and advanced control, it's packed with tech so you pack in more experiences.

7-IN. SMARTPHONE LINK DISPLAY AUDIO

With all the communication and entertainment options offered by our smartphones these days, we can sometimes get distracted while driving. Our available Smartphone Link Display Audio system allows you to maintain caution behind the wheel while enjoying your smartphone's convenience features in your car. This advanced feature supports Apple CarPlay™ and lets you access Apple Music® and Maps, make phone calls, and send messages all through the touch panel, or with your voice using Siri®. 12 The system also supports Android Auto™. 13 Simply press the Push To Talk button to talk to Google and access all the most commonly used features on the Android™ platform, such as Google Play Music, Google Maps, and Hangouts. 15

BLUETOOTH® WIRELESS TECHNOLOGY

To help you concentrate on the road ahead, standard Bluetooth® wireless technology connects your Outlander Sport with your smartphone, iPod® or other MP3 player, and most Bluetooth® audio-streaming devices, enabling you to take your playlists on the road. 14

SIRIUSXM® SATELLITE RADIO AND USB CONNECTIVITY.

No distance is too short for your favorite music, Podcasts® and talk radio. With available dual USB ports on SE and GT trims, conveniently plug in your smartphone, iPod® or other compatible MP3 devices. And with available SIRIUSXM® Satellite Radio, enjoy over 150 channels of the best commercial-free music, plus every major sport and the biggest names in entertainment, news, and comedy.

PERFORMANCE OUTLANDER SPORT

BALANCING OPPOSITES

Performance has dramatically changed throughout the past 100 years. But today, the balance between efficiency and muscle has culminated in the Outlander Sport. With more control, comfort and power, the drive to venture freely is as natural as the view outside.

EFFICIENT MIVEC ENGINES

Between the standard 148-hp 2.0-liter and the available 168-hp 2.4-liter Mitsubishi Innovative Valve-timing Electronic Control (MIVEC) engines, it's easy to enjoy smooth performance and optimized fuel efficiency.

CONTINUOUSLY VARIABLE TRANSMISSION (CVT)

One of the smoothest and most efficient transmissions available, Continuously Variable Transmission (CVT) operates on a pulley system, allowing unbounded variability between the highest and lowest ratios. Instead of shifting gears, it adapts to changing vehicle speeds and helps keep the engine operating economically.

AVAILABLE ALL-WHEEL CONTROL

Mitsubishi's revolutionary electronically controlled All-Wheel Control (AWC) system continually monitors the road. By intelligently transferring power to the wheels with the most traction, the Outlander Sport provides improved handling and performance. So whether you're driving on snow, or gravel, or simply demand top-line performance in tight corners, you can rely on All-Wheel Control to help keep you on track.

SAFETY OUTLANDER SPORT

SAFE SPACE

In order to truly venture freely, it's critical to have the latest safety features available. That's why the Outlander Sport offers protective features like Forward Collision Mitigation (FCM),⁵ Blind Spot Warning (BSW), Rear Cross Traffic Alert (RCTA),⁸ Lane Change Assist (LCA) and Auto High Beam Headlights. Because every time you get-up-and-go, it should be for worry-free.⁴

FORWARD COLLISION MITIGATION (FCM)

The available Forward Collision Mitigation (FCM) system utilizes both laser radar and camera technology to determine if a frontal collision with a vehicle or pedestrian is imminent. If so, it warns the driver with audible and visual signals, and automatically applies moderate to emergency braking to reduce the severity of – or, if possible, avoid the collision altogether.⁵

REAR CROSS TRAFFIC ALERT (RCTA)

This available feature helps you safely back out of a parking space or driveway by alerting you if another vehicle is about to cross your path.⁸

RISE BODY CONSTRUCTION

The Reinforced Impact Safety Evolution (RISE) engineering helps provide occupant protection in the event of a collision. RISE combines energy-absorbing front and rear structures with a rigid occupant cell. Along with reinforcing bars in the doors and energy-absorbing materials in the side pillars, the RISE body features high-tensile strength steel that reduces weight while helping to protect occupants in the event of a collision.

LANE DEPARTURE WARNING (LDW)

Available LDW uses onboard cameras to monitor lane position. So, if you should unintentionally drift from your lane, a beep and a visual alert will let you know.¹⁰

BLIND SPOT WARNING WITH LANE CHANGE ASSIST

These two available features alert you when a vehicle is approaching or lurking in your blind spot. When a vehicle in the next lane reaches the detection areas, a warning light illuminates on the corresponding side mirror. And if your turn signal is on, that warning light will blink while an audible beep will alert three times, all to simply let you know that it's a bad idea to change lanes.^{6,7}

WARRANTY

Mitsubishi's 10-year/100,000-mile Powertrain Limited Warranty

Mitsubishi's 10-year/100,000-mile Powertrain Limited Warranty sets the bar for the entire automotive industry. But the industry leadership doesn't stop there. Along with a roadside assistance plan that provides support for five full years and a commitment to innovation, every Mitsubishi vehicle comes with Mitsubishi Confidence: the assurance that your Outlander or Outlander Sport will be there with you for years and years to come.

OUTLANDER/OUTLANDER SPORT

OUTLANDER WARRANTY	See retailer for limited warranty and roadside assistance terms and conditions.
Basic	5-year/60,000-mile limited warranty
Limited powertrain	10-year/100,000-mile limited warranty
Anti-corrosion	7-year/100,000-mile limited warranty
Roadside assistance	5-year/unlimited miles
The 10-year/100,000-mile Powertrain Limited Warranty coverage terms are from the original in-service dates, and are applicable only to the original owner of new, retail models purchased from an authorized Mitsubishi dealer. Subsequent owners receive the balance of the New Vehicle Limited Warranty of 5 years/60,000 miles. See retailer for limited warranty and roadside assistance terms and conditions.	
Technical data, equipment and options shown are based on the latest information available at the time of printing and are subject to change without notice. Colors may vary due to the printing process. Exterior and interior lights on vehicles shown may be illuminated for illustration purposes only. Vehicles are shown with optional equipment. Not all equipment is available on every model. For more complete details about equipment configuration and Mitsubishi Genuine Accessories, please contact your Mitsubishi Retailer.	
Log on to our website and browse our full lineup of new vehicles, get MSRP and customer rebate information, and "build" the Mitsubishi that's right for you. The site can help you locate your nearest dealer -- or even have a dealer contact you.

FOOTNOTES

- Based on EPA highway mileage rating. Actual mileage may vary.
- All claims based on available data for 2018 model year competitors at time of publication.
- Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always wear your seat belt, sit upright in the middle of the seat, and do not lean against the door. Always place children 12 and under in the rear seat and use appropriate child restraints. Never place a rear-facing infant restraint in the front seat. See your Owner's Manual and instructions provided with your child restraint for additional information.
- The Automatic High Beam (AHB) headlights system is a driver aid only. Factors such as a dirty windshield, variable weather, changing light conditions, or hilly terrain, may also affect system performance.
- The Forward Collision Mitigation (FCM)/Pedestrian Detection (PD) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, the system may not detect other vehicles and/or pedestrians correctly.
- The Blind Spot Warning (BSW) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, this system may not detect other vehicles correctly.
- The Lane Change Assist (LCA) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, this system may not detect other vehicles correctly.
- The Rear Cross Traffic Alert (RCTA) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, this system may not detect other vehicles correctly.
- The Adaptive Cruise Control system is not a collision avoidance system or an automatic driving system. It is designed to use only limited braking and is never a substitute for safe and careful driving. Never rely solely on the Adaptive Cruise Control system.
- The Lane Departure Warning system is designed to read the lane marks under certain conditions. It is not a collision avoidance system and is not a substitute for safe and careful driving.
- The Multi-View Camera system is a driver aid only and is not a substitute for visual confirmation. The view on the screen is limited and objects outside that view will not be seen.
- Apple CarPlay and Siri are trademarks of Apple Inc., registered in the U.S. and other countries.
- Google, Android, Android Auto, Google Play, and other marks are trademarks of Google Inc. To use Android Auto on your phone screen, you'll need an Android phone running 5.0 (Lollipop) or higher and the Android Auto app.
- The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc., and any use of such marks by Mitsubishi is under license.
- EPA estimates are to be used as a standardized comparison with other vehicles. Your actual mileage will vary depending on how you drive and maintain your vehicle.
- SiriusXM[®] services require a subscription sold separately, or as a package, by SiriusXM[®] Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM[®] at 1-866-635-2349. See SiriusXM[®] Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Sirius[®], XM[®], SiriusXM[®] and all related marks and logos are trademarks of SiriusXM[®] Radio Inc.

Not all equipment is available on every model. For more complete details about equipment configuration and Mitsubishi Genuine Accessories, please contact your Mitsubishi Retailer.

World-class Warranties: We stand behind what we build. Period. The Outlander Sport is backed with a 10-year/100,000-mile Powertrain Limited Warranty, a 5-year/60,000-mile fully transferable New Vehicle Limited Warranty, a 7-year/100,000-mile Anti-Corrosion/Perforation Limited Warranty and 5 years/unlimited miles roadside assistance. They are some of the most comprehensive warranties in the industry. Like our cars, we intend to serve you well for many years to come.

Log on to our website and browse our full lineup of new vehicles, get MSRP and customer rebate information, and "build" the Mitsubishi that's right for you. The site can help you locate your nearest dealer -- or even have a dealer contact you.
