

SATURN

RELAY

2007

LIKE ALWAYS.

There is a way to do things differently. To replace hassle and haggle with learn and listen. To make the process of buying a car less of a process. To pour everything we have into everything we do.

THE SATURN RELAY: LIKE NEVER BEFORE.

There is a way to make driving time quality time. To add extra confidence by adding extra stability. To redefine comfort by redefining safety. To get big reactions from a big DVD screen.* And there is a way to get all of this, all in one place. The 2007 RELAY.

*15.1-inch diagonal DVD screen not available at start of production.

LIKE NEVER BEFORE.

There is a way to stay the same in one way, and evolve in another. To marry horsepower with efficiency, and beauty with affordability. To make it both thoughtful and surprising. There is a way to kick compromise to the curb.

BRING PEOPLE TO PLACES, BRING ORDER TO CHAOS.

The RELAY-3 in Black Cherry. To see it in many different colors and at many different angles, visit saturn.com/relay.

When it seems like every day takes you everywhere, it's good to have a home away from home set up just the way you like it. Inside the RELAY you'll find a versatile range of solutions, including 34 unique storage areas, and it's all designed to keep people and possessions right where they belong. There's the customizable overhead rail system,¹ available hideaway rear storage bins,² available second row toy box,³ and seatback storage that's perfect for holding headphones⁴ and all the other things that always seem to end up underfoot. What's more, the RELAY's cargo space can be quickly configured and reconfigured, thanks to second and third row seats that can be folded flat or removed altogether.⁵ Seeing is believing, so make sure you visit saturn.com/relay for a demonstration of cargo area flexibility and a 360-degree close-up tour of the interior.

¹Overhead rail system standard on RELAY-2 and RELAY-3, not available on RELAY-1. ²Not available on RELAY-1. ³When equipped with side air bags, second row captain's chairs cannot be removed. Cargo and load capacity limited by weight and distribution.

Features like the 60/50-split folding third row seats and second row fold-flat seats make the interior of the RELAY:3 highly flexible. To see this same view with different seating configurations, visit saturn.com/relay for a demonstration.

Shown with Tan Leather Appointments and other available features.

MOVIES, VIDEO GAMES, MUSIC— NO WONDER EVERYONE FEELS AT HOME.

Wherever you go, this should feel like the right place to be. So the RELAY² and RELAY³ include a DVD system with a bigger-than-ever screen,¹ and a CD/MP3 player with a sound system that allows passengers to listen to multiple entertainment sources. Looking for even more? Those same RELAY models are also available with XM Satellite Radio² and PhatNoise³ Mobile Digital Media. XM brings you over 170 channels, including news, sports, talk, comedy, traffic, weather and commercial-free music—all broadcasting coast-to-coast. PhatNoise is a removable 40GB hard drive cartridge that slots into the overhead rail system and allows you to store and play up to 5,000 songs, 15 movies, 40 audio books and 100 video games. For those with their own hardware, the RELAY² and RELAY³ are available with a 115-volt power outlet, so passengers can plug in a video game console or laptop. But you don't need that PC to get an interactive map, since the RELAY³'s available GPS mapping radio⁴ includes an in-dash touch screen. Visit saturn.com/relay to see some of these options in action.

The RELAY³ shown with available features, including XM Satellite Radio.² Visit saturn.com/relay for a close-up tour of the dash and entertainment systems.

THE CAPTAIN'S CHAIRS AREN'T YOUR ONLY SOURCE OF COMFORT.

TIMED LIGHTING keeps interior lamps on for a period after the doors close so you can get settled, and also after the key leaves the ignition to ease your exit.

ONSTAR® uses remote diagnostics to check key operating systems about once a month, then e-mails the results to you.*

STEERING WHEEL RADIO MUTE means you'll simply raise your finger, not your voice, when you need to be heard in the back seat.†

DUST AND POLLEN FILTER keeps the air inside fresher than the air outside.

THEFT DETERRENT immobilizes the car by cutting off fuel unless the proper key is used.

SOLAR-RAY GLASS protects those inside from the full blast of the sun's UV rays.‡

DAYTIME RUNNING LAMPS are designed to help make you more visible to other drivers from farther away.

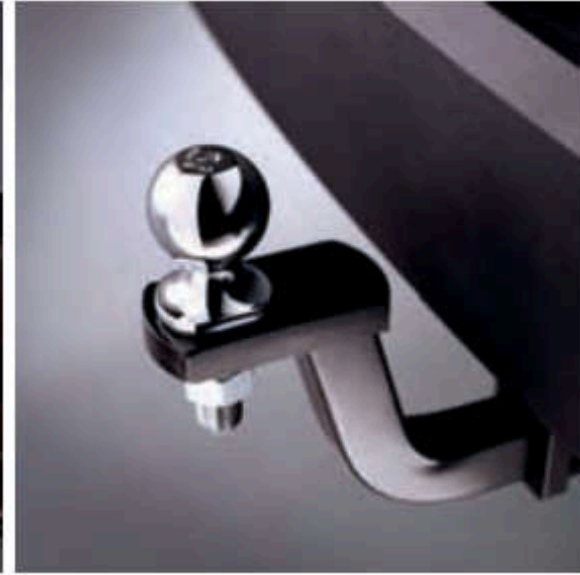

ULTRASONIC PARKING ASSIST is available to warn you if certain stationary objects are detected at low speeds when the RELAY-3 backs up.

ANTI-LOCKOUT POWER LOCKS thoughtfully reduce the chance you'll lock yourself out with the keys in the ignition.

PRETENSIONERS reduce safety belt slack to help keep front seat occupants against their seats during a collision.

RETAINED ACCESSORY POWER allows you to use the stereo and other accessories for up to ten minutes after removing the key from the ignition.

BATTERY RUN-DOWN PROTECTION prevents power drain by turning off any interior lights left on inadvertently.

In a RELAY, there's always room for more possibilities. Even the gas tank is roomy: The 25-gallon capacity gives you one of the longest highway ranges in its class¹ to keep pit stops to a minimum. To further fuel your sense of adventure, Saturn retailers can offer lots of ways to equip you for the road. Outfitted with the available trailer hitch and roof rack cross bars, you can bring along skis, snowboards or bikes, a cargo box, boat or even a camper.² The RELAY is also road trip ready under the hood with a 3.9-liter V-6 engine producing 240 horsepower to tow up to 3,500 pounds.³ So feel free to drive across the country, not just across town. To see all your external gear options and see how some of them look when installed, visit saturn.com/relay.

¹Based on 2006 GM medium van segment and EPA-estimated 25 MPG highway. Actual mileage will vary based on load conditions. Excludes other GM vehicles. ²Cargo and load capacity limited by weight and distribution. ³Maximum trailer ratings are calculated assuming a properly equipped base vehicle plus driver. See specifications page for details. ⁴Cocos not available at start of production.

TAKE MORE THAN A TRIP.

At Saturn, safety is more than any one thing at any one moment. It means planning how to prevent collisions, how to minimize their effects and how to maximize emergency response. For instance, every RELAY comes with StabiliTrak, a stability enhancement system that helps maintain the direction you're steering on slick roads or during emergency maneuvers. If you do need to react, the anti-lock braking system prevents skids while Traction Control helps maintain grip on slippery or uneven surfaces. In the event of a collision, protection comes from the steel safety cage, dual-stage front air bags and available side-impact air bags.¹ And we know that when a crash is over, the emergency isn't. So we made sure that OnStar comes with the one-year Safe & Sound Service Plan.² OnStar can help save lives by automatically contacting emergency services if your air bags deploy. Of course, we're not the only ones expressing confidence in the RELAY—it's received the National Highway Traffic Safety Administration's³ top rating of five stars in the frontal impact crash test. For a more comprehensive list and explanations of the RELAY's safety features, including the Passenger Sensing System, visit saturn.com/relay.

¹Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See inside back cover for important information about air bags, including a note about child safety. ²Call 1-888-4ONSTAR (1-888-466-7827), visit onstar.com and see inside back cover for system limitations and details. ³Test based on 2006 Saturn RELAY. Five-star rating is for the driver and passenger in the frontal crash test. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (www.safercar.gov).

THE THREE STAGES OF SAFETY:
BEFORE, DURING AND AFTER.

RELAY DIMENSIONS

WEIGHTS AND CAPACITIES

	RELAY-1	RELAY-2	RELAY-3
Curb weight (lbs.)	4,268	4,282	4,381

¹Limited availability. ²First and second row seats only. ³Not available on RELAY-1. ⁴Not available on RELAY-1. Driver-side power sliding door not available on RELAY-2. ⁵Navigation map covers the 48 contiguous United States and portions of Canada, but does not cover Alaska, Hawaii, Puerto Rico or the Virgin Islands. ⁶Cargo and load capacity limited by weight and distribution.

AVAILABLE EQUIPMENT AND ACCESSORIES

To see the latest RELAY accessories, visit saturn.com/relay or your Saturn retailer.

AVAILABLE EQUIPMENT 1) Remote engine start¹ takes the chill off those don't-make-me-get-out-of-bed mornings by warming up the RELAY from inside the house. 2) The Touring/Trailering Package² includes this kit for inflating things like tires, rafts and pool toys, in addition to having a sportier suspension system and Automatic Level Control. 3) Power sliding doors³ open with the push of a button, making access to the RELAY's side doors much easier when carrying bags or gear. 4) Sit n' Lift⁴ Mobility Assistance⁵ rotates, extends and lowers the second row seat on the passenger side for easy exit and entry. Available with captain's chairs only. 5) GPS navigation radio⁶ uses GPS and a mapping DVD to visually and audibly tell you how to get from here to there. A CD/MP3 player and radio are also integrated into the system. 6) The toy box is designed to fit between the second row bucket seats only.

RETAILER-INSTALLED ACCESSORIES 7) Splash guards help keep your tires from splattering mud, salt, pebbles and other road rubble onto the sides of your RELAY. 8) Floor mats trap mud, ice and snow before they end up in the carpet. Made of rubber, so they're also easy to clean. 9) Overhead bin inserts⁷ can be added (up to three bins) to the overhead rail storage system. Available inserts include flashlights, CD/DVD case, first-aid kit and more. 10) The bike attachment connects to the available trailer hitch for easy loading and unloading. A ski and snowboard attachment is also available.⁸ 11) The cargo net helps keep your items in place when you open the rear liftgate. 12) The cargo box attachment offers an extra place to stow your extras. Because there's always more to bring.⁹

RELAY

VUE

OUTLOOK

ION quad coupe

ION sedan

SKY

AURA

START EXPECTING THE UNEXPECTED.

Never before have we offered so many different ways to drive. The newest generation of Saturn is represented by the stunning SKY® roadster (limited availability in 2006), also available as the SKY Red Line Turbo in autumn 2006; the distinctive 252-hp AURA™ mid-size sedan, available autumn 2006; the roomy eight-passenger OUTLOOK™ SUV, available winter 2006/2007; and the VUE® compact SUV, available as the affordable VUE Green Line hybrid in autumn 2006. For a car that's small in size but big in features, test-drive the ION® sedan or ION quad coupe. And for a gratifying home away from home, look into the seven-passenger RELAY van. To see more of the next generation of Saturn, visit saturn.com.

WHEN YOU GET A SATURN, YOU GET SATURN.

From the engineers who created your RELAY to the Saturn team member who hands you the keys, all Saturn people consider customers the most important part of what they do. You'll feel that on your first visit to a Saturn retailer, a place that's home to people who give you much more than a car. You'll get straightforward answers. You'll get a no-hassle experience and no-haggle prices. You'll get our Vehicle Exchange Program,* giving you 30 days to make sure you feel great about your car. And most reassuring of all, you'll get as much attention after you're a Saturn owner as you did when you first walked into the showroom.

*See inside back cover for details about Saturn's 30-day Vehicle Exchange Program.

IMPORTANT WORDS ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the retailer or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Because some information may have been updated since the time of printing, please check with your Saturn retailer for complete details. Saturn reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

A NOTE ABOUT AIR BAGS AND CHILD SAFETY

Always use safety belts and the correct child restraint for your child's age and size. Even in vehicles equipped with air bags and the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See your vehicle Owner's Handbook and child-safety seat instructions for more information.

ONSTAR INFORMATION

OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar's Terms and Conditions, Privacy Policy, and system limitations and details.

IMPORTANT INFORMATION ABOUT THE RELAY'S SAFETY RATING

Test based on 2006 Saturn RELAY. Five-star rating is for the driver and passenger in the frontal crash test. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (www.safercar.gov).

SATURN'S VEHICLE EXCHANGE PROGRAM

Within the first 30 days or 1,500 miles of delivery, whichever comes first, the original purchaser may exchange his or her Saturn vehicle if not completely satisfied. In the event that an owner returns his or her vehicle, he or she will exchange it for another 2007 Saturn vehicle. See retailer for limitations and restrictions. All the same factory-supported initiatives will be included on the exchange vehicle that were on the original vehicle. The vehicle must be returned in the condition in which it was delivered, without damage or excessive wear and tear. If non-warranty repairs equal to or greater than \$300 have been performed or are necessary, the vehicle is not eligible to be returned; if less than \$300, the damage must be repaired or the estimate deducted from the credit toward the exchange vehicle.

NEW VEHICLE LIMITED WARRANTY

This warranty is for GM vehicles registered in the U.S. See your Saturn retailer for terms and conditions. Covered for 3 years / 36,000 miles (whichever comes first): the complete vehicle, tires, towing to your nearest Saturn retailer, cosmetic corrosion resulting from defects; repairs made to correct any vehicle defect, with no charge for most warranty repairs. Covered for 6 years / 100,000 miles (whichever comes first): rust-through corrosion.

POWERTRAIN LIMITED WARRANTY

This fully transferable warranty is for GM vehicles registered in the U.S. See your Saturn retailer for terms and conditions. Covered for 5 years / 100,000 miles (whichever comes first): most engine, transmission, transfer case and axle assemblies.

ROADSIDE ASSISTANCE

For 5 years / 100,000 miles (whichever comes first): 24-Hour Roadside Assistance that includes fuel delivery, lockout, flat tire repair, jump start and certain emergency towing services. This fully transferable service is for GM vehicles registered in the U.S. See your Saturn retailer for terms and conditions.

COURTESY TRANSPORTATION

For 5 years / 100,000 miles (whichever comes first): ask your Saturn retailer for Courtesy Transportation if you leave your vehicle for warranty repairs. You may qualify for expense reimbursement and / or transportation options. Services vary by retailer.

CORROSION PROTECTION

Saturn vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for 6 years / 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Saturn retailer for terms of this limited warranty.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by GM are not covered by the GM New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations for any effect of the alterations to any of the parts, components, systems or assemblies installed by GM. GM is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

ASSEMBLY

Saturn vehicles and their components are assembled or produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Saturn vehicles with different or differently sourced components than originally scheduled. Because some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

ENGINES

Saturn products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Saturn products may also be used in other GM makes and models.

UPDATED SERVICE INFORMATION

Saturn retailers receive useful service bulletins about Saturn products. See your retailer for more information.

PHATNOISE INFORMATION

The following parameters are assumed: typical-quality MP3 or WMA song files at 128Kbps with average song length of four minutes, typical-quality MPEG4 movie files at approximately 700MB each (average movie length of 120 minutes), high-quality audiobook files running at 32Kbps with average book length of six hours, and video game files at approximately 300Kbps each.

GM MOBILITY

GM Mobility assists people with unique transportation needs by offering a variety of resources, including aftermarket adaptive equipment. Speak to a knowledgeable Assistance Center representative at 1-800-323-9935 (TTY users: 1-800-833-9935) or visit gmmobility.com for more information.
