A people carrier with an unexpected level of performance.

Silhouette gives you everything you want in a minivan — safety, contemporary styling, comfort and versatility. It also gives you

With 167 horsepower and plenty of torque, the power and fuel-efficient 3400 SH V6 engine meet vehicles in its class.

something you need — a powerful, low-maintenance engine designed

with your busy lifestyle in mind. You don't have time for unnecessary maintenance and service problems, so the new 3400 SH V6 engine features oil and coolant sensors that alert you to problems that might occur before they become critical.

In addition, the engine uses long-life coolant that lasts up to 100,000 miles or five years, and the transmission fluid is "filled for life."

Platinum-coated spark plugs extend scheduled service intervals to 100,000 miles.

Silhouette's Modular Blue Metallic

Appreciated for its
practicality and innovation.

The lightweight modular car seats fold flat when not in use. The seat backs convert into convenient toy tables with built-in cupholders.

One of Silhouette's top priorities was the ability to handle a lot of cargo and provide plenty of space for its

occupants. Silhouette seats weren't with all five seat modular seats removed, it provides over 132 cubic feet of unobstructed cargo area. You can quickly and easily reconfigure the balance of seating to cargo area, thanks to the lightweight modular seats that weigh only 24 pounds each — and you need no tools to remove them.

For added utility, Silhouette features a rooftop luggage carrier and an available remote power sliding side door (standard on Series II) that makes loading and unloading as easy as pushing a button.

A convenient and versatile air inflation kit is part of the towing suspension and the 3,000-pound towing package available on Silhouette.

Other features that enhance Silhouette's versatility include a convenient set and 12 tie-downs (six in the cargo area), a heavy-duty console with locking storage area and dual cupholders, and an integrated roof system.
