DRIVE-E ENGINES

Get the power you need with a four-cylinder engine that generates the equivalent output of a six or even eight-cylinder engine, but uses less fuel. Our top-of-the-range Drive-E engines feature both supercharging and turbocharging, so you get more torque at low revs and a turbo boost at higher revs.

INSTANT TRACTION ALL-WHEEL DRIVE

This intuitive, intelligent technology delivers premiere performance, dynamic handling, and peerless safety. In inclement weather and on variable surfaces, it automatically detects the moment a tire begins to slip, instantly analyzing and transferring torque to the wheels that need it most.
