

The new Saab **95**
Sedan

Taking our roots into the future.

Saab has become a newly independent company. This move signals the start of a new era for us – we are all set to take our role as the unique premium brand even further. A decisive and passionate niche manufacturer with all the freedom to act faster in an ever-changing world. We have regrouped all of our resources in the place where we originally started, Trollhättan, Sweden.

By devoting ourselves fully to our unique heritage, the individualistic character of our brand will truly stand out in the future. From now on, Saab cars will be even more Saab. So you can expect cars that offer driving inspiration beyond belief. The first physical demonstration of this new era starts here and now. Try it in the new Saab 9-5 Sedan.

Meet the new Saab 9-5 Sedan.

The new Saab 9-5 Sedan differs from any other car you've seen or driven. A powerful driving sensation boosted by the latest technologies. Welcome to a different and very energetic experience.

Scandinavian spirit.

You can experience it in our cars.

Saab comes from Scandinavia. All of the things that surround us inspire the design of our cars. The beauty and force of nature. The innovative spirit of Scandinavian design and technology. And of course the intense shifting of the seasons. That typical Scandinavian design is created from the functional and emotional strength of the object, expressing it with natural, organic shapes. The new Saab 9-5 Sedan is our most expressive car ever.

Anything but ordinary.

When you have a different perspective on things you don't just design a car. You build a car that is out of the ordinary – like the new Saab 9-5. So, take a good look at what it offers beneath its bold surface. And discover a unique character that offers a very exhilarating experience.

Scandinavian design.
In the new Saab 9-5 Sedan you'll find independent thinking, new technologies and unique design ideas throughout. Such as the characteristic rear lamps with LED signature lighting, inspired by ice sculpture.

Experience

Saab EcoPower Technology™

Saab EcoPower Technology™ is the power of efficiency. It is developed to combine increased respect for nature with better performance. It's all about using resources wisely. Aerodynamics, turbocharging, weight and friction reduction are part of the formula. The result? Impressive power, fuel consumption and emissions.* You can try it in the new Saab 9-5 Sedan. It's quite simply the joy of driving with a cleaner conscience.

* 37 mpg city/37 mpg hwy. Saab 9-5 V6 engine with automatic transmission. EPA estimates. Your mileage will vary. EPA estimates for the 9-5 Sedan with a 4 cylinder engine are not available at the time of printing.

Aerodynamics.

Carefully balanced to help improve both efficiency and high-speed stability.

Weight reduction.

Approximately 60 percent of the bodyshell weight consists of high-strength or ultra-high-strength steel. This helps reduce weight compared to regular steel. Several parts such as the hood are made of aluminium alloy.

Friction reduction.

A range of measures designed to improve efficiency, such as: low-friction oil, optimal transmission gearing, carefully balanced EPM (Electric Power Management) and fine-tuned programming of the air conditioning.

220hp

Rightsizing.

Saab has utilized smaller engines with more power for more than 30 years. All engines in the new Saab 9-5 Sedan are turbocharged. In certain engines technologies such as direct injection, dual variable valve timing and twin-scroll turbochargers are utilized to further enhance response and efficiency.

The content of Saab EcoPower Technology™ may vary depending on powertrain and equipment. The engine range may vary from one market to another and the full range will not be available at the start of production. Please visit saabusa.com for the latest information.

Saab Turbo.

Turbocharging increases engine torque, especially in the medium rev range. This enables us to optimize gear ratios to help reduce fuel consumption, while still offering a driving experience out of the ordinary. In certain engines, advanced features such as direct injection, combustion sensors and twin-scroll turbo technology are utilized to further enhance efficiency.

	Turbo ⁴	Turbo ⁵ XWD	Aero XWD

Engage all senses.

As you drive the new Saab 9-5 Sedan, your next move down the road comes naturally. You're truly involved and can enjoy consistent road manners with instant response and feedback to your input. The 9-5 is agile and sporty beyond expectation. Behind the scenes, you are also assisted by an impressive range of electronic systems designed for active driving support. So just press the Start button, hit the road, and engage yourself to the fullest.

Flight information.

The available Pilot Head-Up Display is a perfect example of inspiration from our aircraft heritage. It displays an image of the most important information directly in your field of vision. This allows you to read the essential information without taking your eyes off what's happening on the road ahead.

Pilot Head-Up Display.

Projects information on the windscreen. Such as speed, rpm, navigation, parking assistance instructions, turn signals, temperature and warning messages. Can also be adjusted to suit individual preferences.

Front row seat to exhilaration.

In the driver's cockpit of the new Saab 9-5 Sedan everything is designed around you. Have a look at the aircraft-inspired instruments and you'll clearly sense our DNA. The instrument panel and center console are angled and curved around you. All the functions you use frequently while driving are in front of you, on or around the steering wheel.

DriveSense

With the advanced DriveSense™ system you can drive more smoothly in bustling city traffic, maintain a firmer footing on the pavement and enjoy a truly intense driving experience on a winding country road. Simply adjust the agility of the car with a single twist of a knob. Or leave it in Intelligent Mode and let the car manage these functions.

Twist a control knob to choose between Comfort, Intelligent and Sport settings. DriveSense™ monitors the car's handling and the driver's actions. In Sport Mode it adjusts suspension, steering, engine, automatic transmission and Saab XWD™ torque distribution for maximum agility. (Standard on Aero models)

Real-time damping.
Continuously adjusts the firmness of the dampers to match your driving style and the road conditions.

Torque distribution.
Continuously varies torque distribution between the front and rear wheels and the left and right rear wheels to suit your driving style and the road conditions.

Variable effort steering.
Adjusts steering response to suit your driving style and the speed of the car.

HiPer

The HiPer strut is a type of front suspension tuned for an outstanding driving experience in the high-performance versions of the new Saab 9-5 Sedan. The HiPer strut design increases cornering performance, improves grip and reduces torque steer.

The HiPer strut suspension geometry and bushing design are optimized to help provide high lateral stiffness and high longitudinal compliance, combining improved handling with a smoother ride.

Dual path top mountings separate the transfer of spring and damper load to the body for improved insulation.

The compliant ride bushings are hydraulically damped to help prevent road bumps and vibrations from being transmitted to the vehicle.

The HiPer strut design reduces sensitivity to tracking and tugging on a bumpy or uneven road surface, thus contributing to an engaging driving experience.

Advanced technology
for less-than-advanced
conditions.

The Saab XWD™ (Cross-Wheel Drive) system is active the moment you push the Start button in the new Saab 9-5 Sedan. It's among the most advanced systems available, developed in cooperation with Swedish all-wheel drive specialist Haldex.

Saab XWD

Always ready.

The Saab XWD™ (Cross-Wheel Drive) system continuously senses your driving style and the road conditions. It then actively helps improve the car's behavior on the road. Designed to help provide better grip, faster acceleration, more agile cornering and improved stability. In many different kinds of weather: Dry, wet or snow.

Real-time control.

The XWD™ system is uniquely integrated with the ESP® and other electronic systems to actively improve the driving experience. Twenty sensors check information 100 times every second and allow seamless shift of torque between the front and rear axles.

Acceleration.

When you start on a dry surface, most of the torque is distributed to the rear wheels to help avoid wheel slip and gain maximum acceleration.

Efficiency.

When cruising at a steady speed only a small amount of torque is delivered to the rear wheels. This helps support directional stability and reduces fuel consumption.

Cornering.

On a twisting road, the Saab XWD™ system distributes more torque to the rear wheels, thus combining responsive curve behavior with high stability.

Grip and stability.

If the front wheels hit an icy patch during acceleration, most of the torque is diverted to the rear wheels to help improve grip and stability.

eLSD.

The electronically controlled rear limited-slip differential (eLSD) actively shifts torque between the rear wheels. It is designed to give the car a very agile feeling on winding roads. (Aero only)

Space technology.

Inside the new Saab 9-5 Sedan there's plenty of room for you and your passengers. To add even more to the aura of spaciousness, you can specify a large panorama moonroof. The 9-5 Sedan offers the Advanced Park Assist System that can help you find a street parking space that fits your car and helps guide you into the parking slot.

Saab Advanced Park Assist.

With front, rear and side sensors to help you find a parking space that fits the car. Visual and audible instructions help guide you to execute a perfect parking maneuver. (Optional)

Panorama moonroof.

Large, split-glass roof with sliding interior shades. The front section is tilt/retractable. (Standard on Turbo[®] Premium, Turbo[®] XWD and Aero)

SmartBeam.

A clearly enlightening idea.

If you are fascinated by bright ideas, you'll find an abundance of them in the new Saab 9-5 Sedan. For example, take a look at the Bi-Xenon cornering headlights. It's an intelligent new headlight system designed to sense speed, oncoming traffic and steering direction. It then swivels the beam for better visibility when cornering, and automatically switches between high and low beam.* Clearly safer and very convenient.

Dynamic cornering light.
Turns the light in the direction you are steering. Helps improve vision on twisting roads.

Automatic high/low beam.*
Switches to low beam when you meet another car or approach a slower-moving vehicle from behind. Switches to high again when there is less risk of glare.

* Automatic high and low beam, not in combination with Lane Departure Warning.

Stay sharp.
Stay focused.

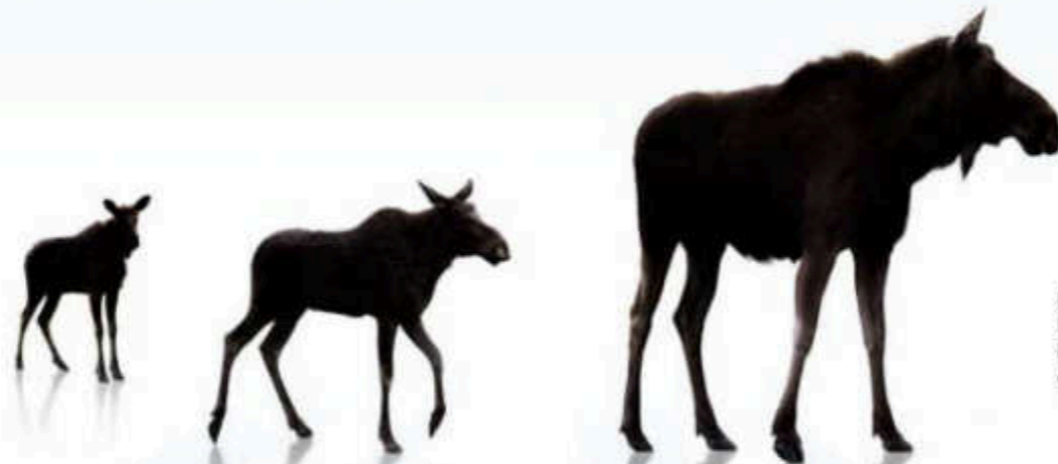

Signature lighting.
The front and rear lights have integrated LED lighting that creates the typical signature of the new Saab 9-5 Sedan. (Front LED lighting not in combination with halogen headlights.)

Bi-Xenon headlights.
Provide 100 percent more light, which is more daylight-like compared to halogen illumination.

Welcome to our safety lab.

Our real-life safety approach means we study real accidents to help improve the safety of our cars. In the new Saab 9-5 Sedan we've integrated our award-winning safety knowledge. As well as a range of advanced driving assistance systems to help improve collision avoidance even further.

Lane Departure Warning.
Designed to detect and warn if you unintentionally cross the lane markings at speeds above 37 mph. (Optional)

SAHR 3.

Saab innovated SAHR – the world's first active head restraint system – to help reduce the risk of serious neck injuries in rear-end impacts. In the front seats of the new Saab 9-5 Sedan you'll find the third generation SAHR 3.

Roll-over sensing system.

Designed to be activated if an imminent rollover is detected by the system's sensor. Deploys the curtain air bags and the safety belt pre-tensioners.

Relax and listen to all the
buzz...

HDD, WMA, DVD, 5.1, CD, MP3, DivX, AUX, USB, RDS, ...
There really are a lot of buzz words when it comes to equipment for sound and vision.
In the new Saab 9-5 Sedan you can have every one of them. But you don't have to
understand them. The handling of the Saab 9-5's infotainment system is easy and intuitive.
So just try it, listen and enjoy the impressive results.

Audio and navigation.

The infotainment system in the new Saab 9-5 Sedan offers a lot of possibilities. Store your music on the jukebox hard drive. Plug in and control your iPod®, MP3 player or USB memory to enjoy the harman/kardon® Surround Sound System. Your Bluetooth™-enabled mobile phone can be connected with the hands-free system. And of course, you can choose an impressive navigation system with the large color touchscreen.

Saab Infotainment CD.

Includes AM/FM tuner with RDS, MP3/WMA-compatible CD player. (Standard)

Premium Sound System.

With nine speakers, including a front center speaker that improves the sound distribution. (Standard)

Wireless noise-reducing headphones.

Designed to provide front and rear passengers with an enhanced sound experience. Helps reduce background noise. Not to be used by the driver. (Accessory)

Saab Infotainment Navigation.

Includes AM/FM tuner with RDS, DVD player compatible with CD/MP3/WMA/DVD/DivX formats, 8" color touchscreen and a hard disk for map data and 10GB music. (Optional)

harman/kardon® Surround Sound System.

The top-of-the-line sound system with 11 speakers. Allows you to experience true 5.1 surround sound from DVD audio/videos or simulated surround sound from MP3s and CDs. (Optional)

Saab Bluetooth™ Hands-free System.

Connects to your Bluetooth™-enabled phone. Phone book and call lists are transferred* to the Infotainment system. Controlled via the Infotainment unit, the steering wheel buttons or voice commands. (Standard)

AUX and USB connection.

AUX connection in the center console. The USB connection allows you to control the music stored on your iPod®, MP3 player or USB memory via the Infotainment system. (Standard)

iPod® is a trademark of Apple Inc., registered in the U.S. and other countries.

Bluetooth™ is a trademark owned by Bluetooth SIG, Inc., U.S.A. and licensed to Saab Automobile AB.

*Phone dependent.

SAAB

Comfort zone.

In the new Saab 9-5 Sedan your rear-seat passengers are very well taken care of with legroom for them to really stretch out. With everyone comfortable, they can indulge in the 9-5's tantalizing extras.

Rear-seat audio.

Enables the rear-seat passengers to enjoy their own music through wireless headphones. They can listen to a sound source in the car that is not being used by the passengers up front. (Optional)

Rear Seat Entertainment.

Allows the rear-seat passengers to enjoy movies and music and to connect external sources, such as a game console, video camera or TV tuner. Includes two 8" displays, wireless headphones and a remote control. (Optional)

Tri-zone climate system.

The tri-zone climate system allows the driver, front-seat passenger and rear-seat passengers to choose different temperature levels, independent of each other. (Optional)

The image shows the interior of a car's trunk, specifically the U-rail Cargo Track system. It features two parallel silver metal rails mounted on a dark grey carpeted floor. A red, textured fabric bag is partially visible at the top left, secured to the rails. The text is printed in white on the carpet.

U-rail Cargo Track. Keep your luggage in place.

In the new Saab 9-5 Sedan there is plenty of room for things you want to bring on a longer journey. However, most people generally only use a small portion of the compartment. So we developed a flexible cargo management system – the optional U-rail CargoTrack. It helps to keep things in place during spirited driving. An unconventional approach to performance. But this is no ordinary Sedan.

Luggage compartment.
Measures 18.1 cu. ft. In addition, the rear seat can be split and folded 60/40 to expand luggage capacity when needed.

Saab Genuine Accessories.

Saab Genuine Accessories continue where the car ends. They are specially designed and tested for your car to ensure optimum functionality, safety and quality. Explore the range of Saab Genuine Accessories at saabusa.com/accessories and see how you can equip your car to suit your needs. Reflect your personal style, enhance your travel comfort and optimize its versatility for every occasion.

Interior mats.

Black rubber mats, or versatile textile mats matching the interior. Protect the carpeting from dirt, water and wear.

Cargo mats.

Black textile or rubber mats. Match the interior mats. Protect the carpeting from dirt, water and wear.

Scratch protection/seating mat.

Rolls out from the luggage compartment to protect the bumper. Easily removed for use as a waterproof seating mat.

Storage tray/ashtray.

Fitted in the center console. For smaller items, coins, etc. Can also be used as an ashtray. Equipped with lighter.

Mud flaps.

Designed and engineered custom molded mud flaps fit directly behind your wheels and provide superior protection from tire splash and mud. Specifically tooled for your vehicle. Available for front and rear.

Sunshades.

Convenient sunshades made of black mesh for the side and rear windows. Help reduce solar radiation and heat build-up in the cabin. Designed to enable the opening of the rear side windows, even with the sunshades in place.

Take your passion
on the road.

Bike holder with lift.
Insert the bike at door height and lift with the help of gas-filled struts. Lockable.

Kayak/canoe holder.
With adjustable supports of soft rubber that mold to the shape of the hull. Can also be used for transporting small boats. At saabusa.com/accessories you'll find more holders for surfboards, skis, etc.

Roof rack.
Can be combined with other accessories for loading and transportation. Available in aluminum or black-painted steel. (aluminum: late availability)

Express yourself.

Why not give your new Saab 9-5 Sedan that special touch. Saab Genuine Accessories enable you to personalize your car even further. At saabusa.com/accessories you can read more about alloy wheels and other features from the range of Saab Genuine Accessories.

Rear spoiler.
Boosts the dynamic design of your car even further.

10-spoke Edge Glossy Black.
19" x 8.5" alloy wheels.

10-spoke Edge Silver.
19" x 8.5" alloy wheels.

10-spoke Turbine Black.
19" x 8.5" alloy wheels.

Be a part of our universe.

With a Saab you are among enthusiasts who really love cars and driving. At the Saab homepage and Saab Newsroom you can find out why. Join us on Facebook and find links to Saab communities around the globe. Go there and see what's happening. And when you buy a new Saab 9-5 Sedan you can prepare to enjoy every mile and opportunity with genuine peace of mind. Talk to your Saab dealer about how you can customize your ownership to get more out of life.

Explore more at saabusa.com and saab.com/newsroom.

Ally.

Can offer a wide range of financing and leasing plans tailored to suit your individual requirements.

No-Charge Scheduled Maintenance.

For the first three years or 36,000 miles,¹ all standard maintenance on a 2011 Saab vehicle, such as tire rotations and oil changes, at no extra charge when serviced at an authorized Saab dealership.

Four-Year/50,000-Mile Limited Warranty.

If any part of your Saab vehicle covered under this warranty is found to have a manufacturing defect in materials or workmanship occurring during normal use,

the manufacturer will make the appropriate corrections free-of-charge (parts and labor), with no deductible, for four years or 50,000 miles.²

Courtesy Transportation Program.

Coinciding with the Transferable Bumper-to-Bumper Limited Warranty coverage period, alternate transportation and/or reimbursement of certain transportation expenses may be available under the Courtesy Transportation Program³ if your vehicle requires warranty repairs. Several transportation options are available. Refer to your Owner's Manual for details, including reservation of rights, or consult your dealer.

Saab Genuine Accessories.

Fine-tune the 9-5 to exactly suit your needs. Find out more at your Saab dealer or at saabusa.com/accessories.

Roadside Assistance Program.

Response, security and convenience of the 24-hour Roadside Assistance Program is available for a period of four years or 50,000 miles.⁴

Corrosion Protection.

Saab vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for ten years/unlimited miles. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Saab dealer for terms of this limited warranty.⁵

Saab-i eNewsletter.

Sign up for the latest news, exciting offers and exclusive materials from Saab at saabusa.com.

¹ Whichever comes first, provided the service is performed within 2,000 miles of the recommended service interval. See dealer for details.
² Whichever comes first. See dealer for details.
³ Saab reserves the right to unilaterally modify, change or discontinue Courtesy Transportation at any time and to resolve all questions of claim eligibility pursuant to the terms and conditions described herein at its sole discretion.
⁴ Roadside Assistance is not part of or included in the coverage provided by the New Vehicle Limited Warranty. Saab reserves the right to make any changes or discontinue the Roadside Assistance program at any time without notification.
⁵ All the above items are not covered for damage due to accident, misuse, alteration, insufficient or improper maintenance, contaminated or poor quality fuel. Other coverages are not extended or altered due to this supplement. An extended Saab Vehicle Service Contract is available through your dealer/retailer. Universal provides extended service contracts for Saab. These are offered by Saab dealers.

Your individual choice.

Start your personal choice by finding out which Saab model suits you best. Making it even more personal is easy and inspiring. On the following pages you'll get an introduction to all the possibilities. Once you've found your car, you can tailor it exactly as you like with options and accessories. Go ahead and get inspired, then design your own car at saabusa.com.

Turbo⁴

Aero

Turbo⁴

Turbo⁴

The essence of the Saab design philosophy – timeless Scandinavian simplicity. Clean lines, modern and with a discreet edge.

Turbo⁴

Exudes performance and dynamics for even more inspired driving. The sporty spirit pervades the entire car, inside and out.

Aero

Our top-of-the-line model with a high-performance approach to everything. It's quite simply designed to offer the most intense Saab driving experience.

Aero

Looks and sound.
The Saab 9-5 Aero comes with unique front and rear design, integrated foglights, sport chassis, alloy wheels, and dual sport exhaust.

Our top-of-the-line model with sport exterior, distinctive interior details and matching equipment level. In short, it offers the most intense Saab driving experience. So experience the perfection. And get ready to tackle hills, corners and bends with a new intensity.

Sport chassis.

Tuned and lowered to give the Aero models enhanced stability. Firmer springs and shock absorbers mean improved body control, cornering and braking.

Sentronic 6-speed.

Automatic transmission that can be shifted manually with paddles on the steering wheel.

Turbo⁴.

Among the various engine alternatives, the Aero is specified with our most powerful turbo engine. It produces 300 hp/295 lb.-ft. and combines the extremely high torque with refinement across the rev range.

Have a seat.

You really have a lot to choose from. Sport or Comfort seat? Ventilated, heated or all of it? Check out the options here to get an overview, then visit saabusa.com for the details.

Comfort seats.

Front seats with electrically adjustable lumbar support and seating height as standard. Driver's seat adjustable in six directions.

Sport seats.

With pronounced extra side support and adjustable thigh support. Front seats with electrically adjustable lumbar support and seating height as standard. Driver's seat adjustable in six directions.

Leather-appointed upholstery.

Leather-appointed upholstery refers to leather seating surfaces.

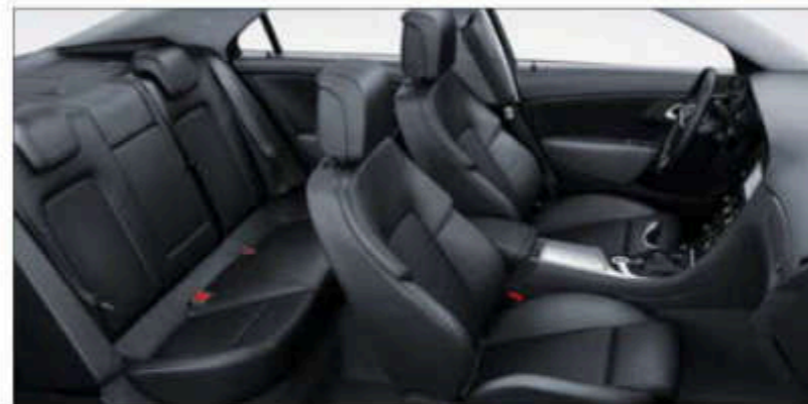

Interior colors and upholstery.

A. Leather comfort seats. Parchment upholstery. Jet Black cabin, Parchment door inserts. (Optional)

B. Leather perforated sport seats. Shark Grey upholstery. Jet Black cabin, Shark Grey door inserts. (Aero)

C. Leather ventilated sport seats. Jet Black cabin. Jet Black door inserts. (Aero/Optional)

Design your car at saabusa.com.

¹Always use safety belts and the correct child restraints for your child's age and size. Even in vehicles equipped with Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the vehicle Owner's Manual and child safety seat instructions for more safety information. ²These tires have a lower aspect ratio that aids performance and handling. However, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended level. Please also remember in making your selection that while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For further information on all these topics, please consult the Owner's Manual, or your local Saab dealer. Use only Saab-approved wheel/tire combinations. ³Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for details and system limitations. ⁴Bluetooth® hands free phone system does not come with compatible mobile phones. You will need a Bluetooth® enabled mobile phone in order to utilize this function. Not all Bluetooth® enabled mobile phone models are compatible with Saab phone preparation. Contact your Saab dealer for the latest listing of compatible phones. ⁵XM Radio requires a subscription, sold separately after the first 90 days. Not available in Alaska or Hawaii. For more information, visit xmradio.com.
