97 PONTIAC

PONTIAC
GRAND PRIX

GP

WideTrack: It's not just a mechanical fact, it's an automotive state of mind. It reflects a bold engineering **attitude** that sets the wheels wide apart – at the far reaches of Grand Prix's muscular body – to give drivers more of what they want: improved handling, improved control, more excitement. So let the asphalt beckon and the tarmac tease. Attack the road...your invitation to enjoy has arrived. Boring cars move right, because just one drive will prove that **wider** is better.

G R A N D P R I X G T P . C U T T I N G A W I D E R T R A C K .

Grand Prix GTP Sedan in Bright Red with the available High-Polished 5-Spoke 16" Aluminum Wheels.

G T P

From shoulder to shoulder,
Grand Prix GTP stands ready to
widen your performance horizons.
Its tenacious handling comes
from the fact that the wider
the track, the less weight is
transferred side to side during
cornering. Better cornering and
tighter grip result. Working to
make the most of the wide track
is a taut sport suspension and
sophisticated variable-effort
power steering system. This total
package provides all that's
necessary to control the GTP's
mighty 240-horsepower 3.8 liter
supercharged V6 – the most
powerful engine in its class.

G T

Grand Prix GT Coupe in Black with Silver 5-Spoke 16" Aluminum Wheels.

Sedan shown in Bright Red with the available High-Polished 5-Spoke 16" Aluminum Wheels.

G T

Some cars you guide, others you drive. There's no question as to which

camp the athletic Grand Prix GT fits into. The combination of the

GT's wide track, naturally aspirated 3800 Series II V6, its crisp-shifting

4-speed automatic and its impressively stiff body structure makes

the GT a **natural** on the road.

The contour of the shifter says all you need to know about proper interior design.

Simple controls canted toward the driver actuate the power windows and programmable automatic door locks.

S E

Designed to be a sport sedan from the outset, Grand Prix's advantages over regular cars couldn't be more vivid.

Beyond its bold, WideTrack

stance is a four-door body that's

sleeker than that of most coupes.

With a shape like this, Grand Prix SE

Sedan provides style and perfor-

mance that make life on the road

what it should be: enticing.

Inside the roomy cockpit, its sport

bucket seats position you with

authority while its large analog

instruments convey vital data.

Four-wheel disc brakes with ABS are standard on all Grand Prix.

Grand Prix SE Sedan in Medium Jade-Gray Metallic with the available 16" Silver Crosslace Wheels.

GT Sedan Interior in available Graphite leather.

Photo shown includes extra-cost options.

Even if you never saw Grand Prix's dramatic exterior, its interior alone would convince you that this is a wide-open driver's car. As the control center of the WideTrack experience, it delivers beyond what you expect, including uncompromising comfort and operation; it will even inform you should a tire require a pressure check or the engine oil need changing.

Sophisticated aeronautic-style EyeCue Head-Up Display imaging puts vital data in the sight line, so eyes stay on the road. Available on all models.

Remote keyless entry and a full-featured vehicle and content theft-deterrent system are available on all models.

Like the rest of the car, the available trunk-to-rear-seat pass-through is wide—a full 14”.

The overhead console accommodates a wide variety of items, including sunglasses, a garage door opener and a 12-volt power outlet.

Emerging from the center console, dual cupholders coddle your morning coffee or afternoon soda.

The driver's sport bucket seat includes standard manual lumbar support and seatback recliner, and it is available with 6-way power adjuster and 4-way power lumbar shown.

Let the optional 12-disc, trunk-mounted CD changer spoil your ears for hours on end.

From the gauges to the available radio controls on the steering wheel, everything is where you need it to be. Available Magnasteer power steering delivers increased road feel at higher speeds while providing light steering effort at parking lot speeds.

The more rigid a car's body, the quieter it can be. Grand Prix's high level of torsional and bending rigidity helps make it a quiet place.

The Supercharged Series II 3800 V6 ranks as the most powerful in its class and holds the honor of being included on *Ward's Auto World* magazine's 1997 Ten Best Car Engines list.

The Pontiac NASCAR Winston Cup WideTrack Grand Prix debuted at Daytona in February 1996.

Grand Prix's fully independent sport suspension features gas-charged struts and shocks that help it smooth over roads while it straightens out corners.

Grand Prix Occupant Protection and Crash Avoidance Features

To help contribute to driving safety, each of the following features is included in the Grand Prix line:

Occupant Protection

- ▶ Manual lap/shoulder safety belts for all outboard positions.
- ▶ Driver and front passenger air bags.
- ▶ Manual lap safety belts, center seating positions.
- ▶ Automatic power door locks.
- ▶ Illuminated entry.
- ▶ Energy-absorbing steering column.
- ▶ Energy-absorbing instrument panel.
- ▶ Folding front seatback locks, inertia type/manual, two-door models.
- ▶ Safety armrests.
- ▶ Breakaway inside rearview mirror.
- ▶ Security door locks and door retention components.
- ▶ Laminated windshield glass, urethane bonded.
- ▶ Head restraints, adjustable, front.
- ▶ Side door beams.
- ▶ Passenger-guard inside door lock handles.

Crash Avoidance

- ▶ Anti-lock braking system, four-wheel.
- ▶ Enhanced Traction System.
- ▶ Brake/transmission shift interlock.
- ▶ Automatic daytime running lamps.
- ▶ Side marker lamps.
- ▶ Parking lamps.
- ▶ Four-way hazard warning flashers.
- ▶ Backup lamps.
- ▶ Directional signal control.
- ▶ Windshield defroster, washer and multi-speed wipers.
- ▶ Inside day/night rearview mirror.
- ▶ Outside rearview mirrors.
- ▶ Center high-mounted stop lamp.
- ▶ Brake system with dual master cylinder plus warning light.

- ▶ Starter safety switch.
- ▶ Dual-action hood latch (front opening).
- ▶ Low-glare finish—inside windshield moldings, wiper arms and blades, metallic steering wheel surfaces, inside rearview mirror frame and bracket.
- ▶ Illuminated heater and defroster controls.
- ▶ Tires with built-in tread wear indicators.

Theft Deterrence

- ▶ Visible vehicle identification number.
- ▶ Laser-etched VIN plate.
- ▶ Marked body parts.
- ▶ Theft-deterrent steering column lock.
- ▶ Theft-deterrent key locking system.
- ▶ Remote inside hood release.

And now, a word about...

This Catalog:

We've tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Pontiac dealer for complete details.

Engines:

Grand Prix models are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

Updated Service Information:

Pontiac regularly sends its dealers useful service bulletins about Pontiac products. Pontiac monitors product performance in this field. We then prepare bulletins for servicing our products better. Now you can get these bulletins too. Ask your dealer. To obtain ordering information, call toll-free 1-800-551-4123.

The Assembly of Grand Prix:

Grand Prix is assembled by different operating units of General Motors, its subsidiaries or

suppliers to GM worldwide. Grand Prix incorporates thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Grand Prix with different or differently sourced components than originally scheduled. All such components have been approved for use in Grand Prix and will provide the quality of performance associated with the Pontiac name. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

Warranty Protection:

Grand Prix's 3-year/36,000-mile (whichever comes first), no-deductible bumper-to-bumper limited warranty covers repairs, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle is covered, except for adjustments and normal maintenance.

Corrosion Protection:

Grand Prix is designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for 6 years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Pontiac dealer for terms of these limited warranties.
